**Notes :**

NAVs of the Growth Options of the respective plans of the Scheme have been used to calculate the Returns.

**Note : IDCW Option was earlier known as Dividend Option**

^ ^ The units under the Schemes were allotted during the year hence there are no NAVs per unit at the beginning of the year.

**\*\* PAST PERFORMANCE MAY OR MAY NOT BE SUSTAINED IN THE FUTURE.** Performance of the IDCW Option for the investor would be net of IDCW distribution tax, as applicable. Pursuant to payment of IDCW, the NAV of the IDCW Option falls to the extent of IDCW payout and statutory levy (if applicable). Hence, in order to calculate total returns, the above returns are computed based on the NAV of only the Growth Option, since there are no IDCW payouts thereunder. The returns provided are Absolute Returns where the Schemes have been in existence for less than one year and Compounded annualised where the Schemes have been in existence for more than one year.

In accordance with requirements under the Prevention of Money Laundering Act, 2002, (PMLA) the Rules issued there under and the guidelines and circulars on Anti-Money Laundering issued by SEBI, (collectively "AML Regulations"), mutual funds are required to formulate and implement Client Identification Programme to verify and maintain the record of identity and address(es) of investors. This is commonly referred to as 'Know Your Client' guidelines (KYC).

With a view to streamline implementation of KYC procedures and ensure compliance with the AML Regulations, the mutual fund industry had collectively put in place arrangement with an independent agency (CDSL Ventures Limited) that acted as central record keeping agency ('Central Agency'), and as Central Agency had the responsibility for collection of documents relating to identity and address of investors.

In order to avoid duplication of KYC process with every SEBI registered intermediary and with a view to bringing about uniformity in the KYC requirement and a mechanism for centralization of the KYC records in the securities market, SEBI has vide its various circulars and the SEBI (KYC Registration Agency) Regulations 2011, introduced common KYC across market intermediaries.

With effect from January 01, 2012 ("Effective Date"), SEBI has introduced a common KYC Application Form for all the SEBI registered intermediaries viz. Mutual Funds, Portfolio Managers, Depository Participants, Stock Brokers, Venture Capital Funds, Collective Investment Schemes, etc.

Investors are requested to note that it is mandatory to update PAN in non-PAN exempt folios and to complete KYC requirements for all unit holders, including for all joint holders and the guardian in case of folio of a minor investor. Accordingly, financial transactions (including redemptions, switches and all types of systematic plans) and non-financial requests will not be processed if:

- i) the unit holders have not updated PAN in non-PAN exempt folios or
- ii) the unit holders have not completed applicable KYC requirements.

Unit holders are advised to use the PAN updation Form (for updating PAN) and the applicable KYC Form (for completing the KYC requirements) which are available on the AMC's website [www.unionmf.com](http://www.unionmf.com), and submit the form at any of the Official Points of Acceptance of Union Mutual Fund. Further, upon updation of PAN details with KYC Registration Agency (i.e. KRAKYC)/ Central Registry of Securitisation Asset Reconstruction and Security Interest (CERSAI) (i.e. CKYC), the unit holders are requested to intimate the AMC/ Registrar and Transfer Agent of Union Mutual Fund their PAN information (if not already updated) along with the folio details for updation in the records of Union Mutual Fund.

## Following are the KYC requirements for new / prospective investors and existing investors:

### i. KYC requirements for new / prospective investors:

New/ Prospective Investors are requested to use the common KYC Application Form and carry out the KYC process including In-Person Verification (IPV) with any SEBI registered intermediaries including mutual funds. The KYC Application Forms are available on our website [www.unionmf.com](http://www.unionmf.com).

The Mutual Fund shall perform the initial KYC of its new investors and may also undertake enhanced KYC measures commensurate with the risk profile of its investors in line with the aforesaid circulars / Prevention of Money Laundering Act, 2002, and circulars thereto. The Mutual Fund shall upload the details of the investors on the system of the KYC Registration Agency (KRA). Registrar & Transfer Agent (RTA) of the Mutual Fund may also undertake the KYC of the investors on behalf of the Mutual Fund. On receipt of initial/updated KYC documents from the Mutual Fund, the KRA shall send a letter to the investor within SEBI prescribed timelines, confirming the details thereof.

It is mandatory for intermediaries including mutual funds to carry out In-Person Verification (IPV) of its new investors from the Effective Date. The IPV carried out by any SEBI registered intermediary can be relied upon by the Mutual Fund. The AMC and National Institute of Securities Markets (NISM)/ Association of Mutual Funds in India (AMFI) certified distributors who are Know Your Distributor (KYD) compliant are authorised to undertake the IPV for Mutual Fund investors. Further, in case of any applications received directly (i.e. without being routed through the distributors) from the investors, the Mutual Fund may rely upon the IPV (on the KYC Application Form) performed by the scheduled commercial banks.

Further, the Government of India has authorized the Central Registry of Securitization and Asset Reconstruction and Security interest of India (CERSAI), to act as, and to perform the functions of, the Central KYC (CKYC) Records Registry under the PML Rules 2005, including receiving, storing, safeguarding and retrieving the KYC records in digital form of a client, as defined in the Prevention of Money Laundering Act, 2002. Every reporting entity is required to capture the KYC information for sharing with the Central KYC Records Registry (CKYCR). Accordingly, the investors shall be required to provide requisite KYC information/ documents as prescribed by CERSAI and the AMC from time to time. Investors who have already completed CKYC and have a KYC Identification Number (KIN) can invest in the Mutual Fund by quoting the KIN and by submitting a self certified copy of PAN and by completing In-Person Verification (IPV) as mentioned above.

### ii. KYC requirements for existing investors:

Existing KYC compliant investors of the Mutual Fund can continue to invest as per the current practice. However, pursuant to SEBI circular no. MIRS/ Cir-5 /2012 dated April 13, 2012 and subsequent SEBI communication, investors who had completed the erstwhile Centralised Mutual Fund KYC through CDSL Ventures Limited, are required to provide KYC details and complete IPV as per the new KYC requirements, which was not mandated earlier.

The AMC reserves the right to reject application forms for transactions in units of the Mutual Fund not accompanied by common KYC Application Form or letter/ acknowledgement issued by the KRA/ KIN issued by CERSAI. The KYC compliance status of the investors will be validated with the records of the KRA/ CERSAI.

It is mandatory for all categories of investors to be KYC compliant for any amount of investment.

The above category of investors for the purpose of KYC compliance shall include, if applicable,

- their constituted Power of Attorney (POA) holder, in case of investment through a POA,

- each of the applicants, in case of application in joint names,
- guardian, in case of application on behalf of minor,
- in case of pledge/lien, institution in whose favour the pledge/lien has been made,
- any person making payment on behalf of the account holder(s), to the extent permitted under paragraph on 'Non – acceptance of Third Party Payment Instruments for subscriptions / investments'.

Separate procedures are prescribed for change in name and address, should the applicant desire to change such information. KRA/ CERSAI where KYC is registered will extend the services of effecting such changes. Once KYC is completed, any changes to name and address can be done through the KRA/ CERSAI. These changes will be updated in the database maintained by the RTA. However, change in name in KYC details will have to be separately intimated to the RTA by the investor along with the requisite supporting documents for updation in database maintained by the RTA.

Investments are presently processed on the basis of the KYC acknowledgement generated by KRA/ KIN issued by CERSAI. If KRA/ CERSAI, after centralised processing of the KYC documents, intimates that KYC for the folio does not comply with the existing KYC norms, then the AMC reserves the right to ask for additional documents including the right to request the investor to resolve the KYC discrepancies with the KRA/ CERSAI. Further, the AMC reserves the right to reject additional investments in such cases.

In relation to implementation of the SEBI Guidelines on identification of Beneficial Ownership, the AMC reserves the right to call for such information / documents from the investors that the AMC deems fit.

Pursuant to the provisions of the Prevention of Money Laundering Act, 2002, if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, on failure to provide required documentation, information etc. by the Investor, the AMC shall have absolute discretion to report such suspicious transactions to FIU-IND and / or to freeze the units under folios of the Investor(s), reject any application(s)/ allotment of units and effect mandatory redemption of unit holdings of the investor(s) at the applicable NAV subject to payment of exit load, if any, in terms of the said communication sent by the AMC to the investor(s) in this regard. The Mutual Fund, Trustee, AMC and their respective Directors, employees and agents shall not be liable in any manner whatsoever for any claims arising on account of freezing the folios/ rejection of any application / allotment of units or mandatory redemption of units due to non-compliance with the provisions of the Prevention of Money Laundering Act, SEBI circulars, AML Policy and / or where the AMC believes that the transaction is suspicious in nature within the purview of the Act and SEBI circulars and reporting the same to FIU-IND.

The Fund will adhere to such guidelines / procedures as may be issued by SEBI / any other regulatory authority in this regard from time to time.

Applicants are requested to comply with the KYC requirements before investing in the fund.

However, the submission of KYC acknowledgement proof is optional. It may be noted that in case the application stands rejected due to any of the reasons specified under the clause "Subscription/Additional Purchase of units under Dematerialised Mode & allotment thereof" given elsewhere in

this document, but the applicant has submitted the KYC acknowledgement proof along with the application form, the units will be allotted in the physical mode 'by default' (without any separate intimation to such applicant) and an Account Statement shall be sent to the Unit holders in accordance with the provisions of the Scheme Information Document of the respective Schemes.

**25. Additional mode of payment through Applications Supported by Blocked Amount ("ASBA") (applicable during NFO period only):**

ASBA is an application containing an authorization given to a Self Certified Syndicate Bank (SCSB) by the investor to block the application money in his specified bank account maintained with the SCSB towards the subscription of units offered during the NFO of a Scheme of the Fund. ASBA facility can be availed by an investor only if the bank with whom his account is maintained is a Self Certified Syndicate Bank (SCSB) under ASBA.

Therefore during the NFO period, apart from the current process of payment wherein cheques etc. are used as a mode of payment, an investor also has the option to subscribe to the units of the Scheme(s) launched by the Fund from time to time, using the Application Supported by Blocked Amount (ASBA) facility, wherein the application money towards the subscription of units will be debited from his / her specified bank account only if his / her application is selected for allotment of units. This facility is available to all categories of investors mentioned under the heading 'Who can invest'.

**Benefits of applying through ASBA Facility:**

- a) Writing cheque or other payment instrument is not required, as investor needs to submit ASBA application form accompanying an authorization to block the account to the extent of application money towards subscription of units. The balance money, if any, in the investor's specified bank account can be used for other purposes by the investor.
- b) Release/unblocking of blocked funds after allotment/rejection/ failure of NFO, as the case may be, is done instantaneously.
- c) Unlike other modes of payment, in ASBA facility, there is no loss of interest income on the application money towards subscription of units as application amount remains in the bank account of the investor till the allotment is made.
- d) Refund of money to the investor does not arise as the

application money towards subscription of units is debited only on the allotment of units.

