PART I. HIGHLIGHTS/SUMMARY OF THE SCHEME

Sr. No.	Title	Description
I.	Name of the scheme	Bandhan Healthcare Fund
II.	Category of the Scheme	Sectoral / Thematic Fund
III.	Scheme type	An open-ended equity scheme investing in healthcare, pharma and allied services.
IV.	Scheme code	BNDN/O/E/THE/25/08/0087
V.	Investment objective	The scheme seeks to generate long-term capital appreciation by investing predominantly in equity and equity-related instruments of companies engaged in Healthcare, Pharma and Allied sectors. Disclaimer: There is no assurance or guarantee that the scheme's objectives will be realised.
VI.	Liquidity/listing details	Units of the Scheme may be purchased or redeemed on all Business Days at NAV based prices subject to the prevailing load structure. The units of the Scheme are presently not listed on any stock exchange. Investors having a bank account with Banks whom the Fund has an arrangement from time to time can avail of the facility of direct debit/credit to their account for purchase/sale of their units. The Fund shall dispatch the redemption proceeds within 3 (three) working days from the date of acceptance of duly filled in redemption request at any of the official point of acceptance of transactions. Further, the investor may note that in case of exceptional scenarios as prescribed by AMFI vide its communication no. AMFI/ 35P/ MEM-COR/ 74 / 2022-23 dated January 16, 2023 read with clause 14.2 of SEBI Master Circular dated June 27, 2024 (SEBI Master Circular), the AMC might follow the additional timelines as prescribed. In case the Redemption proceeds are not made within 3 working Days of the date of redemption or repurchase, interest will be paid @15% per annum or such other rate from the 4th day onwards, as may be prescribed by SEBI from time to time. The Scheme is an open ended scheme, sale and repurchase is available on a continuous basis and therefore the Units of the Scheme are presently not proposed to be listed on any stock exchange. However, the Fund may at its sole discretion list the Units under the Scheme on one or more Stock Exchanges at a later date subject to applicable SEBI Mutual Fund Regulations, and thereupon the Fund will make a suitable public announcement to that effect.
VII.	Benchmark (Total Return Index)	The performance of the scheme will be benchmarked against BSE Healthcare TRI. The benchmark of the scheme is in line with the list of benchmark prescribed by AMFI. As the scheme proposes to invest predominantly in Pharma and

Sr. No.	Title	Description
		healthcare companies, the benchmark would be appropriate to compare performance of the Scheme. Benchmark has been chosen on the basis of the investment pattern/ objective of the scheme/s and the composition of the index. The Trustees may change the benchmark in future if a benchmark better suited to the investment objective of the scheme is available, provided any change in benchmark will be subject to regulatory approval of SEBI.
VIII.	NAV disclosure	NAV will be determined for every Business Day except in special circumstances. NAV calculated upto three decimal places. NAV of the Scheme shall be made available on the website of AMFI (www.amfiindia.com) and the Mutual Fund (www.bandhanmutual.com) by 11.00 p.m. on all business days. The NAV shall also be available on the call free number 1-800-300-66688 and on the website of the Registrar CAMS (www.camsonline.com). In case the NAV is not uploaded by 11.00 p.m it shall be explained in writing to AMFI for non adherence of time limit for uploading NAV on AMFI's website. If the NAVs are not available before the commencement of business hours on the following day due to any reason, the Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAV. As the Scheme can invest in overseas securities, valuations of which are declared as per their different time zones, daylight savings and market hours, therefore pursuant to Para 8.2 of the SEBI Master Circular with respect to "Review of time limit for disclosure of NAV of Mutual fund schemes investing overseas", the timeline for declaration of NAV of the Scheme shall be by 10 a.m. of the immediately succeeding Business Day.
IX.	Applicable timelines	Timeline for Dispatch of redemption proceeds: The Fund shall dispatch the redemption proceeds within 3 (three) working days from the date of acceptance of duly filled in redemption request at any of the official point of acceptance of transactions. Further, the investor may note that in case of exceptional scenarios as prescribed by AMFI vide its communication no. AMFI/ 35P/ MEM-COR/ 74 / 2022-23 dated January 16, 2023, read with clause 14.2 of SEBI Master Circular dated June 27, 2024 ("SEBI Master Circular"), the AMC might follow the additional timelines as prescribed. In case the Redemption proceeds are not made within 3 working Days of the date of redemption or repurchase, interest will be paid @15% per annum or such other rate from the 4th day onwards, as may be prescribed by SEBI from time to time. Refer SAI for details on exceptional scenarios. Timeline for Dispatch of IDCW: The Fund shall dispatch the IDCW warrant to the unitholders shall be made within seven working days from the record date. The record date shall be two working days from the issue of public notice, wherever applicable, for the purpose of payment of dividend.

PART II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The asset allocation under the scheme will be as follows:

Instruments	Indicative Allocation (% of Total Assets)	
	Minimum	Maximum
Equity & equity related instruments engaged in Healthcare, Pharma and Allied sectors#	80%	100%
Equity & Equity related securities other than above and overseas securities*	0%	20%
Debt Securities and Money Market Instruments (including Government securities, Securitised debt)#	0%	20%
Units issued by REITs & InvITs	0%	10%

*Investment in Foreign Securities - up to 20% of the total assets of the scheme. The scheme intends to invest a maximum of USD 30 million in Overseas securities. This limit will be applicable for a period of six months from the date of closure of NFO, subject to the overall limit of fund house up to a maximum of US\$ 1 billion. Investment in foreign securities/overseas Mutual Funds in terms of para 12.19 of SEBI Master Circular dated June 27, 2024, within the overall applicable limits. In accordance with para 12.19.1.3 of the SEBI Master Circular dated June 27, 2024, it is clarified that the aforesaid limit applicable for a period of six months from the date of closure of NFO will be the soft limit.

In line with SEBI Master circular point 12.19.1.3.c for all ongoing schemes that invest or are allowed to invest in Overseas securities / Overseas ETFs, an investment headroom of 20% of the average AUM in Overseas securities / Overseas ETFs of the previous three calendar months would be available to the Mutual Fund for that month to invest in Overseas securities / Overseas ETFs subject to maximum limits specified in Paragraph 12.19.1 of SEBI Master Circular. The disclosure as per SEBI Master circular point 12.19.1.3.b and point 12.19.1.3.c on overseas investment would be soft limits for the purpose of reporting only by Mutual Funds on monthly basis in the prescribed format. Further, in line with the SEBI email dated March 19, 2024, the scheme shall not invest in overseas ETFs until further notice and any further investment in overseas ETF shall be in line with the limits permitted by SEBI/RBI.

The Scheme can make overseas investments subject to a maximum of US \$ 1 billion per Mutual Fund, within the overall industry limit of US \$ 7 billion or such limits as may be prescribed by SEBI from time to time. The Scheme therefore may or may not be able to utilise the limit of USD 1 billion due to the USD 7 billion limit being exhausted by other Mutual Funds. Further, the scheme can make investments in overseas Exchange Traded Fund (ETF(s)) subject to a maximum of US \$ 300 million per Mutual Fund, within the overall industry limit of US \$ 1 billion.

Investment in Securities Lending - up to 20% of the total assets with maximum single counter party exposure restricted to 5% of the total assets.

Subject to SEBI (MF) Regulations and in accordance with Securities Lending Scheme, 1997, Clause 12.11 of SEBI Master Circular, as amended from time to time, the Fund can engage in securities lending and borrowing. Securities lending means lending a security to another person or entity for a fixed period of time, at a negotiated compensation. The security lent will be returned by the borrower on expiry of the stipulated period. The security lent will be returned by the borrower on expiry of the stipulated

period up to 20% of the total assets with maximum single counter party exposure restricted to 5% of the total assets.

Exposure in Equity Derivatives (other than for hedging purpose) - up to 50% of total equity assets of the Scheme.

Exposure in Equity Derivatives for hedging purposes: up to 50% of total equity assets of the Scheme.

In line with para 12.18 of SEBI Master Circular, Gross Exposure to Repo of Corporate Debt Securities – up to the extent permitted by the Regulations (currently up to 10% of net assets of the scheme, subject to change in line with the regulations from time to time).

The Scheme shall invest in securitized debt - up to 40% of the debt assets.

The Scheme may engage in short selling of securities in accordance with the guidelines / regulations issued by SEBI. Engaging in short sale of securities is subject to risks related to fluctuations in market price, and settlement/ liquidity risks.

#Money Market instruments includes commercial papers, commercial bills, Tri- party repos, treasury bills, Government securities having residual maturity up to one year, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time.

As per Clause 12.24 of SEBI Master Circular, the cumulative gross exposure through equity and equity related instruments, debt and money market instruments, derivative, repo transactions in corporate debt securities, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), and other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme.

Pursuant to Clause 12.25.3 of SEBI Master Circular and SEBI Letter to AMFI dated November 03, 2021, Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. Cash Equivalent shall consist of the following securities having residual maturity of less than 91 days:

- a) Government Securities
- b) T-Bills and
- c) Repo on Government securities.

The scheme will not invest in the following:

Credit default swaps;
Debt Instruments having Structured Obligations / Credit Enhancements as specified in Clause 12.1.1 of SEBI Master Circular;
Commodity Derivatives,

Para 12.18.1.1 of SEBI Master Circular

In terms of SEBI Circular dated February 27, 2025, AMC shall deploy the funds garnered in an NFO within 30 business days from the date of allotment of units. In an exceptional case, if the AMC is not able to deploy the funds in 30 business days, reasons in writing, including details of efforts taken to deploy the funds, shall be placed before the Investment Committee of the AMC. The Investment Committee may extend the timeline by 30 business days, while also making recommendations on how to ensure deployment within 30 business days going forward and monitoring the same. The Investment Committee shall examine the root cause for delay in deployment before granting approval for part or full extension. The Investment Committee shall not ordinarily give part or full extension where the assets for any scheme are liquid and readily available.

Change in Investment Pattern

Rebalancing due to Short Term Defensive Consideration

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per Clause 1.14.1.2 of SEBI Master circular, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Rebalancing due to Passive Breaches

Pursuant to clause 2.9 of SEBI Master circular, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches, the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Clause 2.9 of SEBI Master circular.

Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the Regulations, as detailed later in this document.

B. WHERE WILL THE SCHEME INVEST?

The corpus of the Scheme will be invested in equity and equity related products & in debt and money market instruments. At least 80% of investments in equity and equity related securities shall be in companies engaged in Healthcare, Pharma and Allied sectors.

Subject to the Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities/ instruments:

1. Equity and Equity related instruments of the relevant sectors include equity warrants and convertible instruments.

The Scheme may also enter into repurchase and reverse repurchase obligations in all securities held by it as per the guidelines and regulations applicable to such transactions.

The Scheme may participate in securities lending as permitted under the Regulations. Investment in overseas securities shall be made in accordance with the requirements stipulated by SEBI and RBI from time to time.

