II. INTRODUCTION

A Risk Factors

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down. The value of investments may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Kotak Debt Hybrid Fund is only the name of the scheme, and does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs.2,50,000 made by it towards setting up the Fund.
- The above mentioned scheme is not guaranteed or assured return scheme.

Scheme Specific Risk Factors

The portfolio of Kotak Debt Hybrid Fund will comprise predominantly of debt and money market instruments and upto 20% in equity and equity related instruments. Thus the scheme will have the risks of both the capital markets and the debt markets.

1. Risks associated with Debt / Money Markets i.e. Markets in which Interest bearing Securities or Discounted Instruments are traded

(i) Credit Risk / Repayment Risk:

Securities carry a Credit risk of repayment of principal or interest by the borrower. This risk depends on micro-economic factors such as financial soundness and ability of the borrower as also macro-economic factors such as Industry performance, Competition from Imports, Competitiveness of Exports, Input costs, Trade barriers, Favourability of Foreign Currency conversion rates, etc.

Credit risks of most issuers of Debt securities are rated by Independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from "AAA" (read as "Triple A" denoting "Highest Safety") to "D" (denoting "Default"), with about 6 distinct ratings between the two extremes.

The highest credit rating (i.e. lowest credit risk) commands a low yield for the borrower. Conversely, the lowest credit rated borrower can raise funds at a relatively higher cost. On account of a higher credit risk for lower rated borrowers lenders prefer higher rated instruments further justifying the lower yields.

(ii) Sovereign risk:

The Federal Government of a country (i.e. Central Govt. in case of India) is the issuer of the local currency in that country. The Government raises money to meet its Capital and Revenue expenditure by issuing Debt or Discounted Securities. Since payment of interest and principal amount has a sovereign status implying no default, such securities are known as securities with sovereign credit. For domestic borrowers and lenders, the credit risk on such Sovereign credit is near zero and is popularly known as "risk-free security" or "Zero-Risk

security". Thus Zero-Risk is the lowest risk, even lower than a security with "AAA" rating and hence commands a yield, which is lower than a yield on "AAA" security.

(iii) Price-Risk or Interest-Rate Risk:

From the perspective of coupon rates, Debt securities can be classified in two categories, i.e., Fixed Income bearing Securities and Floating Rate Securities. In Fixed Income Bearing Securities, the Coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the Floating Rate Securities, on the other hand, the coupon rate changes - 'floats' - with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury Bill.

Fixed Income Securities (such as Government Securities, bonds, debentures and money market instruments) where a fixed return is offered, run price-risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, the payment-frequency of such coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof.

Floating rate securities issued by a government (coupon linked to Treasury bill benchmark or a real return inflation linked bond) have the least sensitivity to interest rate movements, as compared to other securities. The Government of India has already issued a few such securities and the Investment Manager believes that such securities may become available in future as well. These securities can play an important role in minimizing interest rate risk on a portfolio.

(iv) Risk of Rating Migration:

The following table illustrates the impact of change of rating (credit worthiness) on the price of a hypothetical AA rated security with a maturity period of 3 years, a coupon of 10.00% p.a. and a market value of Rs. 100. If it is downgraded to A category, which commands a market yield of, say, 11.50% p.a., its market value would drop to Rs. 98.76 (i.e. 1.24%) If the security is up-graded to AAA category which commands a market yield of, say, 9.60% p.a. its market value would increase to Rs103.48 (i.e. by 3.48%). The figures shown in the table are only indicative and are intended to demonstrate how the price of a security can be affected by change in credit rating.

Rating	Yield (% p.a.)	Market Value (Rs.)
AA	11.00	100.00
If upgraded to AAA	9.60	103.48
If downgraded to A	11.50	98.76

(v) Basis Risk:

During the life of floating rate security or a swap the underlying benchmark index may become less active and may not capture the actual movement in the interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio. Where swaps are used to hedge an underlying fixed income security, basis risk could arise when the fixed income yield curve moves differently from that of the swap benchmark curve.

(vi) Spread Risk:

In a floating rate security, the coupon is expressed in terms of a spread or mark up over the benchmark rate. However, depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

(vii) Reinvestment Risk:

Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently the proceeds may get invested at a lower rate.

(viii) Liquidity Risk:

The corporate debt market is relatively illiquid vis-a- vis the government securities market. There could therefore be difficulties in exiting from corporate bonds in times of uncertainties. Liquidity in a scheme therefore may suffer. Even though the Government Securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described elsewhere in the SAI. The approval from the AMC Board and the Trustees giving details of circumstances and justification for the proposed action shall also be informed to SEBI in advance.

(ix) Risk Associated with Investment in Derivatives Market

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investment.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. There are certain risks inherent in derivatives. These are:

- a. **Price Risk:** Despite the risk mitigation provided by various derivative instruments, there remains an inherent price risk which may result in losses exceeding actual underlying.
- b. **Default Risk:** This is the risk that losses will be incurred due to default by counter party. This is also known as credit risk or counterparty risk.
- c. **Basis Risk** – This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying being hedged for e.g. mismatch between the maturity date of the futures and the actual selling date of the asset
- d. **Limitations on upside:** Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- e. **Liquidity risk** pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.
- f. The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be avoidable charge to the scheme net assets.

(x) Potential Loss associated with Derivative Trading pertaining to Debt Markets

The use of an Interest Rate Swap ('IRS') does not eliminate the credit (default) risk on the original investment. While the fixed to floating rate IRS reduces interest rate risk caused by rise in interest rates, it also

restricts the profit in case interest rates decline. In case of a floating to fixed rate swap, any subsequent rise in interest rates will result in a loss like in any fixed rate investment. Any IRS carries, the risk of default of the counter party to the swap, which may lead to a loss. Such loss is usually, a small proportion of the notional principal amount of the swap.

(xi) Risks associated with Securitised Debt:

The Scheme may from time to time invest in domestic securitised debt, for instance, in asset backed securities (ABS) or mortgage backed securities (MBS). Typically, investments in securitised debt carry credit risk (where credit losses in the underlying pool exceed credit enhancement provided, (if any) and the reinvestment risk (which is higher as compared to the normal corporate or sovereign debt). The underlying assets in securitised debt are receivables arising from automobile loans, personal loans, loans against consumer durables, loans backed by mortgage of residential / commercial properties, underlying single loans etc.

ABS/MBS instruments reflect the proportionate undivided beneficial interest in the pool of loans and do not represent the obligation of the issuer of ABS/MBS or the originator of the underlying receivables. Investments in securitised debt is largely guided by following factors:

- Attractive yields i.e. where securitised papers offer better yields as compared to the other debt papers and also considering the risk profile of the securitised papers.
- Diversification of the portfolio
- Better performance

Broadly following types of loans are securitised:

a) Auto Loans

The underlying assets (cars etc.) are susceptible to depreciation in value whereas the loans are given at high loan to value ratios. Thus, after a few months, the value of asset becomes lower than the loan outstanding. The borrowers, therefore, may sometimes tend to default on loans and allow the vehicle to be repossessed.

These loans are also subject to model risk i.e. if a particular automobile model does not become popular, loans given for financing that model have a much higher likelihood of turning bad. In such cases, loss on sale of repossession vehicles is higher than usual.

Commercial vehicle loans are susceptible to the cyclicity in the economy. In a downturn in economy, freight rates drop leading to higher defaults in commercial vehicle loans. Further, the second hand prices of these vehicles also decline in such economic environment.

b) Housing Loans

Housing loans in India have shown very low default rates historically. However, in recent years, loans have been given at high loan to value ratios and to a much younger borrower classes. The loans have not yet gone through the full economic cycle and have not yet seen a period of declining property prices. Thus the performance of these housing loans is yet to be tested and it need not conform to the historical experience of low default rates.

c) Consumer Durable Loans

The underlying security for such loans is easily transferable without the bank's knowledge and hence repossession is difficult.

The underlying security for such loans is also susceptible to quick depreciation in value. This gives the borrowers a high incentive to default.

d) Personal Loans

These are unsecured loans. In case of a default, the bank has no security to fall back on. The lender has no control over how the borrower has used the borrowed money.

Further, all the above categories of loans have the following common risks:

All the above loans are retail, relatively small value loans. There is a possibility that the borrower takes different loans using the same income proof and thus the income is not sufficient to meet the debt service obligations of all these loans.

In India, there is no ready database available regarding past credit record of borrowers. Thus, loans may be given to borrowers with poor credit record. In retail loans, the risks due to frauds are high.

e) Single Loan PTC

A single loan PTC is a securitization transaction in which a loan given by an originator (Bank/ NBFC/ FI etc.) to a single entity (obligor) is converted into pass through certificates and sold to investors. The transaction involves the assignment of the loan and the underlying receivables by the originator to a trust, which funds the purchase by issuing PTCs to investors at the discounted value of the receivables. The PTCs are rated by a rating agency, which is based on the financial strength of the obligor alone, as the PTCs have no recourse to the originator.

The advantage of a single loan PTC is that the rating represents the credit risk of a single entity (the obligor) and is hence easy to understand and track over the tenure of the PTC. The primary risk is that of all securitized instruments, which are not traded as often in the secondary market and hence carry an illiquidity risk. The structure involves an assignment of the loan by the originator to the trustee who then has no interest in monitoring the credit quality of the originator. The originator that is most often a bank is in the best position to monitor the credit quality of the originator. The investor then has to rely on an external rating agency to monitor the PTC. Since the AMC relies on the documentation provided by the originator, there is a risk to the extent of the underlying documentation between the seller and underlying borrower.

2. Risks associated with Capital Markets or Equity Markets i.e. Markets in which Equity Shares or Equity oriented instruments are issued and traded

a. Price fluctuations and Volatility:

Mutual Funds, like securities investments, are subject to market and other risks and there can be neither a guarantee against loss resulting from an investment in the Scheme nor any assurance that the objective of the Scheme will be achieved. The NAV of the Units issued under the Scheme can go up or down because of various factors that affect the capital market in general, such as, but not limited to, changes in interest rates, government policy and volatility in the capital markets. Pressure on the exchange rate of the Rupee may also affect security prices.

b. Concentration / Sector Risk:

When a Mutual Fund Scheme, by mandate, restricts its investments only to a particular sector; there arises a risk called concentration risk. If the sector, for any reason, fails to perform, the portfolio value will plummet and the Investment Manager will not be able to diversify the investment in any other sector. Investments under this scheme will be in a portfolio of diversified equity or equity related stocks spanning across a few selected sectors. Hence the concentration risks could be high.

c. Liquidity Risks:

Liquidity in Equity investments may be affected by trading volumes, settlement periods and transfer procedures. These factors may also affect the Scheme's ability to make intended purchases/sales, cause potential losses to the Scheme and result in the Scheme missing certain investment opportunities. These factors can also affect the time taken by KMMF for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described elsewhere in this SID. The approval from the AMC Board and the Trustees giving details of circumstances and justification for the proposed action shall also be informed to SEBI in advance.

All the above factors may not only affect the prices of securities but also the time taken by the Fund for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. The liquidity of the assets may be affected by other factors such as general market conditions, political events, bank holidays and civil strife. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described elsewhere in this SID. The approval from the AMC Board and the Trustees giving details of circumstances and justification for the proposed action shall also be informed to SEBI in advance.

d. Potential Loss associated with Derivative Trading pertaining to Equity Markets:

- (i) In case of investments in index futures, the risk would be the same as in the case of investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. In case futures are used for hedging a portfolio of stocks, which is different from the index stocks, the extent of loss could be more or less depending on the coefficient of variation of such portfolio with respect to the index; such coefficient is known as Beta.
- (ii) The risk (loss) for an options buyer is limited to the premium paid, while the risk (loss) of an options writer is unlimited, the latter's gains being limited to the premiums earned. However, in the case of KMMF, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss. The writer of a put option bears a risk of loss if the value of the underlying asset declines below the exercise price. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the exercise price.

3. Risk factors associated with Imperfect Hedging:

Holders of Debt securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value of their portfolio. So in order to protect against a fall in the value of their portfolio due to falling bond prices, they can take short position in IRF contracts. However, there is a possibility that the hedge may be an imperfect

- Potential loss associated with imperfect hedge using IRFs – While using such strategy may reduce interest rate risk caused by rise in interest rates, it also restricts the profit in case interest rates decline.
- The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.
- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- Credit Risk – The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF derivative transaction.

- Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.
- Movement in the prices of securities in the portfolio and the IRF contract used to hedge part of the portfolio may lead to basis risk due to imperfect correlation. Thus, the loss on the portfolio may be different from the gain of the hedged position entered using the IRF.

Example:

Date: 17/09/2023

Spot price of G sec 7.26 G sec 2033: Rs. 100.19

Futures price of IRF Contract G sec 7.26 G sec 2033: Rs.100.29

On 17/09/2023 XYZ bought 2000 GOI securities from spot market at Rs100.19. He anticipates that the interest rate will rise in near future. Therefore, to hedge the exposure in underlying market he may sell IRF for 7.26 G sec 2033 maturing on 27 Sep 2023 traded Interest Rate Futures contracts at Rs.100.29

On 27/09/2022 the maturity price of the contract and underlying will be same thereby realising the 10p arbitrage gain

Spot price of GOI Security: Rs. 100.19

Futures Price of IRF Contract: Rs. 100.29

Profit /Loss in underlying market will be $(100.19-100.19)*2000 = \text{Rs.}00$

Loss in the Futures market will be $(100.29-100.19)*2000 = \text{Rs. } 20000$

Therefore the fund will earn a total holding period return of $7.23\% + (0.10/10*365) = 7.23+3.65=10.88$

Not necessary the future is trading above cash for arbitrage to happen.

