INVESTMENT OBJECTIVE:

An open-ended life cycle fund with maturity of 5 years following glide path approach for goal-based investing. The Scheme shall invest across asset class. The Scheme shall invest in equity and equity related instruments and Debt, money market instruments to generate capital appreciation and regular income. The Scheme may invest certain portion in units of InvITs, Gold & Silver ETF and Exchange Traded Commodity Derivatives

However, there can be no assurance or guarantee that the investment objective of the Scheme would be achieved.

ASSET ALLOCATION PATTERN:

The Scheme is an open-ended life cycle fund with maturity of 5 years following glide path approach for goal-based investing.

The Asset Allocation under the Scheme shall be based on the years left to maturity of the Scheme.

Below shall be the Asset Allocation for the Scheme based on the years left to maturity:

Years to Maturity	Year#	Investment in Equity and Equity related instruments*	Investment in Debt and Money Market Instruments	Investment in Gold & Silver ETFs/ Gold & Silver ETCDs@/ InvITs
3 – 5 years	2026 to 2028	35% to 50%	25% to 50%	0% to 10%
1 – 3 years	2028 to 2030	20% to 35%	25% to 65%**	0% to 10%
<1 year	2031	5% to 20%	25% to 65%**	0% to 10%

Note: The AMC shall evaluate the market situation while taking exposure towards Gold/Silver ETF & ETCD. Considering the current market conditions, the exposure towards Gold ETF and ETCD will be restricted at 5% of the AUM and the same shall be reviewed from time to time.

#Based on Allotment date.

* The Scheme may take Equity Arbitrage exposure up to 50% in addition to the investment range specified for equity while ensuring that total investment in equity and equity related instruments remains within 65% to 75% in the scheme.

** Exposure in debt instruments shall be limited to AA & above rated instruments with residual maturity less than the target maturity of scheme. For money market instruments, long term rating of issuers shall be considered.

The Margin may be placed in the form of such securities / instruments / deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities / instruments / deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation.

@ The Scheme may hold the underlying goods in case of physical settlement of Exchange Traded Commodity Derivatives (ETCDs) contracts. In such cases, mutual funds shall dispose of such goods from the books of the scheme, at the earliest, not exceeding the timeline below:

1. For Gold and Silver: - 180 calendar days from the date of holding of physical goods,
2. For other goods (other than Gold and Silver):
 - a) By the immediate next expiry day of the same contract series of the said commodity.
 - b) However, if Final Expiry Date (FED) of the goods falls before the immediate next expiry day of the same contract series of the said commodity, then within 30 days from the date of holding of physical goods.

As per SEBI (Mutual Funds) Regulations, 2026, 'goods' shall mean the goods notified by the Central Government under paragraph (bc) of section 2 of the Securities Contracts (Regulation) Act, 1956 and forming the underlying of any commodity derivative.

The Cumulative Gross Exposure across Equity, ADR/GDR/Overseas securities/ Overseas ETF, Debt, Units of Gold ETFs / units of Silver ETFs/ Exchange Traded Commodity Derivatives, Preference Shares, units of REITs and INVITs and such other securities/assets as may be permitted by SEBI from time to time, should not exceed 100% of the net assets of the Scheme.

The Scheme may invest up to US \$20 million in GDRs/ADRs/Foreign equity securities/mutual funds and such limit shall be utilized in accordance with paragraph 13.11 of the Master Circular. Further, the said limits shall be valid for a period of six months from the date of closure of NFO. Post completion of the six months, the relevant provisions of para 13.11 of the Master Circular shall be applicable.

Investment in overseas ETF has currently been suspended pursuant to communication received from AMFI dated March 20, 2024, and the same shall be resumed in accordance with directions received from SEBI/AMFI in this regard from time to time, and in line with paragraph 13.11 of the Master Circular.

The Scheme may take exposure to various instruments will be as per the indicative table given below:

Sr. No.	Type of Instrument	Percentage of exposure	Circular references
1.	Stock lending	Up to 20% of net assets and single intermediary (broker) limit upto 5% of net assets.	Paragraph 13.6 of the Master Circular
2.	Derivatives	As follows:	Paragraph 8.5 and 13.15 of the Master Circular
2(a)	Equity derivatives (hedge & non hedge) exposure through instruments such as Index futures, stock futures, Index Options, stock options (including writing of covered call options)	Up to 50% of the net assets	
2(b)	Debt Derivatives (hedge & non hedge exposure) through instruments such as Interest rate swaps and forward rate agreements	up to 50% of the debt portfolio	
2(c)	Exchange Traded Commodity Derivative (ETCD)	Upto 10% of the net assets	Paragraph 13.16.9(c) of the Master Circular
3	Securitized Debt	upto 15% of the Net Assets or maximum permissible limit for debt portfolio, whichever is lower	Paragraph 13.1(2) of the Master Circular
4	Overseas securities	Up to 35% of the net assets	Paragraph 13.11 of the Master Circular
5	Units issued by REITs	Investment in units of Real Estate Investment Trusts (REITs) shall be in accordance with paragraph 13.13 of the Master Circular	Paragraph 13.13 of the Master Circular.
6	Units issued by InvITs	Up to 10% of the net assets and upto 5 % of its NAV in case of units issued by a single issuer.	Paragraph 13.13.5 of the Master Circular
7	AT1 and Tier II Bonds	a) Upto 10% of its NAV of the debt portfolio of the scheme in perpetual debt instruments and b) Upto 5% of its NAV of the debt portfolio of the scheme at single issuer level. The above exposure will be subject to the overall limit for debt instruments issued by a single issuer and other prudential limits with respect to the debt instruments.	Paragraph 13.1(9) of Master Circular
8	Structured Obligations and Credit Enhancements	Up to 10% of the Debt portfolio of the scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the schemes: a. Unsupported rating of debt instruments (i.e. without factoring in credit enhancements) is below investment grade and b. Supported rating of debt instruments (i.e. after factoring - in credit enhancement) is above investment grade.	Paragraph 13.1(10) of the Master Circular
9.	Units of Gold ETF	The scheme may invest in units of Gold ETF upto 5% of the Net Assets of the Scheme	Not Applicable

The Scheme can take covered-call positions for stock derivatives, as permitted by SEBI in accordance with paragraph 13.15.1 of the Master Circular.

➤ Rebalancing of deviation due to short term defensive consideration :

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per Paragraph 1.9.1.b of SEBI Master Circular, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

➤ Rebalancing in case of passive breaches:

Further, as per Paragraph 3.11 of the Master Circular, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Paragraph 3.11.3 of the Master Circular.

Further, in case of any passive breaches of prudential limits inter alia including issuer limits, group limits and sector limits etc. prescribed in SEBI (Mutual Funds) Regulations, 2026 and circulars issued thereunder, the rebalancing of such passive breaches shall be carried out in accordance with the provisions prescribed under paragraph 3.11 of the Master Circular, provided the specific timeline for rebalancing is not prescribed for the respective prudential limit.

As and when there is corresponding change in the Asset Allocation with respect to the years to maturity, the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days from the date when the revised allocation becomes effective.

The AMC shall comply with the provisions of the applicable regulatory guidelines for all reporting and disclosure requirements, etc. as may be specified from time to time.

Considering the inherent characteristics of the Scheme, equity positions are built-up gradually and also sold off gradually. This would necessarily entail having large cash position before the portfolio is fully invested and during periods when equity positions are being sold off to book profits/losses or to meet redemption needs. Such positions shall be subject to rebalancing period and in line with paragraph 1.9.1.b of the Master Circular.

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. AMFI vide letter dated November 3, 2021, has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities.

Apart from the above investment restrictions, the Scheme may follow certain internal norms vis-à-vis limiting exposure to scrips, sectors etc., within the above mentioned restrictions, and these are subject to review from time to time.

Negative list: The Scheme will not invest/ have exposure in the following:

INVESTMENT STRATEGY:

The Scheme is an open-ended life cycle fund with maturity of 5 years following glide path approach for goal-based investing.

The Scheme proposes to invest across asset classes, in line with the asset allocation mentioned in the SID, with the aim of generating capital appreciation and income for investors in the long term. With this aim, the Fund Manager will allocate the assets of the Scheme in Equity and equity related instruments, Debt instruments and units of Gold ETFs/ETCDs/ units of Silver ETFs/ units of InvITs. The actual percentage of investment in the asset classes will be decided after considering the prevailing market conditions, the macroeconomic environment (including interest rates and inflation), the performance of the corporate sector, the equity markets and general liquidity and other considerations in the economy and markets.

The Scheme shall follow an active investment strategy. Given the category characteristics, the exposure range towards Equity & Equity related instruments and Debt instruments shall change during the Life Cycle of the Scheme as per the stated Asset Allocation mentioned above to maintain portfolio liquidity.