- e) The investor deals with a known intermediary i.e. his/her own bank.

Self Certified Syndicate Bank has the same meaning as given to it in clause (zi) of sub-regulation (1) of Regulation (2) of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2009. SCSB is a bank which is recognised as a bank capable of providing ASBA services to its customers. Names of such banks and their Designated Branches (DBs) where ASBA Application Form can be submitted are available on the website of SEBI ([www.sebi.gov.in](http://www.sebi.gov.in)).

#### ASBA Procedure:

An Investor availing of this facility ("ASBA applicant"), which is available only during NFO period, shall submit a duly completed ASBA Application Form to the SCSB with whom the ASBA Applicant's bank account to be blocked, is maintained, authorising blocking of the funds and the SCSB shall block an amount equivalent to the Application Amount in the bank account specified in the ASBA Application Form. Such amount, as marked for application, is not available for utilization by the ASBA Applicant. Application can be submitted in physical form, or if the investor avails internet / electronic banking facility, in electronic form. The acknowledgement of receipt of the application given to the ASBA applicants by the designated branches of the SCSBs does not guarantee that the units shall be allotted either by the SCSB or the Mutual Fund.

The Application shall be further processed by the Registrar & Transfer Agent appointed by the Fund and units shall be allotted after deducting the blocked amount, only if the application is complete in all respects.

The application money shall remain blocked in the investor's bank account until withdrawal / failure of the NFO / rejection of the application or receipt of instructions from the Registrar to unblock the Application Amount, as the case may be.

On allotment, the application money will be debited from ASBA Applicant's specified bank account and transferred to the Fund.

#### Grounds for rejection of ASBA application forms:

ASBA application forms can be rejected, at the discretion of the RTA / AMC / SCSBs due to various reasons, including but not limited to the following:

- i. Applications by persons not competent to contract under the Indian Contract Act, 1872, including but not limited to minors, insane persons etc.
- ii. Mode of ASBA i.e. either physical ASBA or electronic ASBA is not selected or ticked (applicable as and when electronic ASBA facility is offered).
- iii. ASBA application form without the stamp of the SCSB.
- iv. Application by any person outside India if not in compliance with applicable foreign and Indian laws.
- v. Bank account details not given/incorrect details given.
- vi. Duly certified Power of Attorney, if applicable, not submitted alongwith the ASBA application form.
- vii. No corresponding records available with the Depositories matching the parameters namely, names of the ASBA applicants (including the order of names of joint holders), Depository Participant ID, Beneficiary account number or any other relevant details pertaining to the Depository account (applicable only to demat mode).

**Note: If the bank account specified in the ASBA application form does not have sufficient credit balance to meet the application money towards the subscription of units, the SCSB will reject the ASBA application form.**

#### Mechanism for Redressal of Investor Grievances:

All grievances relating to the ASBA facility may be addressed to the respective SCSBs, giving complete details such as name & address of the applicant, number of units applied for, counterfoil

or the application reference given by the SCSBs, DBs or CBs, amount paid on application and the DB or the collection centre of the SCSB where the application form was submitted. If the SCSB has not resolved the grievance, investors should write to the RTA, Computer Age Management Services Limited (CAMS) at 158, Rayala Tower 1, 1st Floor, Anna Salai, Chennai - 600002 or to Ms. Leena Johnson, Investor Relations Officer at Unit 503, 5th Floor, Leela Business Park, Andheri Kurla Road, Andheri (East), Mumbai - 400 059.

### c. Zero Balance folio facility:

As a value-added service, and with the objective of making future transactions in the Schemes of Union Mutual Fund simpler, the AMC has a process of opening a "Zero Balance Folio". A Zero Balance Folio is similar to a Zero Balance Account in the bank where in you would be allotted a Folio number. In this regard, you would be required to fill an application form which is available on the AMC website i.e. [www.unionmf.com](http://www.unionmf.com), and submit the duly filled in forms to the Authorised Registrar. The Authorised Registrar would create a unique Folio for you, after necessary verifications on the documentations submitted. This Zero Balance Folio number can then be quoted by you for any future transactions with the Mutual Fund/ AMC. However, this process does not mean any investment or commitment of investment in the Scheme/s of Union Mutual Fund now or later. The advantage of opening a zero balance folio is that, whenever a transaction is to be carried out in future with Union Mutual Fund, it can be done

through a transaction slip by quoting the zero balance folio number and you can avoid any lengthy paper work with the Mutual Fund/ AMC at the time of investment.

### 32. Foreign Account Tax Compliance Act (FATCA):

The Foreign Account Tax Compliance Act (FATCA) is a United States Federal Law, aimed at prevention of tax evasion by US taxpayers through use of offshore accounts. The Government of India and the United States of America (US) have reached an agreement in substance on the terms of an Inter-Governmental Agreement (IGA) to implement FATCA. FATCA is designed to increase compliance by US taxpayers and is intended to bolster efforts to prevent tax evasion by the US taxpayers with offshore investments. Union Mutual Fund ("the Fund") is classified as a "Foreign Financial Institution" (FFI) under the FATCA provisions. FATCA requires enhancement of due diligence processes by the FFI so as to enable the FFI to identify US reportable accounts.

In accordance with the FATCA provisions, the Fund / Union Asset Management Company Private Limited ("the AMC") would be required, from time to time, to undertake necessary due diligence process by collecting information/documentary evidence of the US/non-US status of its investors/ unit holders and identify US reportable accounts, and to disclose/report information (through itself or through its service providers), as far as may be legally permitted, about the holdings/investment returns pertaining to US reportable accounts to the US Internal Revenue Service (IRS) and/or such Indian authorities as may be specified under FATCA or other applicable laws or guidelines; and to carry out such other activities, as prescribed under FATCA or other applicable laws or guidelines, as amended from time to time.

Further, FATCA due diligence will have to be directed at each investor/unit holder (including joint investor). Once a given investor is identified as a reportable person/specified US person, all the folios of that investor will be reported – including those where the investor may be a joint holder. Further, in case of a folio with joint investors, the entire account value of the investment portfolio will be attributable under each such reportable person. Investors/Unit holders would therefore be required to furnish such information to the Fund/the AMC, from time to time, in order to comply with the reporting requirements stated in the IGA and circulars/guidelines issued by SEBI/AMFI in this regard. The information disclosed may include (but is not limited to) the identity of the investors and their direct or indirect beneficiaries, beneficial owners and controlling persons.

The impact of FATCA is relevant not only at the point of on-boarding of investors but also throughout the life cycle of the investor account/ folio with the Fund. Hence, investor(s) should immediately intimate the Fund/AMC, in case of any change in the FATCA related information provided by them at the time of initial subscription.

Investors are advised to consult their tax advisors to understand the FATCA requirements and its implications in relation to their investment. Further, Investors are requested to submit the duly completed FATCA form available on the AMC's website [www.unionmf.com](http://www.unionmf.com).

Investors are requested to note that under the alternative procedure provided in Rule 114H(8) of the Income-tax Rules, 1962, the financial institutions were needed to obtain self-certification and carry out due diligence in respect of all individual and entity

accounts opened from 1st July 2014 to 31st August 2015. Such self-certification and documentation was required to be obtained by the financial institutions by 31st August 2016, otherwise they were required to close the accounts and report the same if found to be a "reportable account" as per the prescribed due diligence procedure for pre-existing account.

### 33. Levy of Stamp Duty on applicable mutual fund transactions

Pursuant to Part I of Chapter IV of the Notification dated February 21, 2019, issued by the Legislative Department, Ministry of Law and Justice, Government of India, on the Finance Act, 2019, read with subsequent notifications including Notification dated March 30, 2020 issued by Department of Revenue, Ministry of Finance, Government of India, a stamp duty at the rate of 0.005% of the transaction value would be levied on applicable mutual fund investment transactions such as purchases (including switch-in, Reinvestment of Income Distribution cum Capital Withdrawal) with effect from July 1, 2020. Accordingly, pursuant to levy of stamp duty, the number of units allotted on purchases, switch-ins, Systematic Investment Plan (SIP) installments, Systematic Transfer Plan (STP) installments, Reinvestment of Income Distribution cum Capital Withdrawal etc. to the unit holders would be reduced to that extent. The stamp duty will be deducted from the net investment amount i.e. gross investment amount less any other deduction like transaction charge. Units will be created only for the balance amount i.e. Net Investment Amount as reduced by the stamp duty. The stamp duty will be computed at the rate of 0.005% on an inclusive method basis.

For instance: If the transaction amount is ₹ 100100/- and the transaction charge is ₹ 100, the stamp duty will be calculated as follows:  $((\text{Transaction Amount} - \text{Transaction Charge}) / 100.005 * 0.005) = ₹ 5$ . If the applicable Net Asset Value (NAV) is ₹ 10 per unit, then units allotted will be calculated as follows:  $(\text{Transaction Amount} - \text{Transaction Charge} - \text{Stamp Duty}) / \text{Applicable NAV} = 9,999.50$  units.

3. All Purchase and Switch transactions including SIP/STP transactions received through the stock exchange platforms through a distributor whose ARN is suspended shall be rejected, since the money and units pertaining to such transactions move through the Broker Pool account.
4. In case where the ARN has been permanently terminated, the unitholders have the following options;

There should not be any linkages across schemes while investing in partly paid debentures. For example: if the agreement for partly paid debentures also envisages investment in any other type of instrument such as a commercial paper then the AMC should ensure that subscription to the residual part of the issue / the investment in the other instrument is made by the scheme which made the original investment in partly paid debentures.</li> <li>3. While investing in partly paid debentures, the AMC shall ensure that interest of one set of unitholders / schemes is not compromised at the cost of another.</li> </ol>