4. Risk factors associated with REITS/InvITs:

- **Market Risk** – Units of REITS &InvITs are subject to market and other risks. The value of these units can go up or down because of various factors that affect the capital market in general, such as, but not limited to, changes in interest rates, government policy and volatility in the capital markets
- **Liquidity Risk** - Liquidity in units of REITs &InvITs may be affected by trading volumes, settlement periods and transfer procedures. These factors may also affect the Scheme's ability to make intended purchases/sales, cause potential losses to the Scheme and result in the Scheme missing certain investment opportunities. These factors can also affect the time taken by Kotak Mahindra Mutual Fund for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information. REITs and InvITs currently only have a nascent primary market. As such, in absence of the secondary market, the invested units cannot be redeemed except where the issuer is offering a buyback or delisting the units.
- **Re-investment Risk** – Investments in REITs &InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or IDCW pay-outs, etc. Consequently the proceeds may get invested at a lower rate
- **Performance Risk** - InvITs and REITS carry a performance risk by way of repayment of principal or of interest by the borrower. REITs &InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be pre scheduled.

The above are some of the common risks associated with investments in REITs &InvITs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital.

5. Risks associated with segregated portfolio

- Investor holding units of segregated portfolio may not be able to liquidate their holding till the time realisable value is recovered.
- Security comprising of segregated portfolio may realise lower value or may realise zero value.

- Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

6. Risk Factors Associated with investing in Foreign securities:

Subject to necessary approvals and within the investment objectives of the Scheme, the Scheme may invest in overseas markets which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances.

It is the AMC's belief that investment in foreign securities offer new investment and portfolio diversification opportunities into multimarket and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme may invest only partially in overseas securities, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated under the Regulations or by the RBI from time to time.

Overseas investments will be made subject to any/all approvals, conditions thereof as may be stipulated under the Regulations or by RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs and overseas regulatory costs.

To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.

Currency Risk:

In respect of investments in ADRs/GDRs, the risks associated with underlying stocks remain the same except for the additional risk of the exchange rate of the Indian rupee vis-à-vis the currency in which ADRs/GDRs are denominated. Investments in overseas securities/mutual fund units are subject to currency risk. Returns to investors are the result of a combination of returns from investments and from movements in exchange rates. For example, if the Rupee appreciates vis-à-vis the US \$, the extent of appreciation will lead to reduction in the yield to the investor. However, if the Rupee appreciates against the US \$ by an amount in excess of the interest earned on the investment, the returns can even be negative. Again, in case the Rupee depreciates vis-à-vis the US \$, the extent of depreciation will lead to a corresponding increase in the yield to the investor. Going forward, the Rupee may depreciate (lose value) or appreciate (increase value) against the currencies of the countries where the Scheme will invest.

Exhaustion of overseas limit Risk

The Scheme can invest in overseas securities subject to a maximum of US \$1 billion within the overall industry limit of US \$ 7 billion wherein US \$ 50 million would be reserved for each mutual fund individually, with in the overall industry limit of US \$ 7 billion or such limits as may be prescribed by SEBI from time to time and in overseas ETF subject to maximum of US \$300 million such limits as may be prescribed by SEBI from time to time.

As and when the investment limits at Mutual Fund level/Industry level are exhausted or nearing exhaustion, the scheme may temporarily suspend deployment of funds in overseas funds/securities.

7. Risk associated with Securities Lending:-

In the case of securities lending the additional risk is that there can be temporary illiquidity of the securities that are lent out and the Fund may not be able to sell such lent-out securities, resulting in an opportunity loss. In case of a default by counterparty, the loss to the Fund can be equivalent to the securities lent.

8. Risk associated with investment in Government securities and Triparty repo on Government securities or treasury bills:

- The mutual fund is a member of securities segment and Triparty repo on Government securities or treasury bills trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Triparty repo on Government securities or treasury bills trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counter party risks considerably for transactions in the said segments.
- The members are required to contribute towards margin obligation (Initial / Mark to Market etc.) as per bye-laws of CCIL as also an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in discharging their obligation. As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members as determined by CCIL.
- Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).
- CCIL maintains two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty repo on Government securities or treasury bills trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/ default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

9. Risks associated with Investing in Structured Obligation (SO) & Credit Enhancement (CE) rated securities:

The risks factors stated below for the Structured Obligations & Credit Enhancement are in addition to the risk factors associated with debt instruments.

- Credit rating agencies assign CE rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms such as guarantee, shortfall undertaking, letter of comfort, pledge of shares listed on stock exchanges etc. from the issuers, promoters or another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Hence, for CE rated instruments evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the issuer rating.
- SO transactions are asset backed/ mortgage backed securities, securitized paper backed by hypothecation of loan receivables, securities backed by trade receivables, credit card receivables etc. In case of SO rated issuer, the underlying loan pools or securitization, etc. is assessed to arrive at rating for the issuer.
- Liquidity Risk: SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the credit enhanced nature of CE securities as well as structured nature of SO securities, the liquidity in the market for these instruments is low as compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could

lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold. Where equity shares are provided as collateral there is the risk of sharp price volatility of underlying securities which may lead to erosion in value of collateral as also low liquidity of the underlying shares which may affect the ability of the fund to enforce collateral and recover capital and interest obligations.

- **Credit Risk:** The credit risk of debt instruments which are CE rated derives rating based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to inability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. In case of SO transactions, comingling risk and risk of servicer increases the overall risk for the securitized debt or assets backed transactions. Therefore, apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk.

10. Risk associated with investing in Mutual fund units

Investment in units of Mutual Fund scheme involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal. As the price / value / interest rates of the underlying securities in which the mutual fund scheme invests fluctuates, the value of units of mutual fund scheme may go up or down. The value of underlying securities may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee. Investment in units of mutual fund scheme is also exposed to risk of suspension of subscriptions / redemptions of the units, change in fundamental attributes etc. Since the Scheme may invest in schemes of Mutual Funds, scheme specific risk factors of each such mutual fund schemes will be applicable to the Scheme portfolio.

All the above factors may not only affect the prices of securities but also the time taken by the Fund for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. The liquidity of the assets may be affected by other factors such as general market conditions, political events, bank holidays and civil strife. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described elsewhere in the SAI.

11. Risk Control/Risk Mitigation:

Type of Risks	Measures/ Strategies to control risks
Equity Markets/ Equity Oriented Instruments	<p>Investment strategy The fund will comply with the prescribed SEBI limits on exposure. Risk is monitored and necessary action would be taken on the portfolio, if required. Attribution analysis is done to monitor the under or over performance vis a vis the benchmark and the reasons for the same.</p> <p>Portfolio volatility & concentration The overall volatility of the portfolio would be maintained in line with the objective of the scheme Volatility would be monitored with respect to the benchmark and peer set.</p> <p>Liquidity The scheme predominantly invests across market capitalisation which are actively traded and thereby liquid. The fund manager may also keep some portion of the portfolio in debt and money market instruments and/or cash within the specified asset allocation framework for the purpose of meeting redemptions. The liquidity would be</p>

	<p>monitored and necessary action would be taken on the portfolio if required. Stock turnover is monitored at regular intervals. The debt/money market instruments that are invested by the fund will have a short term duration.</p>
Debt and Money Market instruments	<ul style="list-style-type: none"> • Credit Risk: Management analysis will be used for identifying company specific risks. Management’s past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer’s financial statements will be undertaken. • Price-Risk or Interest-Rate Risk: The Scheme may primarily invest the debt portion of the portfolio in short term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities. • Risk of Rating Migration: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of rating migration generally associated with long-term securities • Basis Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. • Spread Risk: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities • Reinvestment Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value. • Liquidity Risk: The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt & money market instruments, units of Liquid and Overnight schemes.
Derivatives	<p>The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Equity Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on stock exchanges whereas OTC derivative transactions are generally structured between two counterparties. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.</p>
Securities Lending	<p>The SLB shall be operated through Clearing Corporation/Clearing House of stock exchanges having nation-wide terminals who are registered as Approved Intermediaries (AIs).” The risk is adequately covered as Securities Lending & Borrowing (SLB) is an Exchange traded product. Exchange offers an anonymous trading platform and gives the players the advantage of settlement guarantee without the worries of counter party default. However, the Fund may not be able to sell such lent securities during contract period or have to recall the securities which may be at higher than the premium at which the security is lent.</p>

Currency	The scheme subject to applicable regulations shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.
Repo Transactions	This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Also operational risks are lower as such trades are settled on a DVP basis. In the event the counterparty is unable to pay back the money to the scheme as contracted on maturity, the scheme may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to the counterparty
Securitized Debt	In addition to careful scrutiny of credit profile of borrower/pool additional security in the form of adequate cash collaterals and other securities may be obtained
REITs and InvITS	The fund will comply with the prescribed SEBI limits on exposure. The scheme will endeavour to invest in liquid REITs & InvITs.
Structured Obligation (SO) & Credit Enhancement (CE) rated securities	Scheme wise investments as prescribed by the regulations limits the exposure to such securities. Additionally, covenants of such structured papers are reviewed periodically for adequate maintenance of covers as prescribed in the Information Memorandum of such papers.
Government securities and Triparty repo on Government securities or treasury bills:	As a member of securities segment and Triparty repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades etc. Also there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.
Units of mutual fund schemes	Mutual Fund portfolios are generally well diversified and typically endeavor to provide liquidity on a T+1/T+2 basis and aim to mitigate any risks arising out of underlying investments. Commodity ETF's are quite liquid as they can either be created / redeemed with the fund house or traded on the exchange.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

The measures mention above is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change.in response to the same.

B. Requirement of minimum investors in the scheme

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. In case the Scheme does not have a minimum of 20 investors, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over 25% limit. Failure on the part of

the said investor to redeem his exposure over 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. Special Considerations

- Prospective investors should review/study SAI along with SID carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial/investment matters and are advised to consult their own professional advisor(s) as to the legal or any other requirements or restrictions relating to the subscriptions, gifting, acquisition, holding, disposal (sale, transfer, switch or redemption or conversion into money) of units and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences relevant to their subscription, acquisition, holding, capitalization, disposal (sale, transfer, switch or redemption or conversion into money) of units within their jurisdiction/nationality, residence, domicile etc. or under the laws of any jurisdiction to which they or any managed Funds to be used to purchase/gift units are subject, and also to determine possible legal, tax, financial or other consequences of subscribing/gifting to, purchasing or holding units before making an application for units.
- Neither this SID and SAI, nor the units have been registered in any jurisdiction. The distribution of this SID in certain jurisdictions may be restricted or subject to registration and accordingly, any person who gets possession of this SID is required to inform themselves about, and to observe, any such restrictions. It is the responsibility of any persons in possession of this SID and any persons wishing to apply for units pursuant to this SID to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction. III. INFORMATION ABOUT THE SCHEME

A. Type of Scheme

An open ended hybrid scheme investing predominantly in debt instruments

B. What is the Investment Objective of the Scheme?

The investment objective of the Scheme is to enhance returns over a portfolio of debt instruments with a moderate exposure in equity and equity related instruments. By investing in debt securities, the Scheme will aim at generating regular returns, while enhancement of return is intended through investing in equity and equity related securities. The Scheme may also use various derivative and hedging products from time to time, in the manner permitted by SEBI.

There is no assurance that the investment objective of the Schemes will be realised.

C. How will the scheme allocate its assets ?

The asset allocation in the Scheme, under normal circumstances, will be as follows:

Investments	Indicative Allocation	Risk Profile
*Debt and money market instruments including government securities	75-90%	Low to Medium
Equity and equity related instruments	10-25%	Medium to High
Units issued by REITs & InvITs	0-10%	Medium to High

*Debt securities/instruments are deemed to include securitised debts and investment in securitised debts shall not exceed 50% of the net assets of the Scheme.

Money Market instruments includes commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time

Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to Para 12.16 and 4.5 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 as may be amended from time to time. The AMC shall not charge any investment management and advisory fees for parking of funds in such short term deposits of scheduled commercial banks for the scheme.

The portfolio duration would be managed dynamically by the fund manager as per his view of various macro-economic conditions that affect interest rates.

The Scheme will invest upto a maximum of 20% of debt portion of the Scheme in foreign securities as specified in the Para 12.19 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 and any subsequent amendments thereto specified by SEBI and/or RBI from time to time.

“Foreign Securities“ means Securities as specified in the Para 12.19 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 and any subsequent amendments thereto specified by SEBI and/or RBI from time to time.

To reduce the risk of the portfolio, the Scheme may use various derivative and hedging products from time to time, in the manner permitted by SEBI.

The scheme can invest unlisted equity shares or equity related instruments in accordance with regulations issued and amended by SEBI from time to time.

Subject to the Regulations and the applicable guidelines issued by SEBI, the Trustee may permit the Fund to engage in securities lending and borrowing and short selling. At present, since only lending is permitted, the Fund may temporarily lend securities held with the Custodian to reputed counter-parties or on the exchange, for a fee, subject to prudent limits and controls for enhancing returns. The Fund, as per the current regulations is allowed to lend securities subject to a maximum of 50%, in aggregate, of the net assets of the Scheme and 50% of the net assets of the Scheme in the case of a single intermediary.

