<u>Portfolio Rebalancing due to Short Term Defensive Consideration (Active Breach):</u>

Subject to the Regulations, the asset allocation pattern indicated above for the Scheme may change from time to time, keeping in view applicable regulations and political and economic factors. In the event that the asset allocation of the Scheme should deviate from the ranges as noted in the asset allocation table above, then the portfolio of the Scheme will be rebalanced by the Fund Manager to the position indicated in the asset allocation table above. Such changes in the asset allocation will be for short term and defensive considerations in accordance with Clause 1.14.1.2 of SEBI Master Circular No. SEBI/ HO/ IMD/ IMD-PoD-1/ P/ CIR/ 2024/ 90 dated June 27, 2024. In case of deviation, if any, from the asset allocation pattern, the AMC shall rebalance the portfolio within a period of 7 calendar days, in accordance with Clause 3.5.3.11 and 3.6. 7 of SEBI Master Circular No. SEBI/ HO/ IMD/ IMD-PoD-1/ P/ CIR/ 2024/ 90 dated June 27, 2024.

Portfolio Rebalancing due to Passive Breach:

In case of change in constituents of the index due to periodic review, the portfolio of fund shall be rebalanced within 7 calendar days. Any transactions undertaken in the scheme portfolio of fund in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

Additionally, in the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 calendar days from the date of allotment/listing.

Timelines for deployment of funds collected in NFO -

In line with SEBI circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2025/23 dated February 27, 2025, funds collected in new fund offer shall be deployed as per following manner:

- 1. The AMC shall deploy the funds garnered in an NFO within 30 business days from the date of allotment of units.
- 2. In an exceptional case, if the AMC is not able to deploy the funds in 30 business days, reasons in writing, including details of efforts taken to deploy the funds, shall be placed before the Investment Committee of the AMC.
- 3. The Investment Committee may extend the timeline by 30 business days, while also making recommendations on how to ensure deployment within 30 business days going forward and monitoring the same. The Investment Committee shall examine the root cause for delay in deployment before granting approval for part or full extension. The Investment Committee shall not ordinarily give part or full extension where the assets for any scheme are liquid and readily available.
- 4. In case the funds are not deployed as per the asset allocation mentioned in the SID as per the aforesaid mandated plus extended timelines, AMC shall:
 - (i) not be permitted to receive fresh flows in the same scheme till the time the funds are deployed as per the asset allocation mentioned in the SID.

	 (ii) not be permitted to levy exit load, if any, on the investors exiting such scheme(s) af-ter 60 business days of not complying with the asset allocation of the scheme. (iii) inform all investors of the NFO, about the option of an exit from the concerned scheme without exit load, via email, SMS or other similar mode of communication. report deviation, if any, to Trustees at each of the above stages
Investment Strategy	The Scheme follows a passive investment strategy and seeks to invest in the constituents of BSE 1000 Total Return Index. The scheme aims to achieve returns equivalent to the benchmark subject to tracking error.
	The scheme would also invest in units of Liquid/ debt schemes, debt and money market instruments as stated in the asset allocation table
	The scheme aims to invest in the constituent of BSE 1000 Index, in the range of 95% to 100% and in units of Liquid schemes/ debt schemes, debt and/or money market instruments, in the range of 0% to 5%
	Securities Lending Subject to the SEBI Regulations as applicable from time to time, the Scheme may, participate in securities lending.
	Investment of Subscription Money: In accordance with clause 1.10.3 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD- 1/P/CIR/2024/90 dated June 27, 2024, the Mutual Fund may deploy NFO proceeds in Triparty repo on Government securities or treasury bills before closure of NFO period. However, AMCs shall not charge any investment management and advisory fees on funds deployed in triparty repo on Government securities or treasury bills during the NFO period. The appreciation received from investment in triparty repo on Government securities or treasury bills shall be passed on to investors. Further, in case the minimum subscription amount is not garnered by the Scheme during the NFO period, the interest earned upon investment of NFO proceeds in triparty repo on Government securities or treasury bills shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount.
	Portfolio Turnover Portfolio Turnover is defined as the lower of sales or purchase divided by the average corpus during a specified period of time. The Scheme, being an open ended Scheme, it is expected that there would be a number of subscriptions and redemptions on a daily basis. However, it is difficult to measure with reasonable accuracy the likely turnover in the portfolio of the Scheme.
	Tracking Error Tracking error is defined as the standard deviation of the difference between the daily returns of the Underlying Index and the NAV of the Scheme. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in

