The scheme shall make investment in derivatives as permitted under the SEBI (MF) regulations. Exposure to equity derivatives of the index or its constituent stocks may be required in certain situations wherein equity shares are unavailable, insufficient or for rebalancing in case of corporate actions within 7 days (or as specified by SEBI from time to time). Investment in derivatives will be upto 20% of the net assets.

Subject to the Regulations and the applicable guidelines, the Scheme may engage in Stock Lending activities. The Scheme will participate in stock lending not more than 20% of total Net Assets of the Scheme and would limit its exposure with regard to stock lending for a single intermediary to the extent of 5% of the total net assets at the time of lending.

Change in Asset Allocation:

The Scheme, in general, will hold all the securities that comprise the underlying Index in the same proportion as the Index. Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimise tracking error to the maximum extent possible. If the investments fall outside the asset allocation range given above due to change in constituents of the index as a result of periodic review, the portfolio of the Scheme shall be rebalanced within 7 calendar days. The proportions mentioned in the asset allocation can vary substantially depending upon the perception of the fund manager; the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be for short term and for defensive considerations only and will be rebalanced within 7 calendar days. As per SEBI Circular No. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, in case of deviation (passive), the portfolio would be rebalanced within 7 calendar days from the date of deviation. The funds raised under the Scheme shall be invested only in securities as permitted by SEBI (MF) Regulations. Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the SEBI (MF) Regulations.

Portfolio Rebalancing:

		<p>Pursuant to SEBI circular no. SEBI/HO/IMD/IMD - II DOF3/P/CIR/2022/39 dated May 23, 2022 and circulars issued thereunder, in case of change in constituents of the index due to periodic review, the portfolio of the scheme will be rebalanced within 7 calendar days.</p> <p>Short term defensive consideration:</p> <p>Subject to SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021 and circulars issued thereunder, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be rebalanced within 30 calendar days from the date of deviation and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time.</p> <p>Passive Breach</p> <p>Further, as per Paragraph 2.9 of the Master Circular dated June 27, 2024, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of the mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Paragraph 2.9 of the Master Circular dated June 27, 2024.</p> <p>Timelines for deployment of Funds mobilized in a New Fund Offer (NFO)</p> <p>Pursuant to SEBI Circular dated February 27, 2025, the funds mobilized during the New Fund Offer (NFO) shall be deployed in accordance with the asset allocation pattern of the scheme within 30 business days from the date of allotment of units. In exceptional cases where the AMC is not able to deploy the funds within this period, shall provide an explanation, including details of the efforts made to deploy the funds, to the Investment Committee of the AMC. The Investment Committee may extend the deployment timeline by up to 30 business days and shall provide recommendations to ensure timely deployment in the future.</p>

In the event that such a day is a Holiday, the transfer would be affected on the next Business Day.</p> <p>It may be noted that this facility is subject to the lock-in requirement of the scheme.</p> <p>Systematic Withdrawal Plan (SWP)</p> <p>Unit holders have the benefit of availing the choice of Systematic Withdrawal Plan (SWP). The SWP allows the Unit holder to withdraw a specified sum of money each month/quarter/ half-yearly/ yearly from his investments in the Schemes. SWP is ideal for investors seeking a regular inflow of funds for their needs. It is also ideally suited to retirees or individuals, who wish to invest lump sum and withdraw from the investment over a period of time. The amount thus withdrawn by redemption will be converted into Units at Applicable NAV and the number of Units so arrived at will be subtracted from the Units balance to the credit of that Unit holder. If the registered Bank Account is not in favour of minor or not joint with registered guardian, unit holders will be required to submit the change of bank mandate, where minor is also a bank account holder (either single or joint with registered guardian), before initiation any redemption transaction in the folio, else the transaction is liable to get rejected. For systematic transactions in a minor's folio, AMC will register standing instructions till the date of the minor attaining majority, though the instructions may be for a period beyond that date. Upon the minor attaining the status of major, the minor in whose name the investment was made, shall be required to provide all the KYC details and updated bank account details. No further transactions shall be allowed till the status of the minor is changed to major.</p> <p>For detailed disclosure, kindly refer to SAI.</p>
XIX.	Segregated portfolio/ side pocketing disclosure	<p>The Scheme has provided enabling provisions for Creation of Segregated Portfolio in terms of guidelines issued by SEBI from time to time.</p> <p>Please refer to the SAI for the details.</p>
XX.	Stock lending	<p>Subject to the Regulations and the applicable guidelines, the Scheme may engage in Stock Lending activities. The Scheme will participate in stock lending not more than 20% of total Net Assets of the Scheme and would limit its exposure with regard to stock lending for a single intermediary to the extent of 5% of the total net assets at the time of lending.</p> <p>Please refer to the SAI for more details.</p>