The scheme may participate in the corporate bond repo transactions and in accordance with extant SEBI/RBI guidelines and any subsequent amendments thereto specified by SEBI and/or RBI from time to time. The gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10 % of the net assets of the concerned scheme.

In accordance with the requirement of regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2023/129 dated July 27, 2023 on Investment by Mutual Fund Schemes and AMCs in units of Corporate Debt Market Development Fund, scheme(s) shall invest 25 bps of its AUM as on December 31, 2022 in the units of the Corporate Debt Market Development Fund (‘CDMDF’) within 10 working days from the request of CDMDF. Further, an incremental contribution to CDMDF shall be made every six months within 10 working days from the end of half year starting from December 2023 to ensure 25 bps of scheme AUM is invested in units of CDMDF. However, if AUM decreases there shall be no return or redemption from CDMDF. Contribution made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF.

However, in case of winding up of contributing Scheme, inter-scheme transfers within the same Mutual Fund or across Mutual Funds may be undertaken.

Further, investments in CDMDF units shall not be considered as violation while considering maturity restriction as applicable for various purposes (including applicable Investment limits) and the calculations of Potential Risk Class (PRC) Matrix, Risk-o-meter, Stress testing and Duration for various purposes shall be done after excluding investments in units of CDMDF. Also, for calculation of asset allocation limits of mutual fund schemes, investment in units of CDMDF shall be excluded from base of net assets.

Portfolio Rebalancing:

Subject to Para 1.14.1.2 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. In case of any deviation, the portfolio shall be rebalanced within 30 calendar days.

As per Para 2.9 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, in the event of any deviation from mandated asset allocation mentioned above, due to passive breaches, rebalancing period will be Thirty (30) business days. In case the portfolio is not rebalanced within Thirty (30) business days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desired, can extend the timelines

up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall not launch any new scheme till the time the portfolio is rebalanced and also not levy exit load, if any on the existing investors of the Scheme. However, at all times the portfolio will adhere to the overall investment objective of the Scheme.

Overview of Debt Market

The Indian Debt Market has grown in size substantially over the years. The Reserve Bank of India has been taking steps to make the Indian Debt Market efficient and vibrant. The interest rates were regulated till a few years back, there has been rapid deregulation and currently both the lending and deposit rates are market determined. The Central banker has in its recent credit policy meetings suggested the importance of a fully developed corporate bond market and efforts are being made to have an online trading platform for corporate bonds.

Broadly, the debt market is divided in two parts viz. the Money Market and the Debt market. Money market instruments have a tenor of less than one year while debt market instruments have a tenor of more than one year. Money market instruments are typically commercial paper, certificates of deposit, treasury bills, trade bills, repos, interbank call deposit receipts etc. Debt market comprises typically of securities issued by Governments (Central and State), Banks, Financial Institutions, and Companies in the private and public sector, Corporations, Statutory Bodies etc.

The debt securities are mainly traded over the telephone directly or through brokers. The National Stock Exchange of India has a separate trading platform called the Wholesale Debt Market segment where trades put through member brokers are reported. The daily volumes in the debt market are in the region of Rs.2500-5000 crores. –

RBI has introduced the Negotiated Dealing System (NDS) platform for screen-based trading in Government Securities and Money Market instruments. Most of the market participants are now operating through NDS. Promoted by major banks and financial institutions, The Clearing Corporation of India Ltd. (CCIL), was incorporated on April 30, 2001. The CCIL guarantees the settlement of all trades executed through NDS. The clearing and settlement risks viz., Counter party Credit Risk and Operational Risk are mitigated by CCIL thereby facilitating a smooth settlement process.

The following table gives approximate yields prevailing as on October 12, 2023 on some of the money and debt market instruments. These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing.

Instrument	Yield Range (% per annum)
Inter-bank Call Money	6.76-6.76
91 Day Treasury Bill	6.87-6.89
364 Day Treasury Bill	7.15 -7.17
P1+ Commercial Paper 90 Days	7.16-7.18
3-Year Government of India Security	7.33-7.35
5-Year Government of India Security	7.32-7.34
10-Year Government of India Security	7.30-7.32

Generally, for instruments issued by a non-Government entity, the yield is higher than the yield on a Government Security with corresponding maturity. The difference, known as credit spread, depends on the credit rating of the entity. Investors must note that the yields shown above are the yields prevailing on October 12, 2023 and they are likely to change consequent to changes in economic conditions and RBI policy.

D. Where will the scheme invest?

Subject to the Regulations, the amount collected under the scheme can be invested in any (but not exclusively) of the following securities/ instruments, as per the indicative asset allocation given under the heading “How will the Scheme allocate its assets”:

6. Certificate of Deposits (CDs).
7. Commercial Paper (CPs).
8. Repo of corporate debt securities
9. Investment in units of Real Estate Investment Trust ('REIT') & Infrastructure Investment Trust ('InvIT').
10. Securitised Debt, not including foreign securitised debt.
11. Offshore securities / offshore debt securities, in the manner allowed by SEBI/RBI, provided such investments are in conformity with the investment objective of the Scheme and the prevailing guidelines and Regulations.
12. The non-convertible part of convertible securities.
13. Any other domestic fixed income securities as permitted by SEBI / RBI from time to time.
14. Derivative instruments like Interest Rate Swaps, Forward Rate Agreements, Interest Rate Futures (IRFs) (both perfectly and imperfectly hedged) and such other derivative instruments permitted by SEBI/RBI.
15. Triparty repo on Government securities or treasury bills or repo or any alternative investment as may be provided by RBI.
16. Kotak Debt Hybrid Fund may invest upto 20% of its assets into equity and equity related instruments.
17. Foreign securities including ADR/GDR of Indian or foreign Companies
18. Investment in CDMDF- In accordance with the requirement of regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2023/129 dated July 27, 2023 on Investment by Mutual Fund Schemes and AMC's in units of Corporate Debt Market Development Fund, scheme shall invest 25 bps of its AUM.
19. Any other instruments / securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations.

Note:

The securities/debt instruments mentioned above could be listed or unlisted, secured or unsecured, rated or unrated and of varying maturities and other terms of issue. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offer or negotiated deals. The Scheme may also enter into repurchase and reverse repurchase obligations in all securities held by it as per guidelines/regulations applicable to such transactions.

Investment in Foreign Securities

The Scheme may also invest in suitable investment avenues in overseas financial markets for the purpose of diversification, commensurate with the Scheme objectives and subject to the provisions of para 12.19 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 and as may be amended from time to time and any other requirements as may be stipulated by SEBI/RBI from time to time

The Scheme may, in terms of its investment objectives with the approval of SEBI/RBI invest in following Foreign Securities:

- i. ADRs/ GDRs issued by Indian or foreign companies
- ii. Equity of overseas companies listed on recognized stock exchanges overseas
- iii. Initial and follow on public offerings for listing at recognized stock exchanges overseas
- iv. Foreign debt securities in the countries with fully convertible currencies, short term as well as long term debt instruments with rating not below investment grade by accredited/registered credit rating agencies
- v. Money market instruments rated not below investment grade
- vi. Repos in the form of investment, where the counterparty is rated not below investment grade; repos should not however, involve any borrowing of funds by mutual funds
- vii. Government securities where the countries are rated not below investment grade
- viii. Derivatives traded on recognized stock exchanges overseas only for hedging and portfolio balancing with underlying as securities
- ix. Short term deposits with banks overseas where the issuer is rated not below investment grade
- x. Units/securities issued by overseas mutual funds or unit trusts registered with overseas regulators and investing in
 - (a) aforesaid securities,
 - (b) Real Estate Investment Trusts (REITs) listed in recognized stock exchanges overseas or
 - (c) unlisted overseas securities (not exceeding 10% of their net assets).

The Scheme can invest in overseas securities subject to a maximum of US \$1 billion within the overall industry limit of US \$ 7 billion wherein US \$ 50 million would be reserved for each mutual fund individually, with in the overall industry limit of US \$ 7 billion or such limits as may be prescribed by SEBI from time to time and in overseas ETF subject to maximum of US \$300 million such limits as may be prescribed by SEBI from time to time. An investment headroom of 20% of the average AUM in Overseas securities of the previous three calendar months would be available to the Mutual Fund for that month to invest in Overseas securities / Overseas ETFs subject to maximum limits of US \$ 1 billion per Mutual Fund.

The Mutual Fund may, where necessary appoint intermediaries as sub-managers, sub-custodians, etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses as stated under Regulation 52 of SEBI (MF) Regulations.

E. What is the investment strategy?

The investment strategy is aimed at generating regular returns by investing in debt securities and at the same time attempting to enhance returns through investments in equity and equity related instruments.

a. Debt Portion

Investments may be made in such instruments, which, in the opinion of the Fund Manager, are of acceptable credit risk where chances of default are at a minimum. The Fund Manager may generally be guided by, but not restrained by, the ratings announced by various rating agencies on the assets in the portfolio. The maturity profile of debt instruments may be selected in accordance with the Fund Manager's view regarding market conditions, interest rate outlook and stability of rating.

Emphasis may be given to choosing securities, which, in the opinion of the Fund Manager, are less prone to default risk, while bearing in mind the liquidity needs arising out of the open-ended nature of the Scheme.

The Scheme is not restrained from investing in listed/unlisted and / or rated / unrated debt securities, Gilts / Government Securities, securities issued/guaranteed by the Central / State Governments, securities issued by public / private sector companies / corporations, financial institutions and / or money market instruments such as commercial paper, certificates of deposit, permitted securities under a repo agreement etc., provided the investments are within the limits indicated in the Asset Allocation Table. The instruments may carry fixed rate of return or floating rate of return or may be issued on discount basis. The Scheme may invest in call money / term money market in terms of RBI guidelines in this respect. Investment in unrated debt securities will be made with the prior approval of the Board of the AMC, provided the investment is in terms of the parameters approved by the Board of the Trustee. Where the proposed investment is not within the parameters as mentioned above, approval of the Boards of both the AMC and the Trustee will be taken before making the investment.

The AMC will have an internal policy for selection of assets of the portfolio from time to time, taking into account multiple ratings, rating migration, credit premium over sovereign risk, general economic conditions and such other criteria. Such an internal policy from time to time will lay down maximum/minimum exposure for different ratings, norms for investing in unrated paper, liquidity norms and so on. Through such norms, the Scheme is expected to maintain a high quality portfolio and manage credit risk well.

b. Equity Portion

The investment strategy of the AMC will be directed to investing in stocks as indicated in the Asset Allocation Table, which, in the opinion of the Fund Manager, are priced at a material discount to their intrinsic value. Such intrinsic value will be a function of both past performance and future growth prospects. The process of discovering the intrinsic value will be through in-house research, supplemented by research available from other sources.

The scheme may invest in another scheme of the Kotak Mahindra Mutual Fund or any other Mutual Fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the management of Kotak Mahindra Asset Management Company Limited or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of Kotak Mahindra Mutual Fund.

The Fund may underwrite primary issuances of securities subject to the Regulations.

Investment in Derivatives- Interest Rate Futures (IRFs) (both perfectly and imperfectly hedged):

To reduce interest rate risk in a debt portfolio, scheme may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

$$\frac{(\text{Portfolio Modified Duration} * \text{Market Value of the Portfolio})}{(\text{Futures Modified Duration} * \text{Futures price/PAR})}$$

In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.

Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the scheme, subject to the following:

- a) Exposure to IRFs is created **only for hedging** the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.

- b) The scheme is permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (*excluding the hedged portions, if any*) and the IRF is at least 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure computed in terms of Para 12.25 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023. The correlation should be calculated for a period of last 90 days.

Explanation: If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:

- i. *The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or*
- ii. *The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the scheme (including one or more securities) and the IRF is at least 0.9.*
- c) At no point of time, the net modified duration of part of the portfolio being hedged should be negative.
- d) The portion of imperfect hedging in excess of 20% of the net assets of the scheme should be considered as creating exposure and shall be included in the computation of gross exposure in terms of Para 12.25 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.

The basic characteristics of the scheme will not be affected by hedging the portfolio or part of the portfolio (including one or more securities) based on the weighted average modified duration.

The interest rate hedging of the portfolio will be in the interest of the investors.

Interest Rate Swap (IRS)

IRS is a widely used derivative product in the financial markets to manage interest rate risk. A typical transaction is a contract to exchange streams of interest rate obligation/income on a notional principal amount with a counter party, usually a bank. The two interest streams are, fixed rate on one side and floating rate on the other.

Example: Suppose the Fund holds a fixed rate bond of maturity 5 years carrying a fixed interest rate (YTM) of 7.25% p.a. payable half yearly. Such an investment runs the risk of depreciation if interest rates rise. To manage this risk, the Fund can enter into an IRS with another market participant, here the Fund contracts to pay fixed rate, say 6.85% p.a., and receive a floating rate (say overnight MIBOR). This transaction is done for a notional principal amount equal to the value of the investment. By such a contract a fixed rate income is offset by a fixed rate payment obligation leaving only a floating rate income stream. Thus, without actually investing in a floating rate asset, the Fund starts earning a floating rate income, reducing the risk of depreciation associated with the fixed rate investment. Following table summarises the cash flow streams:

Original investment	7.25% p.a.
Pay (Fixed rate)	6.85% p.a. (IRS)
Receive (Floating rate)	MIBOR
Net Flow	MIBOR + 0.40% p.a. (*)

* (7.25% p.a. – 6.85 % p.a.)