		<p>4. All regulatory limits shall be complied with at the time of each such part payment.</p> <p>5. In order to avoid a situation where a MF scheme is unable to honor future part payments, the AMC shall avoid excessive concentration in partly paid debentures.</p> <p>6. Any investment in partly paid debentures shall be disclosed in the monthly portfolio disclosures of the scheme. This will include, inter-alia, the amount that has been contracted but not yet paid by the scheme, the dates of such future pay-ins, triggers for future pay-ins as well as any other detail that the AMC may consider is of material interest to its investors.</p>
2	<b>CONVERTIBLE DEBENTURES AND BONDS</b>	The non-convertible and convertible components of convertible debentures and bonds shall be valued separately. The non-convertible component would be valued on the same basis as would be applicable to a debt instrument. The convertible component shall be valued on the same basis as would be applicable to equity instrument. If, after conversion the resultant equity instrument would be traded pari passu with an existing instrument, which is traded, the value of latter instrument can be adopted after an appropriate discount for the non-tradability of the instrument during the period preceding conversion. While valuing such instruments, the fact whether the conversion is optional will also be factored in. For this purpose the cost split between convertible part and non convertible part, rate of discount to be applied on convertible part and assigning the weights to the options available will be decided by Valuation Committee on case to case basis.
3	<b>EQUITY AND EQUITY RELATED INSTRUMENTS</b>	
3.1	<b>Traded Equity Securities</b>	<p>a. Traded Equity securities are valued at the last quoted closing price on the principal stock exchange.</p> <p>b. When the securities are traded on more than one recognised stock exchange, the securities shall be valued at the last quoted closing price on the stock exchange. The AMC has selected National Stock Exchange (NSE) as the Principal Stock Exchange and the Bombay Stock Exchange (BSE) as the Secondary Stock Exchange. If the security is not traded in any of the two exchanges then the value at which it is traded on another stock exchange may be used. In case selected stock exchange for valuation of any or all securities is to be changed, reasons for change have to be recorded in writing by the valuation committee and approved by the Board of AMC &amp; the Trustees.</p> <p>c. When the equity security is not traded on any stock exchange on a particular valuation day, the value at which it was traded on the selected stock exchange, as the case may be, on the earliest previous day may be used provided such date is not more than 30 days prior to valuation date.</p>
3.2	<b>Thinly Traded / Non-traded / Suspended Equity / Equity related securities</b>	<p>a. When trading in an equity and/or equity related security (such as convertible debentures, equity warrants etc.) in a month is both less than Rs.5 lacs and the total volume is less than 50,000 shares, the security shall be considered as thinly traded security and valued accordingly.</p> <p>b. Further it is clarified that in order to determine whether a security is thinly traded or not, the volumes traded in all recognised stock exchanges in India may be taken into account.</p> <p>c. Where Fund Accountants / BILAV identifies the "thinly traded" securities by applying the above parameters for the preceding calendar month and provide the required information along with the daily quotations, the same can be used by the Mutual Fund.</p> <p>d. If the share is not listed on the stock exchanges which provide such information, then it will be obligatory on the part of the mutual fund to make its own analysis in line with the above criteria to check whether such securities are thinly traded which would then be valued accordingly.</p> <p>e. In case trading in an equity security is suspended for trading on the stock exchange up to 30 days, then the last traded price would be considered for valuation of that security. If an equity security is suspended for trading on the stock exchange for more than 30 days, then it would be considered as non traded and valued accordingly.</p>
3.3	<b>Valuation of Non-Traded / Thinly Traded Equity Securities</b>	<p>Non- traded / thinly traded securities shall be valued "in good faith" by the asset management company on the basis of the valuation principles laid down below:</p> <p>Based on the latest available audited Balance Sheet, net worth shall be calculated as follows:</p> <p>a. Net Worth per share =</p> $\frac{\text{Share Capital} + \text{Reserves (excluding Revaluation Reserves)} - \text{Miscellaneous Expenditure and Debit Balance in Profit and Loss Account}}{\text{Number of Paid up Shares}}$ <p>(Note: Audit qualifications with quantified effect if any, having a bearing on the net worth of the company (i.e. numerator) should be reckoned appropriately)</p> <p>b. Average capitalisation rate (P/E ratio) for the industry based upon either BSE or NSE data (which should be followed consistently and changes, if any noted with proper justification thereof) shall be taken and discounted by 75% i.e. only 25% of the Industry average P/E shall be taken as capitalisation rate (P/E ratio). Earnings per share of the latest audited annual accounts will be considered for this purpose.</p> <p>c. The value as per the net worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 10% for ill-liquidity so as to arrive at the fair value per share. In exceptional circumstance the Valuation Committee may decide the illiquidity discount of higher or lower than 10%.</p>

		<p>d. In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalised earning.</p> <p>e. In case where the latest balance sheet of the company is not available within nine months from the close of the year, unless the accounting year is changed, the shares of such companies shall be valued at zero.</p> <p>f. In case an individual security accounts for more than 5% of the total assets of the scheme, an independent valuer shall be appointed for the valuation of the said security. To determine if a security accounts for more than 5% of the total assets of the scheme, it should be valued by the procedure above and the proportion which it bears to the total net assets of the scheme to which it belongs would be compared on the date of valuation.</p> <p>g. In case of non-traded Partly Paid up Equity Shares, wherein the company has not issued fully paid up Equity Shares or the Fully paid up Equity Shares are also Non Traded; the formula given in point (a) above to be replaced with below formula and provisions of point (b) to (f) will be applied as it is:  Net Worth per partly paid share =  <math display="block">\frac{[\text{Total Paid up Share Capital} + \text{Reserves (excluding Revaluation Reserves)} - \text{Miscellaneous Expenditure and Debit Balance in Profit and Loss Account}] * \text{Per Share Paid Up Capital of Partly Paid Shares}}{\text{Total Paid Up Share Capital}}</math> (Note: Audit qualifications with quantified effect if any, having a bearing on the net worth of the company (i.e. numerator) should be reckoned appropriately)</p> <p>h. In case of non-traded Partly Paid up Equity Shares, wherein company has issued Fully paid up Equity Shares and the same are traded; valuation price will be arrived as follows:  Valuation Price Per non-traded Partly Paid Equity Share=  Closing Price of fully paid up Equity Shares –(minus) Unpaid amount on Partly Paid Equity Shares.  The value calculated as above shall be further discounted by 10% for illiquidity. In exceptional circumstance the Valuation Committee may decide the illiquidity discount of higher or lower than 10%.  A non-traded / thinly traded equity share may be valued at a price lower than the value derived using the aforesaid methodology, at the discretion of the AMC. A non-traded / thinly traded equity share may be valued at a price higher than the value derived using the aforesaid methodology with adequate justification and with the prior approval of the Trustees.</p> <p>i. Valuation of Partly Paid Shares after paying final call money:  When final call money is paid on Partly Paid shares, the shares shall be valued at the traded price of the existing listed fully paid equity shares of the respective company from the date of payment of Final Call Money.  After the closure of window for payment of final call money, if the shares do not get listed within 30 days and the cost of our holding is more than 5% of AUM of the scheme; the valuation of the shares will be discounted by 15% for ill-liquidity. In exceptional circumstances the Valuation Committee may decide the illiquidity discount of higher or lower than 15%.</p>
3.4	Demerger	<p>On de-merger following possibilities arise which influence valuation these are:</p> <p>a. The holding cost of the shares can be bifurcated on available information on the de-merger scheme.</p> <p>b. Both the shares are traded immediately on de-merger: In this case both the shares are valued at respective traded prices.</p> <p>c. Shares of only one company continued to be traded on de-merger: Traded shares is to be valued at traded price and the other security is to be valued at traded value on the day before the de merger less value of the traded security post de merger. In case value of the share of de merged company is equal or in excess of the value of the pre de merger share, then the non-traded share is to be valued at zero.</p> <p>d. Both the shares are not traded on de-merger: Shares of de-merged companies are to be valued equal to the pre de merger value up to a period of 30 days from the date of de merger. The market price of the shares of the de-merged company one day prior to ex-date can be bifurcated over the de-merged shares. The market value of the shares can be bifurcated on a fair value basis, based on available information on the de-merger scheme.</p> <p>e. In case shares of either of the companies are not traded for more than 30 days, these are to be valued as unlisted security, till the time these are listed. However, valuation of Unlisted securities requires audited balance sheet(s). If the audited balance sheets after demerger are not available within 30 days, then such non-traded securities will be linked to a Sectoral index of NSE or BSE. The price determined as per earlier paragraph will be adjusted for movement in the linked index between ex-date and valuation date. This will be further reduced by applying the illiquidity discount. Valuation by this method will be done on daily basis after the period of 30 days till the time the securities are listed. The linking of company with a Sectoral index and rate of illiquidity discount will be decided by the Valuation Committee.</p>

3.5	Preference Shares	<p>SEBI has not prescribed any methodology for valuation of preference shares. Valuation of non-traded preference shares would depend on the terms of issue of preference shares. i.e. convertible/non-convertible.</p> <ol style="list-style-type: none"> <li>Convertible preference shares should be valued like convertible debentures.</li> <li>Non-convertible preference shares should be valued like debentures. However, if company does not pay dividend in any year, it would be treated like non-performing debentures.</li> </ol>
3.6	Unlisted Equity Shares	<p>Unlisted equity shares of a company shall be valued "in good faith" on the basis of the valuation principles laid down below:</p> <p><b>Based on the latest available audited balance sheet, net worth shall be calculated as follows:</b></p> <ol style="list-style-type: none"> <li>Net worth per share = [share capital plus reserves (excluding revaluation reserves) minus Miscellaneous expenditure and Debit Balance in Profit and Loss account] divided by Number of Paid up Shares.</li> </ol> <p>"(Note: Audit qualifications with quantified effect if any, having a bearing on the net worth of the company (i.e. numerator) should be reckoned appropriately)"</p> <ol style="list-style-type: none"> <li>Average capitalisation rate (P / E ratio) for the industry based upon either BSE or NSE data (which should be followed consistently and changes, if any, noted with proper justification thereof) shall be taken and discounted by 75% i.e. only 25% of the Industry average P / E shall be taken as capitalisation rate (P / E ratio). Earnings per share of the latest audited annual accounts will be considered for this purpose.</li> <li>The value as per the net worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 15% for illiquidity so as to arrive at the fair value per share. In exceptional circumstance the Valuation Committee may decide the illiquidity discount of higher or lower than 15%.</li> <li>In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalised earning.</li> <li>In case where the latest balance sheet of the company is not available within nine months from the close of the year, unless the accounting year is changed, the shares of such companies shall be valued at zero.</li> <li>In case an individual security accounts for more than 5% of the total assets of the scheme, an independent valuer shall be appointed for the valuation of the said security. To determine if a security accounts for more than 5% of the total assets of the scheme, it should be valued by the procedure above and the proportion which it bears to the total net assets of the scheme to which it belongs would be compared on the date of valuation.</li> </ol> <p>An unlisted equity share may be valued at a price lower than the value derived using the aforesaid methodology, at the discretion of the AMC. An unlisted equity share may be valued at a price higher than the value derived using the aforesaid methodology with adequate justification and with the prior approval of the Trustees.</p>
3.7	Warrants	<p>In respect of warrants to subscribe for shares attached to instruments, the warrants would be valued at the value of the share which would be obtained on exercise of the warrant as reduced by the amount which would be payable on exercise of the warrant. An appropriate discount shall be deducted after obtaining necessary approval from Valuation Committee; to account for the period, which must elapse before the warrant can be exercised.</p>
3.8	Rights	<p>Until they are traded, the value of "rights" shares shall be calculated as:</p> $V_r = n \div m \times (P_{ex} - P_{of})$ <p>Where</p> <p><math>V_r</math> = Value of rights</p> <p><math>n</math> = no. of rights offered</p> <p><math>m</math> = no. of original shares held</p> <p><math>P_{ex}</math> = Ex-rights price</p> <p><math>P_{of}</math> = Rights Offer Price</p> <p>Where the rights are not treated pari passu with the existing shares, suitable adjustments shall be made to the value of the rights. For example, for restrictions with regard to dividend etc., suitable adjustment should be made by way of a discount to the value of rights at the last dividend announced rate.</p> <p>When the entitled rights shares are applied and paid, such rights shares shall be valued at the traded price of existing fully paid shares of the company for the quantity entitled, applied and paid. However, for the additional quantity (quantity over and above the entitled quantity) applied, the application money paid will be accounted as current asset and no valuation will be done till the date of allotment.</p> <p>After the closure of window for payment of rights subscription money, if the shares do not get listed within 30 days and the cost of our holding is more than 5% of AUM of the scheme; the valuation of the shares will be discounted by 15% for ill-liquidity. In exceptional circumstances the Valuation Committee may decide the illiquidity discount of higher or lower than 15%.</p> <p>Where it is decided not to subscribe for the rights but to renounce them and renunciations are being traded, the rights can be valued at the renunciation value.</p>