Pending deployment of funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short-term deposits of scheduled commercial banks, subject to the guidelines issued by SEBI vide para 12.16 of SEBI Master circular as amended from time to time. The AMC shall not charge any investment management and advisory fees for parking of funds in such short term deposits of scheduled commercial banks for the scheme.

Investment in overseas securities shall be in accordance with the requirements stipulated by SEBI and RBI from time to time.

Detailed definition and applicable regulations/guidelines for each instrument is included in Section II.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The scheme is an open-ended thematic scheme and endeavors to provide long-term capital appreciation through investment primarily in companies engaged in Healthcare, Pharma and Allied sectors.

The fund will be actively managed and will have the flexibility to invest across market caps. The fund manager will predominantly follow a bottom-up approach. While creating the universe and selecting the stocks, the fund manager will focus on the fundamentals of the business, the robustness of the business model and potential for growth, the quality of management, governance standards, the financial strength of the company, market leadership, etc.

The scheme will invest in companies classified under 'Healthcare Equipment & Supplies, Healthcare Services, Pharmaceuticals & Biotechnology' as per the industry classification issued by AMFI from

time to time and any other industry/sector that forms part of the benchmark index. The Scheme may also invest in companies involved in other healthcare, pharmaceutical and allied sectors.

The Fund Manager may select stocks of the companies engaged in the following-

- Pharmaceuticals
- Hospital
- Biotechnology
- Medical Equipment & Supplies
- Healthcare Service Provider
- Healthcare Research, Analytics & Technology
- Pharmacy Retail
- Wellness
- And any other services that directly or indirectly forming part of the healthcare and allied sectors.

Though every endeavor will be made to achieve the objective of the Scheme, the AMC / Sponsors / Trustee does not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

INVESTMENT IN DERIVATIVES

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

(i) Trading in Derivatives

The Scheme may use derivatives instruments like Stock/ Index Futures & Options, or such other derivative instruments as may be introduced from time to time and in the manner permitted by SEBI/RBI from time to time.

The following information provides a basic idea as to the nature of the derivative instruments proposed to be used by the Scheme and the risks attached there with.

Features of Derivatives:

Derivatives provide unique flexibility to the Scheme to hedge part of its portfolio. Some of the features of specific derivatives are as under:

ii) Derivatives Strategy

Equity Derivative

The Scheme intends to use derivatives for purposes that may be permitted by SEBI Mutual Fund regulations from time to time. Derivatives instruments may take the form of Futures, Options, Swaps or any other instrument, as may be permitted from time to time. SEBI has vide its Master Circular under Clause 7.5 specified the guidelines pertaining to trading by Mutual Fund in Exchange traded derivatives. All Derivative positions taken in the portfolio would be guided by the following principles:

- i. Position limit for the Fund in index options contracts
 - a. The Fund position limit in all index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index options, whichever is higher per Stock Exchange.
 - b. This limit would be applicable on open positions in all options contracts on a particular underlying index.
- ii. Position limit for the Fund in index futures contracts:
 - a. The Fund position limit in all index futures contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
 - b. This limit would be applicable on open positions in all futures contracts on a particular underlying index.
- iii. Additional position limit for hedging
In addition to the position limits at point (i) and (ii) above, Fund may take exposure in equity index derivatives subject to the following limits:
 - a. Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Fund's holding of stocks.
 - b. Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Fund's holding of cash, government securities, T-Bills and similar instruments.
- iv. Position limit for the Fund for stock based derivative contracts :

The Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts, :-
 - a. The combined futures and options position limit shall be 20% of the applicable MWPL.
 - b. The MWPL and client level position limits however would remain the same as prescribed
- v. Position limit for the Scheme
The position limits for the Scheme and disclosure requirements are as follows–
 - a. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a Fund shall not exceed the higher of:
 - 1% of the free float market capitalisation (in terms of number of shares) Or
 - 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).
 - b. This position limit shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
 - c. For index based contracts, the Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.”

Covered Call Options Strategy

Under para 12.25.8 of SEBI Master Circular for Mutual Funds dated June 27, 2024 (“Master Circular”),

the mutual fund schemes are permitted to write call options under a covered call strategy as per the prescribed guidelines. A call option gives the holder (buyer) the right but not the obligation to buy an asset by a certain date for a certain price. Covered calls are an options strategy where a person holds a long position in an asset and writes (sells) call options on that same asset to generate an income stream.

Benefits of using Covered Call strategy in Mutual Funds:

The covered call strategy can be followed by the Fund Manager in order to hedge risk thereby resulting in better risk adjusted returns of the Scheme. This strategy is also employed when the Fund Manager has a short-term neutral view on the asset and for this reason holds the asset long and simultaneously takes a short position via covered call option strategy to generate income from the option premium. The strategy offers the following benefits:

- a) Hedge against market risk - Since the fund manager sells a call option on a stock already owned by the mutual fund scheme, the downside from fall in the stock price would be lower to the extent of the premium earned from the call option.
- b) Generating additional returns in the form of option premium in a range bound market. Thus, a covered call strategy involves gains for unit holders in case the strategy plays out in the right direction.

Illustration – Covered Call strategy using stock call options:

Suppose a fund manager buys equity stock of ABC Ltd. for Rs. 1,000 and simultaneously sells a call option on the same stock at a strike price of Rs. 1,100. The scheme earns a premium of say, Rs. 50. Here, the fund manager does not have a view that the stock price will exceed Rs. 1,100.

Scenario 1: Stock price exceeds Rs. 1,100

The call option will get exercised and the fund manager will sell the stock to settle his obligation on the call at Rs. 1,100 (earning a return of 10% on the stock purchase price). Also, the scheme has earned a premium of Rs. 50 which reduced the purchase cost of the stock (Rs. 1,000 - Rs. 50 = Rs. 950).

Net Gain - Rs. 150

Scenario 2: Stock prices stays below Rs. 1100

The call option will not get exercised and will expire worthless. The premium earned on call option will generate alpha for the scheme. Net Gain -Rs. 50.

The Scheme will comply with provisions specified in clause 12.25 of Master Circular related to overall exposure limits applicable for derivative transactions.

The following section describes some of the more common equity derivatives transactions along with their benefits:

1. Basic Structure of a Stock & Index Future

The Stock Index futures are instruments designed to give exposure to the equity markets indices. The stock Exchange, Mumbai (BSE) and The National Stock Exchange (NSE) provide futures in select stocks and indices with maturities of 1, 2 and 3 months. The pricing of a stock/index future is the function of the underlying stock/index and short term interest rates.

Example using hypothetical figures:

1 month NIFTY 50 Index Future

Say, Fund buys 1,000 futures contracts; each contract value is 50 times futures index price

Purchase Date : February 24, 2021

Spot Index : 6000

Future Price : 6150

Say, Date of Expiry : March 24, 2021

Say, Margin : 20%

Assuming the exchange imposes total margin of 20%, the Investment Manager will be required to provide total margin of approx. Rs. 6.15 Cr (i.e. $20\% * 6150 * 1000 * 50$) through eligible securities and cash.

Date of Expiry:

Assuming on the date of expiry, i.e. March 24, 2021, Nifty 50 Index closes at 6200, the net impact will be a profit of Rs 25,00,000 for the fund i.e. $(6200 - 6150) * 1000 * 50$

Futures price = Closing spot price = 6200.00

Profits for the Fund = $(6200 - 6150) * 1000 * 50$ = Rs. 25,00,000/-

Please note that the above example is given for illustration purposes only. Some assumptions have been made for the sake of simplicity.

The net impact for the Fund will be in terms of the difference of the closing price of the index and cost price. Thus, it is clear from the example that the profit or loss for the Fund will be the difference of the closing price (which can be higher or lower than the purchase price) and the purchase price. The risks associated with index futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and potential mis-pricing of the futures.

2. Basic Structure of an Equity Option:

An option gives a buyer the right but does not cast the obligation to buy or sell the underlying. An option is a contract between two parties wherein the buyer receives a privilege for which he pays a fee (premium) and the seller accepts an obligation for which he receives a fee. The premium is the price negotiated and set when the option is bought or sold. A person who buys an option is said to be long in the option. A person who sells (or writes) an option is said to be short in the option.

In India, National Stock Exchange (NSE) became the first exchange to launch trading in options on individual securities. Trading in options on individual securities commenced from July 2, 2001. All stock/index Option contracts are European style and cash settled and are currently available on 5 Indices and 223 securities as stipulated by the Securities and Exchange Board of India (SEBI).

Example using hypothetical figures on Index Options:

Market type : N

Instrument Type : OPTIDX

Underlying : Nifty 50

Purchase date : February 24, 2021

Expiry date : March 24, 2021

Option Type : Put Option (Purchased)

Strike Price : Rs. 6,100.00

Spot Price : Rs. 6,136.00

Premium : Rs. 84.00

Lot Size : 50

No. of Contracts : 100

Say, the Fund purchases on February 24, 2021, 1 month Put Options on Nifty 50 on the NSE i.e. put

options on 5000 shares (100 contracts of 50 shares each) of Nifty 50.

Date of Exercise:

As these are European style options, they can be exercised only on the expiry date i.e. March 24, 2021. If the share price of Nifty 50 falls to Rs.5,500 on expiry day, the net impact will be as follows:

Premium expense = Rs.84*100* 50 =Rs. 4,20,000/-

Option Exercised at = Rs. 5,500/-

Profits for the Fund = (6100.00–5,500.00) * 100*50 = Rs. 30,00,000/-

Net Profit = Rs. 30,00,000 – Rs. 4,20,000 = Rs. 25,80,000/-

In the above example, the Investment Manager hedged the market risk on 5,000 shares of Nifty 50 Index by purchasing Put Options.

Please note that the above example is given for illustration purposes only. Some assumptions have been made for the sake of simplicity. Certain factors like margins have been ignored. The purchase of Put Options does not increase the market risk in the fund as the risk is already in the fund's portfolio on account of the underlying asset position. The premium paid for the option is treated as an expense. Additional risks could be on account of illiquidity and potential mis-pricing of the options.

PORTFOLIO TURNOVER

Portfolio turnover in the scheme will be a function of market opportunities. It is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. The AMC will endeavor to optimize portfolio turnover to optimize risk-adjusted return keeping in mind the cost associated with it. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of investment opportunities that exist in the market.

Portfolio Turnover Ratio is calculated as lower of purchase or sale during the period /Average AUM for the last one year (includes Fixed Income securities and Equity derivatives).

NOTE ON DEBT MARKET & MONEY MARKET IN INDIA

The Indian debt markets are one of the largest such markets in Asia. Government and Public Sector enterprises are predominant borrowers in the market. While interest rates were regulated till a few years back, there has been a rapid deregulation and currently both the lending and deposit rates are market determined.