The floating rate reference is defined in the swap agreement.

The above example illustrates a case of fixed to floating rate swap. A swap could be done to move from floating rate to fixed rate in a similar fashion.

Please note that the above example is hypothetical in nature and the interest rates are assumed. The actual return may vary based on actual and depends on the interest rate prevailing at the time the swap agreement is entered into.

The Scheme will be allowed to take exposure in Interest Rate Swaps only on a non-leveraged basis. A swap will be undertaken only if there is an underlying asset in the portfolio.

The Scheme may use other derivatives such as interest rate futures, etc, to meet the investment objective of the Scheme, whenever such instruments are available in the market.

Note on Risk:

- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- Credit Risk – The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF derivative transaction.

Interest Rate Futures (IRFs)

IRF means a standardized interest rate derivative contract traded on a recognized stock exchange to buy or sell a notional security or any other interest bearing instrument or an index of such instruments or interest rates at a specified future date, at a price determined at the time of the contract. Hedging using interest rate futures could be perfect or imperfect, subject to applicable regulations. Currently, exchange traded Interest Rate Futures traded on exchange are standardized contracts based on 10-Year Government of India Security and 91 day Treasury bill. IRF contracts are cash settled. IRFs give an opportunity in the fixed income market to hedge interest rate risk or rebalance the portfolio by using them. By locking into a price, the IRF contract can help to eliminate the interest rate risk. Thus, in order to protect against a fall in the value of the portfolio due to falling bond prices, one can take short position in IRF contracts. Example: Date: Sep 01, 2023 Spot price of the Government Security: Rs.105 Price of IRF– Sep contract: Rs. 105.5 On Sep 01, 2023, Fund buys 100 units of the Government security from the spot market at Rs. 105. Subsequently, it is anticipated that the interest rate will rise in the near future. Therefore to hedge the exposure in underlying Government security, Fund sells Sep Interest Rate Futures contracts at Rs. 105.5. On Sep 15, 2023 due to increase in interest rate: Spot price of the Government Security: Rs. 104 Futures Price of IRF Contract: Rs.104.2 Loss in underlying market will be $(105 - 104) * 100 = (\text{Rs. } 100)$ Profit in the Futures market will be $(105.50 - 104.2) * 100 = \text{Rs. } 130$

Imperfect Hedge

Illustration for Imperfect Hedging Scenario 1 and 2

Assumption: Portfolio whose duration is 3 years, is being hedged with an IRF whose underlying securities duration is 10 years

Portfolio Duration: 5 year

Market Value of Portfolio: Rs 100 crs

Imperfect Hedging cannot exceed 20% of Portfolio

Maximum extent of short position that may be taken in IRFs is as per below mentioned formula: $\text{Portfolio (security) Modified Duration} * \text{Market Value of Portfolio (security)} / (\text{Futures Modified Duration} * \text{Futures Price/PAR})$

Consider that we choose to hedge 20% of portfolio $(5 * (0.2 * 100))/(10 * 100/100) = \text{Rs } 10 \text{ crs}$

So we must Sell Rs 10 cr of IRF with underlying duration of 10 years to hedge Rs 100 of Portfolio with duration of 5 years.

Scenario 1 If the yield curve moves in a way that the 5 year moves up by 10 bps and the 10 year moves up by 5bps, which means that the short end has moved up more than the long end

Amount of Security in Portfolio (LONG): Rs 100 cr

If yields move up by 10 bps then the price of the security with a modified duration of 5 years will move down by;

Formula: $(\text{Yield movement} * \text{Duration}) * \text{Portfolio Value} ((0.001 * 5) * 1,00,00,00,000) = - 50,00,000$

Underlying IRF (SHORT): Rs 10 crs

If yields move up by 5bps then the price of the security with a duration of 10 years will move down by;
Formula: $(\text{Yield movement} * \text{Duration}) * \text{Portfolio Value} (-0.0005 * 10) * 10,00,00,000 = 5,00,000$ Since we have sold the IRF, this movement is positive and hence the total loss will be reduced to: $-50,00,000 + 5,00,000 = -45,00,000$

Due to IRF, the overall impact on the portfolio due to interest rate movement has been reduced.

Scenario 2 If the yield curve moves in a way that the 5 year does not move and the 10 year moves down by 5 bps, which means that the yield curve has flattened.

If yield does not move then the price of the security with a duration of 5 years will remain flat: Formula: $(\text{Yield movement} * \text{Duration}) * \text{Portfolio Value} (0 * 5) * 100,00,00,000 = 0$

Underlying IRF (SHORT): Rs 10 cr If yields moves down by 5bps then the price of the security with a duration of 10 years will move up by; $(0.0005 * 10) * 10,00,00,000 = -5,00,000$ In this scenario, the imperfect hedge created on the portfolio would create a loss on the total position.

The fund will use derivatives instruments for the purpose hedging or portfolio rebalancing or for any other stock and / or index derivative strategies as allowed under the SEBI regulations.

Note on Risk:

- Potential loss associated with imperfect hedge using IRFs – While using such strategy may reduce interest rate risk caused by rise in interest rates, it also restricts the profit in case interest rates decline.
- The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be an avoidable charge to the scheme net assets.
- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- Credit Risk – The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF derivative transaction.
- Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

- Movement in the prices of securities in the portfolio and the IRF contract used to hedge part of the portfolio may lead to basis risk due to imperfect correlation. Thus, the loss on the portfolio may be different from the gain of the hedged position entered using the IRF.

Hedging

Holders of the GOI securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value of their portfolio. So in order to protect against a fall in the value of their portfolio due to falling bond prices, they can take short position in IRF contracts.

Example:

On 17/09/2023 buy 7.26 G sec 2033: Rs. 100.19 at the current market price of Rs. 100.19

Step 1 - Short the 27/09/2023 IRF futures contract at say price of Rs. 100.29 (assuming IRF trading at premium)

Step 2 – Earn the carry (running yield) of the 10 yr G sec of 7.23% from date of purchase till IRF expiry.

Step 3 – IRF and cash market price will converge on the maturity of the contract hence sell the bond on the maturity.

Under the strategy, the trader has earned a return of

- Arbitrage = $(100.29 - 100.19) / 100.19 * 365 / 10 = 3.65\%$
- Current yield of G sec = 7.23%
- Arbitrage + current yield of G sec = 10.88 % (Holding period Arbitrage)

(Note: For simplicity accrued interest is not considered for calculation)

Assuming IRF is trading at premium the above trade will be done.

Note on Risk:

- The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.
- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- Credit Risk – The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF derivative transaction.
- Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

Arbitrage

Arbitrage is the price difference between the bonds prices in underlying bond market and IRF contract without any view about the interest rate movement. One can earn the risk-less profit from realizing arbitrage opportunity and entering into the IRF contract.

Example:

Date: 17/09/2023

Spot price of G sec 7.26 G sec 2033: Rs. 100.19

Futures price of IRF Contract G sec 7.26 G sec 2033: Rs.100.29

On 17/09/2023 XYZ bought 2000 GOI securities from spot market at Rs100.19. He anticipates that the interest rate will rise in near future. Therefore, to hedge the exposure in underlying market he may sell IRF for 7.26 G sec 2033 maturing on 27 Sep 2023 traded Interest Rate Futures contracts at Rs.100.29

On 27/09/2022 the maturity price of the contract and underlying will be same thereby realising the 10p arbitrage gain

Spot price of GOI Security: Rs. 100.19

Futures Price of IRF Contract: Rs. 100.29

Profit /Loss in underlying market will be $(100.19-100.19)*2000 = \text{Rs.}00$

Loss in the Futures market will be $(100.29-100.19)*2000 = \text{Rs.} 20000$

Therefore the fund will earn a total holding period return of $7.23\% + (0.10/10*365) = 7.23+3.65=10.88$

Not necessary the future is trading above cash for arbitrage to happen.

Not necessary the future is trading above cash for arbitrage to happen.

Note on Risk:

- The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.
- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.

Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

Portfolio Turnover

Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. The scheme being an open ended scheme, it is expected that there would be frequent subscriptions and redemptions. Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. Trading opportunities may arise due to changes in system liquidity, interest rate policy announced by RBI, shifts in the yield curve, change or anticipation of change in the credit worthiness or credit rating of securities or any other factors, which may lead to increase in the turnover.. If trading is done frequently there may be an increase in transaction cost such as brokerage paid etc. The fund manager will endeavour to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. The Scheme has no specific target relating to portfolio turnover.

F. Fundamental Attributes

Following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

- (i) Type of the scheme :As mentioned under the heading “Type of the Scheme” of Chapter III
- (ii) Investment Objective: As mentioned under the heading “Investment Objective” of Chapter III
- (iii) Investment Pattern : As mentioned under the heading “How will the scheme allocate its assets” of Chapter III
- (iv) Terms of Issue:
 - Liquidity provisions such as listing, repurchase, redemption. Investors may refer Chapter IV for detailed information on listing, repurchase and redemption.
 - Aggregate fees and expenses charged to the scheme. Investors may refer Chapter V on fees and expenses charged to the scheme.
 - Any safety net or guarantee provided – Not Applicable

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and

- The Unitholders are given an option for a period of atleast 30 calendar days to exit at the prevailing Net Asset Value without any exit load.

In addition to the conditions specified under Regulation 18 (15A) for bringing change in the fundamental attributes of the scheme, it has been decided that trustees shall take comments of the Board before bringing such change(s).

G. How will the scheme benchmark its performance?

The scheme is benchmarked against CRISIL Hybrid 85+15 - Conservative Index

The composition of the aforesaid benchmark is such that, it is most suited for comparing the performance of the scheme.

The Trustees/AMC reserves right to change benchmark, if any in future for measuring performance of the scheme, in accordance with SEBI (MF) Regulations and circular issued thereunder from time to time.

I. What are the Investment Restrictions?

As per the Trust Deed read with the SEBI (MF) Regulations, the following investment restrictions apply in respect of the Scheme at the time of making investments.

1. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Trustees and the Board of directors of the asset management company.

Within the limits specified in clause 1 of the Seventh Schedule of MF Regulation, a mutual fund scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA issued by a single issuer; or
- b. 8% of its NAV in debt and money market securities rated AA issued by a single issuer; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of the Seventh Schedule of MF Regulation.

The long term rating of issuers shall be considered for the money market instruments. However, if there is no long term rating available for the same issuer, then based on credit rating mapping of Credit Rating Agency (CRAs) between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and triparty repo on Government securities or treasury bills

Provided further that investments within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.

Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the Board from time to time.

2. All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed
3. The Mutual Fund under all its Scheme(s) shall not own more than 10% of any company's paid up capital carrying voting rights.

Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.

4. Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments. It is further clarified that the investment limits are applicable to all debt securities, which are issued by public bodies/institutions such as electricity boards, municipal corporations, state transport corporations etc. guaranteed by either state or central government. Government securities issued by central/state government or on its behalf by the RBI are exempt from the above investment limits.
5. The investment of the Scheme in the following instruments shall not exceed 10% of the debt portfolio of the Scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the Scheme: -
 - Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade; and –
 - Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade

The above limits shall not be applicable on investments in securitized debt instruments. Investment by the Scheme in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares.

Further, the investment in debt instruments having credit enhancements should be sufficiently covered to address the market volatility and reduce the inefficiencies of invoking of the pledge or cover, whenever required, without impacting the interest of the investors. In case of fall in the value of the cover below the specified limit, AMCs will initiate necessary steps to ensure protection of the interest of the investors.

6. The Scheme may invest in another scheme under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same AMC or in schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund. However, the aforesaid provision will not apply to fund of funds scheme.
7. The Scheme shall not make any investments in:
 - (a) any unlisted security of an associate or group company of the Sponsors; or
 - (b) any security issued by way of private placement by an associate or group company of the Sponsors; or
 - (c) the listed securities of group companies of the Sponsors which is in excess of 25% of the net assets.
8. The Scheme shall not invest in any Fund of Funds Scheme.
9. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:-
 - (a) such transfers are made at the prevailing market price for quoted Securities on spot basis (spot basis shall have the same meaning as specified by Stock Exchange for spot transactions.)
 - (b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
 - (c) The same are in line with Para 12.30 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.

10. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:
 - Provided that the Mutual Fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI.
 - Provided further that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.
 - Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.
11. No loans for any purpose may be advanced by the Mutual Fund and the Mutual Fund shall not borrow except to meet temporary liquidity needs of the Schemes for the purpose of payment of interest or IDCW to Unit Holders, provided that the Mutual Fund shall not borrow more than 20% of the net assets of each of the Schemes and the duration of such borrowing shall not exceed a period of six months.
12. The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form.
13. The mutual fund shall get the securities purchased / transferred in the name of the fund on account of the concerned scheme, where investments are intended to be of long term nature.
14. Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to the Para 12.16 and Para 4.5 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023s may be amended from time to time. The AMC shall not charge any investment management and advisory fees for parking of funds in such short term deposits of scheduled commercial banks for the scheme.
15. In accordance with Para 12.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 in case of debt schemes, the total exposure to single sector shall not exceed 20% of the net assets of the scheme. However, this limit is not applicable for investments in Bank CDs, Triparty repo on Government securities or treasury bills, G-Secs, T-Bills short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks.

