Investment Strategy	For Equity Investments:
	Under normal market conditions, Bank of India Bluechip Fund would invest 80% to 100% of its assets in a diversified portfolio constituting equity and equity related instruments of Large Cap companies that the Fund Manager believes have sustainable business models, and potential for capital appreciation. The fund also has the flexibility to invest upto 20% of its assets in equity & equity related instruments of Mid & Small Cap companies. The Schemes would follow an actively managed approach allowing it the flexibility to pursue opportunities without having any bias in favour of sectoral allocations. The investment environment, valuation parameters and other investment criteria will determine the allocation and the investment style. Under normal market conditions and depending on the Fund Manager's views, the assets of the Scheme would be invested across stocks that represent a broad range of sectors of the economy, in order to ensure adequate portfolio diversification.
	The Fund Manager would follow a top down approach to shortlist stocks for portfolio construction in line with the process outlined below. Under the top down process the Fund Manager would look at the global and Indian economy and the domestic policy environment and stock valuations. This would result in identification of themes which have a potential to outperform. The final stock selection process would be a bottoms-up process wherein stocks from the short listed themes would be picked up based on valuations. For asset allocation, the Fund Manager would take the help of qualitative framework of MVPS (Macro, Valuation, Policy and Sentiment).

Sentiment would be gauged from factors like the positive/negative breadth of the market, inflows/outflows into equity mutual funds and FPI buying/selling figures.

Investment Process: Clear 5 Step Process

For Debt Investments:

The Fund Manager will follow a disciplined investment process to meet the Scheme specific investment objectives. He will endeavor to construct a well-diversified, high credit portfolio that minimizes liquidity risk and credit risk. The Fund Manager shall evaluate all the investment proposals to ensure that the credit risk is kept at the minimum level. The portfolios will be constructed in such a manner that the obligations to the investors are met at all points in time and under all circumstances. The alpha to the portfolio will be generated by managing the interest rate risk across different asset classes and duration buckets. The funds would be managed keeping the Scheme's objectives in mind and with a long term investment horizon for the fund.

Investment Process:

Investment Process

| Macro | research & Micro | Security | Selection | Portfolio | Construction | Performance | monitoring | Micro | Construction | Micro | Construction | Performance | Micro | Construction | Micro |

The investment process will be a five stage process as outlined in the above diagram. The process will be research oriented. It will comprise of qualitative as well as quantitative research. Macro-economic call will be taken on interest rate direction through detailed analysis of various influencing factors like inflation, money supply, government borrowing, private sector borrowing, currency market movement, central bank policy, domestic fiscal and monetary policy, global interest rate scenario and market sentiment. Interest rate direction call will be supplemented by technical analysis of market and short term influencing factors like trader position, auction/issuance of government/corporate securities, release of economic numbers etc. Interest rate direction call and anticipation of yield curve movement will form the basis of portfolio positioning in duration terms. Holding period return analysis will decide the portfolio selection.

Credit research will be done on a regular basis for all companies. Credit research will include reports as well as rating rationales and other inputs from external agencies. Both qualitative and quantitative inputs will form part of the final decision. Internal credit exposure limits, both for individual companies and groups and counterparty exposure limits for repo transactions will be part of the approved list from the risk management team.

Asset allocation will be determined based on holding period detail analysis of spread movement across different asset classes over different time periods and time buckets.

Members of the Investment team comprising Head of Fixed Income and fund managers will continuously review and analyze market movement, events and news. Trading strategy and asset allocations will be decided and reviewed on a proactive basis. The Investment team will closely coordinate with Risk Management team for all credit related issues and exposures. The Investment team at all points in time will work in a manner to maintain flexibility and responsiveness to the constantly evolving market conditions.

Investment Decisions

The investment decisions for the Schemes will be taken by the Fund Manager, which will be consistent with the regulatory requirements and the investment objectives of the Scheme. The Fund may additionally observe such internal guidelines as may be prescribed by the Boards of the AMC / Trustee or any internal committee. Subject to above, the day to day investment management decision will solely be of the Fund Manager of the Scheme. All investment decisions shall be recorded. Where an investment is proposed to be made for the first time in any scrip, this will be preceded by making a detailed report justifying such investment. The performance of the Scheme shall be reviewed by Investment Committee comprising Chief Executive Officer, Deputy Chief Executive Officer, Chief Operating Officer, Chief Investment Officer, Head-Equity, Head-Fixed Income, Fund Managers, Head - Compliance, Head - Operations, Risk Analyst and Head - Risk at periodic intervals. Performance of the Scheme will be also discussed and reviewed by the Boards of the AMC and the Trustee respectively, or any designated Committees, including performance vis-à-vis benchmark indices / peer group.

Credit Evaluation Policy

Evaluation | Credit Analysis at Bank of India Investment Managers is an independent function performed by the Risk Management team. The Risk Team is responsible for evaluating, setting up and monitoring lending limits for each debt issuer. Each debt issuer (including lending limits) upon recommendation by the credit analyst has to be approved by the Risk Management Committee before being eligible for Investment.