The debt markets are developing fast, with the rapid introduction of new instruments including Foreign Portfolio Investors are also allowed to invest in Indian debt markets now. There has been a considerable increase in the trading volumes in the market. The trading volumes are largely concentrated in the Government of India Securities, which contribute a significant proportion of the daily trades.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills & Cash Management Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates.

Following table exhibits various debt instruments along with indicative yields as on September 12, 2025:

Instruments	Yield level (% per annum)
G-Sec 5 year	6.26%
G-Sec 10 year	6.48%
CP 3 months	5.91%
CD 3 months	5.87%
CP 1 year	6.40%
CD 1 year	6.37%
PSU	
Corporate Debentures AAA 3 year	6.69%
Corporate Debentures AAA 5 year	6.88%
NBFC	
Corporate Debentures AAA 3 year	7.08%
Corporate Debentures AAA 5 year	7.20%

The actual yields will, however, vary in line with general levels of interest rates and debt/money market conditions prevailing from time to time.

The mutual fund or AMC and its empanelled brokers have not given and shall not give any indicative portfolio and indicative yield in any communication, in any manner whatsoever. Investors are advised not to rely on any communication regarding indicative yield/ portfolio with regard to the scheme.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the scheme will be benchmarked against BSE Healthcare TRI.

The benchmark of the scheme is in line with the list of benchmark prescribed by AMFI. As the scheme proposes to invest predominantly in Pharma and healthcare companies, the benchmark would be appropriate to compare performance of the Scheme. Benchmark has been chosen on the basis of the investment pattern/ objective of the scheme/s and the composition of the index. The Trustees may change the benchmark in future if a benchmark better suited to the investment objective of the scheme is available, provided any change in benchmark will be subject to regulatory approval of SEBI.

This scheme is a new scheme and hence this disclosure is currently not available.				

For details of the investments by key personnel and AMC directors including regulatory provisions please refer SAI.

vi. Investments of AMC in the Scheme:

Refer <https://bandhanmutual.com/downloads/sid> for the details of the investments of AMC in the Scheme.

Subject to the Regulations, the AMC may invest in the Scheme during the NFO and/or on ongoing basis. However, the AMC shall not charge any investment management and advisory fee on such investment in the Scheme, in accordance with sub-regulation 17 of Regulation 25 of the Regulations and shall charge fees on such amounts in future only if the SEBI Regulations so permit.

The AMC shall invest in the scheme based on the risk associated with the scheme as specified in para 6.9 of the SEBI Master Circular.

The Scheme may invest in another scheme managed by the same AMC or by the AMC of any other Mutual Fund without charging any fees on such investments, provided that aggregate inter-scheme investment made by all schemes managed by the same AMC or by the AMC of any other Mutual Fund shall not exceed 5% of the net asset value of the Fund. For detailed provisions refer SAI.

PART III- OTHER DETAILS

A. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time.

All expenses and incomes accrued up to the valuation date shall be considered for computation of NAV. For this purpose, major expenses like management fees and other periodic expenses would be accrued on a day to day basis. The minor expenses and income will be accrued on a periodic basis, provided the non-daily accrual does not affect the NAV calculations by more than 1%.

Any changes in securities and in the number of units be recorded in the books not later than the first valuation date following the date of transaction. If this is not possible given the frequency of the Net Asset Value disclosure, the recording may be delayed upto a period of seven days following the date of the transaction, provided that as a result of the non-recording, the Net Asset Value calculations shall not be affected by more than 1%.

In case the Net Asset Value of a scheme differs by more than 1%, due to non - recording of the transactions, the investors or scheme/s as the case may be, shall be paid the difference in amount as follows:-

- (i) If the investors are allotted units at a price higher than Net Asset Value or are given a price lower than Net Asset Value at the time of sale of their units, they shall be paid the difference in amount by the scheme.
- (ii) If the investors are charged lower Net Asset Value at the time of purchase of their units or are given higher Net Asset Value at the time of sale of their units, asset management company shall pay the difference in amount to the scheme.

The asset management company may recover the difference from the investors.

NAV of units under the Scheme shall be calculated as shown below:

NAV (Rs.) =

Market or Fair Value of Scheme's investments	+	Current Assets including Accrued Income	-	Current Liabilities and Provisions including accrued expenses
--	---	---	---	---

No. of Units outstanding under Scheme

During the continuous offer of the scheme, the units will be available at the applicable NAV based prices. This is the price that an investor will pay for purchase / switch in.

Ongoing price for redemption (sale) /switch outs (to other schemes/plans of the Mutual Fund) by investors:

At the applicable NAV subjects to prevailing exit load.
This is the price you will receive for redemptions/switch outs.

Illustration:

Computation of NAV - Assume that the Market or Fair Value of Scheme's investments is Rs. 1,00,00,000; Current asset of the scheme is Rs. 25,00,000; Current Liabilities and Provisions is Rs. 15,00,000 and the No. of Units outstanding under the scheme are 5,00,000. Thus, the NAV will be calculated as:

$$\text{NAV} = \frac{10000000 + 2500000 - 1500000}{500000} = 22.000$$

Therefore, the NAV of the scheme is Rs. 22.000

Computation of Repurchase Price - If the applicable NAV is Rs. 10, exit load is 2% then redemption price will be: Rs. 10* (1-0.02) = Rs. 9.80

The Repurchase Price will not be lower than 95% of the NAV. Pursuant to clause 10.4.1.a of the SEBI Master circular for Mutual Funds dated June 27, 2024, no entry load will be charged by the Scheme to the investors.

The NAV of the Scheme will be calculated upto three decimal places and will be declared on each business day.

For details on policies related to computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV, please refer SAI.

B. NEW FUND OFFER (NFO) EXPENSES

The New Fund Offer expenses of the scheme will not be borne by the Scheme.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 2.25% (plus additional expenses as permitted under SEBI Regulations) of the daily net assets of the scheme will be charged to the scheme as expenses.

As per SEBI (MF) Regulations, 1996, recurring expenses will not exceed the following limits

1. on the first Rs. 500 crore of the Scheme's daily net assets, will not exceed 2.25%;
2. on the next Rs. 250 crore of the Scheme's daily net assets, will not exceed 2.00%;
3. on the next Rs. 1,250 crore of the Scheme's daily net assets, will not exceed 1.75%;
4. on the next Rs. 3,000 crore of the Scheme's daily net assets, will not exceed 1.60%;
5. on the next Rs. 5,000 crore of the Scheme's daily net assets, will not exceed 1.50%;
6. on the next Rs. 40,000 crore of the Scheme's daily net assets, Total Expense Ratio reduction of 0.05% for every increase of Rs. 5,000 crores of daily net assets or part thereof; and
7. on balance of the assets, will not exceed 1.05%.

In addition to the recurring expense mentioned above, additional expenses of 0.05% of daily net assets

of the scheme shall be chargeable. Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable.

For the actual current expenses being charged, the investor should refer to the website of the mutual fund.

Expense Head	% p.a. of daily Net Assets* (Estimated p.a.)
Investment Management & Advisory Fee	Upto 2.25%
Audit fees/fees and expenses of trustees	
Custodial Fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Costs related to investor communications	
Costs of fund transfer from location to location	
Cost towards investor education & awareness	
Brokerage & transaction cost pertaining to distribution of units	
Goods & Services Tax on expenses other than investment and advisory fees	
Goods & Services Tax on brokerage and transaction cost	
Other Expenses (to be specified as per Reg 52 of SEBI MF Regulations)	
Maximum Total expenses ratio (TER) permissible under Regulation 52 (6) (c) [^]	Upto 2.25%
Additional expenses under Regulations 52(6A)(c)	Upto 0.05%
Additional expenses for gross new inflows from specified cities	Upto 0.30%

[^] In terms of SEBI Circular No. CIR/IMD/DF/21/2012 dated September 13, 2012, the AMC / Mutual Fund shall annually set apart at least 2 basis points (i.e. 0.02%) on daily net assets of the scheme within the maximum limit of Total Expense Ratio as per Regulation 52 of the SEBI (MF) Regulations for investor education and awareness initiatives.

@Brokerage and transaction costs (inclusive of GST) which are incurred for the purpose of execution of trades, shall be charged to the scheme as per Regulation 52(6A)(a) of SEBI (Mutual Funds) Regulations, 1996 not exceeding 0.12 per cent in case of cash market transactions and 0.05 per cent in case of derivatives transactions. With effect from April 1, 2023, to align with Indian Accounting Standards requirement, transactions cost incurred for the purpose of execution of trades are expensed out (viz. charged to Revenue Account instead of Capitalization (i.e. forming part of cost of investment)). Any payment towards brokerage and transaction cost, over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

The expense of 30 bps shall be charged if the new inflows from retail investors from B30 cities as specified from time to time are at least -

(i) 30 per cent of gross new inflows from retail investors in the scheme, or; (ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher:

Provided that if inflows from retail investors from B30 cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from retail investors from B30 cities. Provided further that amount

incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

In case inflows from retail investors from beyond top 30 cities is less than the higher of (i) or (ii) above, additional TER on daily net assets of the scheme shall be charged as follows:

Daily net assets X 30 basis points X New inflows from individuals beyond top 30 cities

365* X Higher of (i) or (ii) above

* 366, wherever applicable.

For the above purposes, 'B30 cities' shall be beyond Top 30 cities as at the end of previous financial year as communicated by AMFI. Retail investors would mean individual investors from whom inflows into the Scheme would amount upto Rs. 2,00,000/- per transaction.

Note: SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 and AMFI letter dated No. 35P/ MEM-COR/ 85-a/ 2022-23 dated March 02, 2023 has directed AMCs to keep B-30 incentive structure in abeyance with effect from March 01, 2023 till further notice.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan. All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in other than Direct Plan.

The AMC shall adhere provisions of SEBI Circular dated October 22, 2018, and various guidelines specified by SEBI as amended from time to time, with reference to charging of fees and expenses.

Accordingly:

- All scheme related expenses including commission paid to distributors, shall be paid from the Scheme only within the regulatory limits and not from the books of the AMC, its associates, sponsor, trustee or any other entity through any route.
Provided that, such expenses that are not specifically covered in terms of Regulation 52 (4) can be paid out of AMC books at actual or not exceeding 2 bps of the Scheme AUM, whichever is lower.
- The Fund / the AMC shall adopt full trail model of commission in the Scheme, without payment of any upfront commission or upfronting of any trail commission, directly or indirectly, in cash or kind, through sponsorships, or any other route.
- All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in Regular Plan.
- No pass back, either directly or indirectly, shall be given by the Fund / the AMC / Distributors to the investors.

Impact of TER on returns of both Direct Plan and Regular Plan

Particulars	Regular Plan	Direct Plan
Amount invested at the beginning of the year (Rs.)	10,000	10,000
Returns before Expenses (Rs.)	1,500	1,500
Expenses other than Distribution Expenses (Rs.)	150	150
Distribution Expenses (Rs.)	50	-
Returns after Expenses at the end of the year (Rs.)	1,300	1,350
Returns	13.00%	13.50%

Disclosure on Goods & Services Tax:

Goods & Services Tax on investment management and advisory fees shall be in addition to the above expense.