Provided that an additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only; Further, an additional exposure of 5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio.

However, the overall exposure in HFCs shall not exceed the sector exposure limit of 20% of the net assets of the scheme.

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/exposure in HFCs shall not exceed 20% of the net assets of the scheme

16. In accordance with para 12.9.3 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, in case of debt scheme the total exposure in a group, except and in the group of sponsor and the asset management company, (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed

20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees.

Further, the investments in debt and money market instruments of group companies of both the sponsor and the asset management company shall not exceed 10% of the net assets of the scheme. Such investment limit may be extended to 15% of the net assets of the scheme with the prior approval of the Board of Trustees.

For this purpose, a group means a group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 (Regulations) and amendment thereto.

17. In accordance para 12.3 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, investments in following instruments as specified in the said circular, as may be amended from time to time, shall be applicable:

- i. The scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instrument and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

However, the scheme may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

- ii. All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed.
- iii. Further, investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the conditions as specified in the said circular:
 - a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure of mutual fund schemes in such instruments shall not exceed 5% of the net assets of the schemes.
 - c. All such investments shall be made with the prior approval of the Board of AMC and the Trustees.

18. Investments in Derivatives shall be in accordance with the guidelines as stated under Para 7.5, 7.6 and 12.25 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 as may be amended from time to time

All such investments shall be made with the prior approval of the Board of AMC and the Trustees.

19. The scheme will invest in derivatives in accordance with Para 12.25 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.

20. The scheme will invest in Repos in Corporate debt in accordance with Para 12.18 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.

21. Investment restrictions w.r.t. REITs and InvITS:

- a. The Mutual Fund under all its schemes shall not own more than 10% of units issued by a single issuer of REIT and InvIT.
- b. The Scheme shall not invest more than 10% of its NAV in the units of REITs and InvITs.
- c. The Scheme shall not invest more than 5% of its NAV in the units of REITs and InvITs issued by a single issuer.

The AMC may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations.

All investment restrictions shall be applicable at the time of making investment.

Apart from the above investment restrictions, the Fund follows certain internal norms within the above mentioned restrictions, and these are subject to review from time to time.

Modifications, if any, in the Investment Restrictions on account of amendments to the Regulations shall supercede/override the provisions of the Trust Deed.

Limits for investment in derivatives instruments

As per Para 12.25 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 on "Review of norms for investment and disclosure by Mutual Funds in derivatives", the limits for exposure towards derivatives are as under:

1. The cumulative gross exposure through equity, debt, derivative positions (including fixed income derivatives), repo transactions in corporate debt securities, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme. Mutual Funds shall not write options or purchase instruments with embedded written options.
2. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
3. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
4. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following :-
 - a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - c. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - d. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
5. Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme. However, if mutual funds are transacting in IRS through an electronic trading platform offered by the Clearing Corporation

of India Ltd. (CCIL) and CCIL is the central counterparty for such transactions guaranteeing settlement, the single counterparty limit of 10% shall not be applicable.

6. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point

Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts

Participation of scheme in repo of corporate debt securities:

In accordance with Para 12.18 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, SEBI circular No. SEBI/HO/IMD/IMD PoD-2/P/CIR/2023/85 dated June 08, 2023 and SEBI circular No. SEBI/HO/IMD/IMD PoD-2/P/CIR/2023/87 dated June 13, 2023 and any other circulars issued by SEBI/ RBI from time to time, the Scheme shall participate in repo transactions on corporate debt securities including Commercial Papers (CPs) and Certificate of Deposits (CDs) in accordance with directions issued by RBI and SEBI from time to time. Currently the applicable guidelines are as under:

- The gross exposure of any mutual fund scheme to repo transactions in corporate debt securities including Commercial Papers (CPs) and Certificate of Deposits (CDs) shall not be more than 10 % of the net assets of the concerned scheme.
- The cumulative gross exposure through repo transactions in corporate debt securities including Commercial Papers (CPs) and Certificate of Deposits (CDs) along with equity, debt and derivatives, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time shall not exceed 100% of the net assets of the concerned scheme.
- Mutual funds shall participate in repo transactions on following Corporate Debt securities;
 - listed AA and above rated corporate debt securities and
 - Commercial Papers(CPs) and Certificate of Deposits(CDs).
- In terms of Regulation 44 (2) mutual funds shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months.
- Mutual funds shall ensure compliance with the Seventh Schedule of the Mutual Funds Regulations about restrictions on investments, wherever applicable, with respect to repo transactions in corporate debt securities including Commercial Papers(CPs) and Certificate of Deposits(CDs). However, for transactions where settlement is guaranteed by a Clearing Corporation, the exposure shall not be considered for the purpose of determination of investment limits for single issuer, group issuer and sector level limits.

The parameters for investment in repos of corporate debt securities as approved by the Board of AMC and Trustee Company are as under:

i) Category of counterparty to be considered for making investment:

All entities (including clearing corporations) eligible for transacting in corporate bond repos as defined by SEBI and RBI shall be considered for repo transactions.

(ii) Credit rating of counterparty to be considered for making investment

The schemes shall participate in corporate bond repo transactions with counterparties having a minimum investment grade rating and is approved by the Investment Committee on a case-to-case basis. In case there is no rating available, the Investment Committee will decide the rating of the counterparty, and report the same to the Board from time to time.

The requirement for credit rating of the counterparty will not be applicable for transactions where settlement is guaranteed by a Clearing Corporation,

(iii) Tenor of Repo and collateral

As a repo seller, the schemes will borrow cash for a period not exceeding 6 months or as per extant regulations. As a repo buyer, the Schemes are allowed to undertake the transactions for maximum maturity upto one year or such other terms as may be approved by the Investment Committee. There shall be no restriction / limitation on the tenor of collateral.

(iv) Applicable haircuts

RBI in its circular dated July 24, 2018 has prescribed the haircut to be applied for repo transactions as follows:

Haircut/margins will be decided either by the clearing house or may be bilaterally agreed upon, in terms of the documentation governing repo transactions, subject to the following stipulations:

- i. Listed corporate bonds and debentures shall carry a minimum haircut of 2% of market value.
- ii. CPs and CDs shall carry a minimum haircut of 1.5% of market value.
- iii. Securities issued by a local authority shall carry a minimum haircut of 2% of market value.

However, the fund manager may ask for a higher haircut (while lending) or give a higher haircut (while borrowing) depending on the prevailing liquidity situation in the market.

Investments by the AMC in the Fund

Pursuant to SEBI (Mutual Funds) (Second Amendment) Regulation 2021, AMC shall invest in the scheme based on the risk associated with the scheme as specified in paragraph 6.9 of SEBI master circular SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 read with AMFI Best Practice Guidelines Circular 135/BP/100/2022-23 dated 26th April 2022 and any other circulars issued there under, from time to time. Based on the current risk associated the minimum percentage of AUM to be invested is 0.09% of the AUM. In addition to investments as mandated above, the AMC may invest in the Scheme subject to the SEBI (MF) Regulations. Under the Regulations, the AMC is not permitted to charge any investment management and advisory services fee on its own investment in the Scheme.

Pursuant to regulation 43A of SEBI (Mutual Funds) Regulations, 1996 and SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2023/129 dated July 27, 2023 on Investment by Mutual Fund Schemes and AMCs in units of Corporate Debt Market Development Fund, AMC shall make a one-time contribution equivalent to 2 bps of the AUM of the specified debt oriented schemes as on December 31, 2022 in the units of the Corporate Debt Market Development Fund ('CDMDF') within 10 working days of request from CDMDF.

Contribution made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF.

In case of delay in contribution by the Scheme and AMC, the AMC shall be liable to pay interest at fifteen percent (15%) per annum for the period of delay.

Investments in securitized debt instruments

How the risk profile of securitized debt fits into the risk appetite of the scheme:

The scheme investment pattern permits investments in debt and money market instruments with extended maturities. Under this the investments could be in the following form of issuances, viz. CPs, CDs, Securitised debt, etc. i.e for the same acceptable levels of risks there could be multiple instruments available to a Fund

Manager. Based on the credit assessment of the issuers the Fund Manager may chose to invest in securitized debt.

Our evaluation process for investment in securitized debt is similar to the approach followed for other types of instruments including money market and bonds. We lay emphasis on credit, liquidity and duration risk while evaluating every prospective investment, keeping in mind the investment objectives of the particular scheme.

Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt etc:

The Fund Manager shall do a comprehensive credit assessment of the structure before investment. This includes originator's credit origination standards, track record on asset quality, more specifically its track record in respect the asset class that is being securitized and also the performance of the pools securitised by the originator in the past. No investments will be made in instruments rated below certain grades as prescribed by the investment committee or in unrated instruments. Prior approval of Trustee will be taken, in case of any investments in unrated instruments.

The securitised paper may pertain to a single asset class e.g., car loans or commercial vehicle loans or a combination of different asset classes i.e. car loans, two wheeler loans and commercial vehicle loans. Investment focus is towards diversification in the asset pool in terms of geography, underlying collateral. Although there is no specific guidelines with respect minimum period for which the originator had held the loans in its books), appropriateness of the seasoning (the period for which the originator has held loans on its books) and also the loan to value and instilment to income profile of the pool are important parameters for making investment decision.

In case of single loan securitization, the originator merely transfers the loan existing in his book by way of a single loan selldown. The obligation to repay and service the debt remains with the underlying obligor and hence, it is the obligor whose standalone business and financial risk profile is evaluated. Therefore, the credit rating of a single loan structure mirrors the credit rating of the obligor.

For pool securitization, where the debt repayment is dependent on the underlying pool of borrowers, it is important to evaluate the characteristics of the pool including the type of loan, loan to value ratio, ticket size of loan, geographic distribution etc. and the track record of the originator in terms of volume of securitization activity, historical losses seen in similar pools, stability in cash flow servicing and utilization level of credit enhancement.

Risk Mitigation strategies for investments with each kind of originator:

Apart from the above, risk assessment process includes examination of the credit enhancements offered under the present PTC structure, utilization of credit enhancement in the previous securitization structures of the originator and the trends in credit enhancement utilization of securitization transactions of similar asset classes of other originators. The size & reach of originators, its infrastructure & follow-up mechanism, quality of MIS & the collection process are also considered for each originator.

The nature of the instrument, underlying risks, underlying risk migration perceptions would decide the tenure of the said investments.

There is clear cut segregation of duties and responsibilities with respect to Investment Function and Sales function. Risk assessment and monitoring of investment in Securities Debt is done by a team comprising of credit analyst, fund manager and Head of Fixed Income. The Investment committee also looks into a first time investment in credit, apart from sanctioning overall limits for the same. Investment Decisions are being taken independently based on the above mentioned parameters and investment by the originator in the scheme is based on their own evaluation of the scheme vis a vis their investment objective.

Originator risk can be evaluated and mitigated on the basis of –

- (a) Market position and size of the originator and expertise/niche in financing a particular type of asset.
- (b) Systems and processes established by the originator to address operational risk relating to disbursement, collection and recovery of loans.
- (c) Extent of data disclosed by the originator for the current pool as well as past pools which showcases the data mining capability of the originator.
- (d) Credit enhancement provided based on the pool characteristics, historical performance of past pools and the base case losses assumed by the credit agency.

The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments:

Framework that will be applied while evaluating investment decision relating to a pool securitization transaction:

Characteristics/ Type of Pool	Mortgage Loan	CV & CE	Cars	Two Wheelers	Micro Finance	Personal Loans	Single loan sell down
Average maturity (in months)	36m-72m	12m-36m	12m-36m	12m-24m	3m-18m	12m-24m	12m-36m
Collateral margin (including cash, guarantees, excess interest spread, subordination)	5%-25%	10%-25%	10%-25%	Min 15%	Min 20%	Min 20%	NA
Average Loan-to-value	70%-90%	65%-90%	65%-90%	50%-75%	NA	NA	NA
Average Pool Seasoning (in months)	6m-12m	3m-6m	3m-6m	3m-6m	1m-3m	3m-6m	NA
Maximum exposure per ABS transaction	5%-15%	5%-15%	5%-15%	5%-10%	5%-15%	5%-10%	5%-15%

Note - Kindly note that these are indicative ranges and final figures could vary depending upon the overall characteristics of the transaction and market conditions

In respect of single sell down loans the process would be similar to the one adopted for investing in the issuer directly. Similarly the fund in the normal course of business would not be investing in personal / micro finance pools, unless the levels of comfort arising of the transaction structures, satisfy the investment committee.

The above table is prepared after considering the risk mitigating measures such as Size of the loan, Average original maturity of the pool, Average seasoning of the pool, Loan to Value Ratio, Geographical Distribution and Structure of the pool, default rate distribution & credit enhancement facility. The information contained herein is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same. This framework would be used as a reference for evaluation of investment into any securitized debt. However, each investment would also be evaluated on a case to case basis on its own merits apart from these limits.

Other risk mitigation measures

- (a) Loan to Value Ratio – is an important parameter which highlights the underwriting standards of the issuer. Also, lower LTV ratios generally result in higher recoveries in case of default.

(b) Average seasoning of the pool - may vary depending on the asset type. Higher seasoning is preferred as it gives better visibility on delinquency levels in the pool.

(c) Default rate distribution – this is studied using empirical data for the originator. This is also a critical data used by the rating agency in determining the credit enhancement levels to be stipulated.