The Scheme proposes to concentrate on business and economic fundamentals driven by in-depth research techniques, employing strong stock selection. Stock-picking process proposed to be adopted is generally a "bottom-up" approach, seeking to identify companies with above average profitability supported by sustainable competitive advantages and also to use a "top-down" discipline for risk control by ensuring representation of companies from various industries.

The Scheme may also take exposure to various derivatives during the life cycle of the Scheme as may be permitted by SEBI from time to time. The Scheme may take Equity Arbitrage exposure up to 50% in addition to the investment range specified for equity while ensuring that the total investment in equity and equity related instruments remains within 65% to 75% in such schemes.

The Scheme shall invest in Debt securities available across duration and credit. With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the AMC. The credit evaluation includes a study of the operating environment of the company, the past track record as well as the future prospects of the issuer, the short as well as longer term financial health of the issuer.

The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. In addition, the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

The Schemes could invest in Fixed Income Securities issued by government, quasi government entities, corporate issuers, structured notes and multilateral agencies in line with the investment objectives of the Scheme and as permitted by SEBI from time to time.

The Scheme can also invest in the appropriate exchange traded commodity derivatives or units of gold ETFs and/or units of Silver ETFs in order to achieve the investment objective. The scheme may also invest in Units issued by REITs & InvITs after doing due research on the same. Further, the Scheme may invest in other schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity with the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

The Scheme may use derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements or other derivative instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. It may also invest in securitized debt.

The scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so with the prior approval of the Board of the AMC/Trustee.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters and would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

For detailed derivatives strategies and illustrations, please refer to SAI.

Risk Profile of the Scheme:

Mutual Fund units involve investment risk including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific risk factors are summarized below:

It is intended to generate capital appreciation and maximize the returns by actively investing in equity/ equity related securities and utilizing debt and money market instruments as a defensive investment strategy. At times such churning of portfolios may lead to substantial losses due to subsequent adverse developments in the capital markets or unfavourable market movements. In view of the same, there can be no assurance that the investment objective of the Scheme will be realized.

Risk associated with Life Cycle Funds –

- 1. Non-Discretionary Glide Path Risk:** The Scheme follows a pre-determined, rule-based glide path and the Fund Manager has no discretion to deviate from the prescribed asset allocation at any phase, irrespective of prevailing market conditions, which may result in sub-optimal risk-adjusted returns during certain market cycles.
- 2. Fixed Maturity and Exit Load Risk:** The Scheme's strategy is calibrated to a fixed maturity date along with a grade exit load which may constrain investor liquidity and materially affect effective returns on premature withdrawals before the Scheme's designated maturity year.
- 3. Credit and Interest Rate Risk in Terminal Phase:** Allocation shifts towards debt instruments nearer to the target date, increasing its sensitivity to credit events and interest rate movements. However, the Scheme is limited by the regulatory requirement that permissible debt investments be restricted to instruments rated AA and above, with residual maturity not exceeding the target maturity of the Scheme thereby mitigating potential credit events.
- 4. Portfolio Transition and Market Impact Risk:** Mandatory glide path rebalancing may require liquidation of equity positions and reinvestment into debt instruments at predetermined intervals without regard to prevailing market conditions, potentially resulting in crystallisation of losses and market impact costs adversely affecting investor returns.
- 5. Pre-Maturity Merger and Reinvestment Risk:** When the residual tenor falls below one year, the Scheme may be merged with the nearest available maturity Life Cycle Fund, which may alter the investor's maturity profile and applicable glide path. Upon scheduled maturity, reinvestment opportunities may not offer comparable risk-return characteristics. The requirement of affirmative unitholder consent prior to any such merger ensures that investors retain the right to evaluate and accept or reject the proposed change before its implementation.
- 6. Fund Manager Change:** A change in fund manager may result in a strategy drift wherein the incoming manager adjusts the asset allocation and rebalancing approach which may alter the risk-return profile of the fund.

Market Risk

The Scheme's NAV will react to the stock market movements. The investor could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices and market movements, and over longer periods during market downturns.

Settlement Risk

The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme's portfolio.

Portfolio Concentration Risk

To the extent that the Scheme may concentrate its investments in the Securities of companies of certain companies/sectors, the Scheme will therefore be subject to the risks associated with such concentration. In addition, the Scheme may be exposed to higher levels of volatility and risk than would generally be the case in a more diverse fund portfolio of equity Securities. Such risks may impact the Scheme to the extent that it invests in particular sectors even in cases where the investment objective is more generic.

Volatility Risk

The equity markets and derivative markets are volatile and the value of securities, derivative contracts and other instruments correlated with the equity markets may fluctuate dramatically from day to day. This volatility may cause the value of investment in the scheme to decrease.

Redemption Risk

Investors should note that even though the Scheme is an open ended Scheme, subscription/redemptions directly with the Fund would be subject to minimum application amount

Right to Limit Redemptions

The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day.

Risk associated with investing in equities, equity related instruments and units of Real Estate Investment Trusts (REITs)

- The value of the Schemes' investments may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Schemes may fluctuate and can go up or down.
- Investors may note that AMC/Fund Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities.
- The Mutual Fund may not be able to sell / lend out securities, which can lead to temporary illiquidity. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.
- Investors may note that the dividend is due only when declared and there is no assurance that a company (even though it may have a track record of payment of dividend in the past) may continue paying dividend in future. As such, the schemes are vulnerable to instances where investments in securities may not earn dividend or where lesser dividend is declared by a company in subsequent years in which investments are made by the scheme. As the profitability of companies are likely to vary and have a material bearing on their ability to declare and pay dividend, the performance of the schemes may be adversely affected due to such factors. In addition, investments in units of REITs could also receive funds through repatriation of funds by these Trusts in the form of buyback of units along with dividend pay-outs, etc. Hence reinvestments of the proceeds carry a risk of lower returns. However, the reinvestment risk will be limited as the proceeds are expected to be a small portion of the portfolio value.
- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option.
- While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests. This may however increase the risk of the portfolio.
- Fund manager endeavors to generate returns based on certain past statistical trend. The performance of the schemes may get affected if there is a change in the said trend. There can be no assurance that such historical trends will continue.
- In case of abnormal circumstances, it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. However, the Scheme will aim at taking exposure into relatively liquid stocks

where there will be minimal risk to square off the transaction. The Schemes investing in foreign securities will be exposed to settlement risk, as different countries have different settlement periods.

- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Schemes or business prospects of the Company in any particular sector.
- The value of units of REITs is derived based on the prevailing interest rate. Generally, when interest rates rise, value of units falls and when interest rates drop, such value increases. Hence, the prices of units of REITs is susceptible to changes in interest rate.
- In case of warrants, a relatively small movement in the price of the underlying security results in a disproportionately large movement, unfavourable or favourable, in the price of the warrant. The prices of warrants can therefore be volatile.
- It is essential for the investors to understand that the right to subscribe which a warrant confers is invariably limited in time with the consequence that if the investor fails to exercise this right within the predetermined timescale then the investment becomes worthless. Investment in a warrant can result in a total loss of the money invested plus any commission or other transaction charges.

Risk associated with investing in fixed income and money market securities :

- **Market Risk:** The Net Asset Value (NAV) of the underlying scheme(s), to the extent invested in fixed income securities, will be affected by changes in the general level of interest rates. The NAV of the underlying scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
- **Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme(s) and may lead to the Scheme(s) incurring losses till the security is finally sold.
- **Credit Risk:** Investments in fixed income securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer
- **Price Risk:** Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the underlying scheme(s) are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Settlement risk:** The inability of the underlying scheme(s) to make intended securities purchases due to settlement problems could cause the underlying scheme(s) to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the underlying scheme(s)' portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses to the Plan, in case of a subsequent decline in the value of securities held in the underlying scheme(s)' portfolio.
- **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the underlying scheme(s).

Risks associated with investment in unlisted securities:

- Except for any security of an associate or group company, the underlying scheme(s) have the power to invest in securities which are not listed on a stock exchange or receive unlisted securities which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. These securities may lack a liquid secondary market and there can be no assurance that the underlying scheme(s) will realise their investments in these securities at a fair value.
- Different types of fixed income securities in which the underlying scheme(s) would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the underlying scheme(s) risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, bonds, which are AAA rated, are comparatively less risky than bonds, which are AA rated.
- The AMC may, considering the overall level of risk of the portfolio, invest in lower rated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the underlying scheme(s).
- As zero coupon securities do not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The underlying scheme(s) may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.

- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The AMC may choose to invest in unlisted securities that offer attractive yields. This may increase the risk of the portfolio.
- The underlying scheme(s) at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- Scheme's performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.
- The scheme may also invest in debt schemes of ICICI Prudential Mutual Fund or other schemes including debt ETFs which has objective to invest in debt and money market instruments and are subject to risks as stated above

Risk associated with investing in units of mutual funds

The scheme may make investments in units of mutual funds. Investments in schemes of mutual funds are subject to market risks and there is no assurance or guarantee that the objectives of the scheme will be achieved. Further, any investment in mutual funds is also subject to risk factors outlined in the offer document of the mutual fund and an adverse performance of a mutual fund scheme in which the scheme has made investments could adversely impact the scheme's performance and NAV of the scheme.