		<p>In case original shares on which the right entitlement accrues are not traded on the Stock Exchange on an ex-right basis, right entitlement should not be recognised as investments.</p> <p>Where right entitlements are not traded and it was decided not to subscribe the rights, the right entitlements have to be valued at zero.</p>
4	<b>DERIVATIVES</b>	<p>The traded derivative shall be valued at market price in conformity with the stipulations of sub clauses (i) to (v) of clause 1 of the Eighth Schedule to the SEBI (MF) Regulations.</p> <p>Market values of traded open futures and option contracts shall be determined with respect to the exchange on which contracted originally, i.e., a future or an option contracted on the National Stock Exchange (NSE) would be valued at the closing price on the NSE.</p> <p>The price of the same futures and option contract on the Bombay Stock Exchange (BSE) cannot be considered for the purpose of valuation, unless the futures or option itself has been contracted on the BSE.</p> <p>The same shall be valued at closing price if the contract is traded on the valuation day. In case there is no trade on valuation day then the same shall be valued at Settlement prices.</p>
5	<b>MUTUAL FUND UNITS</b>	<p>a. Mutual Fund Units listed and Traded would be valued at the closing price as on the valuation date.</p> <p>b. Mutual Fund Units listed but not traded on the valuation day, the valuation will be done at the last available NAV reduced by illiquidity discount. The illiquidity discount will be 10% of the NAV of the scheme / plan or as decided by the Valuation Committee.</p> <p>c. Unlisted Mutual Fund Units would be valued at the NAV as on the valuation date.</p> <p>d. In case of Investments made by a scheme into the other scheme of Union Mutual Fund the unpublished NAV would be considered for valuation on March 31 whenever the last day of the financial year falls on a non-business day. Approval of valuation committee will be required to consider unpublished NAV for valuation of MF units on any other non-business day.</p>
6	<b>FOREIGN SECURITIES</b>	<p>There are no specific SEBI guidelines on valuation of foreign securities at present. In the absence of any guidelines, the below process of valuation will be followed, however, the Valuation Committee may decide the applicability on case to case basis:</p> <p>a. The security issued outside India and listed on the stock exchanges outside India shall be valued at the closing price on the stock exchange at which it is listed. However in case a security is listed on more than one stock exchange, the AMC reserves the right to determine the stock exchange, the price of which would be used for the purpose of valuation of that security. Any subsequent change in the reference stock exchange used for valuation will be backed by reasons for such change being recorded in writing by the AMC. If a significant event has occurred after security prices were established for the computation of NAV of the Scheme, the AMC reserves the right to value the said securities on fair value basis.</p> <p>b. When on a particular valuation day, a security has not been traded on the selected stock exchange; the value at which it was traded on the selected stock exchange, on the earliest previous day may be used provided such date is not more than 30 days prior to valuation date. If the traded price is more than 30 days prior to the valuation date, the AMC reserves the right to value the said securities on fair value basis.</p> <p>c. Before investing in unlisted foreign securities, valuation methodology would be laid down by the Valuation Committee.</p> <p>d. In compliance with the clause 8.2 of the SEBI Master Circular for Mutual Funds dated May 19, 2023 pertaining to Review of time limit for disclosure of NAV of Mutual fund schemes investing overseas, AMC shall ensure that NAV of schemes is disclosed based on the value of underlying securities/ Funds as on the T-day (i.e. date of investment in MF units in India). Accordingly, the T-day prices of overseas securities provided by Reuters / Bloomberg would be used for valuation. (The provision shall be applicable with effect from July 01, 2023). The Trustees reserve the right to change the source for determining the price.</p> <p>e. On the Valuation Day, all assets and liabilities denominated in foreign currency will be valued in Indian Rupees at the exchange rate available on Bloomberg / Reuters / RBI at the close of banking hours in India. The Trustees reserve the right to change the source for determining the exchange rate.</p>

## D. GENERAL AREAS COVERED

### 1. DOCUMENTATION

#### Documentation of rationale for valuation

Documentation of rationale for valuation including inter scheme transfers shall be maintained and preserved by the asset management company as per regulation 50 of SEBI (Mutual Funds) Regulations, 1996 to enable audit trail.

### 2. PERIODIC REVIEW

The Valuation Committee shall be responsible to regularly review the valuation policies and procedures and seek the appointment of independent auditors from the AMC Board / Audit, Risk and Compliance Committee of the AMC Board. The valuation policies and procedures shall be regularly reviewed (at least once in a Financial Year) by the independent auditor to seek to ensure their continued appropriateness.

### 3. CONFLICT OF INTEREST

Valuation Committee on periodic basis shall review areas of conflict of interest such as valuations for investments in sponsors or associates of the sponsors and report to AMC & Trustee Boards.

Further, if there exists any difference of opinion between the Chief Investment Officer/Head-Fixed Income/Co-Heads Equity and the other members of the Valuation Committee the decision of the other members of the Committee would prevail subject to the Principles of Fair valuations and compliance with the other requirements of the Regulations.

Further, if any of the members of the Valuation Committee holds a conflict of interest position on any matter being discussed or deliberated in the Committee, the views of such member shall not be considered for the final decisions of the Committee.

### 4. ILLIQUID SECURITIES

- Aggregate value of "illiquid securities" of scheme, which are defined as non-traded, thinly traded and unlisted equity shares, shall not exceed 15% of the total assets of the scheme and any illiquid securities held above 15% of the total assets shall be assigned zero value.
- Mutual Fund shall disclose as on March 31 and September 30 the scheme-wise total illiquid securities in value and percentage of the net assets while making disclosures of half yearly portfolios to the unit holders. In the list of investments, an asterisk mark shall also be given against all such investments which are recognised as illiquid securities.
- Mutual Fund shall not be allowed to transfer illiquid securities among its schemes.

### 5. ACCRUAL OF EXPENSES AND INCOME

All expenses and incomes accrued up to the valuation date shall be considered for computation of net asset value. For this purpose, major expenses like management fees and other periodic expenses would be accrued on a day-to-day basis. The other minor expenses and income will be accrued on a periodic basis, provided the non-accrual does not affect the NAV calculations by more than 1%.

### 6. RECORDING OF CHANGES

Any changes in securities and in the number of Units will be recorded in the books not later than the first valuation date following the date of transaction. If this is not possible given the frequency of the Net Asset Value disclosure, the recording may be delayed up to a period of seven days following the date of the transaction, provided that as a result of the non-recording, the Net Asset Value calculations shall not be affected by more than 1%.

In case the Net Asset Value of a Scheme differs by more than 1%, due to non - recording of the transactions, the investors or

Scheme(s) as the case may be, shall be paid the difference in amount as follows: -

- If the investors are allotted Units at a price higher than Net Asset Value or are given a price lower than Net Asset Value at the time of sale of their Units, they shall be paid the difference in amount by the Scheme.
- If the investors are charged lower Net Asset Value at the time of purchase of their Units or are given higher Net Asset Value at the time of sale of their Units, the AMC shall pay the difference in amount to the Scheme(s). The AMC may recover the difference from the investors.

### 7. DEBT SECURITIES CLASSIFIED AS BELOW INVESTMENT GRADE OR DEFAULT

A money market or debt security shall be classified as "below investment grade" if the long term rating of the security issued by a SEBI registered Credit Rating Agency (CRA) is below BBB- or if the short term rating of the security is below A3.

A money market or debt security shall be classified as "Default" if the interest and / or principal amount has not been received, on the day such amount was due or when such security has been downgraded to "Default" grade by a CRA. In this respect, the AMC shall promptly inform to the valuation agencies and the CRAs, any instance of non-receipt of payment of interest and / or principal amount (part or full) in any security.

### 8. CONSISTENCY

Similar securities held under various schemes of the Mutual Fund shall be valued consistently.

### 9. INVESTMENT IN NEW TYPE OF SECURITY

Investment in any new type of security shall be made only after establishment of the valuation methodology for such security with the approval of the board of the AMC & Trustee Company.

### 10. PRICING OF INTER-SCHEME TRADES

The inter-scheme trades in debt and money market instrument would be priced as follows:

- The AMC shall seek prices for IST of any money market or debt security (irrespective of maturity), from the valuation agencies.
- If prices from the valuation agencies are received within the pre-agreed TAT, an average of the prices so received shall be used for IST pricing.
- If price from only one valuation agency is received within the agreed TAT, that price may be used for IST pricing.
- If prices are not received from any of the valuation agencies within the agreed TAT, AMCs shall determine the price for the IST, in accordance with Clause 3 (a) of Seventh Schedule of SEBI (Mutual Funds) Regulations, 1996 as follows:
  - At weighted average price of trades reported on FIMMDA platform up to 15 minutes from the deal entry in the front office system by the Fund Manager by applying below mentioned criteria:
    - For instruments maturing above 1 year, the traded price may be taken if there are at least two trades aggregating to Rs. 25 crores or more after excluding inter-scheme trades.
    - For instruments maturing less than 1 year, the traded price may be taken if there are at least three trades aggregating to Rs. 100 crores or more after excluding inter-scheme trades.
  - If there is no qualifying Total traded volume in the same security up to 15 minutes from the deal entry in the front office system by the Fund Manager, then the previous day portfolio valuation from selling scheme would be used.

The requirements of Paragraph 10 (i) to 10 (iii) above will be effective from November 22, 2019.

#### 11. USE OF OWN TRADE FOR VALUATION:

Union Mutual Fund will not use its own trades for valuation of debt and money market securities and for inter-scheme transfers.