Issuer risk limits cover the quantum of exposure and maximum investment tenor. Issuer limit's for individual Scheme are determined by its investment objectives, regulatory guidelines, internal investment risk guidelines and assets under management. Risk limits for issuers are reviewed regularly by the Risk Management Committee. Internal Investment Risk Guidelines include eligible instrument universe, maximum exposure based on credit ratings, duration limits, liquidity constraints and concentration limits.

Credit evaluation process: In-depth credit evaluation of issuers are undertaken focusing on (but not be limited to) the following:

- a) Business Risk assessment including economic scenario
- b) Industry analysis in terms of the competitive dynamics of the market in which the company / issuer operates

	c) Detailed financial analysis of company / issuer based on key financial ratios
	d) Management quality
Risk Profile of the	A. RISK FACTORS
Scheme	(i) Standard Risk Factors
	(a) Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
	 (b) As the price / value / interest rate of the securities in which the Scheme invests fluctuates, the value of the investment in the Scheme may go up or down. As with any investment in securities, the NAV of the Units under the Scheme can go up or down, depending on the factors and forces affecting the markets. The various factors which impact the value of the scheme's investments include, but are not limited to, fluctuations in the bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes etc. (c) Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme. (d) Bank of India Bluechip Fund is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme or its future prospects and returns. (e) While the Schemes will endeavour to declare IDCW, however, there is no guarantee or assurance that such
	IDCW will be declared/paid and such declaration / payment is entirely subject to availability of distributable surplus.
	(f) The Sponsor is not responsible or liable for any loss or shortfall in Scheme's corpus arising or resulting from the operation of the Scheme, beyond the initial contribution of Rs 1,00,000/- (Rupees One Lakh only) made by it to the Fund at the time of setting up the Mutual Fund. The Associates of the Sponsor are not responsible or liable for any loss or shortfall resulting from the operation of the Scheme. However, the asset management company and the sponsor of the mutual fund shall be liable to compensate the affected investors and/or the scheme for any unfair treatment to any investor as a result of inappropriate valuation.
	(g) The present Scheme is not a guaranteed or assured return scheme and investors in the Scheme are not being offered any guaranteed / assured return.
	(h) Statements/Observations made in this Scheme Information Document are subject to the laws of the land as

they exist at any relevant point of time.

- (i) Mutual Funds and securities investments are subject to market risks and the NAVs of the units issued under the scheme may go up or down depending on the factors and forces affecting the capital markets.
- (j) Growth, appreciation, IDCW and income, if any, referred to in this Scheme Information Document are subject to the tax laws and other fiscal enactments as they exist from time to time.
- (ii) Scheme Specific Risk Factors & Special Considerations
- (a) Risk associated with investments in Equity and Equity related instruments:
- 1. Equity and equity related securities are volatile and carry risk of price fluctuations on an on-going basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.
- 2. Investments in equity and equity related securities involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.
- 3. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

(b) Risk associated with investments in Bonds / Fixed Income Instruments and Money Market instruments

- 1. Investments in money market instruments involve a moderate credit risk i.e. risk of an issuer's ability to meet the principal payments. Additionally, money market securities, while are fairly liquid, lack a transparent secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
- 2. Fixed Income and Money market instruments may also be subject to price volatility due to factors such as changes in interest rates, general level of market liquidity and market perception of credit worthiness of the issuer of such instruments.
- 3. The liquidity of investments may be restricted by trading volumes and settlement periods. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result

in temporary periods when the assets of the Scheme are uninvested and no return is earned thereon. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. By the same token, the inability to sell securities held in the Scheme's portfolio, due to the absence of a well developed and liquid secondary market for debt securities, could result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of the securities held in the Scheme's portfolio.

- 4. The NAV of the Scheme's Units, to the extent the Scheme is invested in coupon bearing fixed income securities, will be affected by changes in the general level of interest rates. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rates rise, the value of a portfolio of fixed income securities can be expected to decline. In case of floating rate securities it depends upon the frequency of the coupon reset.
- 5. The liquidity of the scheme is inherently restricted by trading volumes in securities in which it invest.
- 6. Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options. The AMC may choose to invest in unlisted securities that, in its view would offer attractive yields, within the regulatory limit. This may however increase the risk of the portfolio. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment.
- 7. Fixed Income securities can either be listed on any exchange or be unlisted. It has been seen over the years that the price discovery in case of listed securities is much quicker and transparent. Moreover, securities that are listed on the stock exchange carry lower liquidity risk, but the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Now-a-days money market securities are fairly liquid, but lack a well-developed transparent secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold. This holds true when the Scheme is looking to purchase securities as well. Corporate debt market transactions in the primary and secondary market is an over the telephone market, which leads to poor price discovery and transparency. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and