Risks associated with investing in Tri Party Repo through CCIL (TREPS)

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

Risks associated with Repo in Corporate Debt

- **Lending transactions:** The scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However, in repo lending transactions, the collateral may be sold and a loss is realized only if the sale price is less than the repo amount. The risk may be further mitigated through over-collateralization (the value of the collateral being more than the repo amount). Further, the liquidation of underlying securities in case of counterparty default would depend on liquidity of the securities and market conditions at that time. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation and over-collateralization to cushion the impact of market risk on sale of underlying security.
- **Borrowing transactions:** In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin). This risk is normally mitigated by better cash flow planning to take care of such repayments. Further, there is also a Credit Risk that the Counterparty may fail to return the security or Interest received on due date. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation.

Risks associated with investing in Securitised Debt

A securitization transaction involves sale of receivables by the originator (a bank, non-banking finance company, housing finance company, microfinance companies or a manufacturing/service company) to a Special Purpose Vehicle (SPV), typically set up in the form of a trust. Investors are issued rated Pass Through Certificates (PTCs), the proceeds of which are paid as consideration to

the originator. In this manner, the originator, by selling his loan receivables to an SPV, receives consideration from investors much before the maturity of the underlying loans. Investors are paid from the collections of the underlying loans from borrowers. Typically, the transaction is provided with a limited amount of credit enhancement (as stipulated by the rating agency for a target rating), which provides protection to investors against defaults by the underlying borrowers. Generally available asset classes for securitization in India are:

- o Commercial vehicles
- o Auto and two wheeler pools
- o Mortgage pools (residential housing loans)
- o Personal loan, credit card and other retail loans
- o Corporate loans/receivables
- o Microfinance receivables

For detailed information of the above risk factor, please refer to Scheme Information Document.

Risks associated with Investing in Derivatives

The Schemes may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

The Scheme may use derivatives instruments like Stock /Index Futures or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Schemes to certain risks inherent to such derivatives.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value.

The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as follows:

- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- **Execution Risk:** The prices which are seen on the screen need not be the same at which execution will take place
- **Basis Risk:** This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged
- Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margins or insist that margins be placed in cash. All of these might force positions to be unwound at a loss, and might materially impact returns.
- The derivative contracts at times are undertaken with various counterparties. These counterparties may not be able to meet the obligations under such derivative contracts. This would lead to credit risk in derivative transactions. Hence, derivative trades are undertaken with approved counterparties or through exchanges. This mitigates credit risk on derivative transactions.

Additional risks for writing covered call options for equity shares

1. Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such investment strategy, the profits from call option writing is capped at the option premium, however the downside depends upon the increase in value of the underlying equity shares.
2. The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity, or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.
3. The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the scheme would be at a loss.
4. The total gross exposure related to option premium paid and received must not exceed the regulatory limits of the net assets of the scheme. This may restrict the ability of Scheme to buy any options.

Benefits of using Covered Call strategy in Mutual Funds

The covered call strategy can be followed by the Fund Manager in order to hedge risk thereby resulting in better risk adjusted returns of the Scheme. The strategy offers the following benefits:

- a) Hedge against market risk - Since the fund manager sells a call option on a stock already owned by the mutual fund scheme, the downside from fall in the

stock price would be lower to the extent of the premium earned from the call option.

- b) Generating additional returns in the form of option premium in a range bound market.

Thus, a covered call strategy involves gains for unit holders in case the strategy plays out in the right direction

Risk Factors with respect to imperfect hedging using Interest Rate Futures

An Interest Rate Futures is an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today. Interest Rate Futures are Exchange traded. These future contracts are cash settled.

1. Perfect Hedging means hedging the underlying using IRF contract of same underlying.
2. Imperfect hedging means the underlying being hedged and the IRF contract has correlation of closing prices of more than 90%.

In case of imperfect hedging, the portfolio can be a mix of:

- 1) Corporate Bonds and Government securities or
- 2) Only Corporate debt securities or
- 3) Only government securities with different maturities

Risk associated with imperfect hedging includes:

Basic Risk: The risk arises when the price movements in derivative instrument used to hedge the underlying assets does not match the price movements of the underlying assets being hedged. Such difference may potentially amplify the gains or losses, thus adding risk to the position.

Price Risk: The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Risk of mismatch between the instruments: The risk arises if there is a mismatch between the prices movements in derivative instrument used to hedge, compared to the price movement of the underlying assets being hedged. For example, when IRF which has government security as underlying is used, to hedge a portfolio that contains corporate debt securities.

Correlation weakening and consequent risk of regulatory breach: SEBI Regulation mandates minimum correlation criterion of 0.9 (calculated on a 90 day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 business days has been permitted. Inability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period, due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value.

Risks associated with investment in ADR/GDR/Foreign equity Securities/ Overseas Mutual Funds/Overseas ETFs

It is AMC's belief that the investment in ADRs/GDRs/overseas securities/ overseas mutual funds and ETFs offers new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the schemes. Since the Schemes would invest only partially in ADRs/GDRs/overseas securities/overseas mutual funds and ETFs, there may not be readily available and widely accepted benchmarks to measure performance of the Schemes. To manage risks associated with foreign currency and interest rate exposure, the Scheme may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated by SEBI/RBI from time to time.

To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of the other restrictions on investment.

Offshore investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Scheme in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Scheme may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs.

Investors are requested to note that the costs associated with overseas investments like advisory fees (other than those expenses permissible under regulation 66 of SEBI Regulations) would not be borne by the scheme.

Risk associated with investment in units of Infrastructure Investment Trusts (InvITs)

- **Regulatory and Policy Risk:** InvITs operate under a defined regulatory regime. Any changes in government policies, tax laws, or SEBI regulations can materially impact the structure, returns, and compliance obligations of InvITs.
- **Market Risk:** InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual

market movements may be at variance with the anticipated trends relating to various factors including demand and supply trends. The NAV of the Scheme is vulnerable to movements in the prices of securities invested by the Scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes and Infrastructure sectors, settlement periods and transfer procedures. The Scheme will undertake active portfolio management as per the investment objective to reduce the market risk.

- **Liquidity Risk:** As the liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the SIF for liquidating the investments in the Scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the Fund's portfolio risk. The fund will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying units.
- **Reinvestment Risk:** Investments in units of InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or dividend pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns. However, the reinvestment risk will be limited as the proceeds are expected to be a small portion of the portfolio value.
- **Interest Rate Risk:** The value of units of InvITs is derived based on the prevailing interest rate. Generally, when interest rates rise, value of units falls and when interest rates drop, such value increases. Hence, the prices of units of InvITs is susceptible to changes in interest rate.
- **Sector Concentration Risk:** InvITs often focus on specific infrastructure sectors (e.g., roads, power transmission). Sector-specific regulatory changes or economic stress can disproportionately affect performance.
- **Counterparty and Credit Risk:** InvITs rely on counterparties such as concession authorities, contractors, and lenders. Defaults or delays in payments by these entities can impair cash flows and distributions to unit holders.
- **Force Majeure and Environmental Risk:** Infrastructure assets are exposed to risks arising from natural disasters, extreme weather events, and other force majeure situations, which can disrupt operations and revenue generation.

The above are some of the common risks associated with investments in units of InvITs. There can be no assurance that a Fund's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

Risk associated with investing in Preference Shares

- **Credit Risk** - Investments in Preference Shares are subject to the risk of an issuer's inability to meet dividend and redemption by the issuer. Further, for non-cumulative preference shares, issuer also has an option to not pay dividend on preference shares in case of inadequate profits in any year.
- **Liquidity Risk** - Preference shares lack a well-developed secondary market, which may restrict the selling ability of the Scheme(s) and may lead to the Scheme(s) incurring losses till the security is finally sold.
- **Unsecured in nature** - Preference shares are unsecured in nature and rank lower than secured and unsecured debt in hierarchy of payments in case of liquidation. Thus, there is significant risk of capital erosion in case the company goes into liquidation.
- **Market Risk** - The schemes will be vulnerable to movements in the prices of securities invested by the schemes which could have a material bearing on the overall returns from the schemes.