Any amendments / replacement / re-enactment of SEBI (MF) Regulations subsequent to the date of the Scheme Information Document shall prevail over those specified in this Scheme Information Document.

The Scheme under this Scheme Information Document was approved by the Board of Directors of Zerodha Trustee Private Limited (Trustees to Zerodha Mutual Fund) on July 17, 2025. The Trustees have ensured that the scheme approved is a new product offered by Zerodha Mutual Fund and is not a minor modification to the existing scheme/fund/product.

Notwithstanding anything contained in this Scheme Information Document, the provisions of the SEBI (MF) Regulations, guidelines and circulars issued by SEBI from time to time will be applicable.

Equity derivatives of underlying securities forming part of the index may also be available as an investment option in case the underlying security is not available for purchase.

The scheme shall make investment in derivatives as permitted under the SEBI (MF) regulations. Exposure to equity derivatives of the index or its constituent stocks may be required in certain situations wherein equity shares are unavailable, insufficient or for rebalancing in case of corporate actions within 7 days (or as specified by SEBI from time to time). Investment in derivatives will be upto 20% of the net assets.

Calculation of cumulative gross exposure - The cumulative gross exposure to equity, derivatives, debt instruments and money market instruments will not exceed 100% of the net assets of the scheme in accordance with Clause 12.24 of SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

Numerical example of risk involved –

Using Index Futures to increase percentage investment in equities. This strategy will be used for the purpose of generating returns on idle cash, pending its investment in equities. The Scheme is subject to daily flows. There may be a time lag between the inflow of funds and their deployment in stocks. If so desired, the scheme would be able to take immediate exposure to equities via index futures. The position in index futures may be reversed in a phased manner, as the funds are deployed in the equity markets.

Example:

The scheme has a corpus of Rs. 50 crore and there is an inflow of Rs. 5 crore in a day. The AMC may buy index futures contracts of a value of Rs. 5 crore. Later as the money is deployed in the underlying equities, the value of the index futures contracts can be suitably reduced.

Risk associated with Derivatives

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and the decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Trading in derivatives has the following risks:

1. An exposure to derivatives in excess of the hedging requirements can lead to losses.
2. An exposure to derivatives, when used for hedging purpose, can also limit the profits from a genuine investment transaction.
3. Derivatives carry the risk of adverse changes in the market price.
4. Illiquidity Risk i.e., risk that a derivative trade may not be executed or reversed quickly enough at a fair price, due to lack of liquidity in the market.

The Fund may use derivatives instruments like equity futures & options, or other derivative instruments as permitted under the Regulations and Guidelines. Usage of derivatives will expose the Scheme to liquidity risk, open position risk, and opportunities risk etc. Such risks include the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. In case of the derivative strategies, it may not be possible to square off the cash position against the corresponding derivative position at the exact closing price available in the Value Weighted Average Period. Debt derivatives instruments like interest rate swaps, forward rate agreements or other derivative instruments also involve certain risks.

Disclosure relating to extent and manner of participation in derivatives

The Scheme may invest in derivative for the purpose of portfolio balancing and other purposes as may be permitted under the Regulations. Equity Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on stock exchanges whereas OTC derivative transactions are generally structured between two counterparties. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.