#### Annexure 1

### AMFI GUIDELINES ON VALUATION APPROACH FOR TRADED AND NON-TRADED MONEY MARKET AND DEBT SECURITIES

#### Part A: Valuation of Money Market and Debt Securities other than G-Secs

#### Waterfall Mechanism for valuation of money market and debt securities:

The following shall be the broad sequence of the waterfall for valuation of money market and debt securities:

- i. Volume Weighted Average Yield (VWAY) of primary reissuances of the same ISIN (whether through book building of fixed price) and secondary trades in the same ISIN
- ii. VWAY of primary issuances through book building of same issuer; similar maturity (Refer Note 1 below)
- iii. VWAY of secondary trades of same issuer, similar maturity
- iv. VWAY of primary issuances through fixed price auction of same issuer, similar maturity
- v. VWAY of primary issuance through book building of similar issuer, similar maturity (Refer note 1 below)
- vi. VWAY of secondary trades of similar issuer, similar maturity
- vii. VWAY of primary issuance through fixed price auction of similar issuer, similar maturity
- viii. Construction of matrix (polling may also be used for matrix construction)
- ix. In case of exceptional circumstances, polling for security lever valuation (Refer note 2 below)

**Note 1:** Except for primary issuance through book building, polling shall be conducted to identify outlier trades. However, in case of any issuance through book building which is less than INR 100 Cr, polling shall be conducted to identify outlier trades.

**Note 2:** Some examples of exceptional circumstances would be stale spreads, any event/news in particular sector/issuer, rating changes, high volatility, corporate action of such other event as may be considered by valuation agencies. Here stale spreads are defined as spreads of issuer which were not reviewed/updated through trades/primary/polls in same or similar security/issuers of same/similar maturities in waterfall approach in last 6 months.

Further, the exact details and reasons for the exceptional circumstances which led to polling shall be documented and reported to AMCs. Further, a record of all such instances shall be maintained by AMCS and shall be subject to verification during SEBI inspections.

**Note 3:** All trades on stock exchanges and trades reported on trade reporting platforms till end of trade reporting time (excluding inter scheme transfers) should be considered for valuation on that day.

**Note 4:** It is understood that there are certain exceptional events, occurrence of which during market hours may lead to significant change in the yield of the debt securities. Hence, such exceptional events need to be factored in while calculating the price of the securities. Thus, for the purpose of calculation of VWAY of trades and identification of outliers, on the day of such exceptional events, rather than considering whole day trades, only those trade shall be considered which have occurred post the event (on the same day).

#### The following events would be considered exceptional events

- i. Monetary / Credit Policy
- ii. Union budget
- iii. Government Borrowing / Auction Days

- iv. Material Statements on Sovereign Rating
- v. Issuer of Sector Specific events which have a material impact on yields
- vi. Central Government Election Days
- vii. Quarter end days

In addition to the above, valuation agencies may determine any other event as an exceptional event. All exceptional events along-with valuation carried out on such dates shall be documented with adequate justification.

#### Definition of tenure buckets for Similar Maturity

When a trade in the same ISIN has not taken place, reference should be taken to trades of either the same issuer or similar issuer, where the residual tenure matches the tenure of the bond to be priced. However, as it may not be possible to match the exact tenure, it is proposed that tenure buckets are created and trades falling within such similar maturity be used as per table below

Residual Tenure of Bond to be priced	Criteria for similar maturity
Upton 1 month	Calendar Weekly Bucket
Greater than 1 month to 3 months	Calendar Fortnightly Bucket
Greater than 3 months to 1 year	Calendar Monthly Bucket
Greater than 1 year to 3 years	Calendar Quarterly Bucket
Greater than 3 years	Calendar Half Yearly of Greater Bucket

#### In addition to the above:

- a. In case of market events, or to account for specific market nuances, valuation agencies may be permitted to vary the bucket in which the trade is matched or to split buckets to finer time periods as necessary. Such changes shall be auditable. Some examples of market events/ nuances include cases where traded yields for securities with residual tenure of less than 90 days and more than 90 days are markedly different even though both may fall within the same maturity bucket, similarly for less than 30 days and more than 30 days or cases where yields for the last week v/s second last week of certain months such as calendar quarter ends can differ.
- b. In the case of illiquid/ semi liquid bonds, it is proposed that traded spreads be permitted to be used for longer maturity buckets (1 year and above). However, the yields should be adjusted to account for steepness of the yield curve across maturities.

The changes / deviations mentioned in clauses a and b, above, should be documented, along with the detailed rationale for the same. Process for making any such deviations shall also be recorded. Such records shall be preserved for verification.

#### Process for determination of similar issuer

Valuation agencies shall determine similar issuers using one or a combination of the following criteria. Similar issuer do not always refer to issuers which trade at same yields, but may carry spreads amongst themselves & move in tandem or they are sensitive to specific market factor/s hence warrant review of spreads when such factors are triggered.

- i. Issuers within same sector/industry and/or
- ii. Issuers within same rating band and/or
- iii. Issuers with same parent/ within same group and/or
- iv. Issuers with debt securities having same guarantors and/or
- v. Issuers with securities having similar terms like Loan Against Shares (LAS)/ Loan Against Property (LAP)

The above criteria are stated as principles and the final determination on criteria, and whether in combination or isolation shall be determined by the valuation agencies. The criteria used for such determination should be documented along with the detailed rationale for the same in

each instance. Such records shall be preserved for verification. Similar issuers which trade at same level or replicate each other's movements are used in waterfall approach for valuations. However, similar issuer may also be used just to trigger the review of spreads for other securities in the similar issuer category basis the trade/news/action in any security/ies within the similar issuer group.

#### 4. Recognition of trades and outlier criteria

##### i. Volume criteria for recognition of trades (marketable lot)

Paragraph 1.1.1.(a) of SEBI vide circular no. SEBI/HO/IMD/DF4/CIR/P/2019/102 dated September 24, 2019 on Valuation of money market and debt securities, prescribes that the marketable lots shall be defined by AMFI, in consultation with SEBI. In this regard, marketable lot is defined as under. The following volume criteria shall be used for recognition of trade by valuation agencies:

Parameter	Minimum Volume Criteria for marketable lot
Primary	INR 25 cr for both Bonds/NCD/CP/CD and other money market instruments
Secondary	INR 25 cr for CP/CD, T-Bills and other money market instruments
Secondary	INR 5 cr for Bonds/NCD/G-secs

Trades not meeting the minimum volume criteria i.e. the marketable lot criteria as stated above shall be ignored.

##### ii. Outlier criteria

It is critical to identify and disregard trades which are aberrations, do not reflect market levels and may potentially lead to mispricing of a security or group of securities. Hence, the following broad principles would be followed by valuation agencies for determining outlier criteria.

- Outlier trades shall be classified on the basis of liquidity buckets (Liquid, Semi-liquid, Illiquid). Price discovery for liquid issuers is generally easier than that of illiquid issuers and hence a tighter pricing band as compared to illiquid issuers would be appropriate.
- The outlier trades shall be determined basis the yield movement of the trade, over and above the yield movement of matrix. Relative movement ensures that general market movements are accounted for in determining trades that are outliers. Hence, relative movement over and above benchmark movement shall be used to identify outlier trades.
- Potential outlier trades which are identified through objective criteria defined above will be validated through polling from market participants. Potential outlier trades that are not validated through polling shall be ignored for the purpose of valuation.

- The following criteria shall be used by valuation agencies in determining Outlier Trades

Liquidity classification	BPS criteria (Yield movement over Previous Day yield after accounting for yield movement of matrix)		
	Upto 15 days	15-30days days	Greater than 30
Liquid	30 bps	20 bps	10 bps
Semi-liquid	45 bps	35 bps	20 bps
Illiquid	70 bps	50 bps	35 bps

The above criteria shall be followed consistently and would be subject to review on a periodic basis by valuation agencies and any change would be carried in consultation with AMFI.

- In order to ensure uniform process in determination of outlier trades the criteria for liquidity classification shall be as detailed below.

Liquidity classification criteria liquid semi -Liquid, semi-liquid and Illiquid definition

Valuation agencies shall use standard criteria for classifying trades as Liquid, Semi-liquid and illiquid basis the following two criteria

- Trading volume
- Spread over reference yield

Such criteria shall be reviewed on periodic basis in consultation with AMFI.

Trading volume (Traded days) based criteria:

Number of unique days an issuer trades in the secondary market or uses a new security in the primary market in a calendar quarter

- Liquid-> >=50% of trade days
- Semi liquid-> >=10% to 50% trade days
- Illiquid-> <10% of trade days

##### Spread based criteria:

Spread over the matrix shall be computed and based on thresholds defined, issuers shall be classified as liquid, semi liquid and illiquid. For bonds thresholds are defined as up to 15 bps for liquid; >15-75 bps for semi-liquid; >75bps for illiquid. (Here, spread is computed as average spread of issuer over AAA Public Sector Undertakings/Financial Institutions/Banks matrix), For CP/CD - upto 25 bps for liquid; >25-50 bps for semiliquid; >50bps for illiquid. (Here, spread is computed as average spread of issuer over A1+/AAA CD Bank matrix).

The thresholds shall be periodically reviewed and updated having regard to the market.

The best classification (liquid being the best) from the above two criteria (trading volume and spread based) shall be considered as the final liquidity classification of the issuer. The above classification shall be carried out separately for money market instruments (CP/CDs) and bonds.

## 5. Process for construction of spread matrix

Valuation agencies shall follow the below process in terms of calculating spreads and constructing the matrix:

Steps	Detailed Process
Step 1	<p>Segmentation of corporates-</p> <p>The entire corporate sector is first categorised across following four sectors i.e. all the corporates will be catalogued under one of the below mentioned bucket:</p> <ol style="list-style-type: none"> <li>1. Public Sector Undertakings/ Financial Institutions/ Banks;</li> <li>2. Non-banking Finance Companies - except Housing Finance Companies;</li> <li>3. Housing Finance Companies;</li> <li>4. Other Corporates</li> </ol>
Step 2	<p>Representative issuers-</p> <p>For the aforesaid 4 sectors, representative issuers (Benchmark Issuers) shall be chosen by the valuation agencies for only higher rating (i.e. "AAA" or AA+) Benchmark/Representative issuers will be identified basis high liquidity, availability across tenure in AAA/AA+ category and having lower credit/ liquidity premium. Benchmark issuers can be single or multiple for each sector.</p> <p>It may not be possible to find representative issuers in the lower rated segments, however in case of any change in spread in a particular rating segment, the spreads in lower rated segments should be suitably adjusted to reflect the market conditions. In this respect, in case spreads over benchmark are widening at a better rated segment, then adjustments should be made across lower rated segments, such that compression of spread is not seen at any step. For instance, if there is widening of spread of AA segment over the AAA benchmark, then there should not be any compression in spreads between AA and A rated segment and so on.</p>
Step 3	<p>Calculation of benchmark curve and calculation of spread-</p> <ol style="list-style-type: none"> <li>1. Yield curve to be calculated for representative issuers for each sector for maturities ranging from 1 month till 20 years and above.</li> <li>2. Waterfall approach as defined in Part A (1) above will be used for construction of yield curve of each sector.</li> <li>3. In the event of no data related to trades/primary issuances in the securities of the representative issuer is available, polling shall be conducted from market participants</li> <li>4. Yield curve for Representative issuers will be created on daily basis for all 4 sectors. All other issuers will be pegged to the respective benchmark issuers depending on the the sector, parentage and characteristics. Spread over the benchmark curve for each security is computed using latest available trades/ primaries/polls for respective maturity bucket over the Benchmark Issuer.</li> <li>5. Spreads will be carried forward in case no data points in terms of trades/ primaries/polls are available for any issuer and respective benchmark movement will be given</li> </ol>
Step 4	<ol style="list-style-type: none"> <li>1. The principles of VWAY, outlier trades and exceptional events shall be applicable while constructing the benchmark curve on the basis of trades/ primary issuances.</li> <li>2. In case of rating downgrade/credit event/change in liquidity or any other material event in Representative issuers, new Representative issuers will be identified. Also, in case there are two credit ratings, the lower rating to be considered.</li> <li>3. Residual tenure of the securities of representative issuers shall be used for construction of yield curve.</li> </ol>

