India's Participation in the Global Generic Wave

- ▶ Indian pharma companies capitalized on the **patent cliff in the US**, launching generics for widely prescribed, high-revenue drugs going off-patent. Strong export growth, especially to regulated markets like **US and EU**.
- ▶ India emerged as a global hub for **cost-effective, high-quality generics**.
- ▶ Rising healthcare awareness, insurance penetration and chronic lifestyle diseases contributed to growing domestic demand

Case Study 1: Defence Theme

The Government's strong push for domestic defence manufacturing under the Atmanirbhar Bharat initiative has significantly benefited companies in the sector. As a result, the featured company delivered CAGR of 90.69% over the last 4 years, driven by strategic tailwinds and increased visibility in defence-related projects.

Where is India headed?

India's aspirations at 100 years of independence i.e. by 2047 is to become a truly self-reliant developed nation – *Viksit Bharat*

Economy	2 nd largest in the world
Manufacturing GDP	To grow 15x to US\$ 6.2 trillion
Services GDP	To grow 13x to US\$ 20 trillion
FDI	To grow 12x to US\$ 1 trillion
Exports	To grow 12x to US\$ 8 trillion

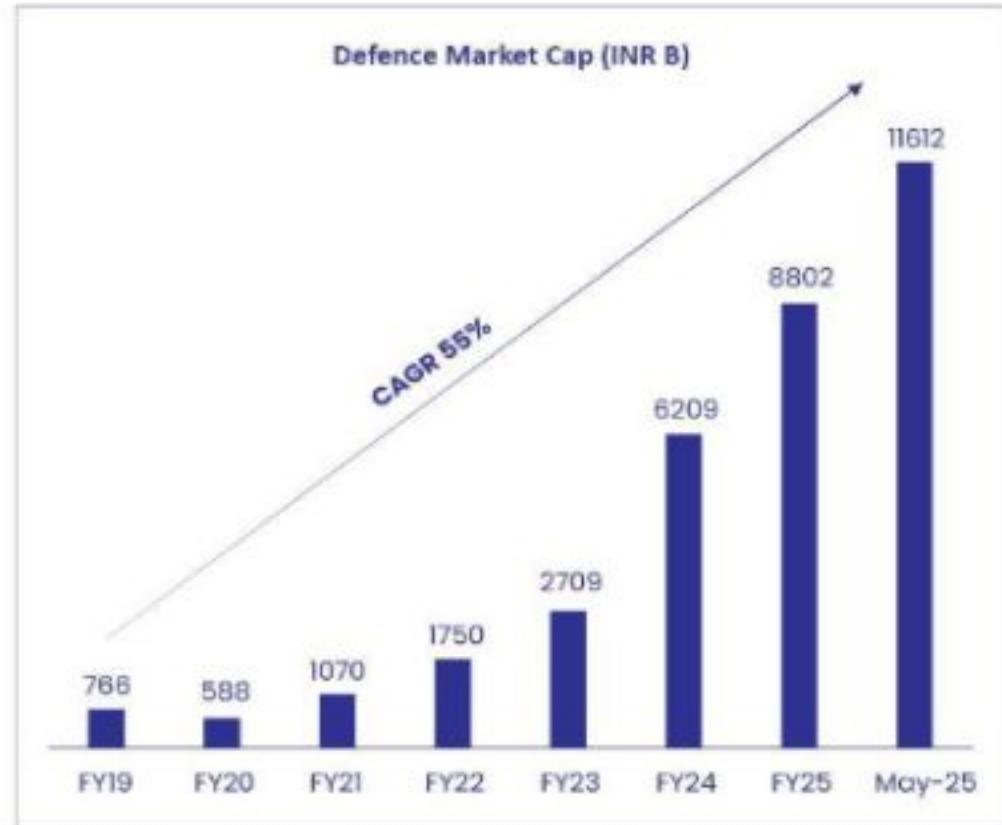

Government capital expenditure reached INR 2.4 trillion in March 2025, marking a 68% year-on-year increase and contributing around 23% of the central government's total capex for FY25. This indicates that the sharp monthly slowdown in capex may have eased. For FY26, the government has set a capex target of INR 11.2 trillion, implying a moderate growth of 6.5% year-on-year.