Liquidity / Listing details	<p>On an ongoing basis, the subscription and redemption shall be at NAV based prices on all Business Days. The Fund shall dispatch proceeds of redemption within 03 working days of receiving the valid redemption request.</p> <p>As per SEBI (Mutual Funds) Regulations, the Mutual Fund shall dispatch redemption proceeds within 03 Business Days from the date of redemption. A penal interest of 15% p.a. or such other rate as may be prescribed by SEBI from time to time, will be paid by the AMC in case the redemption proceeds are not dispatched within 03 Business Days from the date of redemption.</p>
NAV disclosure	<p>Disclosure Timings</p> <p>The NAV will be calculated by the AMC for each Business Day except in special circumstances.</p> <p>AMC shall disclose the NAV for each Business Day as below:</p> <ol style="list-style-type: none"> 1. On the website of the Fund/AMC - 11.00 P.M. every Business Day. 2. On the website of Association of Mutual Funds in India (AMFI) - 11.00 P.M. every Business Day. <p>Computation Of NAV</p> <p>The Net Asset Value (NAV) per Unit of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding under the Scheme on the valuation date. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time and as Stipulated in the Investment Valuation Policy and Procedures of the Fund, available on the Website.</p> <p>In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail.</p> <p>NAV of Units of under the Scheme shall be calculated as shown below:</p> $\text{NAV (₹) per Unit} = \frac{\text{Market or Fair Value of the Scheme's Investments} + \text{Current Assets} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under each Scheme}}$ <p>The NAV of the Scheme will be calculated and disclosed at the close of every Business Day.</p> <p>The NAV of the Scheme will be calculated up to 4 decimal places.</p> <p>Methodology for calculation of sale and repurchase price.</p> <p>Pursuant to SEBI circular no. <i>SEBI/HO/IMD/DF2/CIR/P/2018/92</i> dated June 05, 2018 on “Go Green Initiative in Mutual Funds”, the methodology of calculating the sale and repurchase price of units is explained with an illustration below:</p>

A) Sale Price:

The Sale Price for a valid purchase will be the Applicable NAV of the respective Scheme i.e. Sale Price = Applicable NAV.

For a valid purchase request of ₹ 10,000, where the applicable NAV is ₹ 10, the units will be allotted as below:

Purchase Amount - ₹ 10,000

Applicable NAV - ₹ 10

No. of Units - 1,000 Units (*Purchase Amount/Applicable NAV*)

Please note that the entry load has been abolished with effect from August 01, 2009 vide SEBI Circular no.SEBI/IMD/CIR No. 4/ 168230/09 dated August 01, 2009. Hence, Sale price is equal to the applicable NAV.

B) Repurchase Price:

The Repurchase Price for a valid repurchase will be the applicable NAV reduced by any exit load (say 1%, if redeemed before completion of 1 year). i.e. applicable NAV - (applicable NAV X applicable exit load)

For a valid repurchase request where the applicable NAV is ₹ 10, the repurchase price will be as follows :

Applicable NAV - ₹ 10

Exit Load - 1%

= 10 - (10 X 1%)

= 10 - (0.1)

= ₹ 9.9

Therefore, for the repurchase for 1,000 units, the Investor will receive the proceeds as given below:

No. Of Units - 1,000

Repurchase Price = ₹9.9

= 1000 X 9.9

= ₹ 9,900

Note: Transaction charges and other charges/expenses, if any, borne by the investors have not been considered in the above illustration(s).

	<p>The Mutual Fund will ensure that the Redemption Price will not be lower than 95% of the Applicable NAV provided that the difference between the Redemption Price and the Subscription /Purchase Price at any point in time shall not exceed the permitted limit as prescribed by SEBI from time to time, which is currently 5% calculated on the Subscription/ Purchase Price. The Purchase Price shall be at applicable NAV.</p> <p>For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. kindly refer to SAI.</p>														
Applicable timelines	<p><u>Dispatch of redemption proceeds:</u></p> <p>As per SEBI (MF) Regulations, the Mutual Fund shall dispatch Redemption proceeds within 03 Business Days from date of receipt of valid redemption request from the Unit holder.</p> <p><u>Dispatch of IDCW:</u></p> <p>Not Applicable.</p>

Illustration: Impact of Expense Ratio on Scheme's return

Expense ratio, normally expressed as a percentage of Average Assets under Management, is calculated by dividing the permissible expenses under the Regulations by the average net assets.