Risk factors associated with investments in Perpetual Debt Instrument (PDI):

Perpetual Debt instruments are issued by Banks, non-banking financial institutions (NBFCs) and corporates to improve their capital profile. Some of the PDIs issued by Banks which are governed by the Reserve Bank of India (RBI) guidelines for Basel III Capital Regulations are referred to as Additional Tier I (AT1 bonds). While there are no regulatory guidelines for issuance of PDIs by corporate bodies, NBFCs issue these bonds as per guidelines issued by RBI. The instruments are treated as perpetual in nature as there is no fixed maturity date. The key risks associated with these instruments are highlighted below:

Risk on coupon servicing

- **Banks**
As per the terms of the instruments, Banks may have discretion at all times to cancel distributions/payment of coupons.
- **NBFCs**
While NBFCs may have discretion at all times to cancel payment of coupon, coupon may also be deferred (instead of being cancelled), in case paying the coupon leads to breach of capital ratios.
- **Corporates**
Corporates usually have discretion to defer the payment of coupon. However, the coupon is usually cumulative and any deferred coupon shall accrue interest at the original coupon rate of the PDI.

Risk of write-down or conversion into equity

- **Banks**
As per the regulatory requirements, Banks have to maintain a minimum Common Equity Tier-1 (CET-1) ratio of Risk Weighted Assets (RWAs), failing which the AT-1 bonds can get written down. Further, AT-1 Bonds are liable to be written down or converted to common equity, at the discretion of RBI, in the event of Point of Non Viability Trigger (PONV). PONV is a point, determined by RBI, when a bank is deemed to have become non-viable unless there is a write off/ conversion to equity of AT-1 Bonds or a public sector capital injection happens. The write off/conversion has to occur prior to public sector injection of capital. This risk is not applicable in case of NBFCs and Corporates.

Risk of instrument not being called by the Issuer

• Banks

The issuing banks have an option to call back the instrument after minimum period as per the regulatory requirement from the date of issuance and specified period thereafter, subject to meeting the RBI guidelines. However, if the bank does not exercise the call on first call date, the Scheme may have to hold the instruments for a period beyond the first call exercise date.

• NBFCs

The NBFC issuer has an option to call back the instrument after minimum period as per the regulatory requirement from date of issuance and specified period thereafter, subject to meeting the RBI guidelines. However, if the NBFC does not exercise the call option the Scheme may have to hold the instruments for a period beyond the first call exercise date.

• Corporates

There is no minimum period for call date. However, if the corporate does not exercise the call option, the Scheme may have to hold the instruments for a period beyond the call exercise date

RISKS FOR WRITING COVERED CALL OPTIONS FOR EQUITY SHARES

A call option gives the holder (buyer) the right but not the obligation to buy an asset by a certain date for a certain price. Covered calls are an options strategy where a person holds a long position in an asset and writes (sells) call options on that same asset to generate an income stream. The Scheme may write call options under covered call strategy, as permitted by the regulations. Risks associated thereto are mentioned below:

- Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such investment strategy, the profits from call option writing is capped at the option premium, however the downside depends upon the increase in value of the underlying equity shares. This downside risk is reduced by writing covered call options.
- The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity, or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.
- The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the scheme would be at a loss.
- The total gross exposure related to option premium paid and received must not exceed the regulatory limits of the net assets of the scheme. This may restrict the ability of Scheme to buy any options

Benefits of using Covered Call strategy in Mutual Funds

The covered call strategy can be followed by the Fund Manager in order to hedge risk thereby resulting in better risk adjusted returns of the Scheme. The strategy offers the following benefits:

- Hedge against market risk - Since the fund manager sells a call option on a stock already owned by the mutual fund scheme, the downside from fall in the stock price would be lower to the extent of the premium earned from the call option.
- Generating additional returns in the form of option premium in a range bound market.

Thus, a covered call strategy involves gains for unit holders in case the strategy plays out in the right direction.

Risk factors with respect to imperfect hedging using interest rate futures:

An Interest Rate Futures is an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today. Interest Rate Futures are Exchange traded. These future contracts are cash settled.

- Perfect Hedging means hedging the underlying using IRF contract of same underlying.
- Imperfect hedging means the underlying being hedged and the IRF contract has correlation of closing prices of more than 90%.

In case of imperfect hedging, the portfolio can be a mix of:

- Corporate Bonds and Government securities or
- Only Corporate debt securities or
- Only government securities with different maturities

Risk associated with imperfect hedging includes:

Basis Risk: The risk arises when the price movements in derivative instrument used to hedge the underlying assets does not match the price movements of the underlying assets being hedged. Such difference may potentially amplify the gains or losses, thus adding risk to the position.

Price Risk: The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Risk of mismatch between the instruments: The risk arises if there is a mismatch between the prices movements in derivative instrument used to hedge, compared to the price movement of the underlying assets being hedged. For example, when IRF which has government security as underlying is used, to hedge a portfolio that contains corporate debt securities.

Correlation weakening and consequent risk of regulatory breach: SEBI Regulation mandates minimum correlation criterion of 0.9 (calculated on a 90-day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 business days has been permitted. Inability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period, due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value.

Risks associated with Stock Lending

Stock lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

The risks in security lending consist of the failure of intermediary / counterparty, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the intermediary / counterparty. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The scheme may not be able to sell lent out securities, which can lead to temporary illiquidity & loss of opportunity.

Investors are requested to refer to section "How will the Scheme allocate its assets?" for maximum permissible exposure to Stock Lending.

The Scheme will not engage in Short Selling activity.

Risks pertaining to investment in Gold and Silver

- The scheme would invest in Gold and Gold-linked instrument(s), Silver and Silver-linked instruments. Accordingly, the NAV of the Scheme will react to Gold and Silver price movements.
- The returns from physical gold/silver in which the scheme invests may underperform returns from the various general securities markets or different asset classes other than gold/silver. Different types of securities tend to go through cycles of out-performance and under-performance in comparison to the general securities markets.
- There is no Exchange for physical gold/silver in India. The Scheme may have to buy or sell gold/silver from the open market, which may lead to counter party risks for the Scheme for trading and settlement.
- The Scheme may also invest in gold related instruments, silver related instruments, money market instruments, bonds & other debt securities as permitted under the Regulations which are subject to price, credit and interest rate risk. Trading volumes and settlement periods and transfer procedures may restrict liquidity in debt investments.
- An investment in the Scheme may be adversely affected by competition from other methods of investing in gold and silver.
- Risks associated with handling, storing and safekeeping of physical Gold/Silver: There is a risk that part or all of the Scheme's gold and silver could be lost, damaged or stolen. Access to the Scheme's gold and silver could also be restricted by natural events or human actions. Any of these actions may have adverse impact on the operations of the Scheme and consequently on investment redemption in Units.
- Liquidity risks in physical or derivative markets impairing the ability of the Scheme to buy and sell Gold/Silver: Due to various regulatory, economic and market conditions, the ability of the Scheme to buy and/or sell Gold/Silver in physical or trade in ETCD with Gold/Silver as an underlying, could be impacted.
- Several factors that may affect the price of gold/silver are as follows:
 - a) Global gold/silver supplies and demand, which is influenced by factors such as forward selling by gold/silver producers, purchases made by gold/silver producers to unwind gold/silver hedge positions, central bank purchases and sales, and productions and cost levels in major gold/silver producing countries such as the South Africa, the United States and Australia.
 - b) Investors' expectations with respect to the rate of inflation;
 - c) Currency exchange rates;
 - d) Interest rates;
 - e) Investment and trading activities of hedge funds and commodity funds; and
 - f) Global or regional political, economic or financial events and situations.
 - g) In addition, investors should be aware that there is no assurance that gold/silver will maintain its long-term value in terms of purchasing power in the future. In the event that the price of gold/silver declines, the value of investment in units is expected to decline proportionately.

Risk associated with Gold and Silver Exchange Traded Funds (ETFs):

- a) The Gold and Silver ETF units may trade above or below their NAV. The NAV of the ETFs will fluctuate with changes in the market value of holdings. The trading prices will fluctuate in accordance with changes in their NAV as well as market supply and demand. However, given that units can be created and redeemed in Creation Units, it is expected that large discounts or premiums to the NAV will not sustain due to arbitrage opportunity available.
- b) Although the units of ETFs are listed on an exchange, there can be no assurance that an active secondary market will develop or be maintained. Prices of units, which are listed and traded, could be impacted by thin liquidity in the secondary market as these funds may not be actively traded.

- c) Any changes in trading regulations by the stock exchange(s) or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV.
- d) Gold and Silver ETFs are relatively new product and their value could decrease if unanticipated operational or trading problems arise.
- e) Market risk due to volatility in Gold/Silver prices: The value of the ETF Units relates directly to the value of the Gold/Silver and therefore, fluctuations in the price of Gold/Silver could adversely affect investment value of the ETF Units. The factors that may affect the price of Gold/Silver, inter alia, include demand & supply, economic and political developments, changes in interest rates and perceived trends in bullion prices, exchange rates, inflation trends, market movements, restrictions on movement/trade of Gold/Silver that may be imposed by the Reserve Bank of India (RBI), and restrictions on import/export of Gold, Gold jewellery, Silver, Silver jewellery, etc. Hence, the investor may also lose money due to fluctuation in the prices of the Gold/Silver. Value of Gold and Silver ETFs may decrease if unanticipated operational or trading problem arise.