- the possible loss of corporate benefits accruing thereon.
- 8. Investment decisions made by the Investment Manager may not always be profitable.
- 9. Different types of securities in which the Schemes would invest as given in the SID carry different levels and types of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further, even among corporate bonds, bonds which are rated AAA are comparatively less risky than bonds which are AA rated.
- 10. **Interest Rate Risk:** As with all debt securities, changes in interest rates will affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long term securities generally fluctuate more in response to interest rate changes than of shorter-term securities. Interest rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the NAV.
 - In the case of floating rate instruments, an additional risk could rise because of the changes in the spreads of floating rate instruments. With the increase in the spread of floating rate instruments the prices can fall and with the contraction in the spreads of the floating rate instruments the prices can rise, other parameters being unchanged. Moreover, floating rate instruments which have periodical interest rate reset carry lower interest rate risk compared to a fixed rate debt instrument. However, in a falling interest rate scenario the returns on floating rate debt instruments may not be better than those on fixed rate debt instruments.
- 11. **Liquidity or Marketability Risk:** This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the quoted bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of some of these investments. Different segments of the Indian financial markets have different settlement periods, and such periods may be extended significantly by unforeseen circumstances. The length of time for settlement may affect the Scheme in the event (a) it has to meet an inordinately large number of redemption or (b) of restructuring of the Scheme's investment portfolio. Securities that are unlisted also carry a higher liquidity risk compared to listed securities.
- 12. **Credit Risk:** Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). However, even if no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must,

however, be noted that where the Scheme has invested in Government Securities, there is no credit risk to that extent. However, corporate debt carries a higher risk and trade at a level higher than corresponding G-secs. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default. Different types of securities in which the Scheme is invested carry different levels and types of risk. The credit risk in respect of Scheme assets portfolio thus may go up or down basis its investment pattern.

13. **Re-investment Risk**: This refers to the interest rate risk at which the intermediate cash flows received from the securities in the Scheme including maturity proceeds are reinvested. Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the debt security. Consequently, the proceeds may get invested at a lower rate.

Type of Risk	Risk Mitigation Measures		
Volatility	By controlling class/ sector/ issuer exposures in debt & money market instruments to		
	control overall portfolio volatility.		
Concentration	By investing in various debt instruments such as corporate and PSU bonds, TREPS/		
	Repo and money market instruments of various issuers which will be from different		
	industries/sectors.		

14. Risk Factor associated with investing in Securities Segment and Tri-party Repo trade settlement:

Clearing Corporation of India Ltd. ('CCIL') is providing clearing and settlement services, for Triparty Repo trades in Government Securities, under its Securities Segment. CCIL would act as a Central Counterparty to all the borrow and lend Triparty Repo trades received by it for settlement. CCIL would also be performing the role responsibilities of Triparty Repo Agent, in terms of Repurchase transactions (Repo) (Reserve Bank) Directions, 2018 as amended from time to time. CCIL would settle the Triparty Repo trades, in terms of its Securities Segment Regulations.

The funds settlement of members is achieved by multilateral netting of the funds position in Triparty Repo with the funds position in Outright and Market Repo and settling in the books of RBI for members who maintain an RBI Current Account. In respect of other members, funds settlement is achieved in the books of

Settlement Bank. Securities settlement for Triparty Repo trades shall be achieved in the Gilt Account of the Member maintained with CCIL. Securities obligation for outright and market repo trades shall be settled in the SGL / CSGL account of the Member with RBI.

Bank of India Mutual Fund is a member of securities segment and Tri-party Repo trade settlement of the CCIL. Since all transactions of the Fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL, it reduces the settlement and counterparty risks considerably for transactions in the said segments.

To mitigate the potential losses arising in case any member defaults in settling the transactions routed through CCIL, CCIL maintains a Default Fund. CCIL shall maintain two separate Default Funds in respect of its securities segment, one to meet the losses airing out of any default by its members from outright and repo trades and other for meeting losses arising out of any default by its members from Triparty Repo trades.

In case any clearing member fails to honor his settlement obligations, the Default Fund is utilized to complete the settlement applying the Default Waterfall Sequence. As per the said waterfall mechanism, after the defaulter's margins and defaulter's contribution to default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution, if there is still a loss to be met, then contribution of non-defaulting members to Default Fund is utilized to meet the said loss.

The Scheme is subject to the risk of losing initial margin and contribution to Default Fund in the event of failure of any settlement obligation. Further the Scheme's contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

Further, CCIL periodically prescribes a list of securities eligible for contribution as collaterals by members. Presently, all Central Government Securities and Treasury Bills are accepted as collaterals by CCIL. The above risk factor may undergo a change in case the CCIL notifies securities other than Government of India Securities as eligible for contributions as collateral.