To further illustrate the above, for the Scheme under reference, suppose an Investor invested ₹10,000/- (after deduction of stamp duty) under the Direct Plan, the impact of expenses charged will be as under:

Particulars	Direct Plan
Amount invested at the beginning of the year (₹)	10,000
Returns before expenses (₹)	1,500
Expenses (₹)	150
Returns after expenses at the end of the year (₹)	1,350
Returns (per annum in %)	13.5%

Note(s):

- The purpose of the above illustration is to purely explain the impact of expense ratio charged to the Plan(s) under the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- It is assumed that the expenses charged are evenly distributed throughout the year.
- Calculations are based on assumed NAVs, and actual returns on your investment may be more, or less.
- Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to seek appropriate advice.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustees or any other entity through any route in terms of SEBI circulars, subject to the clarifications provided by SEBI to AMFI vide letter dated February 21, 2019 on implementation of SEBI Circular dated October 22, 2018 on Total Expense Ratio (TER) and performance disclosure for Mutual Fund.

Total Expense Ratio(TER)

TER for last 6 months and Daily TER

	<p>The AMC/Mutual Fund shall disclose the Total Expense Ratio(TER) of the Scheme on a daily basis on its website viz. https://www.zerodhafundhouse.com/resources/disclosures/</p> <p>Factsheet</p> <p>The AMC on its website viz. https://www.zerodhafundhouse.com/resources/fund-documents will provide a Factsheet of the Scheme on a monthly basis, which contains details such as Fund size, Performance, NAV, etc.</p>
Definitions	<p>In this Scheme Information Document, the words and expressions shall have the meaning specified in the following link, unless the context otherwise requires.</p> <p>https://assets.zerodhafundhouse.com/statutory-reports/other-disclosures/Definitions%20&%20Abbreviations.pdf</p>
Risk factors	<p><u>Scheme specific risk factors:</u></p> <p>The Scheme is subject to the specific risks that may adversely affect the Scheme's NAV, return and / or ability to meet its investment objective. The specific risk factors related to the Scheme include, but are not limited to the following:</p> <p><u>Tracking Error & Tracking Difference Risk</u></p> <p>The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance, changes to the underlying index, regulatory restrictions and lack of liquidity which may result in Tracking Error. Hence it may affect Scheme's ability to achieve close correlation with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible.</p> <p>Tracking errors are inherent in any index fund and such errors may cause the scheme to generate returns which are not in line with the performance of the Nifty 50 Index or one or more securities covered by / included in the Nifty 50 Index and may arise from a variety of factors including but not limited to:</p> <ol style="list-style-type: none"> 1. Any delay in the purchase or sale of securities due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of dividend, etc. 2. The index reflects the prices of securities at a point in time, which is the price at close of business day on the stock exchange. The scheme, however, may trade the securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be identical to the closing price of each scrip on that day on the respective stock exchange. In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from the closing price considered in the Index. 3. The potential of trades to fail may result in the scheme not having acquired the security at the price necessary to mirror the index. 4. Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees.

5. Being an open-ended passive scheme, the scheme may hold appropriate levels of cash or cash equivalents to meet ongoing redemptions.

The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to circuit filters in the securities, liquidity and volatility in security prices. The tracking error of the scheme based on past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs/ Mutual Fund, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. The Scheme will disclose the tracking error based on past one year rolling data, on a daily basis, on the website of AMC and AMFI. In case the Scheme has been in existence for a period of less than one year, the annualized standard deviation shall be calculated based on available data.

Risks associated with Equity and Equity Related Instruments:

Equity and equity related instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as price volatility, volumes traded, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Scheme may be adversely affected.

Equity and equity related instruments listed on the stock exchange carry lower liquidity risk; however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, if there is a subsequent decline in the value of securities held in the Scheme's portfolio.

Investments in equity and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

Risks associated with Debt and Money Market Instruments or Fixed Income Securities:

Debt and Money Market Instruments or Fixed Income Securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.

