A. The Fund shall disclose the following on monthly basis:

- Name and exposure to top 7 issuers and stocks respectively as a percentage of NAV of the scheme
- Name and exposure to top 7 groups as a percentage of NAV of the scheme.
- Name and exposure to top 4 sectors as a percentage of NAV of the scheme.

Tracking Difference</p> <p>The annualized difference of daily returns between the index and the NAV of the Fund shall be disclosed on the website of the Mutual Fund and AMFI, on a monthly basis, for tenures 1 year, 3 years, 5 year, 10 year and since the date of allotment of units.</p> <p>Change in Investment Pattern</p> <p>Portfolio Rebalancing:</p> <p>Pursuant to clause 3.6.7.1 of SEBI Master circular, in case of change in constituents of the index due to periodic review, the portfolio of the scheme will be rebalanced within 7 calendar days.</p> <p>Rebalancing due to Short term defensive consideration:</p> <p>Subject to para 1.14.1.2 of the master circular for mutual fund, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be rebalanced within 7 calendar days from the date of deviation and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time.</p> <p>In the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 days from the date of allotment/listing.</p>
Investment Strategy	<p>The Scheme will be managed passively with investments in stocks in proportion to the weights of these stocks in the Nifty 500 Momentum 50 Index. The investment strategy would revolve around reducing the tracking error to the least possible through rebalancing the portfolio, considering the change in weights of stocks in the index as well as the incremental collections/redemptions from the Scheme.</p>
Risk Profile of the Scheme	<p>The Scheme attempts to track the respective indices and it would invest in the securities included in its Underlying indices regardless of their investment merit. The Scheme may be affected by a general decline in the Indian markets.</p> <ul style="list-style-type: none"> • The performance of the Nifty 500 Momentum 50 Index will have a direct bearing on the performance of the scheme. In the event the Nifty 500 Momentum 50 Index is dissolved or is withdrawn by NSE Indices Limited (NSEIL) or is not published due to any reason whatsoever, the Trustee reserves the right to modify the respective scheme and to track a different and suitable index or to suspend tracking the Nifty 500 Momentum 50 Index till such time it is dissolved/withdrawn or not published and appropriate intimation will be sent to the Unitholders of the scheme. In such a case, the investment pattern will be modified suitably to match the composition of the securities that are included in the new index to be tracked and the scheme will be subject to tracking errors during the intervening period.

- Tracking errors are inherent in any index fund, and such errors may cause the scheme to generate returns that are not in line with the performance of the Nifty 500 Momentum 50 Index or one or more securities covered by / included in the Nifty 500 Momentum 50 Index and may arise from a variety of factors including but not limited to, any delay in the purchase or sale of shares due to illiquidity in the market, settlement, and realization of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of Income Distribution cum capital withdrawal, etc.
- The Indices reflect the prices of securities at a point in time, which is the price at close of business day on National Stock Exchange of India Limited (NSE). The scheme however, may trade these securities at different points in time during the trading session and therefore the prices at which the scheme trade may not be identical to the closing price of each scrip on that day on the NSE. In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance, from NSE closing prices.
- NSEIL undertakes periodic reviews of the securities that are represented in the Nifty 500 Momentum 50 Index and from time to time may exclude existing securities or include new ones. In such an event, the scheme will endeavor to reallocate its portfolio to mirror the changes. However, the reallocation process may not occur instantaneously and permit precise mirroring of the Nifty 500 Momentum 50 Index during this period.
- The potential of trades to fail may result in the scheme not having acquired the security at the price necessary to mirror the index.
- Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees.
- Being an open-ended scheme, the scheme may hold appropriate levels of cash or cash equivalents to meet ongoing redemptions. The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to, circuit filters in the securities, liquidity, and volatility in security prices.
- Due to the reasons mentioned above and other reasons that may arise, it is expected that the scheme may have a tracking error in the range of 2% per annum from the Benchmark. However, it needs to be clearly understood that the actual tracking error can be higher or lower than the range given.
- In the case of investments in derivatives like index futures, the risk-reward would be the same as investments in a portfolio of shares representing an index. However, there may be a cost attached to buying an index future. Further, there could be an element of settlement risk, which could be different from the risk in settling physical shares, and there is a risk attached to the liquidity and the depth of the index futures market as it is a relatively new market.
- **Price-Risk or Interest-Rate Risk:** Fixed-income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed-income securities fall, and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity, and the increase or decrease in the level of interest rates.