15. Risk Factors Associated with repo transaction in Corporate Debt Securities:

- Counterparty Risk: This refers to the inability of the seller to meet the obligation to buy back securities at the contracted price. Fund Manager will endeavor to manage counterparty risk by dealing only with counterparties having strong credit profiles assessed through in-house credit analysis and / or with entities regulated by SEBI/RBI/IRDA. In the event of default by the repo counterparty, the Scheme will have recourse to the corporate debt securities given as collateral to recover the investment by selling the collateral in the market. However, selling of collateral will also be subject to liquidity risk in the market and the Scheme may incur impact cost at the time of selling the collateral.
- Collateral Risk: Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations or there is downward migration in rating of collateral. Further if the rating of collateral goes below the minimum required rating during the term of repo or collateral becomes ineligible for any reason, counterparty will be expected to substitute the collateral. In case of failure to do so, IAMI / Schemes of the Fund will explore the option for early termination of the trade.
- 16. **Repurchase Risk:** The Scheme is open-ended. To provide liquidity to the investors, the Fund proposes to provide repurchase facility in the Scheme on every Business Day.
- 17. **Performance Risk:** Performance of the Scheme may be impacted with changes in factors which affect the capital market and in particular the debt market.
- 18. **Legislative Risk:** This is the risk that a change in the tax code could affect the value of taxable or tax exempt interest income.
- 19. **Duration Risk:** Fixed Income securities of any issuer that has higher duration could be more risky in terms of price movements relative to those with lower duration. Thus any impact of interest rate changes would be higher on securities with higher duration irrespective of the status of the issuer of the security.
- 20. **Counterparty Risk:** This is the risk of failure of counterparty to the transaction to deliver securities against consideration received or to pay consideration against securities delivered, in full or in part or as per the agreed specification. There could be losses to the Scheme in case of counterparty default.
- 21. **Inflation Risk:** Inflation causes tomorrow's currency to be worth less than today's; in other words, it reduces the purchasing power of a bond investor's future interest payments and principal, collectively known as "cash flows." Inflation also leads to higher interest rates, which in turn leads to lower bond prices. Inflation indexed securities such as Treasury Inflation Protection Securities (TIPS) are structured to remove inflation risk.

(iii) Risk associated with investments in Derivatives

- **Counter Party Risk:** This is the risk of default of obligations by the counter party.
- Market risk: Derivatives carry the risk of adverse changes in the market price.
- **Illiquidity risk:** The risk that a derivative cannot be sold or purchased quickly enough at a fair price, due to lack of liquidity in the market.
- **Basis Risk:** the risk that the movements in swap rates does not actually reflect the expected movement in benchmark rates, thus, creating a mismatch with what was intended. The Fund may use permitted derivative instruments like exchange traded options and futures or other derivative instruments as may be permitted from time to time.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability to identify such opportunities as well as to manage risks arising thereby. Identification and execution of the strategies to be pursued involve uncertainty and investment decisions may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies.

Derivative investments carry certain risks and issues arising out of such dealings. The risks associated with the use of derivatives - either for hedging or for portfolio balancing - are different from, and possibly greater than, the risks associated with investing directly securities and other traditional investments.

Certain other risks, one or more, that may arise consequent to use of derivatives are: risk of mispricing or improper valuation of derivatives, credit risk arising out of counterparty failing to honour its commitment, liquidity risk where the derivatives cannot be sold at prices that reflect the underlying assets, rates and indices, and price risk where the market price may move in adverse fashion.

Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to manage the risks as a result of the possible failure of the counterparty to comply with the terms of the derivative contract.

Risk Associated with Covered Call Strategy:

- The underlying security may fall by more than the option premium earned, thereby exposing the strategy to downside risks.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place.

(iv) Risk associated with Securities Lending

The securities forming assets of the Scheme may be lent in accordance with the prevailing securities lending Regulations. The leading to arising of certain risks associated with the securities lending activity including counter party risk, possible loss of rights to the collateral put up by the borrower of the securities, inability of the approved intermediary to return the securities, timely or otherwise, deposited by the lender and likely loss of corporate benefits accruing to the lender in respect of the securities lent. The Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

(v) Right to limit redemptions

The Board of AMC and Trustee has the right, at its sole discretion, to limit redemptions under certain circumstances as prescribed under para 1.12 of SEBI Master circular dated May 19, 2023. For more details, please refer para "Right to Limit Redemptions" in the Scheme Information Document of the scheme.

(vi) Risks associated with transactions in units through Stock Exchange Mechanism

In respect of transactions in Units of the Scheme through NSE and/ or BSE or any other recognised stock exchange allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by NSE, BSE or such other exchange and their respective clearing corporations on which the Fund has no control. Further, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by NSE, BSE or such other recognized exchange in this regard.

(vii) Risk Factors Associated with Investments in REITs and InvITs:

- (a) Market Risk: REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/ Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. The NAV of the Scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, settlement periods and transfer procedures.
- (b) **Liquidity Risk:** As the liquidity of the investments made by the Scheme(s) could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk.
- (c) **Reinvestment Risk:** Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or Pay-out of IDCW, etc. Consequently, the proceeds may get invested in assets providing lower returns. The above are some of the common risks associated with investments in REITs & InvITs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

(viii) Risks associated with investing in Large Cap stocks:

Large Cap Stocks are less volatile as compared to Mid & Small Cap Stocks. Therefore, the risk levels of investing in Large cap stocks are less than investing in stocks of Mid & Small Cap Stocks. Large Cap stocks are much stable as compared to Mid & Small Cap Stocks. And it is important to note that generally, no one class consistently outperforms the others.