Credit Risk: This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

	<p>Interest-Rate Risk: Fixed income securities such as government bonds, corporate bonds and Money Market Instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.</p> <p>Liquidity Risk: The Indian debt market is such that a large percentage of the total traded volumes on particular days might be concentrated in a few securities. Traded volumes for particular securities differ significantly on a daily basis. Consequently, the scheme might have to incur a significant “impact cost” while transacting large volumes in a particular security.</p> <p>Reinvestment Risk: Investments in fixed income securities carry reinvestment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.</p> <p>Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements. This may result in loss of value of the portfolio.</p> <p>Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. During the tenure of the security this spread may move adversely or favourably leading to fluctuations in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.</p> <p>Risk of Rating Migration: It may be noted that the price of a rated security would be impacted with the change in rating and hence, there is risk associated with such migration.</p> <p>Counterparty and Settlement Risk: Corporate Bond Repo will be settled between two counterparties in the OTC segment unlike in the case of TREPS transactions where CCIL stands as central counterparty on all transactions (no settlement risk). Settlement risk in reverse repo will be mitigated by requiring the counterparty (entity borrowing funds from the Mutual Fund) to deliver the defined collateral in the account of the MF before the cash is lent to the counterparty. Further, the Mutual Fund will also have a limited universe of counterparties, but not limited to, comprising Scheduled Commercial Banks, Primary Dealers, Mutual Funds and National Financial Institutions.</p> <p>Legislative Risk: Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the scheme.</p> <p><u>Risk factors associated with processing of transactions through Stock Exchange Mechanism</u></p> <p>The trading mechanism introduced by the Stock Exchange(s) is configured to accept and process transactions for mutual fund Units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other authorised Stock Exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing /settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the Stock Exchange mechanism shall be governed by the operating guidelines and directives issued by respective</p>

	<p>recognized Stock Exchange(s). Accordingly, there could be negative impacts to the investors such as delay or failure in allotment / redemption of units. The Fund and the AMC are not responsible for the negative impacts.</p> <p><u>Risk associated with Securities Lending</u></p> <p>Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.</p> <p>The AMC shall adhere to the following limits should it engage in Stock Lending:</p> <ol style="list-style-type: none"> 1. Not more than 20% of the net assets of a Scheme can generally be deployed in Stock Lending. 2. Not more than 5% of the net assets of a Scheme can generally be deployed in Stock Lending to any single approved intermediary / counterparty. <p><u>Risks associated with segregated portfolio:</u></p> <p>The unit holders may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in the segregated portfolio, the AMC shall enable listing of units of segregated portfolio on the recognized stock exchange.</p> <p>The risks associated in regard to the segregated portfolio are as follows:</p> <ul style="list-style-type: none"> • The investors holding units of the segregated portfolio may not be able to liquidate their holdings till the time of recovery of money from the issuer. • The security comprising the segregated portfolio may not realise any value. • Listing units of the segregated portfolio on a recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units of the segregated portfolio on the stock exchange. • The trading price of units on the stock exchange may be significantly lower than the prevailing Net Asset Value (NAV) of the segregated portfolio. <p><u>Risk associated with Derivatives</u></p> <p>Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and the decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.</p> <p>The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.</p> <p>Trading in derivatives has the following risks:</p>
--	---