Further, with respect to Goods & Services Tax on other than management and advisory fees:

- Goods & Services Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per regulation 52 of the Regulations.
- Goods & Services Tax on exit load, if any, shall be paid out of the exit load proceeds and exit load net of Goods & Services Tax, if any, shall be credited to the scheme.
- Goods & Services Tax on brokerage and transaction cost paid for asset purchases, if any, shall be within the limit prescribed under regulation 52 of the Regulations.

For the actual current expenses being charged to the Scheme, the investor should refer to the website of the mutual fund at www.Bandhanmutual.com (Home > Total Expense Ratio of Mutual Fund Schemes). Any change proposed to the current expense ratio will be updated on the website at least three working days prior to the change.

As per the Regulations, the total recurring expenses that can be charged to the Scheme in this Scheme information document shall be subject to the applicable guidelines. The total recurring expenses of the Scheme, will however be limited to the ceilings as prescribed under Regulation 52(6) of the Regulations.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.Bandhanmutual.com) or may call at (toll free no.1-800-26666 88/ 1-800-2666688.) or your distributor.

Type of Load	Load chargeable (as %age of NAV)
Exit	If redeemed/switched out on/within 30 days from the date of allotment - 0.5% of the applicable NAV; If redeemed/switched out after 30 days from the date of allotment – Nil

No Exit load will be charged in case of switches made between different Plans and Options within the scheme.

SECTION II

I. INTRODUCTION

A. Definitions/interpretation

Refer the following link for Definitions/interpretations - <https://bandhanmutual.com/downloads/sid>

B. Risk factors

Scheme specific risk factors –

1. The scheme being a sectoral fund will be largely affected by the risks associated with the pharma, healthcare and allied sectors. Investment in the scheme carries the risk with regard to non-diversification of the portfolio due to the investment universe limited to companies that are operating in the pharma, healthcare and allied sectors and hence, the scope for diversification could be limited at times. Investing in a sectoral/ thematic fund is based on the premise that the fund will seek to invest in companies belonging to a specific sector/ theme. To this extent investment universe of the fund will be restricted as compared to the broader diversified market.
2. Pricing of drugs is subject to price control and any reduction in prices of bulk drugs/ formulations manufactured by pharma companies may affect the valuation of the concerned companies adversely.
3. Other barriers for growth of pharma companies could be inadequate patent infrastructure, weak redressal system for patent infringement etc.
4. Companies having presence in the generic space in the regulated markets are exposed to risk of non-compliance with the regulatory norms of those countries resulting in banning of products which in turn may disrupt their operations in the short-term.
5. With equity investment, there is the risk that companies in that specific sector will not achieve its expected earnings results, or that an unexpected change in the market or within the company may occur, both of which may adversely affect investment results. Thus, investing in a sector/ thematic fund could involve potentially greater volatility and risk.
6. Excessive competition from domestic as well as international players will have a significant bearing on the sector.
7. The value of the Scheme's investments may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.
8. The Scheme proposes to invest in equity and equity related instruments. Equity instruments by nature are volatile and prone to price fluctuations on a daily basis due to both micro and macro factors. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of financial markets have different settlement periods, and such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme(s) to make intended securities purchases due to settlement problems could cause the Scheme(s) to miss certain investment opportunities.
9. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges.
10. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances

leading to delays in the receipt of proceeds from the sale of securities. The NAV of the Scheme(s) can go up and down because of various factors that affect the capital markets in general.

11. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. Within the Regulatory limits, the AMC may choose to invest in unlisted securities that offer attractive yields. This may however increase the risk of the portfolio.

Risk Associated with Investing in Debt / Money Market Instruments:

1. The NAV of the Scheme is likely to be affected by changes in the prevailing rates of interest.
2. The AMC may, considering the overall level of risk of the portfolio, invest in lower rated/ unrated securities offering higher yields. This may increase the risk of the portfolio.
3. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme(s) and may lead to the Scheme(s) incurring losses till the security is finally sold.
4. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Scheme's portfolio due to the absence of a well developed and liquid secondary market for debt securities would result, at times, in potential losses to the Scheme, in case of a subsequent decline in the value of securities held in the Scheme's portfolio.
5. Different types of securities in which the scheme would invest (bonds / money market instruments etc.) as given in the Scheme Information Document carry different levels and types of risks. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. Corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.
6. As zero coupon securities do not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio. Zero coupon or deep discount bonds are debt obligations that do not entitle the holder to any periodic payment of interest prior to maturity or a specified date when the securities begin paying current interest and therefore, are generally issued and traded at a discount to their face values. The discount depends on the time remaining until maturity or the date when securities begin paying current interest. It also varies depending on the prevailing interest rates, liquidity of the security and the perceived credit risk of the Issuer. The market prices of zero coupon securities are generally more volatile than the market prices of securities that pay interest periodically.
7. Apart from normal credit risk, zero coupon bonds carry an additional risk, unlike bonds that pay interest throughout the period to maturity, zero coupon instruments/deferred interest bonds typically would not realise any cash until maturity. If the issuer defaults, the Scheme may not obtain any return on its investment.
8. **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
9. **Reinvestment Risk:** Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

10. **Credit Risk:** In simple terms this risk means that the issuer of a debenture/bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down.
11. **Basis Risk (Interest - rate movement):** During the life of a floating rate security or a swap, the underlying benchmark index may become less active and may not capture the actual movement in interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio.
12. **Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However, depending upon the market conditions, the spreads may move adversely or favourably leading to fluctuation in the NAV.
13. **Liquidity Risk:** Due to the evolving nature of the floating rate market, there may be an increased risk of liquidity risk in the portfolio from time to time.
14. **Risks associated with investment in unlisted securities:** The schemes may invest in securities which are not listed on a stock exchange (“unlisted Securities”) which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted securities may lack a liquid secondary market and there can be no assurance that the Schemes will realize their investments in unlisted securities at a fair value.
15. **Other Risk:** In case of downward movement of interest rates, floating rate debt instruments will give a lower return than fixed rate debt instruments.

Risk associated with Securities Lending: Engaging in securities lending is subject to risks related to fluctuations in collateral value and settlement/liquidity and counter party risks. The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

Risk associated with Short-selling of Securities: Purchasing a security entails the risk of the security price going down. Short selling of securities (i.e. sale of securities without owning them) entails the risk of the security price going up there by decreasing the profitability of the short position. Short selling is subject to risks related to fluctuations in market price, and settlement/liquidity risks. If required by the Regulations, short selling may entail margin money to be deposited with the clearing house and daily mark to market of the prices and margins. This may impact fund pricing and may induce liquidity risks if the fund is not able to provide adequate margins to the clearing house. Failure to meet margin requirements may result in penalties being imposed by the exchanges and clearing house.

Risk associated with investing in foreign securities:

It is AMC’s belief that the investment in ADRs/GDRs/overseas securities offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the schemes. Since the Schemes would invest only partially in ADRs/GDRs/overseas securities, there may not be readily available and widely accepted benchmarks to measure performance of the Schemes.

To the extent the assets of the scheme(s) are invested in overseas financial assets, there may be risks associated with currency movements, restrictions on repatriation and transaction procedures in overseas market. Further, the repatriation of capital to India may also be hampered by changes in regulations or

political circumstances as well as the application to it of other restrictions on investment. In addition, country risks would include events such as introduction of extraordinary exchange controls, economic deterioration, bi-lateral conflict leading to immobilization of the overseas financial assets and the prevalent tax laws of the respective jurisdiction for execution of trades or otherwise.

The Scheme(s) may also invest in ADRs / GDRs / Other Foreign Securities as permitted by Reserve Bank of India and Securities and Exchange Board of India from time to time. To the extent that some part of the assets of the Scheme(s) may be invested in securities denominated in foreign currencies, Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment as applicable.

As the investment may be made in stocks of different countries, the portfolio shall be exposed to the political, economic and social risks with respect to each country. However, the portfolio manager shall ensure that his exposure to each country is limited so that the portfolio is not exposed to one country. Investments in various economies will also diversify and reduce this risk.

Currency Risk:

The scheme(s) may invest in securities denominated in a broad range of currencies and may maintain cash in such currencies. As a consequence, fluctuations in the value of such currencies against the currency denomination of the relevant scheme will have a corresponding impact on the value of the portfolio. Furthermore, investors should be aware that movements in the rate of exchange between the currency of denomination of a fund and their home currency will affect the value of their shareholding when measured in their home currency.

Exhaustion of overseas limit Risk:

The Scheme can make overseas investments subject to a maximum of US \$ 1 billion per Mutual Fund, within the overall industry limit of US \$ 7 billion or such limits as may be prescribed by SEBI from time to time. The Scheme therefore may or may not be able to utilise the limit of USD 1 billion due to the USD 7 billion limit being exhausted by other Mutual Funds. Further, the scheme can make investments in overseas Exchange Traded Fund (ETFs) subject to a maximum of US \$ 300 million per Mutual Fund, within the overall industry limit of US \$ 1 billion.

As and when the investment limits at Mutual Fund level/Industry level are exhausted or nearing exhaustion, the scheme may temporarily suspend deployment of funds in overseas funds/securities.

In respect of the corpus of the Scheme(s) that is invested in overseas mutual fund schemes, investors shall bear the proportionate recurring expenses of such underlying scheme(s), in addition to the recurring expenses of the Scheme(s). Therefore, the returns attributable to such investments by the Scheme(s) may be impacted or may, at times, be lower than the returns that the investors could obtain by directly investing in the said underlying scheme(s).

To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated by SEBI/RBI from time to time. Offshore investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable

requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs.

Risks associated with Investing in Derivatives:

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. As and when the Scheme trade in the derivatives market there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counter party”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. Also, the market for derivative instruments is nascent in India.

The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:

- Lack of opportunity available in the market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Risks associated with Arbitrage strategies

- (i) **Liquidity Risk:** In case of Arbitrage trades, under abnormal circumstances it will be difficult to square off the transaction due to liquidity being poor in the underlying stock, stock futures or options market.
- (ii) **Execution Risk:** The prices which are seen on the screen need not be the same at which execution will take place.
- (iii) **Mark to Market Risk:** There could be a mark to market loss in derivatives leg of arbitrage and additional margin may need to be provided for the same.
- (iv) **Basis Risk:** In case of a large redemption, the scheme may need to reverse the spot-futures transaction before the date of futures’ settlement. This eventuality may lead to the basis risk. In such extraordinary circumstances, the Fund Manager may have to unwind positions before the

expiry at a basis which maybe higher than the initiation basis to meet redemptions. Premature unwinding of the position might result in the locked in profits not getting realized.