Risk Factors Associated with Investments in Exchange Traded Commodity Derivatives (ETCD)

- o An exchange traded commodity derivative is a derivative instrument that mimics the price movements of an underlying commodity, allowing an investor exposure to the commodity without physical purchase.
- o **Liquidity Risk:** While ETCDs that are listed on an exchange carry lower liquidity risk, the ability to sell these contracts is limited by the overall trading volume on the exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes of the ETCD contracts in which it invests. Additionally, change in margin requirements or intervention by government agencies to reduce overall volatility in the underlying commodity could lead to adverse impact on the liquidity of the ETCD.
- o **Price risk:** ETCDs are leveraged instruments hence, a small price movement in the underlying security could have a large impact on their value. Also, the market for ETCDs is nascent in India hence, arbitrages can occur between the price of the physical commodity and the ETCD, due to a variety of reasons such as technical issues and volatile movement in the price of the physical good. This can result in mispricing and improper valuation of investment decisions as it can be difficult to ascertain the amount of the arbitrage.
- o **Settlement risk:** ETCDs can be settled either through the exchange or physically. The inability to sell ETCDs held in the Schemes' portfolio in the exchanges due to the extraneous factors may impact liquidity and would result in losses, at times, in case of adverse price movement. Wherein the underlying commodity is physically delivered in order to settle the derivative contract, such settlement could get impacted due to various issues, such as logistics, Government policy for trading in such commodities.

Risks associated with Investing in Structured Obligation (SO) & Credit Enhancement (CE) rated securities:

- The risks factors stated below for the Structured Obligations & Credit Enhancement are in addition to the risk factors associated with debt instruments.
- Credit rating agencies assign CE rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms and could include guarantee, shortfall undertaking, letter of comfort, etc. from another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Credit enhancement could include additional security in form of pledge of shares listed on stock exchanges, etc. SO transactions are asset backed/ mortgage backed securities, securitized paper backed by hypothecation of car loan receivables, securities backed by trade receivables, credit card receivables etc. Hence, for CE rated instruments evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the issuer rating. In case of SO rated issuer, the underlying loan pools or securitization, etc. is assessed to arrive at rating for the issuer
- **Liquidity Risk:** SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the credit enhanced nature of CE securities as well as structured nature of SO securities, the liquidity in the market for these instruments is adversely affected compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold.
- **Credit Risk:** The credit risk of debt instruments which are CE rated derives rating based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to ability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. In case of SO transactions, comingling risk and risk of servicer increases the overall risk for the securitized debt or assets backed transactions. Therefore, apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk.

Risk factors associated with creation of segregated portfolios:

1. **Liquidity risk** – A segregated portfolio is created when a credit event occurs at an issuer level in the scheme. This may reduce the liquidity of the security issued by the said issuer, as demand for this security may reduce. This is also further accentuated by the lack of secondary market liquidity for corporate papers in India. As per SEBI norms, the scheme is to be closed for redemption and subscriptions until the segregated portfolio is created, running the risk of investors being unable to redeem their investments. However, it may be noted

that, the proposed segregated portfolio is required to be formed within one day from the occurrence of the credit event.

Investors may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall list the units of the segregated portfolio on a recognized stock exchange within 10 business days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. There is no assurance that a deep secondary market will develop for units of segregated portfolio listed on the stock exchange. This could limit the ability of the investors to resell them.

2. Valuation risk - The valuation of the securities in the segregated portfolio is required to be carried out in line with the applicable SEBI guidelines. However, it may be difficult to ascertain the fair value of the securities due to absence of an active secondary market and difficulty to price in qualitative factors.

Apart from the risk factors mentioned above, the scheme is exposed to certain specific risks, which are as mentioned below –

Although it is intended to generate capital appreciation and maximize the returns by actively investing in equity/ equity related securities and utilising debt and money market instruments as a defensive investment strategy. Given the nature of the Scheme, the portfolio turnover ratio may be very high and AMC may change the full portfolio from say all Equity to all Cash and/or to all long /short term Bonds, commensurate with the investment objectives of the Scheme. At times such churning of portfolios may lead to substantial losses due to subsequent adverse developments in the capital markets or unfavourable market movements. In view of the same, there can be no assurance that the investment objective of the Scheme will be realised.

Dispatch of Redemption Request

As per the Regulations, the redemption proceeds shall be dispatched within 3 business Days of receiving the redemption request subject to exceptional situations and additional timelines for redemption payments as per paragraph 15.3.3 of the Master Circular. A penal interest of 15% p.a. or such other rate as may be prescribed by SEBI from time to time, will be paid in case the payment of redemption proceeds is not made within specified timelines.

Benchmark Index

The benchmark of the Scheme will be Nifty 200 TRI (50%) + Nifty Composite Debt Index (45%) + Domestic Price of Gold (3%) + Domestic Price of Silver (2%)

The composition of the benchmark is such that it is most suited for comparing performance of the Scheme. The Trustees reserves the right to change the benchmark in future, if a benchmark better suited to the investment objective of the Scheme is available.

IDCW POLICY:

The Trustee may declare IDCW to the Unit holders under the Scheme subject to the availability of distributable surplus and the actual distribution of IDCW and the frequency of distribution will be entirely at the discretion of the Trustee. Such IDCW will be payable to the Unit holders whose names appear on the register of Unit holders on the record date as fixed for the Scheme. The IDCW declared will be paid net of tax deducted at source, wherever applicable, to the Unit holders within 7 business days from the record date. There is no assurance or guarantee to the Unit holders as to the rate of IDCW distribution nor that the IDCW will be paid regularly. If the Fund declares IDCW, the NAV of the Scheme will stand reduced by the amount of IDCW paid. All the IDCW payments shall be in accordance and compliance with SEBI, Stock Exchange Guidelines, as applicable from time to time.

The IDCW will be distributed in accordance with Chapter 12 of the Master Circular on the procedure for IDCW Distribution.

*The subscription for IDCW option is disabled for the Scheme. The Trustees reserve the right to enable the IDCW option for the Scheme at a future date.

Equalization Reserve: When units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.

NAME OF THE FUND MANAGER: Investments under the Scheme will be managed by Mr. Aatur Shah, Mr. Manish Banthia, Mr. Rohit Lakhotia and Mr. Gaurav Chikane.

Since the Scheme is a new Scheme, tenure of the Fund Managers for this scheme is not applicable.

Name of the Trustee Company: ICICI Prudential Trust Limited

Performance of the Scheme:

This Scheme is a new scheme and does not have any performance track record.

CONSOLIDATED ACCOUNT STATEMENT (CAS)

1. The Consolidated Account Statement (CAS) for each calendar month will be issued on or before fifteenth day of succeeding month to the investors who have provided valid Permanent Account Number (PAN). Further, CAS will be sent via email where any of the folios consolidated has an email id or to the email id of the first unit holder as per KYC records.
2. For folios not included in the Consolidated Account Statement (CAS), the AMC shall henceforth issue account statement to the investors on a monthly basis, pursuant to any financial transaction in such folios on or before fifteenth day of succeeding month. In case of a New Fund Offer Period (NFO), the AMC shall send confirmation specifying the number of units allotted to the applicant by way of a physical account statement or an email and/or SMS's to the investor's registered address and/or mobile number not later than five business days from the date of closure of the NFO.
3. In case of a specific request received from the unit holder, the AMC shall provide the account statement to the investors within 5 business days from the receipt of such request.
4. In the case of joint holding in a folio, the first named Unit holder shall receive the CAS/account statement. The holding pattern has to be same in all folios across Mutual Funds for CAS

Further, in case if no transaction has taken place in a folio during the period of six months ended September 30 and March 31, the CAS detailing the holdings

across all Schemes of all mutual funds, shall be emailed at the registered email address of the unitholders on half yearly basis, on or before twenty first day of succeeding month, unless a specific request is made to receive the same in physical form.

The asset management company shall issue units in dematerialized form to a unit holder in a scheme within two working days of the receipt of request from the unit holder.

Each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme.

Further, CAS shall be issued for the half-year (September/ March).

Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

In case of the units are held in dematerialized (demat) form, the statement of holding of the beneficiary account holder will be sent by the respective Depository Participant periodically.

Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

In case of the units are held in dematerialized (demat) form, the statement of holding of the beneficiary account holder will be sent by the respective Depository Participant periodically.

CAS for investors having Demat account:

- Investors having MF investments and holding securities in Demat account shall receive a single Consolidated Account Statement (CAS) from the Depository.
- Consolidation of account statement shall be done on the basis of Permanent Account Number (PAN). In case of multiple holding, it shall be PAN of the first holder and pattern of holding. The CAS shall be generated on a monthly basis.
- If there is any transaction in any of the Demat accounts of the investor or in any of his mutual fund folios, depositories shall send the CAS within fifteen days from the month end. In case, there is no transaction in any of the mutual fund folios and demat accounts then CAS with holding details shall be sent to the investor on half yearly basis.
- In case an investor has multiple accounts across two depositories, the depository with whom the account has been opened earlier will be the default depository.