	<ol style="list-style-type: none"> 1. An exposure to derivatives in excess of the hedging requirements can lead to losses. 2. An exposure to derivatives, when used for hedging purpose, can also limit the profits from a genuine investment transaction. 3. Derivatives carry the risk of adverse changes in the market price. 4. Illiquidity Risk i.e., risk that a derivative trade may not be executed or reversed quickly enough at a fair price, due to lack of liquidity in the market. <p>The Fund may use derivatives instruments like equity futures & options, or other derivative instruments as permitted under the Regulations and Guidelines. Usage of derivatives will expose the Scheme to liquidity risk, open position risk, and opportunities risk etc. Such risks include the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. In case of the derivative strategies, it may not be possible to square off the cash position against the corresponding derivative position at the exact closing price available in the Value Weighted Average Period. Debt derivatives instruments like interest rate swaps, forward rate agreements or other derivative instruments also involve certain risks.</p> <p>Risk Mitigation Strategies</p> <p>The Scheme aims to track the Nifty 50 Index TRI before expenses. The Index is tracked on a regular basis and changes to the constituents or their weights, if any, are replicated in the Underlying Portfolio with the purpose of minimising tracking errors. Investments in equity, debt and money market securities carry various risks such as but not limited to the ones mentioned above. Whilst such risks cannot be eliminated, they may be mitigated by diversification. In order to mitigate the various risks, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in the securities market.</p> <p>The AMC incorporates necessary framework in place for risk mitigation at an enterprise level, and scheme level in accordance with the Risk Management Framework prescribed by the SEBI. The Risk Management division of the AMC is an independent division within the organisation. Internal risk thresholds are defined and judiciously monitored. Risk indicators on various parameters are computed and are monitored on a regular basis. The Risk Management Committee of the Board enables a dedicated focus on risk factors and the relevant risk mitigants from time to time.</p>
Index methodology/ Details of underlying fund in case of Fund of Funds	<p>Index Methodology</p> <p>The Benchmark for the Scheme is Nifty 50 TRI.</p> <p>The Scheme proposes to invest in equity and equity related instruments of companies, which are constituents of the Nifty 50 Index. Hence, it is an appropriate benchmark for the Scheme. Further, a Total Returns Index reflects the returns on the index from index gain/loss plus dividend payments by constituent index stocks.</p> <p>The performance will be benchmarked to the Total Returns Variant of the Index.</p> <p>The Trustee reserves the right to change the benchmark for evaluation of performance of the Scheme from time to time in conformity with the investment objectives and appropriateness of the benchmark subject to SEBI (MF) Regulations, and other prevailing guidelines, if any by suitable notification to investors to this effect.</p>

Index rebalancing: Semi-annually

About the Index :

The index represents 50 companies selected from the universe of Nifty 100 based on freefloat market capitalisation and liquid companies having average impact cost of 0.50% or less for 90% of the observations for a basket size of Rs. 10 Crores. The constituents should have derivative contracts available on NSE.

Eligibility Criteria for Selection of Constituent Stocks:

- i. Market impact cost is the best measure of the liquidity of a stock. It accurately reflects the costs faced when actually trading an index. For a stock to qualify for possible inclusion into the Nifty50, have traded at an average impact cost of 0.50% or less during the last six months for 90% of the observations, for the basket size of Rs. 100 Million.
- ii. Companies that are allowed to trade in F&O segment are only eligible to be constituent of the index.
- iii. The Company should have a minimum listing history of 1 month as on the cutoff date.

Index service provider: NSE Indices Limited (NSE Indices), a subsidiary of NSE Strategic Investment Corporation Limited was setup in May 1998 to provide a variety of indices and index related services and products for the Indian capital markets. NSE Indices provides a broad range of services, products and professional index services.

Portfolio concentration norms

In accordance with SEBI Circular SEBI/HO/IMD/DF3/ CIR/P/ 2019/011 dated January 10, 2019, the Index shall comply with the following portfolio concentration norms:

- (a) The Index shall have a minimum of 10 stocks as its constituents.
- (b) No single stock shall have more than 25% weight in the Index.
- (c) The weightage of the top three constituents of the Index, cumulatively shall not be more than 65% of the Index.
- (d) The individual constituent of the Index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over the previous six months.

The Scheme shall monitor compliance with the aforesaid norms by the Index at the end of every calendar quarter.

Further, the updated constituents of the Index will be made available on the website of the Fund.