Risk Associated with investing in Securitized Debt

The Scheme may invest in domestic securitized debt such as asset backed securities (ABS) or mortgage backed securities (MBS). Asset Backed Securities (ABS) are securitized debts where the underlying assets are receivables arising from various loans including automobile loans, personal loans, loans against consumer durables, etc. Mortgage backed securities (MBS) are securitized debts where the underlying assets are receivables arising from loans backed by mortgage of residential / commercial properties. ABS/MBS instruments reflect the undivided interest in the underlying pool of assets and do not represent the obligation of the issuer of ABS/MBS or the originator of the underlying receivables. The ABS/MBS holders have a limited recourse to the extent of credit enhancement provided. If the delinquencies and credit losses in the underlying pool exceed the credit enhancement provided, ABS/MBS holders will suffer credit losses. ABS/MBS are also normally exposed to a higher level of reinvestment risk as compared to the normal corporate or sovereign debt.

Different types of Securitised Debts in which the scheme would invest carry different levels and types of risks. Accordingly, the scheme's risk may increase or decrease depending upon its investments in Securitised Debts. e.g. AAA securitised bonds will have low Credit Risk than a AA securitised bond. Credit Risk on Securitised Bonds may also depend upon the Originator, if the Bonds are issued with Recourse to Originator. A Bond with Recourse will have a lower Credit Risk than a Bond without Recourse. Underlying Assets in Securitised Debt may be the Receivables from Auto Finance, Credit Cards, Home Loans or any such receipts. Credit risk relating to these types of receivables depends upon various factors including macro-economic factors of these industries and economies. To be more specific, factors like nature and adequacy of property mortgaged against these borrowings, loan agreement, mortgage deed in case of Home Loan, adequacy of documentation in case of Auto Finance and Home Loan, capacity of borrower to meet its obligation on borrowings in case of Credit Cards and intentions of the borrower influence the risks relating to the assets (borrowings) underlying the Securitised Debts. Holders of Securitised Assets may have Low Credit Risk with Diversified Retail Base on Underlying Assets, especially when Securitised Assets are created by High Credit Rated Tranches. Risk profiles of Planned Amortisation Class Tranches (PAC), Principal Only Class Tranches (PO) and Interest Only Class Tranches (IO) will also differ, depending upon the interest rate movement and Speed of Pre-payments. A change in market interest rates/prepayments may not change the absolute amount of receivables for the investors, but affects the reinvestment of the periodic cashflows that the investor receives in the securitised paper.

Presently, secondary market for securitised papers is not very liquid. There is no assurance that a deep secondary market will develop for such securities. This could limit the ability of the investor to resell them. Even if a secondary market develops and sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure.

Securitised transactions are normally backed by pool of receivables and credit enhancement as stipulated by the rating agency, which differ from issue to issue. The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and there is no obligation of either the Issuer or the Seller or the originator, or the parent or any affiliate of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of an Obligor to repay his obligation, the Seller may repossess and sell the underlying Asset. However many factors may affect, delay or prevent the repossession of such Asset or the length of

time required to realize the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.

At present in Indian market, following types of loans are securitised:

- Auto Loans (cars / commercial vehicles /two wheelers)
- Residential Mortgages or Housing Loans
- Consumer Durable Loans
- Personal Loans
- Corporates Loans

The main risks pertaining to each of the asset classes above are described below:

Auto Loans (cars / commercial vehicles /two wheelers)

The underlying assets (cars etc) are susceptible to depreciation in value whereas the loans are given at high loan to value ratios. Thus, after a few months, the value of asset becomes lower than the loan outstanding. The borrowers, therefore, may sometimes tend to default on loans and allow the vehicle to be repossessed. These loans are also subject to model risk. ie if a particular automobile model does not become popular, loans given for financing that model have a much higher likelihood of turning bad. In such cases, loss on sale of repossession vehicles is higher than usual.

Commercial vehicle loans are susceptible to the cyclicity in the economy. In a downturn in economy, freight rates drop leading to higher defaults in commercial vehicle loans. Further, the second hand prices of these vehicles also decline in such economic environment.

Housing Loans

Housing loans in India have shown very low default rates historically. However, in recent years, loans have been given at high loan to value ratios and to a much younger borrower classes. The loans have not yet gone through the full economic cycle and have not yet seen a period of declining property prices. Thus the performance of these housing loans is yet to be tested and it need not conform to the historical experience of low default rates.

Consumer Durable Loans

The underlying security for such loans is easily transferable without the bank's knowledge and hence repossession is difficult. The underlying security for such loans is also susceptible to quick depreciation in value. This gives the borrowers a high incentive to default.

Personal Loans

These are unsecured loans. In case of a default, the bank has no security to fall back on. The lender has no control over how the borrower has used the borrowed money. Further, all the above categories of loans have the following common risks:

All the above loans are retail, relatively small value loans. There is a possibility that the borrower takes different loans using the same income proof and thus the income is not sufficient to meet the debt service obligations of all these loans.

In India, there is insufficiency of ready comprehensive and complete database regarding past credit record of borrowers. Thus, loans may be given to borrowers with poor credit record. In retail loans, the risks due to frauds are high.

Corporate Loans

These are loans given to single or multiple corporates. The receivables from a pool of loans to corporate are assigned to a trust that issues Pass through certificates in turn. The credit risk in such PTCs is on the underlying pool of loans to corporates. The credit risk of the underlying loans to the corporates

would in turn depend of economic cycles.

Risk factors associated with instruments having special features:

Mutual Funds can invest in certain debt instruments with special features viz. subordination to equity (absorbs losses before equity capital) and /or convertible to equity upon trigger of a prespecified event for loss absorption. The debt instruments with special features, which otherwise are considered as Non-Convertible Debentures, may be treated as debt instruments until converted to equity. The instruments are subject to features that grants issuer a discretion in terms of writing down the principal/coupon, to skip coupon payments, to make an early recall etc. Thus, debt instruments with special features are subject to “Coupon discretion”, “Loss Absorbency”, “Write down on Point of Non-viability trigger (PONV) event” and other events as more particularly described as per the term sheet of the underlying instruments. The instrument is also subject to Liquidity Risk pertaining to how saleable a security is in the market. The particular security may not have a market at the time of sale due to uncertain/insufficient liquidity in the secondary market, then the scheme may have to bear an impact depending on its exposure to that particular security.

Risk associated with investing in Repo of Corporate Bond Securities

To the extent the scheme invests in Repo of Corporate Bond Securities, the scheme will be subject to following risks –

- **Settlement Risk:** Corporate Bond Repo will be settled between two counterparties in the OTC segment unlike in the case of Tri-Party Repo transactions where CCIL stands as central counterparty on all transactions (no settlement risk).
- **Quality of collateral:** The Mutual Fund will be exposed to credit risk on the underlying collateral – downward migration of rating. The Mutual Fund will impose adequate haircut on the collateral to cushion against any diminution in the value of the collateral. Collateral will require to be rated AAA or equivalent.
- **Liquidity of collateral:** In the event of default by the counterparty, the Mutual Fund would have recourse to recover its investments by selling the collateral in the market. If the underlying collateral is illiquid, then the Mutual Fund may incur an impact cost at the time of sale (lower price realization).

Risks associated with segregated portfolio:

1. **Liquidity risk** – A segregated portfolio is created when a credit event / default occurs at an issuer level in the scheme. This may reduce the liquidity of the security issued by the said issuer, as demand for this security may reduce. This is also further accentuated by the lack of secondary market liquidity for corporate papers in India. As per SEBI norms, the scheme is to be closed for redemption and subscriptions until the segregated portfolio is created, running the risk of investors being unable to redeem their investments. However, it may be noted that, the proposed segregated portfolio is required to be formed within one day from the occurrence of the credit event.

Investors may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall list the units of the segregated portfolio on a recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. There is no assurance that an active secondary market will develop for units of segregated portfolio listed on the stock exchange. This could limit the ability of the investors to resell them.

Valuation risk - The valuation of the securities in the segregated portfolio is required to be carried out in line with the applicable SEBI guidelines. However, it may be difficult to ascertain the fair value of the securities due to absence of an active secondary market and difficulty to price in qualitative factors.

Risks associated with investing in REIT and InvIT:

Market Risk: The scheme is vulnerable to movements in the prices of REITs/InvITs invested by the scheme, which could have a material bearing on the overall returns from the scheme. Further, the distributions by these securities may fluctuate and will be based on the net cash flows available for distribution depending on the dividends or the interest and principal payments received from portfolio assets. The value of the Scheme's investments, may be affected generally by factors affecting the markets, interest rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets.

Liquidity Risk: This refers to the ease with which a security can be sold. As the liquidity of the investments made by the Scheme could be restricted by a lack of active secondary market, trading volumes and settlement periods, or the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement.

Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

Risks of writing covered call options for equity shares:

1. Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such an investment strategy, the profits from call option writing are capped at the option premium, however, the downside depends upon the increase in value of the underlying equity shares. This downside risk is reduced by writing covered call options.
2. The Scheme may write a covered call option only in case it has an adequate number of underlying equity shares as per regulatory requirements. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by the regulatory authority, the scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.
3. The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the scheme would be at a loss.
4. The total gross exposure related to option premium paid and received must not exceed the regulatory limits of the net assets of the scheme. This may restrict the ability of Scheme to buy/write any options.

C. RISK MITIGATION STRATEGIES

The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in debt and equity markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Fund has identified following risks of investing in equity and debt and designed risk management strategies, which are embedded in the investment process to manage such risks.

Risks associated with Equity investment

Risk Description	Risk Mitigants/management strategy
Risks associated with Capital Markets or Equity Markets	Theme Related Risk The Scheme seeks to mitigate this risk through investment in a diverse range of companies. This strategy aims to maintain optimal diversification, thereby reducing the risk of concentration in specific stocks.
	Market Risk Market risk is a risk which is inherent to an equity scheme. The scheme may use derivatives to limit this risk.
	Liquidity risk The Scheme will aim at taking exposure only into liquid stocks / derivatives where there will be minimal risk to square off the transaction.
	Derivatives Risk The Scheme has provision for using derivative instruments for portfolio balancing and hedging purposes. Investments in derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines. The fund will endeavor to maintain adequate controls to monitor the derivatives transactions entered into.
	Quality risk The Scheme universe is carefully selected to only include high quality securities.
	Volatility The Scheme will control the asset allocation of the scheme to the equity and debt markets and thereby manage the volatility.
Risk Associated with Investing in Debt / Money Market Instruments	Price Risk/Interest Rate Risk The scheme will undertake the active portfolio management as per the investment objective to reduce the market risk. In a rising interest rates scenario the Fund Managers will endeavor to increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity will be increased thereby mitigating risk to that extent.
	Liquidity or Marketability Risk The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The fund will however, endeavor to minimise liquidity risk by investing in securities having a liquid market.
	Credit Risk

Risk Description	Risk Mitigants/management strategy
	A traditional SWOT analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower. In case of securitized debt instruments, the fund will ensure that these instruments are sufficiently backed by assets. Reinvestment Risk Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value. Derivatives Risk The Scheme has provision for using derivative instruments for portfolio balancing and hedging purposes. Investments in derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines. The fund will endeavor to maintain adequate controls to monitor the derivatives transactions entered into.
Risk associated with Securities Lending	The Scheme will ensure adherence to the limits assigned for stock lending and will aim to execute the transactions through clearing corporations which act as central counterparties, guaranteeing settlement and mitigating counterparty risk.
Risk associated with Short-selling of Securities	The Scheme will ensure compliance with the Scheme wise investment limits as prescribed by the regulations which limits the exposure to such securities and may take following additional steps: • Spread short positions across different securities or sectors instead of concentrating on a single stock. • Continuously monitor short positions, stock prices, and market developments that could impact the scheme's exposure. • Employ derivatives like options or futures to hedge against potential losses arising from short positions.
Risk associated with investing in foreign securities	Liquidity risk The Scheme will aim at taking exposure only into liquid overseas securities where there will be minimal risk to square off the transaction. Currency Risk The Scheme will focus on countries with historically stable currencies and strong economies to minimize the likelihood of drastic fluctuations. Monitoring overseas investment limits The Scheme will keep monitoring the overseas investments limits. Further, the limits shall be monitored through the order manager system.
Risks associated with Investing in Derivatives	The Scheme will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents.
Risks associated with Arbitrage strategies	The Scheme will aim at taking exposure to arbitrage positions in liquid securities where there will be minimal risk to square off the transaction and will continuously monitor market conditions and price fluctuations to ensure timely execution of trades.