(ix) Risks associated with Segregated Portfolio

- (a) Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer.
- (b) Security(ies) held in segregated portfolio may not realize any value.
- (c) Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the

	stock market may be significantly lower than the prevailing NAV.			
Plans and Options	The Scheme has two plans viz. Regular Plan and Direct Plan. Each of the Plan shall offer the following Option (including sub options) • Growth Option			
	_	ibution cum capital withdrawa	l (IDCW) option (Re-investment	of IDCW and Pay-out of

IDCW Policy

Depending on the respective Plans and Options of the Scheme, the Scheme will endeavor to declare IDCW as mentioned in the Scheme Information Document.

In case no IDCW is declared, the net surplus, if any, will remain invested and be reflected in the NAV. All IDCW will be paid in accordance with procedure prescribed by SEBI circular dated April 4, 2006 and March 04, 2021. Declaration of IDCWs will be subject to availability of distributable profits, as computed in accordance with SEBI Regulations, 1996. All distribution of earnings will be out of distributable surplus and at the discretion of the Trustee. The Trustee's decision with regard to availability and adequacy, rate, timing and frequency of IDCW declaration shall be final.

When units are sold, and sale price (Net Asset Value) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account which can be used to pay IDCW. Investors are requested to note that, under the aforesaid Option, the amounts can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains. Whenever distributable surplus will be distributed, a clear segregation between income distribution (appreciation on NAV) and capital distribution (Equalization Reserve) shall be suitably disclosed in the Consolidated Account Statement provided to investors.

IDCWs, if declared, will be paid (subject of deduction of tax at source, if any) to those unit holders whose names appear in the register of Unit holders on the notified record date. The IDCW warrants shall be dispatched to the unitholders within 7 working from the record date. The AMC shall be liable to pay interest to the unitholders at such rate as may be specified by SEBI for the period of such delay (presently @ 15% per annum).

The record date for the IDCW may be fixed by the AMC. If such record date is a non-Business Day, then the next working/Business Day will be considered as a record date. All Unit holders in the respective Plans, whose names appear in the Register of Unit holders on the record date, will be eligible to receive the IDCW.

On payment of IDCW, the NAV of the Units under the Income Distribution cum Capital Withdrawal Option will fall to the extent of the IDCW payout and applicable statutory levies, if any. IDCWs will be declared subject to availability of distributable surplus and at the discretion of the AMC/Trustee. For further details please refer the Scheme Offer Document of the Scheme.

Additional expenses under regulation 52 (6A) (c)#	Upto 0.05%
Additional expenses for gross new inflows from specified cities under Regulation 52 (6A) (b)	Up to 0.30%

In terms of para 10.1 of SEBI Master circular dated May 19, 2023, in case exit load is not levied / not applicable, the AMC shall not charge the said additional expenses.

The purpose of the table is to assist the investor in understanding the various costs and expenses to be borne by the Scheme. Apart from the above expenses, any other expenses which are directly attributable to the Scheme, may be charged with the approval of the Trustee within overall limits as specified in the Regulations except those expenses which are specifically prohibited.

Investment Management and Advisory Fees charged by the AMC to the Scheme shall be within the total expense limit as prescribed under Regulation 52 of the Regulations with no sub-limits on said management and advisory fees.

The annual total of all permissible recurring charges and expenses of the Scheme including Investment Management and Advisory Fees as mentioned in the above table, shall be subject to the following limits as specified in Regulation 52(6) of the Regulations:

Scheme's daily net assets (Amount Rs.)	Maximum Permissible Annual Recurring	
	charges and expenses (% of daily net Assets)	
On first Rs. 500 crore of the daily net assets	2.25%	
On the next Rs. 250 crore of the daily net assets	2.00%	
On the next Rs. 1250 crore of the daily net assets	1.75%

On the next Rs. 5,000 crore of the daily net assets	1.50%	
On the next Rs. 40,000 crore of the daily net assets	TER reduction of 0.05% for every increase of rs	
	5,000 crores or part thereof	
On the balance of net assets	1.05%	

Provided that the expenses as per the list as provided by AMFI, which are very small in value but high in volume may be paid out of AMC's books. Such expenses can be paid out of AMC's books at actuals or not exceeding 2

bps of the scheme AUM, whichever is lower. Such expenses incurred by AMC would be properly recorded and audited in the books of account of AMC at year end.

Further, in addition to the limits prescribed in the Regulation 52 (6) of the SEBI (Mutual Funds) Regulations, the following additional costs/expenses may also be charged to the scheme:

- a) Additional expenses, not exceeding 0.05% of daily net assets may be charged to the Scheme(s), incurred towards Investment Management and Advisory Fees and the various sub-heads of recurring expenses mentioned under Regulation 52 (2) and (4) respectively of the SEBI (Mutual Funds) Regulations, in addition to the limits on total expenses prescribed of Regulation 52(6) of the SEBI (Mutual Funds) Regulations; except where exit load is not levied / not applicable to the Scheme;
- b) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from retail investors from such cities as specified by SEBI/AMFI from time to time are at least -
 - (i) 30 per cent of gross new inflows in the scheme, or;
 - (ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher

Provided that if inflows from retail investors from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis:

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities:

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment; The additional TER in terms of Regulation 52(6A)(b) of SEBI (Mutual Funds) Regulations, 1996 shall be charged upto 30 basis points on daily net assets of the scheme based on inflows only from retail investors beyond Top 30 cities (B 30 cities). Inflows of amount upto rs. 2,00,000 per transaction by individual investors shall be considered as inflows from retail investors. Top 30 cities shall mean top 30 cities based on Association of Mutual Funds in

India (AMFI) data on 'AUM by Geography - Consolidated Data for Mutual Fund Industry' as at the end of the previous financial year.

