Risk Profile of the Scheme	Mutual Fund Units involve investment risks including the SID carefully for details on risk factors before in summarized below:			
	i) Risk factors associated with investing in equ Trading volumes, settlement periods and transfe investments in equity and equity related securitie markets have different settlement periods and s by unforeseen circumstances leading to delays i units of the Scheme can go up or down becau markets in general. Macroeconomic factors like changes in government regulations etc. and	r procedures may res s. Different segments such periods may be n receipt of sale proce se of various factors changes in tax rates,	trict the liquidity of the of the Indian financial extended significantly eeds. The NAVs of the that affect the capital political uncertainties,	

demand supply, etc. could impact the performance of the companies in which the Scheme invests.

ii) Risk Related to Investing In Debt / Bonds / Money Market Instruments / Units of Liquid / Money Market / Debt Mutual Fund Schemes:

a) Interest Rate Risk

As with all debt securities, changes in interest rates will affect the NAVs of the Scheme as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long term securities generally fluctuate more in response to interest rate changes than of shorter-term securities. Interest rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the NAV.

b) Liquidity or Marketability Risk

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of some of these investments. Different segments of the Indian financial markets have different settlement periods, and such periods may be extended significantly by unforeseen circumstances. The length of time for settlement may affect the Scheme in the event it has to meet an inordinately large number of redemption or of restructuring of the Scheme's investment portfolio.

c) Credit Risk

Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Because of this risk, debentures are sold at a yield spread above those offered on treasury securities which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.

d) Reinvestment Risk:

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested will fall.

iii) Risks Associated with Stock Lending

In case the Scheme undertakes stock lending under the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

iv) Redemption Risk

As the liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Fund for redemption of Units may be significant in the event of an inordinately large number of redemption requests or a restructuring of the Scheme.

v) Risk Relating To Derivatives

i. The Scheme may use various derivative products as permitted by the Regulations. In the derivative markets there are risk factors and issues concerning the use of derivatives that investors should understand. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to manage the risks as a result of the failure of the counterparty to comply with the terms of the derivative contract. Other risks in using derivatives include

	the risk of mispricing or improper valuation of derivatives, credit risk where the danger is that of a counterparty failing to honour its commitment, liquidity risk where the danger is that the derivatives cannot be sold at prices that reflect the underlying assets, rates and indices and price risk where the market price may move in adverse fashion.
	ii. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.
	• Credit Risk: The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a derivative transaction.
	• Market Risk: Market movements may adversely affect the pricing and settlement derivatives.
	• Illiquidity Risk: This is the risk that a derivative cannot be sold or purchased quickly enough at a fair price, due to lack of liquidity in the market.
	vi)Risk factors associated with processing of transaction through stock exchange mechanism:
	The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE, on any Business Day will depend upon the modalities of processing viz. collection of application form, KYC documentation, order processing/ settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s).
	vii) Risk related to ADRS/GDRS
	The Scheme may also invest in ADRs / GDRs as permitted by Reserve Bank of India and Securities and Exchange Board of India. To the extent that some part of the assets of the Plans may be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment
	viii) Risks associated with segregated portfolio
	Unit holders holding units of segregated portfolio may not be able to liquidate their holdings till recovery of money from the issuer. Security in the segregated portfolio may not realize any value. Listing of any units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further, trading price of units on the stock market may be significantly lower than the prevailing NAV.
	For complete details on risk factors, scheme specific risk factors and risk mitigation measures, please refer SID.

Investors residing in centres, where the JM Financial Mutual Fund does not have any collection arrangement, are authorized to make payment by DDs/RTGS/NEFT/Transfer. DD charges would be borne by the Asset Management Company (AMC) only in respect of investors having address in locations where the AMC does not have a branch / ISC (Investor Service Center) or other collection facilities subject to DD being payable and deposited at any of the collection centers of JM Financial Mutual Fund/ Registrar & Transfer Agent / Authorised Collection Banks (during NFO) subject to the following terms and conditions:

Eligibility for DD charges is as under: A - The DD charges will be payable only for equity schemes during NFO and Post-NFO. B - The DD should be issued by the bank located in the place of address of the investor. C - DD charges as levied by State Bank of India would be treated as permissible DD charges. D - For the individuals (For NFO and ongoing subscriptions) the permissible DD charges for individual investors are not restricted by the number of applications or the amount invested. E - For Non-individuals : i - During NFO: In respect of non-individual investors, during the NFO, the DD charges will be borne by the AMC as follows : 1- Only one application is eligible for benefit of DD charges. 2- Irrespective of the amount of investment, permissible DD charges will not exceed the permissible DD charges as per SBI rates and as calculated for an investment of Rs.10 lacs or actual investment whichever is lower, subject to SBI rates. 3- In case of multiple applications during the NFO period, the DD charges will be paid only for one of the applications having the highest investment amount subject to the above limit. ii-For ongoing subscriptions : 1- Only one application per business day per Scheme/Plan/Option is eligible for benefit of DD charges. 2- Irrespective of the amount of investment, permissible DD charges will not exceed the permissible DD charges as per SBI rates and as calculated for an investment of Rs.10 lacs or actual investment whichever is lower, subject to SBI rates. 3- In case of multiple applications in the same Scheme/Plan/Option, on a particular transaction day, the DD charges will be paid only for one of the applications having the highest investment amount subject to the above limits.

The AMC will, in the normal course, not reimburse the DD charges. However, the AMC reserves the right to allot equivalent units upto the permissible DD charges by adding the same to the investment made by the investor, if so claimed by the investor in the application form subject to the provisions of the scheme i.e. in multiples of permissible units. In the event that the total investment including permissible DD charges is not sufficient to allot minimum number of units in the Scheme, the AMC reserves the right to refund without any interest the amount represented by the investment made excluding DD charges borne by investor. Employee Unique Identification Number (EUIN):

SEBI has made it compulsory for every employee/ relationship manager/ sales person of the distributor of Mutual Fund products to quote the EUIN obtained by him/her from AMFI in the Application Form. EUIN, particularly in advisory transactions, would assist in addressing any instance of mis-selling even if the employee/relationship manager/sales person later leaves the employment of the distributor. Individual ARN holders including senior citizens distributing Mutual Fund products are also required to obtain and quote EUIN in the Application Form. Hence, if your investments are routed through a distributor please ensure that the EUIN is correctly filled up in the Application Form. However, if your distributor has not given you any advice pertaining to the investment, the EUIN box may be left blank.

In this case, you are required to provide a duly signed declaration to this effect. Distributors are advised to ensure that the sub broker affixes his/her ARN code in the column separately provided in addition to the current practice of affixing the internal code issued by the main ARN holder and the EUIN of the Sales Person (if any) in the EUIN space.