### Part B: Valuation of G-Secs (T-Bill, Cash management bills, G-sec and SDL)

The following is the waterfall mechanism for valuation of Government securities:

- VWAY of last one-hour subject to outlier validation
- VWAY for the day (including a two quote, not wider than 5 bps on NDSOM), subject to outlier validation
- Two quote, not wider than 5 bps on NDSOM, subject to outlier validation
- Carry forward of spreads over the benchmark
- Polling etc.

Note:

1. VWAY shall be computed from trades which meet the marketable lot criteria stated in Part A of these Guidelines.

Outlier criteria: Any trade deviating by more than +/- 5 bps post factoring the movement of benchmark security shall be identified as outlier. Such outlier shall be validated through polling for inclusion in valuations. If the trades are not validated, such trades shall be ignored.

### AMFI GUIDELINES ON POLLING PROCESS FOR MONEY MARKET AND DEBT SECURITIES:

The Guidelines on polling issued by AMFI in consultation with SEBI are as under:

#### Polling Guidelines:

1. Valuation agencies shall identify the Mutual Funds who shall participate in the polling process on a particular day, taking into account factors such as diversification of poll submitters and portfolio holding of the Mutual Funds. Mutual Funds who are identified by the valuation agencies shall necessarily participate in the polling process. However, in case any Mutual Fund does not participate in the polling process, detailed reason for the same shall be recorded at the time and subsequently made available during SEBI inspections. In this respect, since a Mutual Fund may have investments in similar securities, a security not forming part of investment universe may not be considered as an adequate reason for not participating in the polling process.
2. Polling will be carried out on a daily basis by the valuation agencies, in terms of points 9- 11 below.
3. Each valuation agency needs to take polls from at least 5 unique Mutual Funds on a daily basis. Hence, between the two valuation agencies 10 unique Mutual Funds to be polled. They may cover more Mutual Funds, over and above this. For benchmark securities a poll constituting at least 5 responses will be considered as valid. In case of non-benchmark securities a poll constituting at least 3 responses will be considered as valid. The responses received by each valuation agency will be shared with the other agency also.
4. Median of polls shall be taken for usage in valuation process.
5. The valuation agencies will also need to cover as many non- Mutual Fund participants as possible, over and above the Mutual Funds, to improve on the polling output quality.
6. Endeavour would be made to have adequate representation of both holders and no holders of the same bond/same issuer for non-benchmark securities in the poll process. Where this is not possible, valuation agencies may seek polls from holders of bonds with a similar structure.
7. In the case of issuers with multiple notch rating upgrades / downgrades over short periods of time, valuation agencies shall:
  - a. Conduct polls with a larger universe of pollers.
  - b. Increase the frequency of polling.
8. Suo moto feedback on valuations should be entertained only through formal mails from persons designated by AMC for said purpose, and the same shall be validated through repolling. Any such feedback shall be duly recorded by the valuation agencies, including the reason for the challenge, results of repolling and subsequent changes in valuation on re-polling, if any. Such records shall be preserved by the valuation agencies, for verification.
9. Polling will be done for two sets of securities, Benchmark & Others.
10. Benchmark will be defined for the following categories across tenors.
  - a) Treasury Bills
  - b) Central Government Securities
  - c) State Government Securities
  - d) AAA PSU / PFI / PSU Banks
  - e) AAA Private
  - f) NBFC
  - g) HFC
  - h) Any other as required for improving fair valuations
11. Polling shall be conducted in the following two scenarios:
  - a) Validation of traded levels if they are outlier trades.
    - b) Non traded Securities (in exceptional circumstances as defined in the waterfall mechanism for valuation of money market and debt securities).
12. Best efforts should be made by poll submitters to provide fair valuation of a security.
13. The polling process will be revalidated by external audit of the valuation agencies with at least an annual frequency
14. AMCs shall have a written policy, approved by the Board of AMC and Trustees, on governance of the polling process. The aforesaid policy shall include measures for mitigation of potential conflicts of interest in the polling process and shall identify senior officials, with requisite knowledge and expertise, who shall be responsible for polling. Further, the policy should outline the following aspects.
  - a. the process of participating in a polling exercise.
  - b. identify the roles and responsibilities of persons participating in the polling.
  - c. include policies and procedures for arriving at the poll submission
  - d. cover the role of the Board of AMC and Trustees, and the periodic reporting that needs to be submitted to them.
  - e. All polling should be preferably over email. In case for any reason, the polling is done by way of a telephonic call then such a call should be over recorded lines, followed subsequently by an email.
  - f. AMCs should have adequate business continuity arrangements for polling, with the necessary infrastructure / skill to ensure that consistent delivery of poll submissions is made without material interruption due to any failure, human or technical.
15. All polling done will have to be documented and preserved in format approved by the Board of AMC, for a period of eight years, along-with details of the basis of polling (such as market transactions, market quotes, expert judgement etc.).
16. AMCs shall ensure that participation in the polling process is not mis-used to inappropriately influence the valuation of securities. The officials of the AMC who are responsible for polling in terms of point no. 14 above, shall also be personally liable for any misuse of the polling process.
17. AMCs shall maintain an audit trail for all polls submitted to valuation agencies.

## Annexure 3

### AMFI Guidelines for Valuation of Bonds issued under Basel III framework

1. Currently a bond is considered traded, if there is at least one trade in market lot in that particular ISIN. If the bond does not get traded there is a defined waterfall mechanism for valuation of that bond as per AMFI Best Practice Guideline circular no. NO.83 / 2019-20 dated November 18, 2019.
2. The said waterfall requires grouping of same issuer with similar maturity and similar issuers with similar maturity. However, in case any ISIN of issuer has not traded, the valuation of AT-1 Bonds is currently done based on adjusting spread directly to the benchmark security.
3. In order to improve existing valuation of these bonds and implement the defined waterfall, following is proposed to be done:
  - i. Form two types of ISINs:
    - a) Benchmark ISINs (a non-benchmark ISIN can be linked to only one benchmark ISIN. Currently, SBI ISINs happens to be the benchmark ISINs across all maturities for AT-1 Bonds.)
    - b) Non-benchmark ISINs (Will be divided into multiple groups based on similar issuer and similar maturity).

- c) The groups will be decided in consultation with valuation agencies. The two main criteria envisaged to be used here would be Tier 1 / Tier 2 ratings of the ISINs / Issuers, and the spread range in which the group of ISINs / Issuer's trade over the benchmark.
- ii. Take a look back period for trade recognition as under:
  - a) 15 working days for benchmark ISINs
  - b) 30 working days for non-benchmark ISINs
  - c) This will be revised to 7 working days for benchmark ISIN and 15 working days for non-benchmark ISINs from October 01, 2021.
- 4. If the ISIN gets traded, the traded YTM will be taken for the purpose of valuation. Further, if 1 ISIN of the issuer trades all other ISINs of issuers will be considered as traded but with necessary adjustment of spread to YTM. If none of the ISIN of the issuer gets traded, the trade of similar issuer in the group will be taken to valuation however with necessary adjustment of spread to YTM of similar issuer similar maturity. If none of the ISIN in a group gets traded on any particular day, an actual trade in a look back period will be seen. If there is an actual trade in look back period the security will be considered as traded and valued with necessary adjustment of spread to YTM. According to this valuation will be done based on the trade of issuer, trade of similar issuer and as an additional layer a look back period of is requested. It is confirmed that spread over YTM will be taken without any adjustment of modified duration to call.
- 5. Further, as the valuation is based on trade during the look back period, it is confirmed that a spread will be adjusted to reflect adverse news, change in credit rating, interest rate etc., which has bearing on the yield of ISIN being valued.
- 6. However, if there is no actual trade of any ISIN of the issuer as well as similar issuer during look back period also then valuation will be done by taking spread over matrix and/or polling in line with the waterfall mechanism prescribed by AMFI.
- 7. AMC's shall adopt maturity of 100 years for perpetual bond issued by banks. There will be a glide path for smooth implementation. The Deemed Residual Maturity for the Purpose of Calculation of valuation as well as Macaulay Duration for existing as well as new perpetual bonds issued:

Time Period	Deemed Residual Maturity (Years)
Till March 31, 2022	10
April 01, 2022 – September 31, 2022	20
October 01, 2022 – March 31, 2023	30
March 31, 2023 onwards	100

# the residual maturity will always remain above the deemed residual maturity proposed above.

- 8. Hitherto, Mutual Fund industry used to value Tier II bonds considering first call date as a deemed maturity date. Therefore, a glide path is required for valuation as well as calculation of Macaulay Duration for tier II bonds also. Accordingly, valuation methodology, as mentioned above, for AT-1 Bonds is to be followed for the valuation of tier II bonds also. Further, the Macaulay Duration is proposed to be calculated as under for Tier II bonds:

Time Period	Deemed Residual Maturity for all securities (Years)
April 01, 2021 – March 31, 2022	10 years or contractual maturity whichever is earlier
April 01, 2022 onwards	Actual Maturity

Besides, AT-1 bonds and Tier 2 bonds being different categories of bonds, the valuation of these bonds will be done separately (i.e.) ISIN of AT-1 bond traded will not mean that ISIN of Tier-2 bonds of the same issuer have also traded. However, if any issuer does not exercise call option for any ISIN, then the valuation and calculation of Macaulay Duration should be done considering maturity of 100 years from the date of issuance for AT-1 Bonds and Contractual Maturity for Tier 2 bonds, for all ISINs of the issuer.

- 10. It is confirmed that the Macaulay Duration of ISINs will be calculated based on the deemed residual maturity proposed in para 7 and 8 above to reflect the duration risk.
- 11. Further, henceforth mutual funds will disclose both Yield to Call and Yield to Maturity.