The dispatch of CAS by the depositories would constitute compliance by the AMC/ the Mutual Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations

However, the AMC reserves the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).

INSTRUCTIONS TO INVESTORS

I. GENERAL INSTRUCTIONS

- The application form is for Resident Investors/NRIs/FIIs and should be completed in English in **BLOCK** Letters.
- The scheme name and the name of the applicant should be mentioned on the reverse of the instrument that accompanies the application.
- The Application completed in all respects along with the cheque must be submitted to the nearest Customer Service Centre. Applications incomplete in any respect or not accompanied by a cheque or for the amount payable are liable to be rejected and the money paid, if any, will be refunded without interest.
- No receipt will be issued for the application money. The Customer Service Centers will stamp and return the acknowledgement slip in the application form, to acknowledge receipt of the application.
- In case of corrections / overwriting on key fields (as may be determined at the sole discretion of the AMC) of the application forms/transaction slips, the AMC reserves the right to reject the application forms/transaction slips, in case the investor(s) has/have not countersigned in every place where such corrections/overwriting has/have been made.
- Investors are advised to retain the acknowledgement slip signed/stamped by the collection centre where they submit the application.
- Any detail of the investor in his DP account will override the detail mentioned in this application form in case of mismatch between both.

II. UNITHOLDERS INFORMATION

- Existing Unit-holders:** If you have an existing folio, please mention the Folio Number. Please note that the applicable details and mode of holding will be as per the existing folio. In case of the existing folio is in non-demat/physical mode, then the units for the additional purchase will also be allotted in non-demat/physical mode as partial demat of units is not allowed. In case, the units is required in demat mode, investor are requested to provide the transaction as fresh application as New Applicant.

b) New Applicant

- Name and address must be given in full (P.O. Box Address is not sufficient).
- Name and Date of Birth as per PAN card should be made mandatory.
- In the case of NRI/PIO/FII investors, an overseas address must also be provided. For non-residents and foreign nationals, (allowed to trade subject to RBI and FEMA guidelines), copy of passport/PIOCard/OCI Card and overseas address proof is mandatory. In case of Merchant Navy NRI's / Seafarers declaration or certified copy of CDC (Continuous Discharge Certificate) is to be submitted.
- Name of the guardian alongwith relationship must be mentioned, if the investments are being made on behalf of a minor. Guardian of the minor should either be a natural guardian (i.e. father or mother) or a court appointed legal guardian. Joint holding is not allowed, if the first applicant is minor.

Incase of investment in the name of Minor, payment for investment must be from the bank account of the minor or from a joint account of the minor with the guardian only or else the transaction is liable to be rejected.

In case of a minor, it is mandatory to submit photocopy of any one of the following towards proof of date of birth at the time of initial investment :

- Birth certificate of minor, or

 - the manager of a scheduled bank (signature attestation by way of Banker's Certificate or letter)
- KYC, PAN and Aadhaar number of the major.
- Additional KYC, FATCA & CRS - Self Certification

Depending upon appropriateness, the ICICI Prudential Asset Management Company Limited (the AMC) may consider seeking additional/alternative documents for necessary diligence of each case.

Guardian name and details will be deleted on change of Tax status from Minor to Major. The standing instruction including SIP, STP and SWP will be registered only till the date of minor attaining majority, though the instructions may be for a period beyond that date.

- In case of an application under Power of Attorney (PoA) or by a Limited Company, Body Corporate, Registered Society, Trust or Partnership etc., the relevant Power of Attorney or the relevant resolution or authority to make the application as the case may be, or duly certified copy thereof, along with the Memorandum and Articles of Association / bye-laws must be lodged along with the application form.

Power of Attorney (POA): In case an investor has issued Power of Attorney (POA) for making investments, switches, redemptions etc., under his/her folio, both the signature of the investor and the POA holder have to be clearly captured in the POA document, to be accepted as a valid document. At the time of making redemption /

switches the fund would not be in a position to process the transaction unless, PoA holder's signature is available in the PoA or proof of identity along with signature is produced along with the PoA.

- PAN is mandatory:** As per SEBI Circular MRD/Dop/Cir/-05/2007 dated April 27, 2007 Permanent Account Number (PAN) has been made the sole identification number for all participants transacting in the securities market, irrespective of the amount of transaction, w.e.f. July 02, 2007. PAN is mandatory for all mutual fund investments w.e.f. 1st January, 2008. However, PAN is not required for investors who are exempted from PAN requirement, please refer to KYC Form for exemption of PAN requirement.
- Exemption from requirement of Permanent Account Number (PAN) for micro investments in the schemes of the Fund:** Investment in mutual fund schemes [including investments through Systematic Investment Plan (SIP)] upto Rs. 50,000/- per investor per year per mutual Fund, shall be exempted from the requirement of PAN.
 - The exemption shall be available under all the schemes of the Fund for investments upto Rs. 50,000/- (aggregate under all the schemes of the Fund) in a rolling 12 month period or financial year i.e. April to March by individuals (including NRIs but not PIOs), Minors, Sole proprietary firms and joint holders. HUFs and other categories will not be eligible.
 - In case the first Micro SIP installment is processed (as the cheque may be banked), and the application is found to be defective, the Micro SIP registration will be ceased for future installments. No refunds to be made for the units already allotted. Investor will be sent a communication to this effect, however, redemptions shall be allowed.
 - In case of investments held jointly, first holder must not possess a PAN.
 - Eligible Investors may invest in the schemes of the Fund (through SIP or lumpsum/ additional purchase) without providing PAN subject to the threshold amount as specified above.
 - Eligible Investors should attach a copy of Know Your Client (KYC) acknowledgement letter quoting PAN Exempt KYC reference no. (PEKRN) obtained from KYC Registration Agency alongwith the investment application form.
 - Eligible Investors must have only one PEKRN.
 - Incase KYC status is failed for a particular PEKRN further SIP transaction/ investments will not be allowed in such folios having such PEKRN.
- Applicants should indicate their status by ticking the appropriate check-box. Applications without a tick in the 'Status' box will be considered as investment by "Others". Those who select the status as "Others", they should specify their status in the space provided.
- Applicants should specify the mode of holding. In case it is not mentioned, the default will be "anyone or survivor". In the case of joint holders, the first named holder shall receive all the Account Statements, redemptions / refund warrants and any other correspondence sent from time to time.
- Name of a contact person should be mentioned in case of the investment by a Company/Body Corporate/Partnership Firm/Trust/Foreign Institutional Investors (FIIs)/Society/AOP/BOI.
- In case of fresh/additional purchases, if the name of the Scheme on the application form/transaction slip differs with the name on the Cheque/ , then the AMC will allot units under the Scheme mentioned on the payment instrument. In case of fresh/ additional purchases, if the Scheme name is not mentioned on the application form/ transaction slip, then the units will be allotted under the Scheme mentioned on the Cheque . The Plan/Option that will be considered in such cases if not specified by the customer will be the default option of the Scheme as per the Scheme Information Document. However, in case additional purchase is under the same scheme as fresh purchase, then the AMC reserves the right to allot units in the option under which units were allotted at the time of fresh purchase.

III. DEMAT/NON-DEMAT MODE:

Investors have an option to hold the Units in dematerialized form. By providing DP details, Units shall be directly credited to the investor's demat account after the realization of funds and depositories will issue a statement. Applicants must ensure that the sequence of names as mentioned in the application form matches with that of the account held with the Depository Participant.

If the details mentioned in the application are incomplete/incorrect or not matched with the Depository data, the application shall be treated as invalid and the units would be allotted in Non- Demat mode. The application form should mandatorily accompany the latest Client investor master/ Demat account statement. Demat option will not be available for Daily/Weekly/Fortnightly options. Investors desiring to get allotment of units in demat mode must have a beneficiary account with a Depository Participant (DP) of the Depositories i.e. National Securities Depositories Limited (NSDL) / Central Depository Services Limited (CDSL).

Allotment letters would be sent to investors who are allotted units in Demat mode and a Statement of Accounts would be sent to investors who are allotted units in Non-Demat mode. Investors are requested to note that Units held in dematerialized form are freely transferable except units held in Equity Linked Savings Scheme's (ELSS) during the lock-in period.

The units will be allotted based on the applicable NAV as per the Scheme Information Document (SID). The investors shall note that for holding the units in demat form, the provisions laid in the SID of respective Scheme and guidelines/procedural requirements as laid by the Depositories (NSDL/ CDSL) shall be applicable. In case the unit holder wishes to convert the units held in non-demat mode to demat mode or vice versa at a later date, such request along with the necessary form should be submitted to their Depository Participant(s). Units held in demat form will be freely transferable, subject to the applicable regulations and the guidelines as may be amended from time to time.