(d) Geographical Distribution – helps in identifying concentration risk in a particular geography and therefore reduces the default risk.

(e) Credit enhancement facility – is provided in pool securitization transactions and is very important as it is used to absorb credit losses stemming from default in the pool assets. The size of credit enhancement is determined on the basis of the issuer's credit risk profile, the type of asset being securitized and past pool performances.

(f) Liquidity facility – in some cases, in addition to the credit enhancement facility there is also a liquidity facility provided which is used to meet any shortfalls arising from delayed collections or delinquencies in the pool.

Minimum retention percentage by originator of debts to be securitized:

Although there is no specific guidelines with respect minimum retention percentage for which the originator had held the loans in its books), appropriateness of the seasoning (the period for which the originator has held loans on its books) and also the loan to value and installment to income profile of the pool are important parameters for making investment decision.

Minimum retention period of the debt by originator prior to securitization

For single loan securitization, there is currently no regulation for minimum retention period of debt by the originator. Our investment decision is driven by the credit quality of the underlying obligor.

For pool securitization, there is currently no regulation for minimum retention period of debt by the originator. Generally the pool assets we acquire in the form of PTCs have a retention period of 3-6 months by the originator. We follow the extant guidelines pertaining to securitization as set out by the regulator.

The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund:

An investment by the scheme in any security is done after detailed analysis by the Fixed Income team and in accordance with the investment objectives and the asset allocation pattern of a scheme. The robust credit process ensures that there is no conflict of interests when a scheme invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme. Normally the issuer who is securitizing instrument is in need of money and is unlikely to have long term surplus to invest in mutual fund scheme. Furthermore, there is clear cut segregation of duties and responsibilities with respect to Investment function and Sales function. Investment decisions are being taken independently based on the above mentioned parameters and investment by the originator in the scheme is based on their own evaluation of the scheme vis a vis their investment objectives

Our investment decisions are independent of other business functions and are solely based on the assessment of credit risk, liquidity risk and duration risk pertaining to a particular security.

The resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt

Risk assessment and monitoring of investment in Securities Debt is done by a team comprising of credit analyst, fund manager and Head of Fixed Income. The Investment committee also looks into a first time investment in credit, apart from sanctioning overall limits for the same. Investment Decisions are being taken

independently based on the above mentioned parameters and investment by the originator in the scheme is based on their own evaluation of the scheme vis a vis their investment objective.

Apart from monitoring the credit quality of the underlying obligator / originator, for pool securitization transactions we closely monitor the monthly pool performance report which is sent out by the trustee. The reports are tracked for changes in specific pool characteristics which can impact the collection performance and loss levels in the pool.

Apart from the above investment restrictions, the Fund follows certain internal norms vis-à-vis limiting exposure to scrips, sectors etc, within the above mentioned restrictions, and these are subject to review from time to time

Modifications, if any, in the Investment Restrictions on account of amendments to the Regulations shall supersede/override the provisions of the Trust Deed.

Creation of segregated portfolio

In accordance with para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, provisions have been included for creation of segregated portfolio in the scheme.

Explanations:

1. The term 'segregated portfolio' shall mean a portfolio, comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme.
2. The term 'main portfolio' shall mean the scheme portfolio excluding the segregated portfolio.
3. The term 'total portfolio' shall mean the scheme portfolio including the securities affected by the credit event.

Note 1: As per para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the credit event is considered for creation of segregated portfolio, however as per para 4.4.3.3 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the 'actual default' by the issuer of such instruments shall be considered for creation of segregated portfolio.

Note 2: Portfolio referred herewith will include interest accrued as well.

Terms and conditions in respect of Creation of segregated portfolio in the scheme:

AMC may create segregated portfolio in the scheme and it shall be subject to guidelines specified by SEBI from time to time including the following:

1. Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:
 - a. Downgrade of a debt or money market instrument to 'below investment grade', or
 - b. Subsequent downgrades of the said instruments from 'below investment grade', or
 - c. Similar such downgrades of a loan rating.
2. In case of difference in rating by multiple CRAs, AMC shall consider the most conservative rating. Creation of segregated portfolio shall be based on issuer level credit events as per above point no. 1 and shall be implemented at the ISIN level.
3. Creation of segregated portfolio shall be optional and at the discretion of Kotak Mahindra Asset Management Company Ltd ('AMC'). It should be created only if the Scheme Information Document (SID) of the scheme has provisions for segregated portfolio with adequate disclosures.

Further, in accordance with para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, creation of segregated portfolio in mutual fund schemes has been permitted in respect of unrated debt or money market instruments by mutual fund schemes of an issuer that does not have any outstanding rated debt or money market instruments, subject to the following terms:

- a. Segregated portfolio of such unrated debt or money market instruments may be created only in case of actual default of either the interest or principal amount. As per para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, credit event is considered for creation of segregated portfolio, however as per para 4.4.3.3 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, 'actual default' by the issuer of such instruments shall be considered for creation of segregated portfolio.
- b. AMCs shall inform AMFI immediately about the actual default by the issuer. Upon being informed about the default, AMFI shall immediately inform the same to all AMCs. Pursuant to dissemination of information by AMFI about actual default by the issuer, AMCs may segregate the portfolio of debt or money market instruments of the said issuer in terms of para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.
- c. All other terms and conditions as stated in para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 shall remain the same.

For detailed process for creation of segregated portfolio, refer Statement of Additional Information (SAI) of the Mutual Fund.

c. Website link for Monthly Portfolio Holding:

Please visit <https://www.kotakmf.com/Information/forms-and-downloads> to obtain Scheme's latest monthly portfolio holding statement.

Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. The scheme being an open ended scheme, it is expected that there would be frequent subscriptions and redemptions. Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. Trading opportunities may arise due to changes in system liquidity, interest rate policy announced by RBI, shifts in the yield curve, change or anticipation of change in the credit worthiness or credit rating of securities or any other factors, which may lead to increase in the turnover. If trading is done frequently there may be an increase in transaction cost such as brokerage paid etc. The fund manager will endeavour to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. The Scheme has no specific target relating to portfolio turnover.

IV. UNITS AND OFFER

A. New Fund Offer (NFO)

This section does not apply to the scheme, as the ongoing offer of the Scheme has commenced after the NFO period, and the units are available for continuous subscription and redemption.

B. Ongoing Offer Details

<p>Ongoing Offer Period</p>	<p>Scheme Reopened on December 3, 2003</p> <p>The Units can be purchased and redeemed on all Business Days at Applicable NAV, subject to applicable load, if any.</p>
<p>Ongoing price for subscription (purchase)/switch-in (from other schemes/plans of the mutual fund) by investors.</p> <p>This is the price you need to pay for purchase/switch-in.</p>	<p>At the applicable NAV.</p> <p>The Methodology of calculating the Sale price for mutual fund units (Purchase price for investors) is given below:</p> <p>Sale price is the price at which investor can invest in units of mutual fund schemes. The entry load has been abolished with effect from August 01, 2009 vide para 10.4 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023. Hence, Sale price is equal to the applicable NAV.</p>
<p>Ongoing price for redemption (sale) /switch outs (to other schemes/plans of the Mutual Fund) by investors.</p> <p>This is the price you will receive for redemptions/switch outs.</p> <p><i>Example: If the applicable NAV is Rs. 10, exit load is 2% then redemption price</i></p>	<p>At the applicable NAV subject to prevailing exit load if any.</p> <p>As required under the Regulations, Fund shall ensure that the repurchase price of an open ended scheme is not lower than 95 per cent of the Net Asset Value.</p> <p>The Methodology of calculating the Repurchase price (Redemption price) of units is given below:</p> <p>Repurchase price is the price at which investor can redeem units of mutual fund schemes. While calculating repurchase price the exit load, as applicable, is deducted from the applicable NAV.</p> <p>For example, If the applicable NAV is Rs. 10, exit load is 1% then repurchase price will be: $Rs. 10 * (1 - 0.01) = Rs. 9.90$.</p>

<p><i>will be:</i> <i>Rs. 10* (1-0.02)</i> <i>= Rs. 9.80</i></p>	
<p>Cut off timing for subscriptions/redemptions/switches</p> <p>This is the time before which your application (complete in all respects) should reach the official points of acceptance.</p>	<p>Applicable NAV for Purchases/Switch-ins</p> <ol style="list-style-type: none"> 1. In respect of valid applications received upto 3.00 p.m. on a business day and entire amount is available in the mutual fund's account for utilization before the cut off time of the same day – closing NAV of the day of receipt of application; 2. ➤ **TRANSACTIONS THROUGH "CHANNEL DISTRIBUTORS"**

Investors may enter into an agreement with certain distributors/ Registered Investment Advisers (RIAs) (with whom AMC also has a tie up) referred to as "Channel Distributors" who provide the facility to investors to transact in units of mutual funds through various modes such as their website / other electronic means or through Power of Attorney in favour of the Channel Distributor, as the case may be. Under such arrangement, the Channel Distributors will aggregate the details of transactions (viz. subscriptions/redemptions/switches) of their various investors and forward the same electronically to the AMC / RTA for processing on daily basis as per the cut-off timings applicable to the relevant schemes. The Channel Distributor is required to send copy of investors' KYC Proof and agreement entered into between the investor & distributor/RIA to the RTA (one time for central record keeping) as also the transaction documents / proof of transaction authorization as the case may be, to the AMC / RTA as per agreed timelines. In case KYC Proof and other necessary documents are not furnished within the stipulated timeline, the transaction request, shall be liable to be rejected. Normally, the subscription proceeds, when invested through this mode, are by way of direct credits to the specified bank account of the Fund. The Redemption proceeds (subject to deduction

	<p>of tax at source, if any) and payouts of IDCW, if any, are paid by the AMC to the investor directly through direct credit in the specified bank account of the investor or through issuance of payment instrument, as applicable. It may be noted that investors investing through this mode may also approach the AMC / Official Point(s) of Acceptance directly with their transaction requests (financial / non-financial) or avail of the online transaction facilities offered by the AMC. The Mutual Fund, the AMC, the Trustee, along with their directors, employees and representatives shall not be liable for any errors, damages or losses arising out of or in connection with the transactions undertaken by investors / Channel Distributors through above mode.</p> <p>Pursuant to Para 15.5 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, Mutual funds/ AMC will adhere to the due diligence of distributors.</p>

- In case the investor opts for both options, the Variable Top-Up option shall be triggered.
- In case the investor does not select the frequency for Top-up or selects both frequencies, the Top-up facility shall be registered at Yearly basis.

The Trustee/AMC reserves the right to change/modify the provisions mentioned facility at a later date.

Top-Up Cap amount or Top-Up Cap month-year

I. Top-Up Cap amount: In this facility the investor has an option to freeze the SIP Top-Up amount once it reaches a fixed predefined amount. The fixed pre-defined amount should be same as the maximum amount mentioned by the investor in the bank mandate/ existing registered One-Time Mandate (OTM). In case of difference between the Cap amount & the maximum amount mentioned in Bank mandate, then amount which is

lower of the two amounts shall be considered as the default amount of SIP Cap amount.
 II. Top-Up Cap month-year: The facility for SIP Top-Up amount will cease and last SIP instalment including Top-Up amount will remain constant from Cap date till the end of SIP tenure.

Basic Terms and conditions are as follows:

- The date from which Investors have opted the SIP Top-Up amount will cease and last SIP instalment including Top-Up amount will remain constant from Cap date till the end of SIP tenure.
- Investor shall have flexibility to choose either Top-Up Cap amount or Top-Up Cap month- year. In case of multiple selection, Top-Up Cap amount will be considered as default selection.
- Top-Up Cap is applicable for Fixed Top Up option as well as Variable Top Up option.
- All the investors of the fund availing the facility under SIP Variable Top - Up feature are hereby requested to select either Top - Up Cap amount or Top - Up Cap month - year.
- In case of no selection, the SIP Variable Top-Up amount will be capped at a default amount of Rs. 10 Lakhs. Under the said facility, SIP amount will remain constant from Top - Up Cap date/ amount till the end of SIP Tenure.

Illustration explaining the Top-Up Cap month-year:

SIP Period: 01-Jan-2022 to 01-Dec-2024 (3 Years)

Monthly SIP Installment Amount: Rs. 2,000

SIP Date: 1st of every month (36 installments)

Top-up Amount: Rs. 1,000

Top-up Frequency: Half Yearly

Top-up cap month - year: 01-Jul-2023

SIP Installments shall be as follows:

Installment Nos.	From Date	To Date	Monthly Installment Amount (Rs)	SIP Top-Up Amount (Rs.)	Increased Monthly SIP Installment Amount (Rs.)
1 to 6	1-Jan-22	1-Jun-22	2,000	N.A.	2,000

The Trustee/AMC reserves the right to change/modify the provisions mentioned facility at a later date.

Systematic Withdrawal Plan:

This facility enables the Unitholders to withdraw (subject to deduction of tax at source, if any) sums from their investments in the Scheme at periodic intervals through a one-time request. The withdrawals can be made on any date either Monthly or Quarterly . In case any of these days fall on non-business day the transaction will be effected on the next business day of the scheme. SWP registration needs to be submitted to the Registrar/

AMC 7 days prior to the date of commencement of SWP. In case the SWP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the SWP registration request received for a period lesser than 7 days in the interest of unit holders.