Pursuant to Regulation 29A of the SEBI (MF) Regulations, the AMC is providing an option to the Unit holder to nominate (in the manner prescribed under the SEBI (MF) Regulations), a person(s) in whom the Units held by him shall vest in the event of his death.

The Unit Holder/s can at the time an application is made or by subsequently writing to a Official Point of Acceptance of transactions, request for a Nomination Form in order to nominate one/more person/s (multiple nominations) to receive the Units upon his/ her death subject to the completion of the necessary formalities. To enable the AMC to transfer the unit holdings in the name of the Nominee upon death of a Unitholder, the AMC shall call for requisite documents from the Nominee (for list of documents please refer to section on 'Transfer and Transmission of units').

Nomination will be maintained at the folio or account level and will be applicable for investments in all schemes in the folio or account.

Where the Units are held by more than one person jointly, the joint Unit holders may together nominate a person(s) in whom all the rights in the Units shall vest in the event of death of all the joint Unit holders. In such cases, all joint holders should

sign the request for nomination/cancellation of nomination, even if the mode of holding is not "Joint".

Pursuant to SEBI Master Circular for Mutual Funds dated May 19, 2023, SEBI has mandated submission of nomination details/declaration for opting out of nomination for investors subscribing to mutual fund units on or after October 1, 2022.

Accordingly, Investors subscribing to units of the Schemes of Union Mutual Fund on or after October 1, 2022 are compulsorily required to provide:

By provision of this facility the AMC is not in any way attempting to grant any rights other than those granted by law to the nominee(s). A nomination in respect of the Units does not create an interest in the property after the death of the Unit holder. The nominee(s) shall receive the Units only as an agent and trustee for the legal heirs or legatees as the case may be. It is hereby clarified that the nominees(s) under the nomination facility provided herein shall not necessarily acquire any title or beneficial interest in the property by virtue of this nomination.

Non-individuals including society, trust, body corporate, partnership firm, Karta of Hindu Undivided Family, holder of Power of Attorney cannot nominate. Nomination will be not allowed in a folio held on behalf of a minor. The Nominee shall not be a trust other than a religious or charitable trust, society, body corporate, partnership firm, Karta of Hindu Undivided Family or a Power of Attorney holder.

A non-resident Indian can be a Nominee subject to the exchange controls in force from time to time. Minor(s) can be nominated and in that event, the name and address of the guardian of the minor nominee shall be provided by the Unit holder. However, in such cases, the unit holder(s) cannot be the guardian of the nominated minor. Nomination can also be in favour of the Central Government, State Government, a local authority, any person designated by virtue of his office or a religious or charitable trust.

Nomination can be made for maximum of three nominees. In case of multiple nominees, the percentage of allocation / share in favour of each of the nominees should be indicated against their name and such allocation / share should be in whole numbers without any decimals making a total of 100 percent. In the event of Unitholders not indicating the percentage of allocation / share for each of the nominees, the Mutual Fund / AMC, by invoking default option shall settle the claim equally amongst all the nominees.

Nomination in respect of the Units stands rescinded upon the redemption of Units. Every new nomination for a folio/account will overwrite the existing nomination. Cancellation of nomination can be made only by those individuals who hold Units on their own behalf singly or jointly and who made the original nomination. On cancellation of the nomination, the nomination shall stand rescinded and the Mutual Fund / AMC shall not be under any obligation to transfer the Units in favour of the nominee(s).

The nomination facility extended under the Scheme is subject to existing laws. The AMC shall, subject to production of such evidence which in their opinion is sufficient, proceed to effect the payment to the Nominee(s). Transfer of Units / payment to the nominee(s) of the sums shall discharge the Mutual Fund / AMC of all liability towards the estate of the deceased Unit holder and his/her/their successors/legal heirs.

#### **Nomination in case of Units held in Electronic (Demat) Mode**

For units of the Scheme(s) held in electronic (demat) form with the Depository, the nomination details provided by the Unit holder to the depository will be applicable to the Units of the Scheme. Payment to the nominee of the sums shall discharge the Mutual Fund of all liability towards the estate of the deceased Unit holder and his/her legal successors/legal heirs. In case nomination has been made for DP account with joint holders, in case of death of any of the joint holder(s), the securities will be transmitted to the surviving holder(s). Any addition / deletion of name from the folio of the Unit holder is deemed as transfer of Units. In view of the same, additions / deletions of names will not be allowed under any folio of the Scheme. The said provisions in respect of deletion of names will not be applicable in case of death of a Unit holder (in respect of joint holdings) as this is treated as transmission (transfer of units by operation of law) of Units and not transfer.

If a transferee becomes a holder of the Units by operation of law or upon enforcement of a pledge, then the AMC shall, subject to production of such evidence and submission of such documents, which in their opinion is sufficient, proceed to effect the transfer, if the intended transferee is otherwise eligible to hold the Units.

The securities lent will be returned by the borrower on the expiry of the stipulated period.

Such investments shall be made when in view of the Fund Manager, such investments could provide reasonable returns commensurate with risks associated with such investments and shall be made in accordance with the investment objective of the Scheme. The AMC will adhere to strict limits should it engage in Stock Lending. The lending transactions may require procurement of collateral which would exceed in value, the value of the securities lent. The collateral can be in the form of cash, bank guarantee, government securities or certificate of deposits or other securities as may be agreed upon with the approved intermediary.

As with other modes of extensions of credit, there are risks inherent to stock lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent out securities and this can lead to temporary illiquidity. The AMC with a view to enhance the returns of the Schemes, may increase exposure in stock lending activities as deemed fit from time to time.

If permitted by SEBI under extant regulations/guidelines, the scheme may also engage in stock borrowing. The Scheme may also enter into 'Repo/Reverse Repo' transactions, as may be permitted from time to time. Stock borrowing means the borrowing of stock from another person or entity for a fixed period of time, at a negotiated compensation. The securities borrowed will be returned to the lender on expiry of the stipulated period.

Under the Regulations, the Fund is allowed to borrow to meet the temporary liquidity needs of the Fund for the purpose of repurchase, redemption of Units or payment of interest or IDCW to the Unitholders. Further, as per the Regulations, the Fund shall not borrow more than 20% of the Net Assets of the Scheme and the duration of such borrowing shall not exceed a period of six months or as may be permitted by the Regulations from time to time. The Fund may raise such borrowings after approval by the Trustee from its Sponsor/any of its Associates/Group companies/Commercial Banks in India or any other entity at market related rates prevailing at the time and applicable to similar borrowings. The security for such borrowings, if required, will be as determined by the Trustee. Such borrowings, if raised, may result in a cost, which would be dealt with in consultation with the Trustee.

**xi. Provision for creation of Segregated Portfolio in Designated Schemes of Union Mutual Fund:**

Pursuant to Notice cum addendum dated September 06, 2019 to the Scheme Information Document (SID) and Key Information Memorandum (KIM) of designated schemes of Union Mutual Fund, the following provisions are inserted as a separate point under sub section C. 'General Information' in the SAI:

**"Segregated Portfolio:**

In case of a credit event at issuer level and to deal with liquidity risk, the AMC may create a segregated portfolio of debt and money market instruments under certain Schemes (refer SID of respective Scheme) in compliance with the SEBI Master Circular for Mutual Funds dated May 19, 2023, as amended from time to time.

In this regard, the term 'segregated portfolio' shall mean a portfolio comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme, the term 'main portfolio' shall mean the scheme portfolio excluding the segregated portfolio and the term 'total portfolio' shall mean the scheme portfolio including the securities affected by the credit event.

The AMC may create a segregated portfolio in a mutual fund scheme in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:

- a. Downgrade of a debt or money market instrument to 'below investment grade', or

- b. Subsequent downgrades of the said instruments from 'below investment grade', or
- c. Similar such downgrades of a loan rating.

In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as detailed above and implemented at the ISIN level. Creation of segregated portfolio shall be optional and at the discretion of the AMC.

The AMC shall decide on creation of segregated portfolio on the day of the credit event. Further, the AMC shall seek approval of the Trustees prior to creation of the segregated portfolio.

Further, as per SEBI Master Circular for Mutual Funds dated May 19, 2023, SEBI has permitted creation of segregated portfolio of unrated debt or money market instruments by mutual fund schemes of an issuer that does not have any outstanding rated debt or money market instruments, subject to the following:

- a. Segregated portfolio of such unrated debt or money market instruments may be created only in case of actual default of either the interest or principal amount. As per SEBI Master Circular for Mutual Funds dated May 19, 2023, credit event is considered for creation of segregated portfolio, however for the purpose of the aforesaid circular, 'actual default' by the issuer of such instruments shall be considered for creation of segregated portfolio.
- b. AMCs shall inform AMFI immediately about the actual default by the issuer. Upon being informed about the default, AMFI shall immediately inform the same to all AMCs. Pursuant to dissemination of information by AMFI about actual default by the issuer, AMCs may segregate the portfolio of debt or money market instruments of the said issuer in terms of SEBI Master Circular for Mutual Funds dated May 19, 2023.

Further, as per SEBI Master Circular for Mutual Funds dated May 19, 2023, the following provisions are prescribed with regard to Segregated Portfolio pertaining to debt instruments with special features:

If the said instrument is to be written off or converted to equity pursuant to any proposal, the date of said proposal may be treated as the trigger date. However, if the said instruments are written off or converted to equity without proposal, the date of write off or conversion of debt instrument to equity may be treated as the trigger date.

On the said trigger date, the AMC may, at its option, create segregated portfolio in a mutual fund scheme subject to compliance with relevant provisions of SEBI Master Circular for Mutual Funds dated May 19, 2023 issued with respect to 'Creation of segregation portfolio in mutual fund schemes' and any other relevant Regulations/Circulars/Guidelines issued in the future from time to time.

Further, AMCs/Valuation Agencies shall ensure that the financial stress of the issuer and the capabilities of issuer to repay the dues/borrowings are reflected in the valuation of the securities from the trigger date onwards."

**Risks associated with segregated portfolio:**

The unit holders may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in the segregated portfolio, the AMC shall enable listing of units of segregated portfolio on the recognized stock exchange. The risks associated in regard to the segregated portfolio are as follows:

- The investors holding units of the segregated portfolio may not be able to liquidate their holdings till the time of recovery of money from the issuer.
- The security comprising the segregated portfolio may not realize any value.
- Listing of units of the segregated portfolio on a recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units of the segregated portfolio on the stock exchange.
- The trading price of units on the stock exchange may be significantly lower than the prevailing Net Asset Value (NAV) of the segregated portfolio.

**The detailed provisions in relation to segregated portfolios are as follows.**

- **Process for creation of segregated portfolio:**

- a) The AMC shall decide on creation of segregated portfolio on the day of credit event, as per the process laid down below:
  - i. The AMC shall seek approval of Trustees, prior to creation of the segregated portfolio.