NFO KIM of Motilal Oswal BSE 1000 Index Fund

·	
	the same proportion of weightage as the securities have in the Underlying Index. However, it is not possible to invest as per the objective due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, lack of liquidity, etc. The Scheme's returns may therefore deviate from those of its Underlying Index. Tracking Error may arise due to the following reasons:
	 Fees and expenses of the Scheme. Cash balance held by the Scheme due to dividend received, subscriptions, redemption, etc. Halt in trading on the stock exchange due to circuit filter rules. Corporate actions The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares. Delay in dividend payout, and withholding tax on dividend. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme. Lack of Liquidity
	The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, such tracking error is not expected to exceed by 2% p.a.
	In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMC, the tracking error may exceed 2% and the same will be intimated to the Trustees with corrective actions taken by the AMC, if any.
	Tracking Error: The Fund shall disclose the tracking error based on past one year rolling data, on a daily basis, on the website of the Mutual Fund and AMFI.
	Tracking Difference: The annualized difference of daily returns between the index and the NAV of the Fund shall be disclosed on the website of the Mutual Fund and AMFI, on a monthly basis, for tenures 1 year, 3 years, 5 years, 10 years and since the date of allotment of units
Risk Profile of the Scheme	Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:
	Scheme Specific Risk Factors: The scheme is subject to risks associated with equity market volatility, broad market exposure across large-cap, mid-cap and small-cap stocks. Investments across diverse market segments may be impacted by liquidity constraints, sectoral shifts, and economic cycles, which can lead to variations in performance. Additionally, small-cap stocks tend to be more volatile and less liquid, increasing the potential for higher price fluctuations and execution risks.

• <u>Risks associated with investing in Equities</u>

- a. Investments in the equity shares of the Companies constituting the Underlying Index are subject to price fluctuation on daily basis. The volatility in the value of equity is due to various micro and macro-economic factors like economic and political developments, changes in interest rates, etc. affecting the securities markets. This may have adverse impact on individual securities/sector and consequently on the NAV of Scheme.
- b. The Scheme would invest in the securities comprising the Underlying Index in the same proportion as the securities have in the Index. Hence, the risk associated with the corresponding Underlying Index would be applicable to the Scheme. The Underlying Index has its own criteria and policy for inclusion/exclusion of securities from the Index, its maintenance thereof and effecting corporate actions. The Fund would invest in the securities of the Index regardless of investment merit, research, without taking a view of the market and without adopting any defensive measures. The Fund would not select securities in which it wants to invest but is guided by the Underlying Index. As such the Scheme is not actively managed but is passively managed.
- c. Risks of Total Return

Dividends are assumed to be reinvested into the constituents of underlying index after the ex-dividend date of the constituents However in practice, the dividend is received with a lag. This can lead to tracking error.

<u>Market Risk</u>

The Scheme's NAV will react to stock market movements. The value of investments in the scheme may go down over a short or long period due to fluctuations in Scheme's NAV in response to factors such as performance of companies whose stock comprises the underlying portfolio, economic and political developments, changes is government policies, changes in interest rates, inflation and other monetary factors causing movement in prices of underlining investments.

<u>Concentration risk</u>

This is the risk arising from over exposure to few securities/issuers/sectors.

<u>Passive Investments</u>

The Scheme is not actively managed. Since the Scheme is linked to index, it may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

• <u>Right to Limit Redemptions</u>

The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day