The additional commission for B 30 cities shall be paid as trail only.

Further, GST on investment and advisory fees to the scheme shall be charged in addition to the Total Expense Ratio as mentioned above.

Additionally at least 2 basis points on daily net assets within the maximum limit of overall expense Ratio (as mentioned in the above table) shall be annually set apart for investor education and awareness initiatives.

Investors should further note that the AMC reserves the right to charge a higher percentage of Investment and Management Fees than as mentioned in the SID but within the overall total expense ratio mentioned for the Scheme.

Further, brokerage and transaction cost incurred for the purpose of execution shall be charged to the schemes as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage & transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Finds) Regulations, 1996.

The TER of the Direct Plan will be atleast lower to the extent of the distribution expenses/ commission which is charged in the Regular Plan. The Direct Plan shall also have separate NAV.

The total expense ratios of the schemes of the Fund are available in downloadable spreadsheet format on the AMC website and AMFI website. Any change in the current expense ratios will be updated at least three working days prior to the effective date of the change. For the total expense ratio details of the Scheme, investors may visit https://www.boimf.in/investor-corner#t4 available on the website of the AMC viz., www.boimf.in and AMFI's website viz., www.amfiindia.com.

Transaction Charges (For Lumpsum Purchases received through distributor/ agent) In accordance with para 10.5 of SEBI master circular dated May 19, 2023, with effect from November 1, 2011, Bank of India Investment Managers Pvt. Limited / Bank of India Mutual Fund shall deduct a Transaction Charge on per purchase / subscription of rs 10,000/- and above, as may be received from new investors (an investor who invests for the first time in any mutual fund schemes) and existing investors. The distributors shall have an option to either "Opt-in / Opt-out" from levying transaction charge based on the type of product. Therefore, the "Opt-in / Opt-out" status shall be at distributor level, basis the product selected by the distributor at the Mutual Fund industry level.

Such charges shall be deducted if the investments are being made through the distributor/agent and that distributor / agent has opted to receive the transaction charges as mentioned below:

- For the new investor a transaction charge of rs 150/- shall be levied for per purchase / subscription of rs 10,000 and above; and
- For the existing investor a transaction charge of rs 100/- shall be levied for per purchase / subscription of rs 10,000 and above. The transaction charge shall be deducted from the subscription amount and paid to the distributor/agent, as the case may be and the balance shall be invested. The statement of account shall clearly state that the net investment as gross subscription less transaction charge and give the number of units allotted against the net investment.

In case of investments through Systematic Investment Plan (SIP) the transaction charges shall be deducted only if the total commitment through SIP (i.e. amount per SIP installment x No. of installments) amounts to rs 10,000/- and above. In such cases, the transaction charges shall be deducted in 3-4 installments.

Transaction charges shall not be deducted if:

- (a) The amount per purchases / subscriptions is less than rs 10,000/-;
- (b) The transaction pertains to other than purchases/ subscriptions relating to new inflows such as Switch/STP, etc.
- (c) Purchases/Subscriptions made directly with the Fund through any mode (i.e. not through any distributor/agent).
- (d) Subscription made through Exchange Platform irrespective of investment amount.

If the distributor has not "opted in".

Treatment of Financial Transactions received through Distributors suspended by AMFI:

Applicable provisions for treatment of purchase/switch/SIP/STP transactions received through distributors whose AMFI registration/ARN has been suspended temporarily or terminated permanently by AMFI are follows:

- a) During the period of suspension, no commission shall be accrued or payable to the distributor whose ARN is suspended. Accordingly, during the period of suspension, commission on the business canvassed prior to the date of suspension shall stand forfeited, irrespective of whether the suspended distributor is the main AMFI Registration Number ("ARN") holder or a sub-distributor;
- b) All Purchase and Switch transactions post the date of suspension, including SIP/STP registered prior to the date of suspension and fresh SIP/STP registrations received under the ARN code of a suspended distributor during the period of suspension, shall be processed under "Direct Plan" of the respective scheme and shall be continued under Direct Plan of the respective scheme perpetually*. A suitable intimation in this regard shall be sent to the investor informing them of the suspension of the distributor;
 - *Note: If the AMC receives a written request from the first/sole unitholder to shift to other than Direct Plan under the ARN of the distributor post the revocation of suspension of ARN, the same shall be honored. Investors may please note that they could be liable to bear capital gains taxes as per their individual tax position for such transactions.
- c) All Purchase and Switch transactions including SIP/STP transactions received through the stock exchange platforms through a distributor whose ARN is suspended shall be rejected;
- d) In case where the ARN of the distributor has been permanently terminated, the unitholders have the following options:
 - Switch their existing investments under the other than Direct Plan to Direct Plan (Investors may be liable to bear capital gains taxes as per their individual tax position for such transactions); or
 - Continue their existing investments under the other than Direct Plan under ARN of another distributor of their choice.