Example: for Monthly SWP if the SWP date opted is 7th of every month from 7th January and submitted on 3rd January then the registration of this SWP will be from 7th February onwards.

This facility is available in two options to the Unitholders:

Fixed Option: Under this option, the Unitholder can seek redemption of a fixed amount of not less than Rs. 1000 from his Unit account. In this option the withdrawals will commence from the Start Date (being one of the dates indicated above) mentioned by the Unitholder in the Application Form for the facility. The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. If the net asset value of the units outstanding on the withdrawal date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs 1000 after processing of the last SWP installment then the entire amount will be processed along the last SWP installment.

Appreciation Option: Under this option, the Unitholder can seek redemption of an amount equal to a periodic appreciation on the investment.

The Unitholder redeems only such number of Units, which when multiplied by the Applicable NAV is, in amount terms equal to the appreciation in his investment over the last month / quarter.

The investor would need to indicate in his systematic withdrawal request, the commencement / start date from which the appreciation in investment value should be computed. The withdrawal will commence after one month/quarter (as requested by the investor) from the commencement / start date mentioned by the Unitholder in the Application Form and can, at the investor's discretion be on 1st, 7th, 14th, 21st or 25th of the month / quarter.

The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. In case the investor purchases additional Units, the withdrawal amount would include the appreciation generated on such Units as well. In the absence of any appreciation, the redemption under this option will not be made.

For both fixed and appreciation option the provision of minimum redemption amount / units will not be applicable for redemption made under this facility.

Systematic Transfer Plan (STP)

This facility enables the Unitholders to switch an amount from their existing investments in a Scheme/Plan/Option to another Scheme/Plan/Option of the Fund, which is available for investment at that time, at periodic intervals through a one-time request. The switch can be made weekly, monthly or quarterly. Under this facility the switch by the Unitholders should be within the same account/ folio number. The transfers can be made either Daily or Weekly or Monthly or Quarterly on any business day. The amount so switched shall be reinvested in the other scheme / plan and accordingly, to be effective, the systematic transfer must comply with the redemption rules of transferor scheme and the issue rules of transferee scheme (e.g. exit / entry load etc)

STP registration needs to be submitted to the Registrar/ AMC 7 days prior to the date of commencement of STP. In case the STP commencement date is less than 7 days from the

date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the STP registration request received for a period lesser than 7 days in the interest of unit holders.

Example: for Monthly STP if the STP date opted is 7th of every month from 7th January and submitted on 3rd January then the registration of this STP will be from 7th February onwards.

This facility offers two options to the Unitholders:

Fixed Option: Under this option, the Unitholder can switch fixed amount of not less than Rs. 1000/- from his Unit account. In this option the switch will commence from the Start Date mentioned by the Unitholder in the application form for the facility. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be created at the Applicable NAV of such Scheme/Plan/Option on the respective dates. If the net asset value of the units outstanding on the transfer date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs 1000 after processing of the last STP installment, then the entire amount will be processed along the last STP installment.

Appreciation Option: Under this option, the Unitholder can seek switch of an amount equal to the periodic appreciation on the investment. Under this option the Unit holder switches only proportionate number of Units, which when multiplied by the applicable NAV is, in amount terms equal to the appreciation in the investment over the last month/quarter.

For both Fixed and appreciation option the provision of minimum redemption and minimum investment amount / units will not be applicable for transfer / switch transactions made under this facility for both switch out and switch in schemes.

The investor has to mention a "Start Date". The first switch will happen after one month/quarter from the start date. In case the investor purchases additional Units, the amount to be switched would be equal to the appreciation generated on such Units. In the absence of any appreciation as mentioned above, the switch under this option will not be made. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be allotted at the Applicable NAV of such Scheme/Plan/Option on the respective dates.

Transfer of Income Distribution cum capital withdrawal (IDCW) Plan :

Transfer of IDCW Plan is a facility whereby the unit holders under the IDCW Options (other than Daily Reinvestment Sub-option) of the open ended Schemes of KMMF can opt to transfer their IDCW to any other Investment option (other than Daily Reinvestment Sub-option) under any other open ended schemes of KMMF. Transfer of IDCW plan facility will be available to unit holder(s) holding units in non-demat form under the IDCW Option of the Transferor Schemes.

Under the Transfer of IDCW plan facility investors cannot transfer their IDCW into certain category of transferee schemes viz, close ended Schemes, Exchange Traded Funds (ETFs), and Kotak Tax Saver Scheme.

Under Transfer of IDCW Plan, IDCW as & when declared (as reduced by the amount of applicable statutory levy) in the transferor scheme (subject to minimum of Rs.500/-) will be automatically invested without any exit load into the transferee scheme, as opted by the Unit holder. Such transfer will be treated as fresh subscription in the transferee scheme and invested at the Applicable NAV of the Transferee Scheme. If the IDCW amount in the Transferor Scheme is less than Rs.500/- the IDCW will be automatically reinvested in the Transferor Scheme itself and hence will not be transferred. The provision for 'Minimum Application Amount' specified in the respective transferee scheme's SID will not be applicable under Transfer of IDCW plan.

Enrolment under the Transfer of IDCW plan facility will automatically override any previous instructions for 'Payout of IDCW' or 'Reinvestment of IDCW' option in the transferor scheme. No Exit Load will be levied on units allotted in the Transferee Scheme under the Transfer of IDCW Plan

Unit holders who wish to enroll for the Transfer of IDCW plan facility are required to fill DTP Enrollment Form available with the ISC's, distributors/ agents and also available on the website www.kotakmf.com

The request for enrolment or cancellation for Transfer of IDCW plan must be submitted at least 7 days prior to the Record Date for the IDCW. In case of the condition not being met, the enrolment would be considered valid from the immediately succeeding Record Date of the IDCW, provided the difference between the date of receipt of a valid application for enrolment under Transfer of IDCW plan and the next Record Date for the IDCW is not less than 7 days.

The AMC / Trustee reserve the right to change/ modify the terms and conditions of the Transfer of IDCW Plan on a prospective basis.

Switching

Unitholders of the Scheme have the option of switching in or out all or part of their investment in the Scheme/ Plan/ Option to any other Option of the Scheme or to any other Scheme / Plan/ Option of the Fund.

A switch has the effect of redemption from a Scheme/Plan/ Option and a purchase in the other Scheme/Plan/Option to which the switching has been done and all the terms and conditions pertaining to redemption and purchase of the Units of the respective Scheme shall apply to a switch, unless otherwise specified.

Switch is effected by redeeming Units from the Scheme/ Plan/Option and investing the net proceeds in the other Scheme/Plan/Option.

Long Term Income Facility (LTI)

Long Term Income (LTI) is only a facility for regular withdrawal from the Scheme. This facility will allow investors to redeem a fixed sum of money on monthly/ quarterly basis at the prevailing Net Asset Value (NAV) within the range of 6% p.a. to 10% p.a. (in multiples of 0.5%) of the investment amount. The percentage of withdrawal will be selected by investor.

LTI facility is only available under the growth option only. Investors shall be required to

submit LTI registration request at least 15 days prior to the date of 1st instalment. Minimum amount of investment required for availing the LTI facility is Rs.1 lakh.

Investors can opt for this facility and withdraw their investments systematically on a Monthly/ Quarterly basis. Withdrawals will be made/ effected on the 1st/7th /14th /21st / 25th of every month/ every quarter and would be treated as redemptions. In case the aforesaid date is a holiday, then it would be effected on next business day.

The applicant has the right to discontinue the LTI at any time, if he / she so desires, by providing a written request at any of the Kotak Mahindra Mutual Fund branches or Registrar’s branches. Request for discontinuing LTI shall be subject to an advance notice of 7 (seven) working days.

Daily frequency under Systematic Transfer Plan Facility:

Daily frequency (“Daily STP”) has been introduced in addition to existing frequencies available under “Fixed Option” of Systematic Transfer Plan facility.

Terms and conditions of Daily STP are as follows:

Applicability:

- Daily STP is only available under Fixed amount Option (Fixed STP) and will not be applicable under Capital appreciation STP (Variable STP).
- An investor can select this facility whereby the investor chooses to transfer on a periodic basis a pre-determined amount from any “Source Scheme” into any “Target Scheme”.
- In case the Investor fails to mention the frequency for the STP option in the form, then the default option will be considered as monthly frequency.
- The STP will be processed subject to the terms of the Target scheme.
- This frequency will be available under all the “eligible schemes” of Kotak Mahindra Mutual Fund.

Eligible Schemes	Source Scheme	All Open Ended Schemes of Kotak Mahindra Mutual Fund except Exchange Traded Funds. In case of Kotak Tax Saver Scheme, Daily STP will be available for free units only.
	Target Scheme	All Open Ended Schemes of Kotak Mahindra Mutual Fund except Exchange Traded Funds.

Transfer of Funds:

- Minimum Instalment amount to be transferred through this facility should be at least Rs. 6,000 per year or that which matches the minimum investment amount of the said schemes whichever is higher for the said year.
- Minimum amount to transfer under Daily STP: Minimum 12 transfers of Rs. 500/- each and in multiples of Rs. 100/- thereafter.
- Default amount: If investor fails to mention the STP Amount then the default value should be taken as Rs. 500 (minimum transfer amount).

Schemes available for Daily STP:

- It shall be the responsibility of the investor to ensure that sufficient balance (free from any Lock-in or encumbrances) is available in the Source Scheme account on the date of transfer, failing which the transfer will not be processed to the

extent of available balance in the source scheme's account.

- If the plan/option of the Source scheme is not mentioned and there is only one plan/option available in the folio, the STP will be processed from that plan/option.
- If investor carries investments under multiple schemes / plans / options and does not mention the Source Scheme along with plans and options, then such request will be rejected.

In case plan and option in Target Scheme for STP are not selected by the investor, then the default option/ plan for the Target scheme shall be considered as per SID.

Other Terms and Conditions:

- Investor need to clearly mention the “Transfer Period from” and “Transfer Period To” in the STP request Form. In case, the investor fails to specify the “Transfer Period from” the STP will start from the 7th day from the date of receipt of valid registration form.
- In case, the investor fails to specify the “Transfer Period To” under Daily STP, STP shall continue to be triggered perpetually until further valid instructions from the investor or until the outstanding balance in “Source scheme” does not cover the Daily STP transfer amount.
- If the available balance falls below the minimum amount of the specified triggered value, the available balance in the Source scheme will get triggered and future STP will be ceased.
- STP registration from the existing investment (in the Source Scheme) will start from the 7th day from the date of receipt of valid registration form. If the STP form is received along with fresh investment, then the STP will start from the 7th day from the date of realisation of the investment amount with the valid registration form.
- In case the specified date is a non-business day for either the Source Scheme or the Target Scheme, the STP will be processed on the following business day for both the schemes. When the value of STP is more than Rs. 2 lakhs or the Target scheme is a liquid fund then the allotment in the Target scheme will be processed based on the utilisation/ realisation of funds from Source scheme (for more details refer NAV applicability clause for respective Target scheme).
- In case the STP commencement date is less than 7 days from the date of submission of registration form, the same will commence from the 7th day from the date of receipt of valid registration form. The AMC reserves the right to process the STP registration request received for a period lesser than 7 days in the interest of unit holders.

An investor can discontinue his STP facility by giving 7 days prior notice in writing to the Registrars (CAMS) office or at any other point of service.

Variable Transfer Plan:

It is a facility wherein an investor under a source scheme can opt to transfer variable amounts linked to the value of his investments on the date of transfer at pre-determined intervals from source scheme to the growth option of target scheme.

It would be suitable for investors who are looking to invest higher when the NAVs are lower and a fixed amount when the NAVs are higher and take the benefit of rupee cost averaging.

Terms and conditions of VTP are as follows:

1. An individual VTP Enrolment Form should be filled for each Scheme / Plan / Option.
2. VTP will be available in the following specified schemes:

Source Schemes	All Open Ended Schemes of Kotak Mahindra Mutual Fund except Exchange Traded Funds and Kotak Tax Saver. In case of Kotak Tax Saver Scheme, VTP will be available for free units only.
Target Schemes	All open ended equity schemes, open ended hybrid schemes and open ended fund of fund schemes excluding exchange traded funds and Kotak Tax Saver.

3. Calculation of VTP:

The amount to be transferred under Variable Transfer Plan from source scheme to target scheme shall be calculated using the below formula -

Variable Transfer Plan amount shall be higher of the following:

- a. Fixed amount specified at the time of enrolment
- b. [fixed amount to be transferred per installment x number of installments already executed, including the current installment] - market value of the investments through Variable Transfer Plan in the Target Scheme on the date of transfer

Illustration:

The process has been explained below through an illustration for calculation of VTP as on the date of 3rd Installment, with the help of the abovementioned formula:

Fixed amount specified at the time of enrolment (A)	Rs.6000
Or	
As determined by the formula (B)	(6000*3) – 11495 =Rs.6505
Whichever is higher. Hence, Rs.6505 is taken as investment amount.

Note: The above example does not contain any TDS / STT deduction. VTP determined will be net of applicable taxes.