IV. NOMINATION

- Investors need to mandatorily submit either the nomination or the declaration for opting out of nomination for individuals applying for / holding units on their own behalf singly or jointly else the application is liable to be rejected.
- You may nominate persons to receive the Units/amounts standing to your credit payable in the event of death of the Unit Holder(s) in respect of investment under a folio. In case Unit holder do not wish to nominate, please tick the declaration for non-intention to nominate in this form or submit the signed Declaration form separately available in our

INSTRUCTIONS TO INVESTORS (Contd.)

website www.icicipruamc.com

- c. Non-individuals including society, trust, body corporate, partnership firm, Karta of Hindu Undivided Family, holder of Power of Attorney cannot nominate. All joint holders need to sign the nomination form. Nomination is not allowed in case the first applicant is a minor. Nomination form cannot be signed by Power of Attorney (PoA) holders.
- d. Nomination will be registered where nomination is made by a sole proprietorship as the proprietor is providing his/ her personal pan card for KYC and all the details are of the individual itself.
- e. All payments and settlements made to such nominee and signature of the Nominee acknowledging receipt thereof, shall be a valid discharge by the AMC / Mutual Fund / Trustees.
- f. A minor can be nominated and in that event, the name, relationship and address of the guardian of the minor nominee shall be provided by the unit holder. Guardian of the minor should either be a natural guardian (i.e. father or mother) or a court appointed legal guardian. Nomination can also be in favour of the Central Government, State Government, a local authority, any person designated by virtue of his office or a religious or charitable trust.
- g. The Nominee shall not be a trust (other than a religious or charitable trust), society, body corporate, partnership firm, Karta of Hindu Undivided Family or a Power of Attorney holder. A non-resident Indian can be a Nominee subject to the exchange controls in force, from time to time.
- h. Nomination in respect of the units stands withdrawn upon the transfer of units.
- i. Every new nomination for a folio/account will overwrite the existing nomination.
- j. Transfer of units in favour of a Nominee shall be valid discharge by the Asset Management Company (AMC) against the legal heir.
- k. The cancellation of nomination can be made only by those individuals who hold units on their own behalf, singly or jointly and who made the original nomination and the request has to be signed by all the holders.
- l. On cancellation of the nomination, the nomination shall stand withdrawn and the AMC shall not be under any obligation to transfer the units in favour of the Nominee.
- m. Investors who want to make multiple nominations (Maximum 3) need to fill the separate Multiple Nomination Form available on www.icicipruamc.com and submit it to the AMC.
- n. Nomination can be made for maximum number of three nominees. In case of multiple nominees, the percentage of allocation/share in whole numbers and without decimals in favour of each of the nominees should be indicated against the name of the nominees. Such allocation/ share should total to 100 percent. In the event of the Unit holder(s) fail to indicate the percentage of allocation/share for each of the nominees, the Fund/ AMC, by invoking default option shall settle the claim equally amongst all the nominees. Any odd lot after division shall be assigned / transferred to the first nominee mentioned in the form
- o. In case of multiple nominees, on the death of one or more nominee, the transmission of units shall be made in favour of the surviving nominee(s) on pro rata basis upon demise of the investor.
- p. In case the investor specifies multiple nominees, then he / she shall also specify the percentage share for each nominee. In absence of such specification, the regulated entity shall apportionment the assets equally among all the nominees. In case of demise of the investor and any one of the nominees, the regulated entities shall distribute the assets pro rata to the remaining nominees.

V. BANK DETAILS

The first Unit-holder should provide the name of the bank, branch, complete address of the branch, account type and account number, which is mandatory as per Securities Exchange Board of India circular I/AMRP/MF/CIR/07/826/98 dated April 15, 1998. Applications without this information will be deemed to be incomplete. An investor at the time of purchase of units must provide the details of the pay-out bank account (i.e. account into which redemption proceeds are to be paid) in Section 3 in the Application Form. Please quote 9 Digit MICR Code No. and 11 Digit IFSC code of your Bank and Branch corresponding to Bank Account details. (This number appears on every leaf of your cheque book). The AMC reserves the right to make redemption payments through ECS/NFT/RTGS where details are available.

Investors/Unit Holders are requested to note that, any one of the following documents shall be submitted, if cheque provided along with fresh subscription/new folio creation does not belong to bank mandate in Section 3 in the Application Form.

1. Original cancelled cheque having the First Holder Name printed on the cheque.
 2. Original bank statement reflecting the First Holder Name, Bank Account Number and Bank Name as specified in the application.
 3. Photocopy of the bank statement duly attested by the bank manager with designation, employee number and bank seal.
 4. Photocopy of the bank pass book duly attested by the bank manager with designation, employee number and bank seal.
 5. Photocopy of the bank statement/passbook/cheque duly attested by the AMC branch officials after verification of original bank statement/passbook shown by the investor or their representative.
 6. Confirmation by the bank manager with seal, designation and employee number on the bank's letter head confirming the investor details and bank mandate information. Please note for unit holder opting to invest in demat, please ensure that the bank account linked with the demat account is mentioned in the application form.
- Maturity payment would be made as per the bank account details available in BENPOS file.

Multiple Bank Account Registration: The AMC/ Mutual Fund provides a facility to the investors to register multiple bank accounts (currently upto 5 for Individuals and 10 for Non – Individuals) for receiving redemption proceeds etc. by providing necessary documents. Investors must specify any one account as the "Default Bank Account". The investor, may however, specify any other registered bank account for credit of redemption proceeds at the time of requesting for the redemption. Investors holding units in non-demat form are requested to avail the facility of registering multiple bank accounts by filling in the 'Multiple Bank Accounts Registration Form' available at our Investor Service Centres (ISCs) or on our website www.icicipruamc.com.

Change of Bank Mandate: With effect from October 25, 2011, the request for change of bank (COB) shall be submitted along with the original cancelled cheque of the new

bank with the investor name mentioned on the cheque or copy of the bank statement/ pass book duly attested by the new Bank, evidencing the name and bank account details of the investor.

VI. DIRECT CREDIT OF REDEMPTION:

ICICI Prudential AMC had entered into an arrangement with certain banks; such as ICICI Bank & HDFC Bank for direct credit of redemption proceeds, if the investors have a bank mandate in any of the specified banks. However, the AMC will not be responsible for any delay on the part of the bank for executing the direct credit. The Fund reserves the right to issue a payment instrument in place of this electronic payment facility. The AMC may alter the list of the banks participating in direct credit arrangement from time to time

/ withdraw direct credit facility from the banks, based on its experience of dealing with any of these banks or add / withdraw the name of the bank with which the direct credit facility arrangements can be introduced/ discontinued, as the case may be.

VII. E-MAIL COMMUNICATION:

- a. Investors should ensure that the email id provided is that of First /Sole holder or of their Family member. Family means spouse, dependent children, Dependant Sibling or dependent parents. This email address and mobile no. provided shall be registered in the folio for all communications. In case, this section is left blank, the email id and mobile no. of the First / Sole Holder available in the KYC records shall be registered in the folio. If the AMC / RTA finds that the email address / mobile number provided may not be of the actual investor or the same appears incorrect / doubtful, the AMC / RTA may not capture / update such email address / mobile number in the folio.
- b. The AMC shall email the annual report or an abridged summary thereof to the unitholders whose email addresses are registered with the Fund. The unitholders whose e-mail addresses are not registered with the Fund are requested to update / provide their email address to the Fund for updating the database. Physical copy of scheme wise annual report or abridged summary shall be provided to investors who have opted to receive the same.
- c. Delivering service through the internet & web-based services such as e-mail is a more efficient delivery channel. When an investor has provided an email address in his DP account, the same will be registered in our records for eDocs and will be treated as your consent to receive, Allotment confirmations, consolidated account statement/account statement, annual report/abridged summary and any statutory / other information as permitted via electronic mode/email. These documents shall be sent physically in case the Unit holder opts/requests for the same. It is deemed that the Unit holder is aware of all the security risks associated with online communication, including the possibility of third party interception of the documents sent via email. The Mutual Fund / Registrars are not responsible for email not reaching the investor and for all consequences thereof. The Investor shall from time to time intimate the Mutual Fund / its transfer agents about any changes in the email address. In case of a large document, a suitable link would be provided and investor can download, save and print these documents. However, the investor always has a right to demand a physical copy of any or all the service deliverables, and the Fund would arrange to send the same to the investor.

The AMC / Trustee reserve the right to send any communication in physical mode.

VIII. KNOW YOUR CUSTOMER (KYC) NORMS:

KYC (Know Your Customer) are mandatory for ALL investors for making investments in Mutual Funds, irrespective of the amount of investment. Further, to bring uniformity in KYC process, SEBI has introduced a common KYC application form for all the SEBI registered intermediaries. With effect from 1st January 2012, all the new investors are therefore requested to use the Common KYC application form to apply for KYC and mandatorily undergo In Person Verification (IPV) requirements with SEBI registered intermediaries. Individual client who has registered under Central KYC Records Registry (CKYCR) has to fill the 14 digit KYC Identification Number (KIN) in application form. For Common KYC Application Form please visit our website www.icicipruamc.com.