Risk Description	Risk Mitigants/management strategy
Risk Associated with investing in Securitised Debt	In addition to careful scrutiny of credit profile of the Issuer, additional security in the form of adequate cash collaterals and other securities may be obtained.
Risk factors associated with instruments having special features	The Scheme will ensure compliance with the Scheme wise investment limits as prescribed by the regulations which limits the exposure to such securities. Additionally, covenants of such structured papers will be reviewed periodically for adequate maintenance of covers as prescribed in the Information Memorandum of such papers.
Risk associated with investing in Repo of Corporate Bond Securities	This risk is largely mitigated, as the choice of counterparties is restricted and their credit rating is taken into account before entering into such transactions. In the event the counterparty is unable to pay back the money to the scheme as contracted on maturity, the scheme may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to the counterparty. The risks will not arise for repo transactions where settlement is guaranteed by a Clearing Corporation.
Risks associated with segregated portfolio	The Scheme will endeavor to realize the segregated holding in the best interest of the investor at the earliest.
Risks associated with investing in REIT and InvIT	The Scheme will ensure compliance with the Scheme wise investment limits as prescribed by the regulations which limits the exposure to such securities. Further, the Scheme will aim to diversify investments across various REITs and InvITs operating in different sectors to reduce concentration risk and prioritize investments in REITs and InvITs with higher trading volumes and established secondary markets.
Risks of writing covered call options for equity shares	The Scheme will ensure compliance with the Scheme wise investment limits as prescribed by the regulations which limits the exposure to such securities. Further, the Scheme will aim to spread the covered call strategy across multiple stocks to reduce the impact of adverse price movements in any single stock on the overall portfolio.

II. Information about the scheme:

A. Where will the scheme invest

The corpus of the Scheme will be invested in equity and equity related products & in debt and money market instruments. At least 80% of investments in equity and equity related securities shall be in companies engaged in Healthcare, Pharma and Allied sectors.

Pending deployment of funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short-term deposits of scheduled commercial banks, subject to the guidelines issued by SEBI vide its circular dated April 16, 2007, August 16, 2019 and September 20, 2019 as amended from time to time. The AMC shall not charge any investment management and advisory fees for parking of funds in such short term deposits of scheduled commercial banks for the scheme.

Investment in overseas securities shall be in accordance with the requirements stipulated by SEBI and RBI from time to time.

A broad description of various securities:

Equity and Equity-Related Instruments:

1. Equity share is a security that represents an ownership interest in a company. It is issued to those who have contributed capital in setting up an enterprise.

2. Equity Related Instruments are securities that give the holder of the security right to receive equity shares on pre agreed terms. It includes convertible debentures, convertible preference shares, warrants carrying the right to obtain equity shares, equity derivatives and such other instruments as may be specified by the Board from time to time.

3. Equity Derivatives are financial instruments, generally traded on an exchange, the price of which is directly dependent upon (i.e. “derived from”) the value of equity shares or equity indices. Derivatives involve the trading of rights or obligations based on the underlying, but do not directly transfer property.

4. Derivatives: Futures are exchange-traded contracts to sell or buy financial instruments for future delivery at an agreed price. There is an agreement to buy or sell a specified quantity of financial instruments on a designated future date at a price agreed upon by the buyer and seller at the time of entering into a contract. To make trading possible, the exchange specifies certain standardized features of the contract. A futures contract involves an obligation on both the parties to fulfill the terms of the contract.

a. Option is a contract which provides the buyer of the option (also called holder) the right, without the obligation, to buy or sell a specified asset at the agreed price on or upto a particular date. For acquiring this privilege, the buyer pays premium (fee) to the seller. The seller on the other hand has the obligation to buy or sell specified assets at the agreed price and for this obligation he receives premium. The premium is determined considering a number of factors such as the market price of the underlying asset/security, number of days to expiry, risk free rate of return, strike price of the option and the volatility of the underlying asset. Option contracts are of two types viz:

b. Call Option - The option that gives the buyer the right to buy a specified quantity of the underlying asset at the strike price is a call option. The buyer of the call option (known as the holder of call option) can call upon the seller of the option (writer of the option) and buy from him the underlying asset at the agreed price at any time on or before the expiry of the option. The seller (writer of the option) on the other hand has the obligation to sell the underlying asset if the buyer of the call option decides to exercise his option to buy.

c. Put Option - The right to sell is called put option. A Put option gives the holder (buyer) the right to sell a specified quantity of the underlying asset at the strike price. The seller of the put option (one who is short Put) however, has the obligation to buy the underlying asset at the strike price if the buyer decides to exercise his option to sell.

Debt Instruments:

1. Non-convertible debentures as well as bonds are securities issued by companies / institutions promoted / owned by the Central or State governments and statutory bodies, which may or may not carry a Central/State government guarantee, public and private sector banks, All India Financial Institutions, private sector companies. These instruments may be secured against the assets of the company or unsecured and generally issued to meet the short term and long term fund requirements. Rate of interest on such instruments would depend upon spread over corresponding government security, perceived risk, rating, tenor etc. These instruments include fixed interest security with/without put/call option, floating rate bonds, zero coupon bonds. Frequency of the interest payment could be either monthly/quarterly/half-yearly or annually.

2. Floating rate debt instruments are debt instruments issued by central government, state government, corporates, PSUs etc. with coupon reset periodically. The periodicity of reset could be daily, monthly, quarterly, half yearly and annually or any other periodicity as may be mutually agreed between the issuer and the Fund. The fund manager will have the flexibility to invest the debt component into floating rate debt securities in order to reduce the impact of rising interest rate in the economy.

3. Securities created and issued by the Central and State Governments as may be permitted by RBI,

securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). Special securities issued by the Government of India to entities like Oil Marketing Companies, Fertilizer Companies, the Food Corporation of India, etc. (popularly called oil bonds, fertilizer bonds and food bonds respectively) and special securities issued by the State Government under “Ujjwal Discom Assurance Yojna (UDAY) Scheme for Operational and Financial Turnaround of Power Distribution Companies (DISCOMs)” notified by Ministry of Power vide Office Memorandum (No 06/02/2015-NEF/FRP) dated November 20, 2015, (popularly called as UDAY Bonds). Central Government Securities are sovereign debt obligations of the Government of India with zero-risk of default and issued on its behalf by RBI. They form part of Government’s annual borrowing programme and are used to fund the fiscal deficit along with other short term and long term requirements. Such securities could be fixed rate, fixed interest rate with put/call option, zero coupon bond, floating rate bonds, capital indexed bonds, fixed interest security with staggered maturity payment etc.

4. Debt Instruments with special features viz. subordination to equity (absorbs losses before equity capital) and /or convertible to equity upon trigger of a pre-specified event for loss absorption. Additional Tier I bonds and Tier 2 bonds issued under Basel III framework are some instrument which may have above referred special features.

5. Securitised Debt such as Mortgage Backed Securities (“MBS”) or Asset Backed Securities (“ABS”) is a financial instrument (bond) whose interest and principal payments are backed by an underlying cash flow from another asset. Asset Securitization is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. A typical process of asset securitization involves sale of specific receivables to a Special Purpose Vehicle (SPV) set up in the form of a trust or a company. The SPV in turn issues financial instruments (promissory notes, participation certificates or other debt instruments) also referred to as “Securitised Debt” to the investors evidencing the beneficial ownership of the investors in the receivables. The financial instruments are rated by an independent credit rating agency.

6. Credit rating agencies assign CE rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms and could include guarantee, shortfall undertaking, letter of comfort, etc. from another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Credit enhancement could include additional security in form of pledge of shares listed on stock exchanges, etc. SO transactions are asset backed/mortgage backed securities, Securitised paper backed by hypothecation of car loan receivables, securities backed by trade receivables, credit card receivables etc.

7. Pass Through Certificate (PTC) represents beneficial interest in an underlying pool of cash flows. These cash flows represent dues against single or multiple loans originated by the sellers of these loans. PTCs may be backed, but not exclusively, by receivables of personal loans, car loans, two wheeler loans and other assets subject to applicable regulations. 8. Depository Receipts (DRs) are negotiable certificates that represent shares in a foreign company and are traded in local exchanges of most advanced economies. ADR (American Depository Receipt) and GDR (Global Depository Receipt) are two depository receipts that are traded in local markets but represent the equity of a company listed in another country.

Money Market Instruments:

1. Certificate of Deposits (CDs) is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year

whereas in case of FIs, maturity is between one year to 3 years from the date of issue. CDs may be issued at a discount to face value. Banks/ FIs cannot buyback their own CDs before maturity.

2. Commercial Paper (CPs) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and all India Financial Institutions as an alternative source of short-term borrowings. They are issued at a discount to the face value as may be determined by the issuer. CP is traded in the secondary market and can be freely bought and sold before maturity.

3. Treasury Bills (T-Bills) are issued by the Government of India to meet their short-term borrowing requirements. T-Bills are issued for maturities of 91 days, 182 days and 364 days. T-bills are issued at a discount to their face value and redeemed at par.

4. Non-Convertible Debentures of original or initial maturity upto one year issued by corporate (including NBFCs) by way of private placement in accordance with the provisions of master circular of RBI vide reference no. RBI/MRD/2016-17/32 dated July 7, 2016.