Facility to transact in the Schemes through MF Utility infrastructure: MF Utility ("MFU") - a "Shared Services" initiative, which acts as a transaction aggregation portal for transacting in multiple Schemes of various Mutual Funds with a single form and a single payment instrument. This facility is provided to enable investors, directly or through Mutual Fund distributors and financial advisors to transact in units of schemes offered by participating Asset Management Companies Limited across sales channels.

MFUI will allot a Common Account Number ("CAN"), a single reference number for all investments in the participating Mutual Funds, for transacting in multiple Schemes of various participating Mutual Funds through MFU and to map existing folios, if any. Investors can create a CAN by submitting the CAN Registration Form ("CRF") and necessary documents at the MFUI POS. The AMC and/or its Registrar and Transfer Agent ("RTA") shall provide necessary details to MFUI as may be needed for providing the required services to investors/distributors through MFU. Investors are requested to visit the websites of MFUI or the AMC (www.boimf.in) to download the relevant forms. Investors transacting through MFU shall be deemed to have consented to the exchange of information viz. personal and/or financial (including the changes, if any) between the Fund /the AMC and MFUI and/or its authorized service providers for validation and processing of transactions carried out through MFU.

The applicability of Net Asset Value (NAV) for transactions under this facility shall be based on time stamping as evidenced by the data received from MFUI in this regard and also the realization of funds in the bank account of the Fund (and not the time of realization of funds in the bank account of MFUI) within the applicable cut-off timing. The uniform cut-off time as prescribed by SEBI and as mentioned in the SID / KIM of the Schemes of the Fund and the terms & conditions of offerings of the Scheme(s) of the Fund as specified in the SID, KIM and SAI of the Fund shall be applicable for applications received through this facility. Further, investors should note that transactions through this facility shall be subject to the terms & conditions as stipulated by MFUI/ the Fund/ the AMC from time to time and any law for the time being in force. The usage of this facility will be deemed as the investor's confirmation that the investor understands and agrees to be bound by all the terms and conditions applicable to this facility, as may be amended from time to time.

For details on carrying out transactions through MFU or any queries or clarifications related to MFU, please contact the Customer Care of MFUI on 022-61344316 (during the business hours on all days except Saturday, Sunday and Public Holidays) or send an email to clientservices@mfuindia.com. For any escalations and post-

	transaction queries pertaining to the Scheme(s) of the Fund, the investors can contact the AMC/RTA. The AMC
	reserves the right to change, modify or withdraw this facility at any point of time. However, the change will be
	effective only on a prospective basis. Further, the AMC reserves the right to restrict the number / type of schemes
	being offered through this facility.

FATCA - CRS Terms and Conditions

The Central Board of Direct Taxes has notified Rules 114F to 114H, as part of the Income-tax Rules, 1962, which Rules require Indian financial institutions such as the Bank to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all our account holders. In relevant cases, information will have to be reported to tax authorities/ appointed agencies. Towards compliance, we may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto.

 $Should\,there\,be\,any\,change\,in\,any\,information\,provided\,by\,you, please\,ensure\,you\,advise\,us\,promptly, i.e.,\,within\,30\,days.$

Please note that you may receive more than one request for information if you have multiple relationships with Bank of India Mutual Fund (Formerly BOI AXA Mutual Fund) or its group entities. Therefore, it is important that you respond to our request, even if you believe you have already supplied any previously requested information.

If you have any questions about your tax residency, please contact your tax advisor. If any controlling person of the entity is a US citizen or resident or green card holder, please include United States in the foreign country information field along with the US Tax Identification Number.

\$It is mandatory to supply a TIN or functional equivalent if the country in which you are tax resident issues such identifiers. If no TIN is yet available or has not yet been issued, please provide an explanation and attach this to the form

(iv) Controlling persons

Controlling persons are natural persons who exercise control over an entity and includes a beneficial owner under sub-rule (3) of rule 9 of the Prevention of Money-Laundering (Maintenance of Records) Rules, 2005. In the case of a trust, the controlling person means the settl or, the trustees, the protector (if any), the beneficiaries or class of beneficiaries, and any other natural person exercising ultimate effective control over the trust. In the case of alegalar rangement other than a trust, controlling person means persons in equivalent or similar positions.

Pursuant to guidelines on identification of Beneficial Ownership issued vide SEBI circular no. CIR/MIRSD/2/2013 dated January 24, 2013, persons (other than Individuals) are required to provide details of Beneficial Owner(s) ('BO'). Accordingly, the Beneficial Owner means 'Natural Person', who, whether acting alone or together, or through one or more juridical person, exercises control through ownership or who ultimately has a controlling ownership interest of / entitlements to:

- More than 25% of shares or capital or profits of the juridical person, where the juridical person is a company;
- ii. More than 15% of the capital or profits of the juridical person, where the juridical person is a partnership;

or

iii. More than 15% of the property or capital or profits of the juridical person, where the juridical person is an unincorporated association or body of individuals.