It shall also be disclosed that the segregation shall be subject to trustee approval. Additionally, the said press release shall be prominently disclosed on the website of the AMC.
  - iii. The AMC shall ensure that till the time the trustee approval is received, which in no case shall exceed 1 business day from the day of credit event, the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.
- b) Once trustee approval is received by the AMC:

  - v. All existing investors in the scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.
  - vi. No redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, the AMC shall enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests.

- c) If the trustees do not approve the proposal to segregate portfolio, the AMC shall issue a press release immediately informing investors of the same.

- **Valuation and processing of subscriptions and redemptions:**

- a) Notwithstanding the decision to segregate the debt and money market instrument, the valuation shall take into account the credit event and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.
- b) All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:
  - i. Upon trustees' approval to create a segregated portfolio:
    - o Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
    - o Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
  - ii. In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

- **Disclosures:**

In order to enable the existing as well as the prospective investors to take informed decision, the following shall be adhered to:

- a) A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio.
- b) Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme.
- c) The Net Asset Value (NAV) of the segregated portfolio shall be declared on daily basis.
- d) The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.
- e) The scheme performance required to be disclosed at various places shall include the impact of creation of segregated portfolio. The scheme performance should

clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event and the said fall in NAV along with recovery(ies), if any, shall be disclosed as a footnote to the scheme performance.

- f) The disclosures at paragraph (d) and (e) above regarding the segregated portfolio shall be carried out for a period of at least 3 years after the investments in segregated portfolio are fully recovered/ written-off.
- g) The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

- **TER for the Segregated Portfolio:**

- a) The AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
- b) The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
- c) The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
- d) The costs related to segregated portfolio shall in no case be charged to the main portfolio.

- **Monitoring by Trustees:**

In order to ensure timely recovery of investments of the segregated portfolio, the Trustees would

monitor the progress and take necessary action as prescribed by SEBI Master Circular for Mutual Funds dated May 19, 2023 on 'Creation of segregated portfolio in mutual fund schemes', as amended from time to time.

Please note that the process followed by the AMC regarding creation of segregated portfolios shall be in accordance with the provisions laid down by SEBI from time to time.

**Example of Segregation:**

The below table shows how a security affected by a credit event will be segregated and its impact on investors. Whether the distressed security is held in the original portfolio or the segregated portfolio, the value of the investors' holdings will remain the same on the date of the credit event.

**Key assumptions:**

Let us assume a Scheme consists of 3 Securities (A, B and C). It has two investors with total of 10,000 units (Investor 1 with 6,000 units, Investor 2 with 4,000 units).

Total Portfolio Value of ₹ 30 Lakhs (Each Security invested ₹ 10 Lakh).

Current NAV:  $30,00,000/10,000 = ₹ 300$  Per Unit.

Suppose Security A is downgraded to below investment grade and consequently the value of the security falls from ₹ 10,00,000 to ₹ 4,00,000 and the AMC decides to segregate the security into a new portfolio, then the Investors will be allotted the same number of units in the segregated portfolio as they hold in the main portfolio. So, Investor 1 will get 6,000 Units and Investor 2 will get 4,000 units in the segregated portfolio.

With Segregation, the Portfolio Value is ₹ 24,00,000 (Now B & C Securities worth ₹ 20 Lakh and Security A has fallen from ₹ 10,00,000 to ₹ 4,00,000).

Main Portfolio (Security of B & C)	Segregated Portfolio (Security A)	
Net Assets	₹ 20,00,000	v 4,00,000
Number of Units	10,000	10,000
NAV per Unit	₹ 20,00,000/ 10,000 = ₹ 200	₹ 4,00,000/ 10,000 = ₹ 40

With respect to Investors:

	Investor 1	Investor 2
Units held in Main portfolio (No. of Units)	6,000	4,000
NAV of Main Portfolio	₹ 200 per Unit	₹ 200 per unit
Value of Holding in Main Portfolio (A) (₹)	12,00,000	8,00,000
Units Held in Segregated Portfolio	6,000	4,000
NAV of Segregated Portfolio	₹ 40 Per unit	₹ 40 Per unit
Value of Holding in Segregated Portfolio (B) (₹)	2,40,000	1,60,000
Total Value of Holdings (A) + (B) (₹)	14,40,000	9,60,000

In case if it does not segregate (Total Portfolio would be)

Net Assets of the Portfolio ₹ 24,00,000 (₹ 4,00,000 in Security A and ₹ 10,00,000 in Security B and ₹ 10,00,000 in Security C)	No. of Units 10,000	NAV per unit ₹ 24,00,000/ 10,000= ₹ 240
---	------------------------	--

	Investor 1	Investor 2
Units held in Original portfolio (No. of Units)	6,000	4,000
NAV of Original Portfolio	₹ 240 Per Unit	₹ 240 Per Unit
Value of Holding (₹)	14,40,000	9,60,000

Value of the Portfolio would be as follows at different stages/ scenarios:

Sr. No.	Stage /Scenario	Portfolio	Value
I	Before Credit Event	Security A	₹ 10,00,000
		Security B	₹ 10,00,000
		Security C	₹ 10,00,000
		<b>Total Portfolio Value (Security A, B &amp; C)</b>	<b>₹ 30,00,000</b>
II	On Credit Event if Portfolio is not segregated	Security A	₹ 4,00,000
		Security B	₹ 10,00,000
		Security C	₹ 10,00,000
		<b>Total Portfolio Value (Security A, B &amp; C)</b>	<b>₹ 24,00,000</b>
III	On Credit Event if Portfolio is segregated	Main Portfolio:	
		Security B	₹ 10,00,000
		Security C	₹ 10,00,000
		Segregated Portfolio:	
		Security A	₹ 4,00,000
		<b>Total Portfolio Value (Security A, B &amp; C)</b>	<b>₹ 24,00,000</b>

8. The Schemes have paid Management Fees and Trustee Fees to Union Asset Management Company Private Limited and Union Trustee Company Private Limited respectively as disclosed in the half yearly and annual financials of the schemes of Union Mutual Fund available on the AMC's website viz. [www.unionmf.com](http://www.unionmf.com).

**xii. Swing Pricing Framework for market dislocation:**

Swing Pricing refers to a process for adjusting a scheme's Net Asset Value (NAV) to effectively pass on transaction costs stemming from net capital activity (i.e. flows into or out of the scheme) to the investors associated with that activity during the life of a scheme, excluding ramp-up period or termination. In a liquidity-challenged environment, quoted bid/ask spreads and overall trading cost can widen and may not be representative of the executed prices that can be achieved in the market. In such circumstances, swing pricing can be a useful mechanism to contribute to protect the interests of existing investors, specifically from the dilution of their holdings; and contribute to protect the value of the investors capital. Swing pricing is an anti-dilution adjustment that seeks to protect investors in a scheme from performance dilution as a result of significant outflows from the scheme, particularly during market dislocation.

**Mandatory full swing during market dislocation shall apply as stated below:**

- i) The swing pricing framework will be applicable only for scenarios related to net outflows from the Scheme.
- ii) SEBI will determine 'market dislocation' either based on the recommendation of the Association of Mutual Funds of India (AMFI) or suo moto.
- iii) Once market dislocation is declared, it will be notified by SEBI that swing pricing will be applicable for a specified period.
- iv) Subsequent to the announcement of market dislocation, the swing pricing framework shall be applicable only to those open ended debt schemes of Union Mutual Fund (except Union Overnight Fund), which:
  - i. have High or Very High risk on the risk-o-meter (as of the most recent period at the time of declaration of market dislocation); and
  - ii. classify themselves in the cells A-III, B-II, B-III, C-I, C-II and C-III of Potential Risk Class (PRC) Matrix.
- v) At the time of market dislocation, the swing factor as mentioned in the below table shall be made applicable to the aforementioned schemes:

Swing factor for designated debt schemes			
Max Credit Risk of Scheme → Max Interest Rate Risk of the Scheme ↓	Class A (Credit Risk Value >=12)	Class B (Credit Risk Value >=10)	Class C (Credit Risk Value < 10)
Class I: (Macaulay Duration <= 1 year)	-	-	1.5%
Class II: (Macaulay Duration <= 3 years)	-	1.25%	1.75%
Class III: (Any Macaulay Duration)	1%	1.5%	2%

- vi) The Scheme performance shall be computed based on unswung NAV.
- vii) Impact of Swing Pricing on Incoming and Outgoing Investors

When swing pricing framework is triggered and swing factor is made applicable, both the incoming (unit holders who submit purchase/switch-in requests) and outgoing investors (unit holders who submit redemption / switch out requests) shall get NAV adjusted for swing factor.

Swing Pricing shall be made applicable to all unitholders at PAN level with an exemption for redemptions upto ₹ 2 lacs for each mutual fund scheme. However, there shall be no threshold applicable in case of incoming investors i.e. the swung NAV or NAV adjusted to the swing factor shall be made applicable to all incoming investors irrespective of the application/investment amount. Intra-scheme switches i.e. switches within the same Scheme viz. from Regular Plan to Direct Plan and vice-versa or from Growth option to Income Distribution cum Capital Withdrawal option and vice versa, will be excluded from applicability of swing pricing.

**Illustration:**

Assume that the NAV of the Scheme is ₹ 10 and that there is no exit load applicable under the Scheme. On declaration of market dislocation by SEBI, assuming the swing factor applicable to Scheme as per the swing factor table is 1.5%, then:

The NAV shall be adjusted as below:

$$\text{Swung NAV} = \text{Existing NAV} - (\text{Applicable swing factor} * \text{Existing NAV})$$

$$= ₹ 10 - (1.5\% \text{ of } ₹ 10)$$

$$= ₹ 10 - ₹ 0.15$$

$$= ₹ 9.85$$

Swing pricing shall be made applicable to all unitholders at PAN level. Purchases, including switch-ins, shall be processed at NAV of ₹ 9.85. Redemptions, including switch outs, at PAN level, of value upto ₹ 2 Lakhs shall be processed at an NAV of ₹ 10 and Redemptions, at PAN level, above ₹ 2 Lakhs shall be processed at NAV of ₹ 9.85. The above illustration has been given only to explain the impact of swing pricing on NAV of the Scheme. The actual purchase and sale price would depend on the prevailing exit load, if any, and other terms and conditions mentioned in the scheme documents of the Scheme. If there is any exit load applicable as per scheme provisions, the same shall be applied on swung NAV.

- viii) Disclosure requirements: Disclosures pertaining to NAV adjusted for swing factor along with the performance impact shall be made by the AMC in the prescribed format in the SID and in the scheme wise Annual Reports and Abridged summary thereof and on the AMC's website in case swing pricing framework has been made applicable for the Scheme."