5. Tri-party Repo means a repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction.

6. Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds. When the seller sells the security with an agreement to repurchase it, it is a Repo transaction whereas from the perspective of buyer who buys the security with an agreement to sell it at a later date, it is reverse repo transaction. Presently in India, G-Secs, State Government Securities, T-Bills and Corporate Debt Securities are eligible for Repo/Reverse Repo.

7. Bill rediscounting is a process where a financial institution (generally banks) discounts the bills of exchange that it has discounted previously with another financial institution. In other words, the original discounting bank sells its discounted bills to another bank or financial institution at a discount. The new institution pays the original institution the present value of the bills minus a discount, and in return, it becomes the holder of the bills until maturity, when it receives the full payment from the debtor. Bill rediscounting is a way for financial institutions to manage their liquidity and meet short-term funding requirements.

8. Cash Management Bills (CMB) are issued by Government of India to meet the temporary cash flow mismatches of the Government. CMBs are non-standard, discounted instruments issued for maturities less than 91 days. CMBs are issued at discount to the face value through auctions. The settlement of the auction will be on T+1 basis.

9. “REIT” or “Real Estate Investment Trust” shall have the meaning assigned in clause (zm) of sub-regulation 1 of regulation 2 of the Securities and Exchange Board of India (Real Estate Investment Trusts) Regulations, 2014. REITs are companies that own and lease out commercial or residential real estate. The rental incomes from the properties are shared among REIT investors, who are allotted units. These units are tradeable on exchanges.

10. “InvIT” or “Infrastructure Investment Trust” shall have the meaning assigned in clause (za) of sub-regulation (1) of regulation 2 of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014. InvITs are similar to REITs, except these own infrastructure assets not real estate.

B. What are the investment restrictions?

Pursuant to Regulations, specifically the Seventh schedule and amendments thereto, the following investment restrictions are currently applicable to the Scheme:

1. Investment in securities from the scheme's corpus would be only in transferable securities in accordance with Regulation 43 of Chapter VI of SEBI [Mutual Funds] Regulations, 1996.
2. The Scheme shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities;
Provided that the Scheme may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI;
Provided further that the Scheme may enter into derivatives transactions in a recognised stock exchange, subject to the framework specified by SEBI;
Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.
3. The Mutual Fund shall, get the securities purchased or transferred in the name of the mutual fund on account of the concerned scheme, wherever investments are intended to be of long term nature.
4. No investment shall be made in any Fund of Funds scheme.
5. The mutual fund shall not advance any loans for any purpose.
6. The Fund under all its schemes shall not own more than 10% of any company's paid up capital carrying voting rights
Provided that investment in asset management company or the trustee company of a mutual fund shall be governed by clause (a) sub-regulation (1) of regulation 7B of the Regulations.
7. The Scheme shall not invest more than 10% of its net assets in equity shares or equity related instruments of any company.
8. All investments by the Scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.
9. Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable to debt instruments under clause 1 and 1 A of the VII Schedule to the regulations.
10. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the SEBI Act. Such investment limit may be extended to 12% of the NAV of the Scheme with the prior approval of the Boards of the Trustee Company and the AMC;

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and Tri-Party repos on government securities or treasury bills;

Further, in accordance with clause 12.8 of SEBI Master Circular within the limits specified above, following prudential limits shall be followed for the scheme:

The scheme shall not invest more than:

- 10% of its NAV in debt and money market securities rated AAA; or
- 8% of its NAV in debt and money market securities rated AA; or
- 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation.

Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with SEBI.

11. The Scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments.

However, Scheme may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the Scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

For the purpose of investment in debt instruments, listed debt instruments shall include listed and to be listed debt instruments.

12. All investments by the Scheme in Commercial Papers (CPs) would be made only in CPs which are listed or to be listed.
13. Investment in unrated debt and money market instruments, other than government securities, treasury bills, by the Scheme shall be subject to the following:
 - a. Investments shall only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Funds) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure of the Scheme in such instruments, shall not exceed 5% of the net assets of the Scheme.

All such investments shall be made with the prior approval of the Board of AMC and the Board of Trustees.

14. The Scheme may invest in any other mutual fund scheme without charging any fees, provided that aggregate interscheme investment made by all schemes under the AMC or in schemes under the management of any other AMC shall not exceed 5% of the net asset value of the mutual fund.
15. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - a) such transfers are done at the prevailing market price for quoted instruments on spot basis and in line provisions of Clause 12.30 of SEBI Master Circular and as may be specified by SEBI from time to time, in this regard; and
 - b) the securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
 - c) the same are in line with SEBI Clause 12.30 of SEBI Master Circular.

16. The Scheme shall not make any investment in
 - any unlisted security of an associate or group company of the sponsor; or
 - any security issued by way of private placement investment by an associate or group company of the sponsor; or
 - the listed securities of group companies of the sponsor which is in excess of 25% of the net assets, except for investments by equity oriented exchange traded funds (ETFs) and Index Funds and subject to such conditions as may be specified by SEBI vide circular dated July 08, 2024.

17. The Scheme may invest in the units of REITs and InvITs subject to the following:
- Bandhan Mutual fund under all its schemes shall not own more than 10% of units issued by a single issuer of REIT and InvIT; and
 - The scheme shall not invest –
 - more than 10% of its NAV in the units of REIT and InvIT; and
 - more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer.
18. Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the guidelines issued by SEBI from time to time. Currently, the following guidelines/restrictions are applicable for parking of funds in short term deposits:
- “Short Term” for such parking of funds by the Scheme shall be treated as a period not exceeding 91 days.
 - Such short-term deposits shall be held in the name of the Scheme.
 - The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
 - Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
 - The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - The Scheme shall not park funds in short term deposit of a bank which has invested in that Scheme. The Trustees / AMCs shall ensure that the bank in which the Scheme has short term deposit do not invest in the Scheme until the Scheme has STD with such bank.
 - The AMC shall not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
- However, the above provisions will not apply to term deposits placed as margins for trading in cash and Derivatives market.
19. The Fund shall not borrow except to meet temporary liquidity needs of the Scheme for the purpose of repurchase/redemption of Unit or payment of interest and/or IDCW to the Unit holder. The Scheme shall not borrow more than 20% of its net assets and the duration of the borrowing shall not exceed a period of 6 months.
20. The Scheme will comply with provisions specified in clause 12.25 of SEBI Master Circular related to overall exposure limits applicable for derivative transactions as stated below:
- The cumulative gross exposure through equity, debt, derivative positions, repo transactions, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time, subject to regulatory approvals if any, should not exceed 100% of the net assets of the scheme.
 - Mutual Funds shall not write options or purchase instruments with embedded written options.
 - The total exposure related to option premium paid must not exceed 20% of the net assets of the Scheme.
 - Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure pursuant to SEBI letter to AMFI dated November 03, 2021.
 - Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
 - Hedging positions are the derivative positions that reduce possible losses on an existing position in securities till the existing position remains.
 - Hedging position cannot be taken for existing derivative positions. Exposure due to such

- positions shall have to be added and treated under limits mentioned in point a).
- iii. Any derivative instrument used to hedge the underlying security as the existing position being hedged.
 - iv. The quantity of underlying associated with the derivative position taken for hedging purpose does not exceed the quantity of the existing position against which hedge has been taken.
- (f) Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point a) above.
- (g) Definition of Exposure in case of Derivatives Positions – Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss.

Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option Bought	Option Premium Paid * Lot Size * Number of Contracts

The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time.

Apart from the Investment Restrictions prescribed under the Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities.

The AMC/Trustee may alter these investment restrictions from time to time to the extent SEBI regulations/applicable rules change/permit so as to achieve the investment objective of the scheme. Such alterations will be made in conformity with SEBI regulations.

The investment restrictions specified shall be applicable at the time of making the investment. In case the limits are exceeded due to reasons beyond the control of the AMC (such as receipt of any corporate or capital benefits or amalgamations), the AMC shall adopt necessary measures of prudence, to reset the situation having regard to the interest of the investors, such that the measure adopted by the AMC shall be within the purview of the applicable SEBI regulations and circular.

G. Other Scheme Specific Disclosures:

Listing and transfer of units	The Scheme is an open ended equity scheme, sale and repurchase is available on a continuous basis and therefore the Units of the Scheme are presently not proposed to be listed on any stock exchange. However, the Fund may at its sole discretion list the Units under the Scheme on one or more Stock Exchanges at a later date, and thereupon the Fund will make a suitable public announcement to that effect, subject to applicable SEBI Regulations and circulars. In accordance with clause 14.4.4 of SEBI Master Circular units of the Scheme that are held in electronic (demat) form, will be transferable and will be subject to the transmission facility in accordance with the provisions of SEBI (Depositories and Participants) Regulations, 1996 as may be amended from time to time. Units of the Scheme are freely transferable in demat and non demat mode. If a person becomes a holder of the Units consequent to operation of law, or upon enforcement of a pledge, the Fund will, subject to
--------------------------------------	--

	production of satisfactory evidence, effect the transfer, if the transferee is otherwise eligible to hold the Units. Similarly, in cases of transfers taking place consequent to death, insolvency etc., the transferee's name will be recorded by the Fund subject to production of satisfactory evidence.
Dematerialization of units	Unit holder has an option to subscribe in dematerialized (demat) form the units of the Scheme in accordance with the provisions laid under the Scheme and in terms of the guidelines/ procedural requirements as laid by the Depositories (NSDL/CDSL) from time to time. In case, the Unit holder desires to hold the Units in a Dematerialized /Rematerialized form at a later date, the request for conversion of units held in non-demat form into Demat (electronic) form or vice-versa should be submitted along with a Demat/Remat Request Form to their Depository Participants. Units held in demat form will be transferable subject to the provisions laid under the scheme and in accordance with provisions of Depositories Act, 1996 and the Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018 as may be amended from time to time
Minimum Target amount (This is the minimum amount required to operate the scheme and if this is not collected during the NFO period, then all the investors would be refunded the amount invested without any return.)	The Scheme seeks to collect Rs. 10 crores as the minimum subscription and would retain any excess subscription collected. If the Scheme does not collect the minimum subscription during the NFO, refund will be made within 5 Business Days from closure of the NFO.
Maximum Amount to be raised (if any)	Nil
Dividend Policy (IDCW)	The Scheme will endeavor to declare Income Distribution cum Capital Withdrawal ("IDCW") from time to time. The IDCW shall be dependent on the availability of distributable surplus as on the Record Date. The Mutual Fund is not assuring any declaration of dividend under IDCW option nor is it assuring that it will make any IDCW distributions. All IDCW distributions would depend on the performance of the scheme. Under this Option, IDCW amount payable of upto Rs. 100/- under a folio shall compulsorily be reinvested in the same option of the Scheme. Such IDCW shall be re-invested at the prevailing ex- IDCW Net Asset Value per Unit on the Record Date.
Allotment (Detailed procedure)	For NFO allotment and fresh purchase during ongoing sales with creation of a new Folio: The AMC shall allot the units to the applicant whose application has been accepted and also send confirmation specifying the number of units allotted to the applicant by way of email and/or SMS's to the applicant's registered email address and/or mobile number within five working days from the date of closure of the NFO / transaction.