Where the client is a trust, the financial institutionshall identify the beneficial owners of the client and take reasonable measures to verify the identity of such persons, through the identity of the settler of the trust, the trustee, the protector, the beneficiaries with 15% or more interest in the trust and any other natural person exercising ultimate effective control over the trust through a chain of control or ownership.

Where no natural person is identified the identity of the relevant natural person who holds the position of senior managing official.

Instructions on Controlling Persons / Ultimate Beneficial Owner

As per PMLA guidelines and relevant SEBI circulars issued from time to time, non-individuals and trusts are required to provide details of controlling persons [CP] / ultimate beneficiary owner [UBO] and submit appropriate proof of identity of such CPs/ UBOs. The beneficial owner has been defined in the circular as the natural person or persons, who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted and includes a person who exercises ultimate effective control over a legal person or arrangement.

For Investors other than individuals or trusts:

- (i) The identity of the natural person, who, whether acting alone or together, or through one or more juridical person, exercises control through ownership or who ultimately has a controlling ownership interest. Controlling ownership interest means ownership of/entitlement to:
- more than 10% of shares or capital or profits of the juridical person, where the juridical person is a company.
- more than 15% of the capital or profits of the juridical person, where the juridical person is a partnership.
- more than 15% of the property or capital or profits of the juridical person, where the juridical person is an unincorporated association or body of individuals.
- (ii) In cases where there exists doubt under clause (i) above as to whether the person with the controlling ownership interest is the beneficial owner or where no natural person exerts control through ownership interests, the identity of the natural person exercising control over the juridical person through other means like through voting rights, agreement, arrangements or in any other manner.
- (iii) Where no natural person is identified under clauses (i) or (ii) above, the identity of the relevant natural person who holds the position of senior managing official.

For Investors which is a trust:

The identity of the settler of the trust, the trustee, the protector, the beneficiaries with 10% or more interest in the trust and any other natural person exercising ultimate effective control over the trust through a chain of control or ownership.

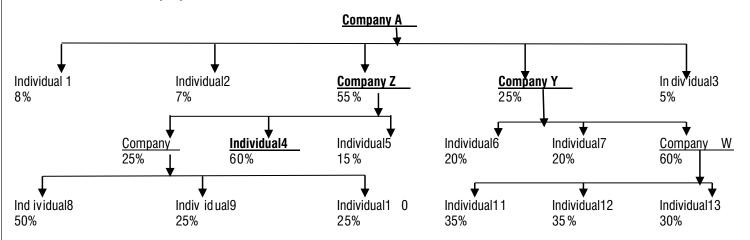

Exemption in case of listed companies / foreign investors

The client or the owner of the controlling interest is a company listed on a stock exchange or is a majority-owned subsidiary of such a company, there is no need for identification and verification of the identity of any shareholder or beneficial owner of such companies and hence exempted from UBO declaration provided other requisite information is provided. Intermediaries dealing with foreign investors' viz., Foreign Institutional Investors, Sub Accounts and Qualified Foreign Investors, may be guided by the clarifications issued vide SEBI circular CIR/MIRSD/11/2012 dated September 5, 2012 and other circulars issued from time to time, for the purpose of identification of beneficial ownership of the client.

Beneficial Owner(s) / Senior Managing Official (SMO) is/are required to comply with the prescribed KYC process as stipulated by SEBI from time to time with any one of the KRA & submit the same to AMC. KYC acknowledgement proof is to be submitted for all the UBO(s) / SMO(s).

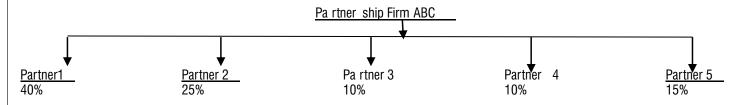

Sample Illustrations for ascertaining beneficial owner

Illustration No. 1 – Company A

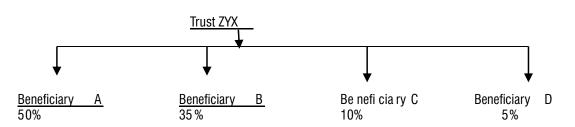

For Applicant A, Individual 4 is considered as UBO as it holds effective ownership of 33% in Company A. Hence details of Individual 4 must be provided with KYC proof, Shareholding pattern of Company A, Z & Y to be provided along with details of persons of Company Y who are senior managing officials and those exercising control.

Illustration No. 2 – Partner ABC

For Partnership Firm ABC, Partners 1, 2 and 5 are considered as UBO as each of them holds > = 15% of capital. KYC proof of these partners needs to be submitted including shareholding.

Illustration No. 3 – Trustee ZYX

For Trust ZYX, Beneficiaries A, B and C are considered as UBO as they are entitled to get benefitted for > 10% of funds used. KYC proof for these beneficiaries needs to be submitted. Additionally, if they have nominated any person or group of persons as Settlor of Trust / Protector of Trust, relevant information to be provided along with the proof indicated.