IX. TRANSACTION CHARGES:

With effect from March 1, 2024, no transaction charges to be levied on the investment amount from transactions/applications (including SIPs) received through distributors (i.e. for Regular Plans). Accordingly, payment of transaction charges to the distributors has been discontinued from March 1, 2024.

X. EMPLOYEE UNIQUE IDENTIFICATION NUMBER (EUIIN):

Investors procuring advisory services from non Individual distributors are requested to note that EUIIN would assist in tackling the problem of mis-selling even if the employee/ relationship manager/sales person leave the employment of the distributor.

Distributors are advised to ensure that the sub broker affixes his/her ARN code in the column separately provided in addition to the current practice of affixing the internal code issued by the main ARN holder and the EUIIN of the Sales Person (if any) in the EUIIN space.

Investors are requested to note that EUIIN is largely applicable to sales persons of non individual ARN holders (whether acting in the capacity of the main distributor or sub broker). Further, EUIIN will not be applicable for overseas distributors who comply with the requirements as per AMFI circular CIR/ ARN-14/12-13 dated July 13, 2012.

XI. Signatures :

The signature(s) should be in English or in any of the Indian languages specified in the eighth schedule of the constitution of India. Applications on behalf of minors should be signed by their Guardian. Thumb impressions must be attested by a Magistrate or a Notary Public or a Special Executive Magistrate under his/her official seal. Applications by minors should be signed by their guardians. In case of a Hindu Undivided Family (HUF), the Karta should sign on behalf of the HUF.

If the application form is signed by a Power of Attorney (PoA) holder, the form should be accompanied by a notarised photocopy of the PoA. Alternatively, the original PoA may be submitted, which will be returned after verification. If the PoA is not submitted with the application, the Application Form will be rejected. The PoA should contain the signature of the investor (POA Donor) and the POA holder.

In case of corporates or any non-individual investors, a list of authorised signatories should be submitted along with Application form or in case of any change in the

authorised signatory list, the AMC / Registrar must be notified within 7 days. In case of application under POA or by a Non-Individual (i.e. Company, trust, society, partnership firm etc.) the relevant POA or the resolution should specifically provide for/authorize the POA holder/authorized signatory to make application/ invest moneys on behalf of the investor.

Signature mismatch cases: While processing the redemption request in case the AMC/ Registrar come across a signature mismatch, then the AMC/ Registrar reserves the right to process the redemption only on the basis of supporting documents (like copy of passport, driving license etc.), confirming the identity of the investors.

Types of NFEs that are regarded as excluded NFE are:

a. Publicly traded company (listed company)

A company is publicly traded if its stock are regularly traded on one or more established securities markets (Established securities market means an exchange that is officially recognized and supervised by a governmental authority in which the securities market is located and that has a meaningful annual value of shares traded on the exchange)

b. Related entity of a publicly traded company

The NFE is a related entity of an entity of which is regularly traded on an established securities market;

c. Active NFE : (is any one of the following):	
Code	Sub-category
01	Less than 50 percent of the NFE's gross income for the preceding financial year is passive income and less than 50 percent of the assets held by the NFE during the preceding financial year are assets that produce or are held for the production of passive income;
02	The NFE is a Governmental Entity, an International Organization, a Central Bank, or an entity wholly owned by one or more of the foregoing;
03	Substantially all of the activities of the NFE consist of holding (in whole or in part) the outstanding stock of, or providing financing and services to, one or more subsidiaries that engage in trades or businesses other than the business of a Financial Institution, except that an entity shall not qualify for this status if the entity functions as an investment fund, such as a private equity fund, venture capital fund, leveraged buyout fund, or any investment vehicle whose purpose is to acquire or fund companies and then hold interests in those companies as capital assets for investment purposes;
04	The NFE is not yet operating a business and has no prior operating history, but is investing capital into assets with the intent to operate a business other than that of a Financial Institution, provided that the NFE shall not qualify for this exception after the date that is 24 months after the date of the initial organization of the NFE;
05	The NFE was not a Financial Institution in the past five years, and is in the process of liquidating its assets or is reorganizing with the intent to continue or recommence operations in a business other than that of a Financial Institution;
06	The NFE primarily engages in financing and hedging transactions with, or for, Related Entities that are not Financial Institutions, and does not provide financing or hedging services to any Entity that is not a Related Entity, provided that the group of any such Related Entities is primarily engaged in a business other than that of a Financial Institution;
07	Any NFE that fulfills all of the following requirements: - It is established and operated in India exclusively for religious, charitable, scientific, artistic, cultural, athletic, or educational purposes; or it is established and operated in India and it is a professional organization, business league, chamber of commerce, labor organization, agricultural or horticultural organization, civic league or an organization operated exclusively for the promotion of social welfare; - It is exempt from income tax in India; - It has no shareholders or members who have a proprietary or beneficial interest in its income or assets; The applicable laws of the NFE's country or territory of residence or the NFE's formation documents do not permit any income or assets of the NFE to be distributed to, or applied for the benefit of, a private person or non-charitable Entity other than pursuant to the conduct of the NFE's charitable activities, or as payment of reasonable compensation for services rendered, or as payment representing the fair market value of property which the NFE has purchased; and The applicable laws of the NFE's country or territory of residence or the NFE's formation documents require that, upon the NFE's liquidation or dissolution, all of its assets be distributed to a governmental entity or other non-profit organization, or escheat to the government of the NFE's country or territory of residence or any political subdivision thereof. Explanation.- For the purpose of this sub-clause, the following shall be treated as fulfilling the criteria provided in the said sub-clause, namely:- (I) an Investor Protection Fund referred to in clause (23EA); (II) a Credit Guarantee Fund Trust for Small Industries referred to in clause 23EB; and (III) an Investor Protection Fund referred to in clause (23EC), of section 10 of the Act;

3. Other definitions

- (i) **Related entity**
An entity is a 'related entity' of another entity if either entity controls the other entity, or the two entities are under common control. For this purpose, control includes direct or indirect ownership of more than 50% of the votes and value in an entity.
- (ii) **Passive NFE**
The term passive NFE means
- any non-financial entity which is not an active non-financial entity including a publicly traded corporation or related entity of a publicly traded company; or
 - an investment entity defined in clause (b) of these instructions
 - a withholding foreign partnership or withholding foreign trust;
- (Note: Foreign persons having controlling interest in a passive NFE are liable to be reported for tax information compliance purposes)
- (iii) **Passive income**
The term passive income includes income by way of :
- Dividends,
 - Interest
 - Income equivalent to interest,
 - Rents and royalties, other than rents and royalties derived in the active conduct of a business conducted, at least in part, by employees of the NFE
 - Annuities
 - The excess of gains over losses from the sale or exchange of financial assets that gives rise to passive income
 - The excess of gains over losses from transactions (including futures, forwards, options and similar transactions) in any financial assets,
 - The excess of foreign currency gains over foreign currency losses

(9) Net income from swaps

(10) Amounts received under cash value insurance contracts

But passive income will not include, in case of a non-financial entity that regularly acts as a dealer in financial assets, any income from any transaction entered into in the ordinary course of such dealer's business as such a dealer.

(iv) Controlling persons

Controlling persons are natural persons who exercise control over an entity and includes a beneficial owner under sub-rule (3) of rule 9 of the Prevention of Money-Laundering (Maintenance of Records) Rules, 2005. In the case of a trust, the controlling person means the settlor, the trustees, the protector (if any), the beneficiaries or class of beneficiaries, and any other natural person exercising ultimate effective control over the trust. In the case of a legal arrangement other than a trust, controlling person means persons in equivalent or similar positions.

Pursuant to guidelines on identification of Beneficial Ownership issued by SEBI, persons (other than Individuals) are required to provide details of Beneficial Owner(s) ('BO'). Accordingly, the Beneficial Owner means 'Natural Person', who, whether acting alone or together, or through one or more juridical person, exercises control through ownership or who ultimately has a controlling ownership interest of / entitlements to:

- i. More than 10% of shares or capital or profits of the juridical person, where the juridical person is a company;
- ii. More than 10% of the capital or profits of the juridical person, where the juridical person is a partnership; or
- iii. More than 15% of the property or capital or profits of the juridical person, where the juridical person is an unincorporated association or body of individuals.

Where the client is a trust, the financial institutions shall identify the beneficial owners of the client and take reasonable measures to verify the identity of such persons, through the identity of the settlor of the trust, the trustee, the protector, the beneficiaries with 10% or more interest in the trust and any other natural person exercising ultimate effective control over the trust through a chain of control or ownership.

Where no natural person is identified the identity of the relevant natural person who holds the position of senior managing official.