4. The minimum amount and tenure of VTP would be as applicable to normal STP (Specified Transaction Period) facility in respective schemes. Frequency of the VTP is mentioned as below:

Particulars	VTP Transaction Dates	Minimum no. of installments and Minimum amount per instalment
Daily	Every Business Day	6 installments of Rs. 1000/- each and in multiples of Re.0.01/- thereafter
Weekly	Any day of the Week (except Saturday & Sunday)	6 installments of Rs. 1000/- each and in multiples of Re.0.01/- thereafter
Monthly	Any Date	6 installments of Rs. 1000/- each and in multiples of Re.0.01/- thereafter
Quarterly	Any Date	6 installments of Rs.1000/- each and in multiples of Re.0.01/- thereafter

5. In case of valid VTP enrolment forms received, indicating choice of option other than the growth option in the Target Scheme, it will be deemed as the growth option in the Target Scheme and processed accordingly.
6. In case the VTP commencement date is less than 10 calendar days from the date of submission of registration form, the same will commence from the 11th day from the date of receipt of valid registration form. The AMC reserves the right to process the VTP registration request received for a period lesser than 10 calendar days in the interest of unit holders.
7. There is no maximum duration for VTP enrollment.
8. The first VTP installment will be processed for the fixed installment amount specified by the investor at the time of enrolment. From the second installment onwards, the transfer amount shall be computed as per formula stated above.
9. If there is any other financial transaction (Purchase, redemption or switch or

Systematic Investment Plan) processed in the target scheme during the tenure of VTP, the VTP will be processed as normal STP for the rest of the installments for a fixed amount, also there will not be any change in number of installments.

10. In case of VTP, if four consecutive installments fail, then VTP will be ceased. In case the amount to be invested is not available, the transaction will be rejected. After 4 consecutive rejects, this facility will be cancelled.
11. The VTP will be processed subject to the terms, applicable loads (if any), of the Target scheme and Source Scheme.
12. An investor can select this facility whereby the investor chooses to transfer on a periodic basis a variable amount from any "Source Scheme" into any "Target Scheme".
13. Once the VTP has been stopped, the unit holder needs to provide a new request to start VTP again.
14. All other terms & conditions of Systematic Transfer Plan are also applicable to VTP.

For SSTP		
(A)	(B)	(C)
Net Equity Allocation of KBAF	Default option	Investor defined Amount
> 60%	2 times Base SSTP Amount	Investor defined Maximum SSTP Amount
40%- 60% (Inclusive of 40 and 60)	Base SSTP Amount	Base SSTP Amount
< 40%	0.5 times Base SSTP Amount	Investor defined Minimum SSTP Amount

For SSTP:

- If the net equity allocation percentage for KBAF for the trigger date is greater than 60%, then SSTP amount would be twice the Base SSTP amount or Investor defined Maximum SSTP Amount, if specified by the investor.
- If the net equity allocation percentage of KBAF for the trigger date is between 40% and 60% (including 40% and 60%), then Base SSTP amount would be triggered.
- If the net equity allocation percentage of KBAF for the trigger date is less than 40%, then SSTP amount would be half the Base SSTP amount or Investor defined Minimum SSTP Amount, if specified by the investor.

- b) In case of SSTP, the investor has an option to mention the Maximum amount /Minimum amount In case no amount(s) are mentioned by the investor, the amount to be invested/transferred shall be as per the Default option, as per details mentioned under column (B) above.
- c) In case of SSTP, the amount shall be derived based on the Net Equity allocation percentage of KBAF on the Trigger date and not as on the SSTP date. Hence, the SSTP amount will be of T-1 day (i.e. Trigger Date) assuming the instalment is triggered 1 day before the SSTP date. .
- d) For SSTP in case if the Minimum amount is below the Minimum SSTP amount of the scheme , then the amount considered would be the minimum SSTP amount of the scheme .
- e) In case of SSTP if the end date is not mentioned/ in case of ambiguity the SSTP shall continue till availability of funds in the source (Transferor) scheme.
- f) In case of SSTP the transaction charge shall be applicable only if the total commitment through SSTP amounts to Rs.10, 000/- & above. In such cases the transaction charge shall be recovered in first 3/4 successful instalments.
- g) In respect of SSTP enrolments made in any of the eligible schemes, the load structure prevalent at the time of enrolment shall be applicable to the investors during the tenure of the SSTP.
- h) In case of SSTP, registration request needs to be submitted to the Computer Age Management Services Limited, Registrar and transfer agent (“RTA”) of Kotak Mahindra Mutual Fund (**Mutual Fund**) /AMC 7 days prior to the date of commencement of SSTP. In case the SSTP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the SSTP registration request received for a period lesser than 7 days in the interest of unit

holders.

4. The Base SSTP amount, Maximum SSTP amount and Minimum SSTP amount specified by the investor must be in multiples of Re. 1 (whole numbers only, no decimals eg: Rs. 20001, Rs.30015).
5. The SSTP shall be applicable for applications routed through Mutual Fund's website www.kotakmf.com and physical applications submitted at specified investor service centers of the RTA.
6. In case of first SSTP installment, it shall be processed for the Base SSTP amount as specified by the investor at the time of enrollment, and will not be based on the Net equity allocation percentage of KBAF.
7. In case of SSTP, it shall be applicable for both IDCW and growth option for transferor scheme however in case of transferee scheme it shall be applicable only for growth option.
8. SSTP will not be available if the folio/PAN is under Lien or marked as frozen on the advice of I.T authorities/Regulatory authorities/ Court or any other reason.
9. All requests for registration or deactivation of SSTP shall be subject to an advance notice of 7 (seven) calendar days. The same can be done by sending a written request to the RTA's investor service centers.
10. In case of SSTP where unit holder has specified Minimum/ Maximum amount as well as ticked the option for Default SSTP, then trigger will be as per the Default SSTP Amount.
11. In case of SSTP, if the same is stopped for any reason a new request needs to be provided to re-start SSTP.
12. In case of SSTP incorrect, incomplete, ambiguous forms will be liable to be rejected.
13. All other terms & conditions of STP of the Eligible schemes would also be applicable to SSTP, unless and otherwise as specifically mentioned above.
14. Please refer the Key Information Memorandum and Scheme Information Document of the respective Scheme(s) and Statement of Additional Information for Applicable NAV, Risk Factors, Load Structure and other information on the Scheme(s).

Kotak Mahindra Asset Management Company Limited, reserves the right to add or delete any of the Eligible schemes in the list above. Please read the terms and conditions/ General instructions in the applicable forms before investing.

D. Computation of NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

The Fund shall value its investments according to the valuation norms (Valuation Policy includes computation of NAV in case of investment in foreign securities), as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI from time to time. The broad valuation norms are detailed in the Statement of Additional Information.

NAV of Units under the Scheme will be calculated as shown below:

NAV=	Market or Fair Value of Scheme's investments	+	Current assets including Income	-	Current Liabilities and provisions including accrued expenses
No. of Units outstanding under the Scheme/Option.					

NAV for the Scheme and the repurchase prices of the Units will be calculated and announced at the close of each Business Day. The NAV shall be computed upto four decimals. The NAV of Direct Plan will be different than the NAV of Regular Plan.

Computation of NAV will be done after taking into account IDCW paid, if any, and the distribution tax thereon, if applicable. Therefore, once IDCW are distributed under the IDCW Option, the NAV of the Units under the IDCW Option would always remain lower than the NAV of the Units issued under the Growth Option. The income earned and the profits realized in respect of the Units issued under the Growth Option remain invested and are reflected in the NAV of the Units.

Investments in units of CDMDF shall be valued based on the last declared net asset value as disclosed on the website of the CDMDF Fund.

V. FEES AND EXPENSES

A. New Fund Offer (NFO) Expenses

This is an ongoing scheme on the date of updating this document.

B. ANNUAL SCHEME RECURRING EXPENSES

Total Expense Ratio is the total of ongoing fees and operating expenses charged to the scheme, expressed as a percentage of the scheme's daily net assets.

These fees and expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, brokerage/commission, marketing and selling costs etc.

As per Regulation 52(6)(c) of SEBI (MF) Regulations, the total expense ratio of the scheme excluding issue or redemption expenses, whether initially borne by the mutual fund or by the asset management company, but including the investment management and advisory fee shall be subject to the following limits:-

Assets under management Slab (In Rs. crore)	Total expense ratio limits
on the first Rs.500 crores of the daily net assets	2.00%

Additional expenses under regulation 52 (6A) (c) #	Upto 0.05%
Additional expenses for gross new inflows from specified cities	Upto 0.30%

The AMC shall not charge additional expenses under Regulation 52(6A)(c) in case exit load is not levied/ not applicable

With reference to SEBI's letter no. SEBI/HO/ IMD/ IMD-SEC-3/ P/ OW/ 2023/ 5823/ 1 dated February 24, 2023, and AMFI Circular No. CIR/ ARN-23/ 2022-23 March 07, 2023, the B-30 incentive structure for new inflows has been kept in abeyance with effect from March 01, 2023 till the incentive structure is appropriately re-instated by SEBI with necessary safeguards

Expense Structure for Direct Plan – The annual recurring expenses will be within the limits specified under the SEBI (Mutual Funds) Regulations, 1996.

In terms of para 10.1 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, all fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a regular plan.

However, Direct Plan shall have a lower expense ratio than the Regular Plan. The expenses would exclude distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

Additional expenses which may be charged to the Scheme:

The following additional expenses may be charged to the Scheme under Regulation 52 (6A), namely-

- Brokerage and transaction cost incurred for the purpose of execution shall be charged to the scheme as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage & transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.
- Expenses not exceeding of 0.30 % of daily net assets, if the new inflows from beyond top 30 cities are at least:
 - (i) 30 % of gross new inflows in the scheme; or
 - (ii) 15 % of the average assets under management (year to date) of the scheme; whichever is higher.
 Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub- clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

Provided further that the additional TER can be charged based on inflows only from ‘retail investors’ (SEBI vide its Para 10.1.3 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, has defined that inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from “retail investor”) from beyond top 30 cities.

Provided that the additional commission for beyond top 30 cities shall be paid as trail only.

In case inflows from beyond top 30 cities is less than the higher of (i) or (ii) above, additional TER on daily net assets of the scheme shall be charged as follows:

Daily net assets X 30 basis points X New inflows from individual investors from beyond top 30 cities

365* X Higher of (i) or (ii) above

* 366, wherever applicable.

- Additional expenses upto 0.05% of daily net assets of the scheme, incurred towards different heads mentioned under Regulation 52 (2) and 52 (4).

Clause 4 of Seventh Schedule to SEBI (Mutual Funds) Regulations, 1996 which restricts investments in mutual fund units upto 5% of net assets and prohibits charging of fees, shall not be applicable to investments in mutual funds in foreign countries made in accordance with guidelines as per para 12.19 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023. However, the management fees and other expenses charged by the mutual fund(s) in foreign countries along with the management fee and recurring expenses charged to the domestic mutual fund scheme shall not exceed the total limits on expenses as prescribed under Regulation 52(6). Where the scheme is investing only a part of the net assets in the overseas mutual fund(s), the same principle shall be applicable for that part of investment.

Goods and Services tax:

Goods and Services tax on investment and advisory fees may be charged to the scheme in addition to the maximum limit of TER as prescribed in Regulation 52(6)(c). Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per Regulation 52.

The aforesaid estimates are made in good faith by the Investment Manager and are subject to change inter se among the various heads of expenses and between the Plans. It may also be noted that the total expenses of the Plans will also be subject to change within the overall limits of expenses under Regulation 52. Actual expenses under any head and / or the total expenses may be more or less than the estimates. The Investment Manager retains the right to charge the actual expenses to the Fund, however the expenses charged will not exceed the statutory limit prescribed by the Regulations. There will be no sub limit on management fee, and it shall be within the overall TER specified above.

For the actual current expenses being charged, the investor may refer to the website of the mutual fund.

The fund shall update the current expense ratios on the website (kotakmf.com) at least three working days prior to the effective date of the change. The web link for TER is <https://www.kotakmf.com/Information/investor-service>

Illustration of impact of expense ratio on scheme's returns:

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Annual Returns before Expenses	800	800
Expenses other than Distribution Expenses	75	75
Distribution Expenses / Commission	25	-
Returns after Expenses at the end of the Year	700	725

Illustration is given to understand the impact of expense ratio on a scheme return and this should not be construed as an indicative return of the scheme. The expenses of the Direct Plan under the Scheme will be lower to the extent of distribution expenses/ commission.

C. Load Structure

Load is an amount which is paid by the investor to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website kotakmf.com or may call at 1800-309-1490 or your distributor.

Entry Load*- Nil

Exit Load**-

- For redemption / switch out of upto 8% of the initial investment amount (limit) purchased or switched in within 1 year from the date of allotment: Nil.
- If units redeemed or switched out are in excess of the limit within 1 year months from the date of allotment: 1%
- If units are redeemed or switched out on or after 1 year from the date of allotment: NIL

Any exit load charged (net off Goods and Services tax, if any) shall be credited back to the Scheme. Units issued on reinvestment of IDCW shall not be subject to entry and exit load.

* In terms of Para 10.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, no entry load will be charged on purchase / additional purchase / switch-in. The commission as specified in aforesaid circular, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

** Any exit load charged (net off Goods and Services tax, if any) shall be credited back to the Scheme.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated. In case of changes in load structure the addendum carrying the latest applicable load structure shall be attached to all KIM and SID already in stock till it is updated.

Investors may obtain information on loads on any Business Day by calling the office of the AMC or any of the Investor Service Centers. Information on applicability of loads will also be provided in the Account Statement.

The investor is requested to check the prevailing load structure of the scheme before investing. For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres.