There is no assurance that the investment objective of the Scheme will be achieved.</p> <p>(iii) Terms of Issue:</p> <p>a) Liquidity provisions such as listing, repurchase, redemption. Please refer to the section "Other Scheme Specific Disclosures."</p> <p>b) Aggregate fees and expenses charged to the Scheme. Please refer, section "Breakup of Annual Scheme Recurring expenses"</p> <p>c) Any safety net or guarantee provided - Not applicable.</p> <p>Change in Fundamental Attributes:</p> <p>In accordance with Regulation 18 (15A) of the SEBI (Mutual Funds) Regulations, the Trustee shall ensure that no change in the fundamental attributes of the Scheme and the Option thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme and the Option thereunder and affect the interest of Unit holders is carried out unless AMC complies with sub-regulation (26) of Regulation 25 of the SEBI (MF) Regulations.:</p> <p>Further, in accordance with Regulation 25 (26) of the SEBI (MF) Regulations, the AMC shall ensure that no change in the fundamental attributes of the Scheme or the trust or fee and expenses payable or any other change which would modify the Scheme and affect the interests of Unitholders shall be carried out unless:</p> <ul style="list-style-type: none"> - A written communication about the proposed change is sent to each Unit holder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated. - The Unit holders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any Exit Load. <p>In addition to the above, for bringing change in the fundamental attributes of the scheme, the comments shall be taken from SEBI before bringing such change(s).</p>

Where will the Scheme Invest?	<p>The corpus of the scheme will be invested in Equity and Equity related instruments, debt, money market instruments and other permitted instruments, which will include but not limited to:</p> <ol style="list-style-type: none"> 1) Equity and Equity related instruments, derivatives and other instruments as may be permitted by SEBI from time to time. 2) Debt and Money Market Instruments: <ol style="list-style-type: none"> a) Tri-party repo (TREPS) b) Certificate of Deposit (CD) of scheduled commercial banks and development financial Institutions c) Commercial Paper (CP) d) Treasury Bill (T-Bill) e) Repo f) Securities created and issued by the Central and State Governments g) Non-convertible debentures and bonds h) Floating rate debt instruments i) Investment in Short Term Deposits
What are the investment strategies?	<p>The Scheme is a passively managed index fund, which endeavors to invest in stocks in proportion to the weightage of the stocks in the Nifty 50 Index. The investment strategy would revolve around reducing the tracking error to the least possible extent through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Index as well as the incremental collections/redemptions in the Scheme. Such rebalancing shall be done in accordance with timelines prescribed by SEBI from time to time.</p> <p>A part of the funds may be invested in debt and money market instruments, to meet the liquidity requirements.</p> <p>The Scheme may also invest in the schemes of Mutual Funds in terms of the prevailing SEBI (MF) Regulations.</p> <p>Though every endeavor will be made to achieve the objective of the Scheme, the AMC/Sponsors/Trustee do not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.</p> <p>EQUITY INVESTMENT STRATEGY:</p> <p>The investment objective of the scheme is to achieve a return equivalent to NIFTY 50 TRI by investing in stocks of companies comprising NIFTY 50 Index. The Scheme endeavours to invest in stocks in proportion to the weightages of these stocks in the NIFTY 50 Index. The fund will, in general, invest a significant part of its corpus in equities; the surplus amount of the fund, not exceeding 5% shall be invested in Cash/Tri-Party Repo, Repo in corporate debt securities & Money Market instruments.</p> <p>The performance of the Scheme may not be commensurate with the performance of the respective benchmark of the Schemes on any given day or over any given period. Such variations are commonly referred to as the tracking error. The Scheme intends to maintain a low tracking error by effectively replicating the portfolio in line with the index.</p> <p>However, there is no assurance that all such buying and selling activities would necessarily result in benefit for the Fund.</p>

	<p>DEBT AND MONEY MARKET INVESTMENT STRATEGY:</p> <p>A small portion of the net assets will be held as cash or will be invested in debt and money market instruments permitted by SEBI/RBI including TREPS or in alternative investment for the TREPS as may be provided by the RBI, to meet the liquidity requirements under the Scheme.</p> <p>STRATEGIES FOR INVESTMENT IN DERIVATIVES:</p> <p>The Scheme may take derivatives positions based on the opportunities available subject to the guidelines provided by SEBI from time to time and in line with the overall investment objective of the Scheme.</p> <p>The Scheme intends to use derivatives mainly for the purpose of hedging and portfolio balancing. Losses may arise as a result of using derivatives, but these are likely to be compensated by the gains on the underlying cash instruments held by the Scheme. The Scheme will not assume any leveraged exposure to derivatives.</p> <p>Derivatives can be traded over the exchange or can be structured between two counterparties.</p>
