1	NACH (Physical / E-NACH) **	All	T	T	
2	Auto Debit	All	T	T + 1	
3	Internet SIP (ISIP)	All	T	T + 1	

* While these 8 banks are technically enabled to provide real time credit, not all PA/AMC may be integrated with all the banks in which case the date of credit to MF account / unit allotment will happen on T + 1. It may also be stated that the timings mentioned for UPI and Net Banking are subject to end to end funds confirmation received by the system from the respective aggregators.

** BSE will endeavour to ensure credit is posted to MF account on the same day of debit to investor's account. In certain circumstances, due to delay at Bank's / Payment Aggregator's end, the credit to MF account and the allotment could get delayed to T+1.