	<ul style="list-style-type: none"> •Credit Risk: In simple terms this risk means that the issuer of a debenture/bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme(s) has invested in Government Securities, there is no credit risk to that extent. Different types of securities in which the scheme(s) would invest as given in the scheme information document carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated. •Re-investment Risk: Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate. •Basis Risk (Interest-rate movement): During the life of a floating rate security or a swap, the underlying benchmark index may become less active and may not capture the actual movement in interest rates, or at times, the benchmark may cease to exist. These types of events may result in loss of value in the portfolio. •Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However, depending upon the market conditions, the spreads may move adversely or favorably leading to fluctuation in the NAV. •Liquidity Risk: Due to the evolving nature of the floating rate market, there may be an increased risk of liquidity risk in the portfolio from time to time. •Other Risk: In case of downward movement of interest rates, floating rate debt instruments will give a lower return than fixed rate debt instruments. <p>For details on risk factors and risk mitigation measures, please refer SID.</p>

Pursuant to clause 14.4 of SEBI Master Circular, investors are requested to note the following regarding dispatch of account statements:

Consolidated Account Statement (CAS) - for Unitholders who have registered their PAN / PEKRN with the Mutual Fund:

Investors who hold demat account and have registered their PAN with the mutual fund:

For transactions in the schemes of Bandhan Mutual Fund, a Consolidated Account Statement, based on PAN of the holders, shall be sent by Depositories to investors holding demat account, for each calendar month within on or before fifteenth day of the succeeding month to the investors in whose folios transactions have taken place during that month.

Due to this regulatory change, AMC has now ceased sending account statement (physical / e-mail) to the investors after every financial transaction including systematic transactions.

The CAS shall be generated on a monthly basis. AMCs/ RTAs shall share the requisite information with the Depositories on monthly basis to enable generation of CAS. Consolidation of account statement shall be done on the basis of PAN. In case of multiple holding, it shall be the PAN of the first holder and pattern of holding. Based on the PANs provided by the AMCs/MF-RTAs, the Depositories shall match their PAN database to determine the common PANs and allocate the PANs among themselves for the purpose of sending CAS. For PANs which are common between depositories and AMCs, the Depositories shall send the CAS.

In case investors have multiple accounts across the two depositories, the depository having the demat account which has been opened earlier shall be the default depository which will consolidate details across depositories and MF investments and dispatch the CAS to the investor. However, option shall be given to the demat account holder by the default depository to choose the depository through which the investor wishes to receive the CAS.

In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send the account statement to the investor as specified under the regulations applicable to the depositories.

Consolidated account statement sent by Depositories is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, payout of Income Distribution cum Capital Withdrawal option, reinvestment of Income Distribution cum Capital Withdrawal option, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and transaction in dematerialised securities across demat accounts of the investors and holding at the end of the month. The CAS shall also provide the total purchase value / cost of investment in each scheme.

Further, a consolidated account statement shall be sent by Depositories every half yearly (September/March), on or before twenty first day of succeeding month.

Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

Investors whose folio(s)/demat account(s) are not updated with PAN shall not receive CAS. Investors are therefore requested to ensure that their folio(s)/demat account(s) are updated with PAN.

For Unit Holders who have provided an e-mail address to the Mutual Fund or in KYC records, the CAS will be sent by e-mail. However, where an investor does not wish to receive CAS through email, option shall be given to the investor to receive the CAS in physical form at the address registered in the Depository system.

Investors who do not wish to receive CAS sent by depositories have an option to indicate their negative consent. Such investors may contact the depositories to opt out.

Other investors:

The Consolidated Account Statement (CAS) for each calendar month shall be issued on or before fifteenth day of succeeding month to the investors who have provided valid Permanent Account Number (PAN) / PAN Exempt KYC Registration Number (PEKRN).

Due to this regulatory change, AMC has now ceased sending physical account statement to the investors after every financial transaction including systematic transactions.

The CAS shall be generated on a monthly basis. The Consolidated Account Statement issued is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, payout of Income Distribution cum Capital Withdrawal option, reinvestment of Income Distribution cum Capital Withdrawal option, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and holding at the end of the month. The CAS shall also provide the total purchase value / cost of investment in each scheme.

Further, a consolidated account statement shall be issued every half yearly (September/March), on or before twenty first day of succeeding month.

Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

The CAS will be sent via email (instead of physical statement) where any of the folios consolidated has an email id or to the email id of the first unit holder as per KYC records.

For Unitholders who have not registered their PAN / PEKRN with the Mutual

For folios not included in the Consolidated Account Statement (CAS):

- The AMC shall issue account statement to the investors on a monthly basis, pursuant to any financial transaction in such folios on or before tenth day of succeeding month.