	• The AMC shall issue to the investor whose application has been accepted, an account statement specifying the number of units allotted within five business days of closure of NFO/transaction. For allotment in demat form the account statement shall be sent by the depository / depository participant, and not by the AMC. • For NFO allotment in demat form, the AMC shall issue units in dematerialized form to a unit holder within two working days of the receipt of request from the unit holder. • For those unitholders who have provided an e-mail address, the AMC will send the account statement by e-mail instead of physical statement. • The unitholder may request for an account statement by writing / calling us at any of the ISC and the AMC shall provide the account statement to the investor within 5 business days from the receipt of such request. Pursuant to clause 14.4 of SEBI Master Circular, investors are requested to note the following regarding dispatch of account statements: A) Consolidated Account Statement (CAS) - for Unitholders who have registered their PAN / PEKRN with the Mutual Fund: <u>Investors who hold demat account and have registered their PAN with the mutual fund:</u> For transactions in the schemes of Bandhan Mutual Fund, a Consolidated Account Statement, based on PAN of the holders, shall be sent by Depositories to investors holding demat account, for each calendar month on or before fifteenth day of the succeeding month to the investors in whose folios transactions have taken place during that month. Due to this regulatory change, AMC has now ceased sending account statement (physical / e-mail) to the investors after every financial transaction including systematic transactions. The CAS shall be generated on a monthly basis. AMCs/ RTAs shall share the requisite information with the Depositories on monthly basis to enable generation of CAS. Consolidation of account statement shall be done on the basis of PAN. In case of multiple holding, it shall be the PAN of the first holder and pattern of holding. Based on the PANs provided by the AMCs/MF-RTAs, the Depositories shall match their PAN database to determine the common PANs and allocate the PANs among themselves for the purpose of sending CAS. For PANs which are common between depositories and AMCs, the Depositories shall send the CAS. In case investors have multiple accounts across the two depositories, the depository having the demat account which has been opened earlier shall be the default depository which will consolidate details across depositories and MF investments and dispatch the CAS to the investor. However, option shall be given to the demat account holder by the default depository to choose the depository through which the
--	--

	investor wishes to receive the CAS. In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send the account statement to the investor as specified under the regulations applicable to the depositories. Consolidated account statement sent by Depositories is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, Payout of IDCW option, Reinvestment of IDCW option, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and transaction in dematerialised securities across demat accounts of the investors and holding at the end of the month. The CAS shall also provide the total purchase value / cost of investment in each scheme. Further, a consolidated account statement shall be sent by Depositories every half yearly (September/March), on or before twenty first day of succeeding month. Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period. Investors whose folio(s)/demat account(s) are not updated with PAN shall not receive CAS. Investors are therefore requested to ensure that their folio(s)/demat account(s) are updated with PAN. For Unit Holders who have provided an e-mail address to the Mutual Fund or in KYC records, the CAS will be sent by e-mail. However, where an investor does not wish to receive CAS through email, option shall be given to the investor to receive the CAS in physical form at the address registered in the Depository system. Investors who do not wish to receive CAS sent by depositories have an option to indicate their negative consent. Such investors may contact the depositories to opt out. <u>Other investors:</u> The Consolidated Account Statement (CAS) for each calendar month shall be issued on or before fifteenth day of succeeding month to the investors who have provided valid Permanent Account Number (PAN) / PAN Exempt KYC Registration Number (PEKRN). Due to this regulatory change, AMC has now ceased sending physical account statement to the investors after every financial transaction including systematic transactions.
--	--

	The CAS shall be generated on a monthly basis. The Consolidated Account Statement issued is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, Payout of IDCW option, Reinvestment of IDCW option, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and holding at the end of the month. The CAS shall also provide the total purchase value / cost of investment in each scheme. Further, a consolidated account statement shall be issued every half yearly (September/March), on or before twenty first day of succeeding month. Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period. The CAS will be sent via email (instead of physical statement) where any of the folios consolidated has an email id or to the email id of the first unit holder as per KYC records. B) For Unitholders who have not registered their PAN / PEKRN with the Mutual Fund: For folios not included in the Consolidated Account Statement (CAS): • The AMC shall allot the units to the applicant whose application has been accepted and also send confirmation specifying the number of units allotted to the applicant by way of email and/or SMS's to the applicant's registered email address and/or mobile number within five working days from the date of transaction. • The AMC shall issue account statement to the investors on a monthly basis, pursuant to any financial transaction in such folios on or before tenth day of succeeding month. The account statement shall contain the details relating to all financial transactions made by an investor during the month, the holding as at the end of the month and shall also provide the total purchase value / cost of investment in each scheme. • For those unitholders who have provided an e-mail address, the AMC will send the account statement by e-mail instead of physical statement. • The unitholder may request for an account statement by writing / calling us at any of the ISC and the AMC shall provide the account statement to the investor within 5 business days from the receipt of such request. Further, an account statement shall be sent by the AMC every half yearly (September/March), on or before twenty first day of
--	---

	succeeding month. Such half-yearly account statement shall be issued to all investors, excluding those investors who do not have any holdings in BANDHAN MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period. C) For all Unitholders In case of a specific request received from the unit holder, the AMC shall provide the account statement to the investor within 5 business days from the receipt of such request.
Refund	If the application is rejected full amount will be refunded within 5 working days of closure of the NFO. If refunded later than 5 working days interest @15% p.a. for delay period will be paid and charged to the amc.

Accounts Statements	The AMC shall send an allotment confirmation specifying the units allotted by way of email and/or SMS within 5 working days of receipt of valid application/transaction to the Unit holders registered e-mail address and/ or mobile number (whether units are held in demat mode or in account statement form). A Consolidated Account Statement (CAS) detailing all the transactions across all mutual funds (including transaction charges paid to the distributor) and holding at the end of the month shall be sent to the Unit holders in whose folio(s) transaction(s) have taken place during the month by mail or email on or before 15th of the succeeding month. Half-yearly CAS shall be issued at the end of every six months (i.e. September/ March) on or before 21st day of succeeding month, to all investors providing the prescribed details across all schemes of mutual funds and securities held in dematerialized form across demat accounts, if applicable For further details, refer SAI.	
Dividend/ IDCW	The payment of dividend/IDCW to the unitholders shall be made within seven working days from the record date.	
Redemption	The redemption or repurchase proceeds shall be dispatched to the unitholders within three working days from the date of redemption or repurchase. For list of exceptional circumstances refer para 14.1.3 of SEBI Master Circular for Mutual Funds.	
Bank Mandate	As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account numbers in their applications and therefore, investors are requested to fill-up the appropriate box in the application form failing which applications are liable to be rejected.	
Delay in payment of redemption / repurchase proceeds/dividend	The Asset Management Company shall be liable to pay interest to the unitholders at such rate as may be specified vide clause 14.2 of SEBI Master Circular for Mutual Funds by SEBI for the period of such delay (presently @ 15% per annum). However, the Asset Management Company will not be liable to pay any interest or compensation or any amount otherwise, in case the AMC/Trustee is required to obtain from the investor/Unit holders verification of identity or such other details relating to subscription for Units under any applicable law or as may be requested by a regulatory body or any government authority, which may result in delay in processing the application.	

Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount	In accordance with clause 14.3 of SEBI Master Circular, the unclaimed Redemption amount and IDCW amount that are currently allowed to be deployed by the Mutual Fund only in call money market or money market Instruments, shall also be allowed to be invested in a separate plan of only Overnight scheme / Liquid scheme / Money Market Mutual Fund scheme floated by Mutual Funds specifically for deployment of the unclaimed amounts. Provided that such schemes where the unclaimed redemption and dividend amounts are deployed shall be only those Overnight scheme/ Liquid scheme / Money Market Mutual Fund schemes which are placed in A-1 cell (Relatively Low Interest Rate Risk and Relatively Low Credit Risk) of Potential Risk Class matrix. AMCs shall not be permitted to charge any exit load in this plan and TER (Total Expense Ratio) of such plan shall be capped as per the TER of direct plan of such scheme or at 50 bps, whichever is lower. Further, for the Unclaimed redemption and dividend amounts deployed by Mutual Funds in Call Money Market or Money Market instruments, the investment management and advisory fee charged by the AMC for managing unclaimed amounts shall not exceed 50 basis points. Investors who claim the unclaimed amounts during a period of three years from the due date shall be paid initial unclaimed amount along-with the income earned on its deployment. Investors, who claim these amounts after 3 years, shall be paid initial unclaimed amount along-with the income earned on its deployment till the end of the third year. After the third year, the income earned on such unclaimed amounts shall be used for the purpose of investor education. The investors can visit the website of the AMC to check the unclaimed amount in their folios.
Disclosure w.r.t investment by minors	As per clause of 17.6 of SEBI Master Circular, the following Process for Investments in the name of a Minor through a Guardian will be applicable- Payment for investment by any mode shall be accepted from the bank account of the minor, parent or legal guardian of the minor, or from a joint account of the minor with parent or legal guardian. Irrespective of the source of payment for subscription, all redemption proceeds shall be credited only in the verified bank account of the minor, i.e. the account the minor may hold with the parent/ legal guardian after completing all KYC formalities. Unit holders are requested to review the Bank Account registered in the folio and ensure that the registered Bank Mandate is in favour of minor or joint with registered guardian in folio. If the registered Bank

	Account is not in favour of minor or not joint with registered guardian, unit holders will be required to submit the change of bank mandate, where minor is also a bank account holder (either single or joint with registered guardian), before initiation any redemption transaction in the folio, else the transaction is liable to get rejected. For systematic transactions in a minor's folio, AMC will register standing instructions till the date of the minor attaining majority, though the instructions may be for a period beyond that date. Upon the minor attaining the status of major, the minor in whose name the investment was made, shall be required to provide all the KYC details, updated bank account details including cancelled original cheque leaf of the new account. No further transactions shall be allowed till the status of the minor is changed to major. Please refer SAI for detailed process on investments made in the name of a Minor through a Guardian and Transmission of Units.

MFCentral as Official Point of Acceptance:

For enhancing investors' experience in Mutual Fund transactions / service requests, the Qualified RTAs (QRTA's), Kfin Technologies Private Limited (Kfintech) and Computer Age Management Services Limited (CAMS) have jointly developed MFCentral - A digital platform for Mutual Fund investors.

MFCentral is created with an intent to be a one stop portal / mobile app for all Mutual fund investments and service-related needs that significantly reduces the need for submission of physical documents by enabling various digital / phygital services to Mutual fund investors across fund houses subject to applicable Terms & Conditions of the Platform. MFCentral may be accessed using <https://mfcentral.com/>

Any registered user of MFCentral, requiring submission of physical document as per the requirements of MFCentral, may do so at any of the designated Investor Service centres or collection centres of Kfintech or CAMS.
